

Jet Noise Reports, May 2014 - April 2016

Data gathered from reports filed on the San Juan County Jet Aircraft Noise Reporting website

<http://sjcgis.org/aircraft-noise-reporting/>

Loudness Reports

Reports of Noise by Hour of the Day

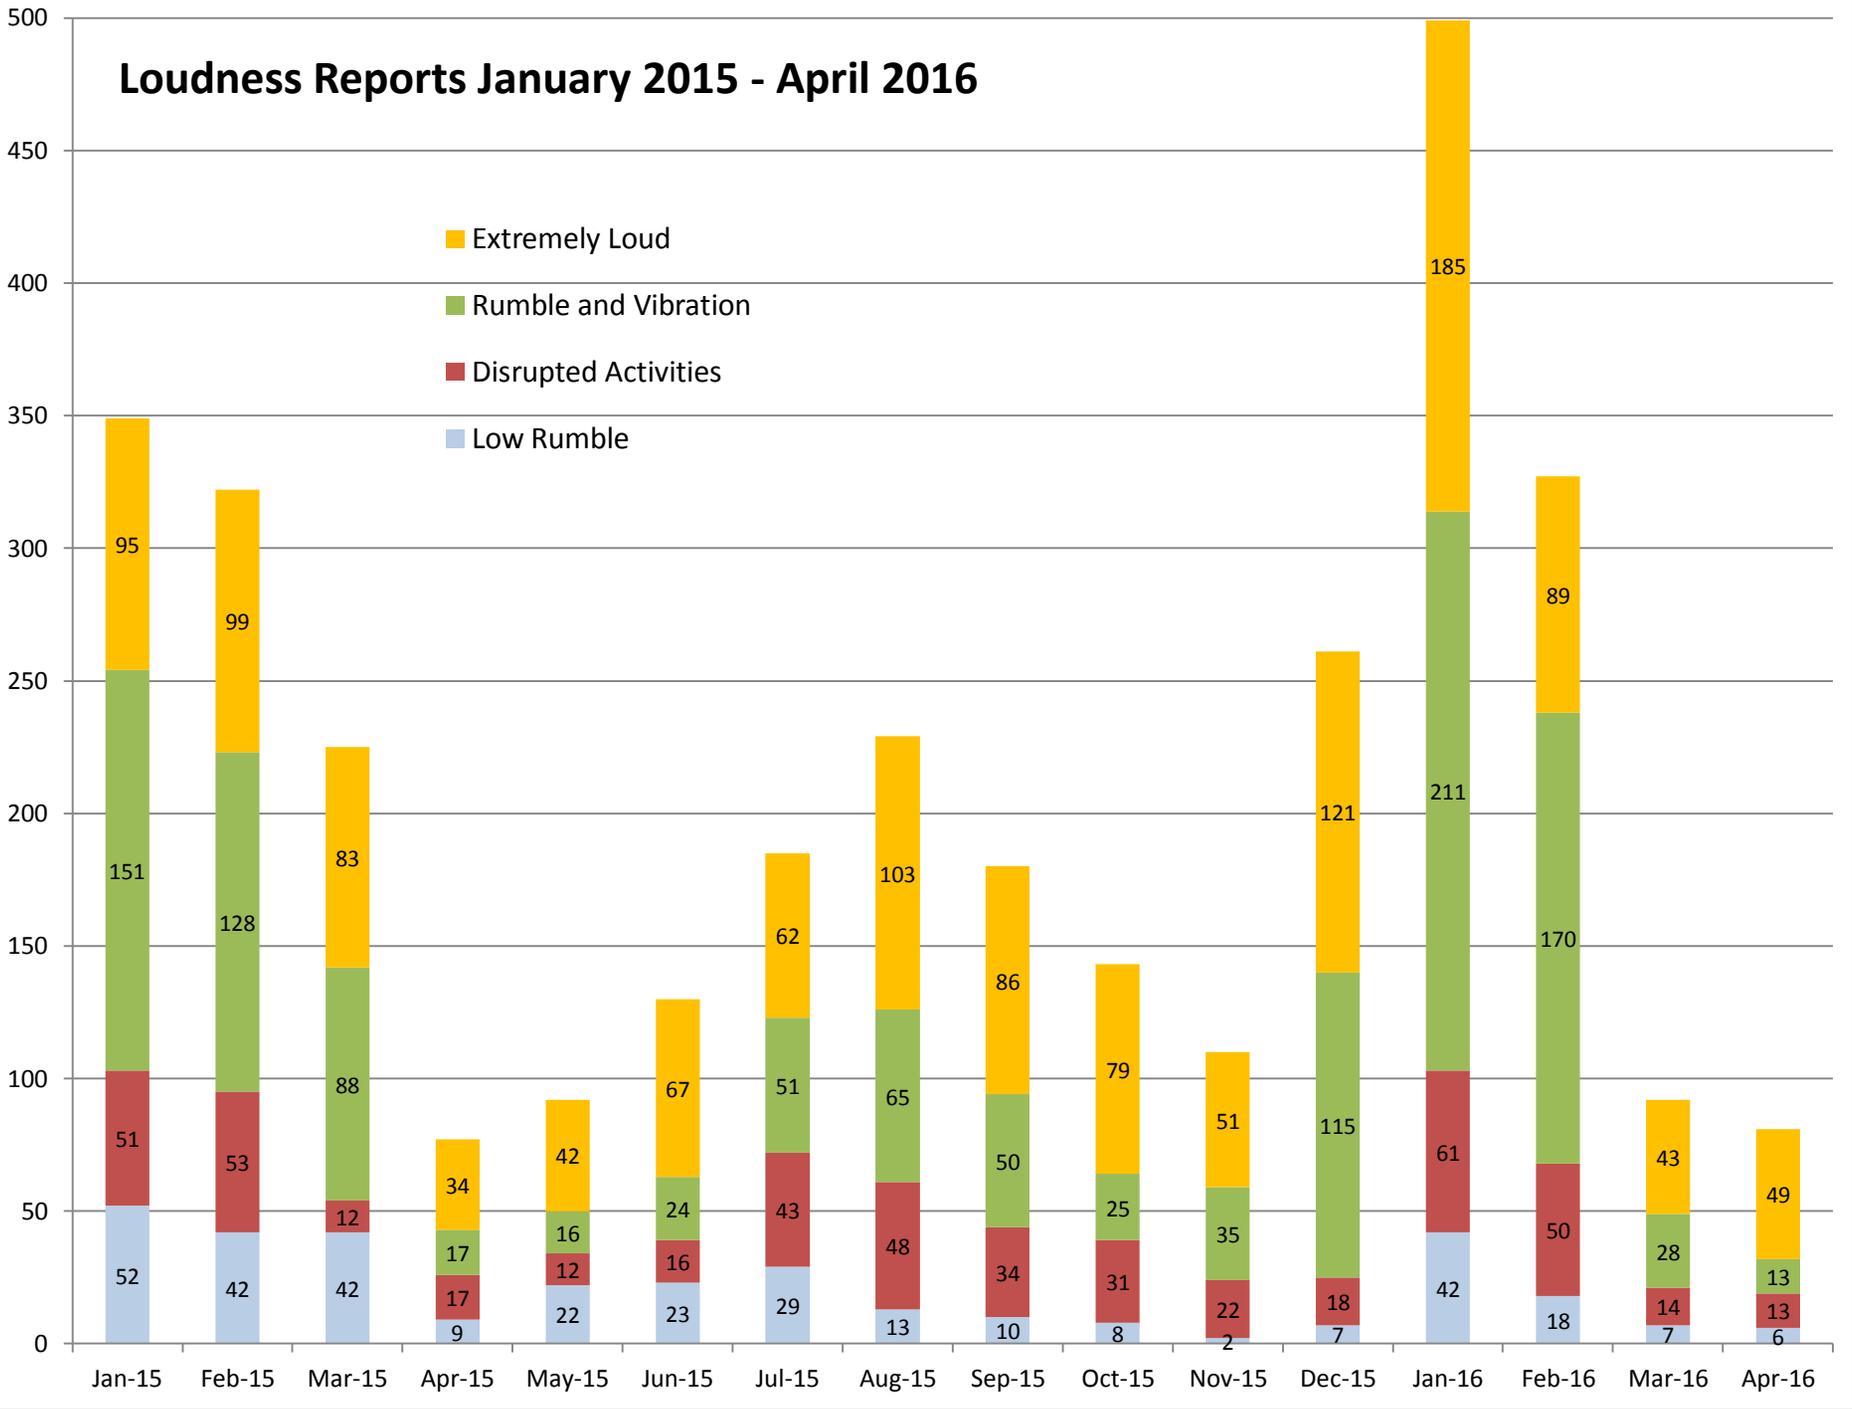

Reports by Month

Annual Report Totals to Date

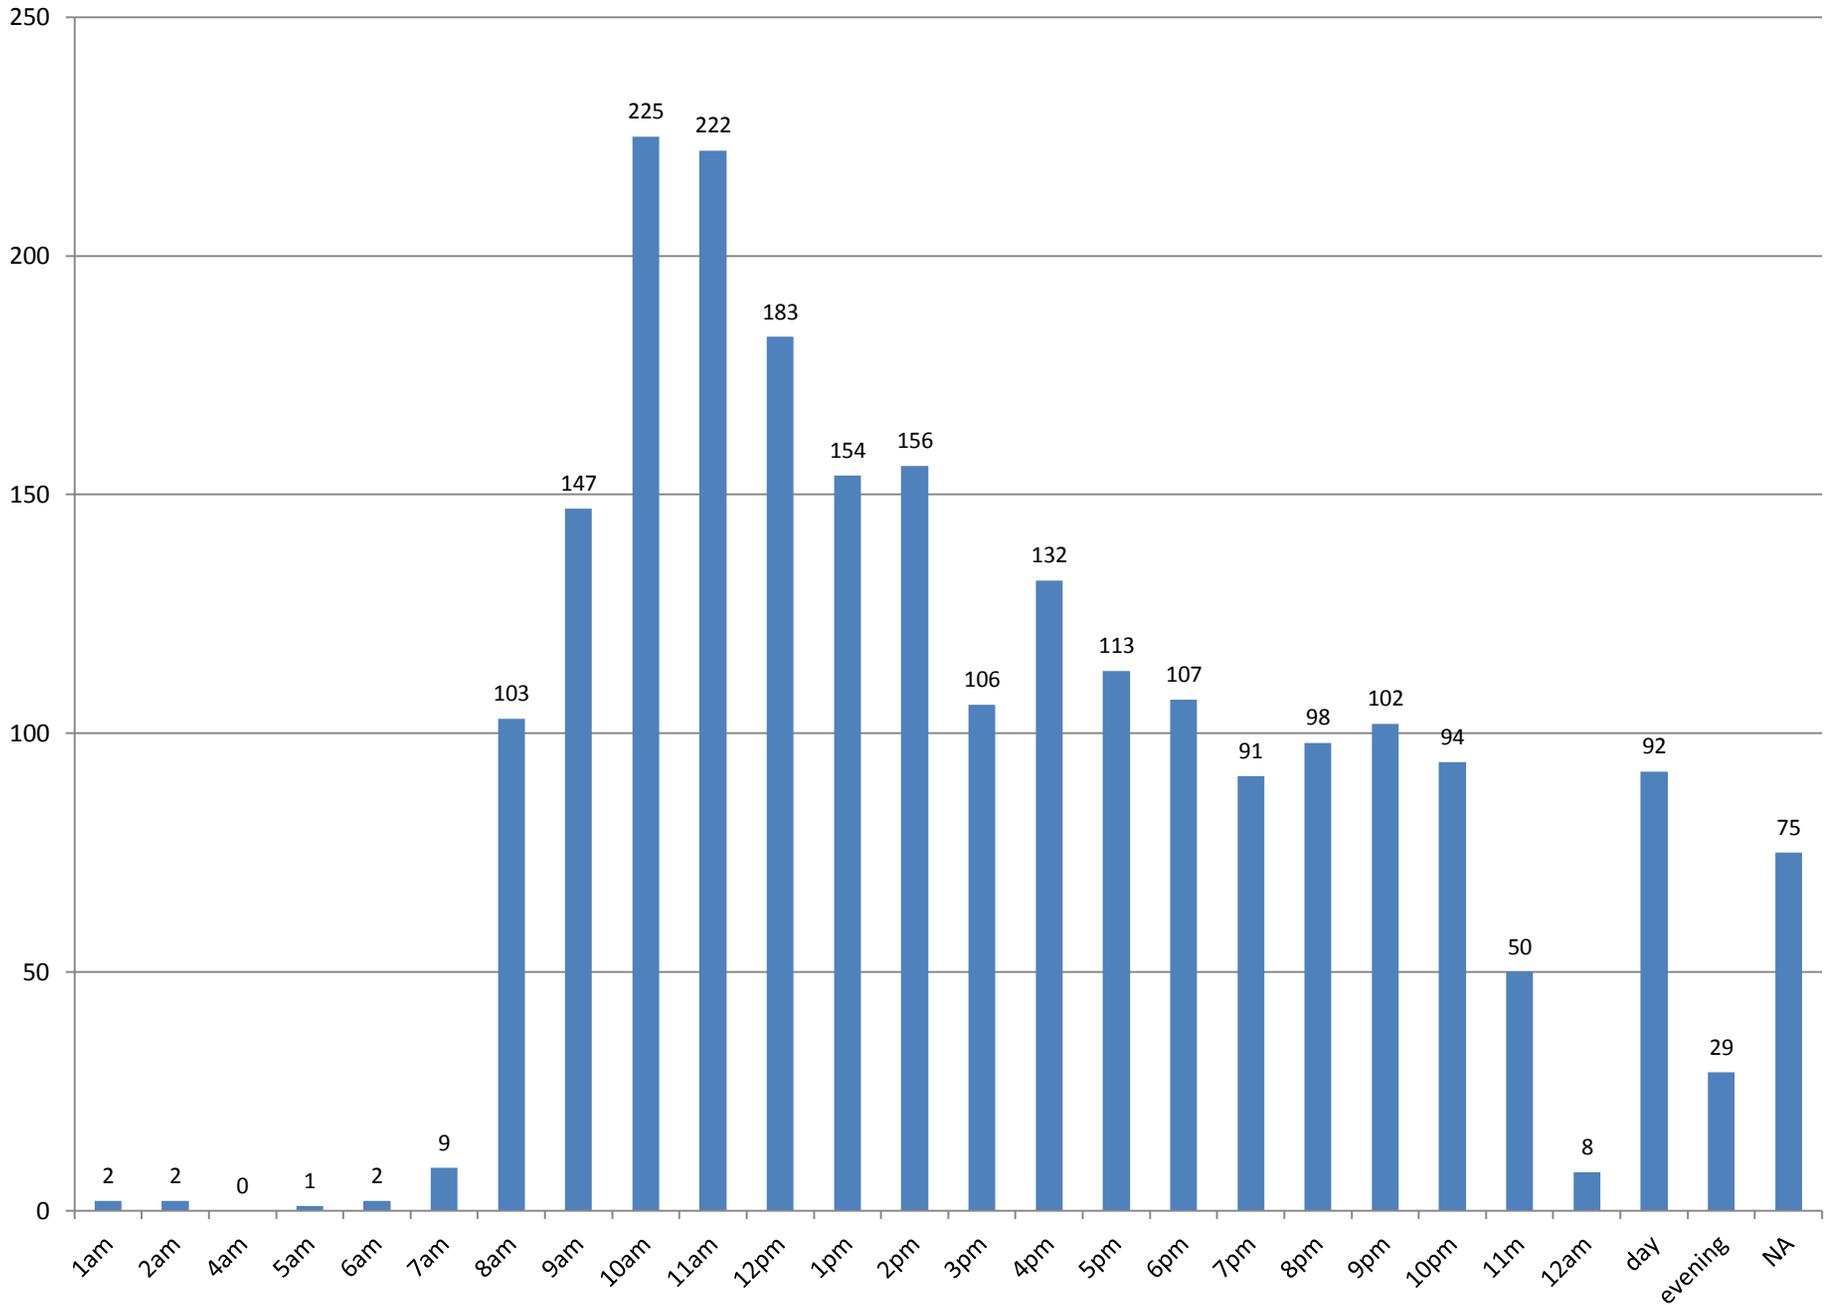

Reporting began on May 15, 2014. Users of the website enter type of loudness, date, time, comments, aircraft type, and contact information. Due to the variety of devices used to submit data (e.g. desktop, laptop, I-pad, smartphone), data can be recorded differently. Efforts have been made to standardize data. Errors in totals are estimated to be less than half a percent.

Loudness Reports January 2015 - April 2016

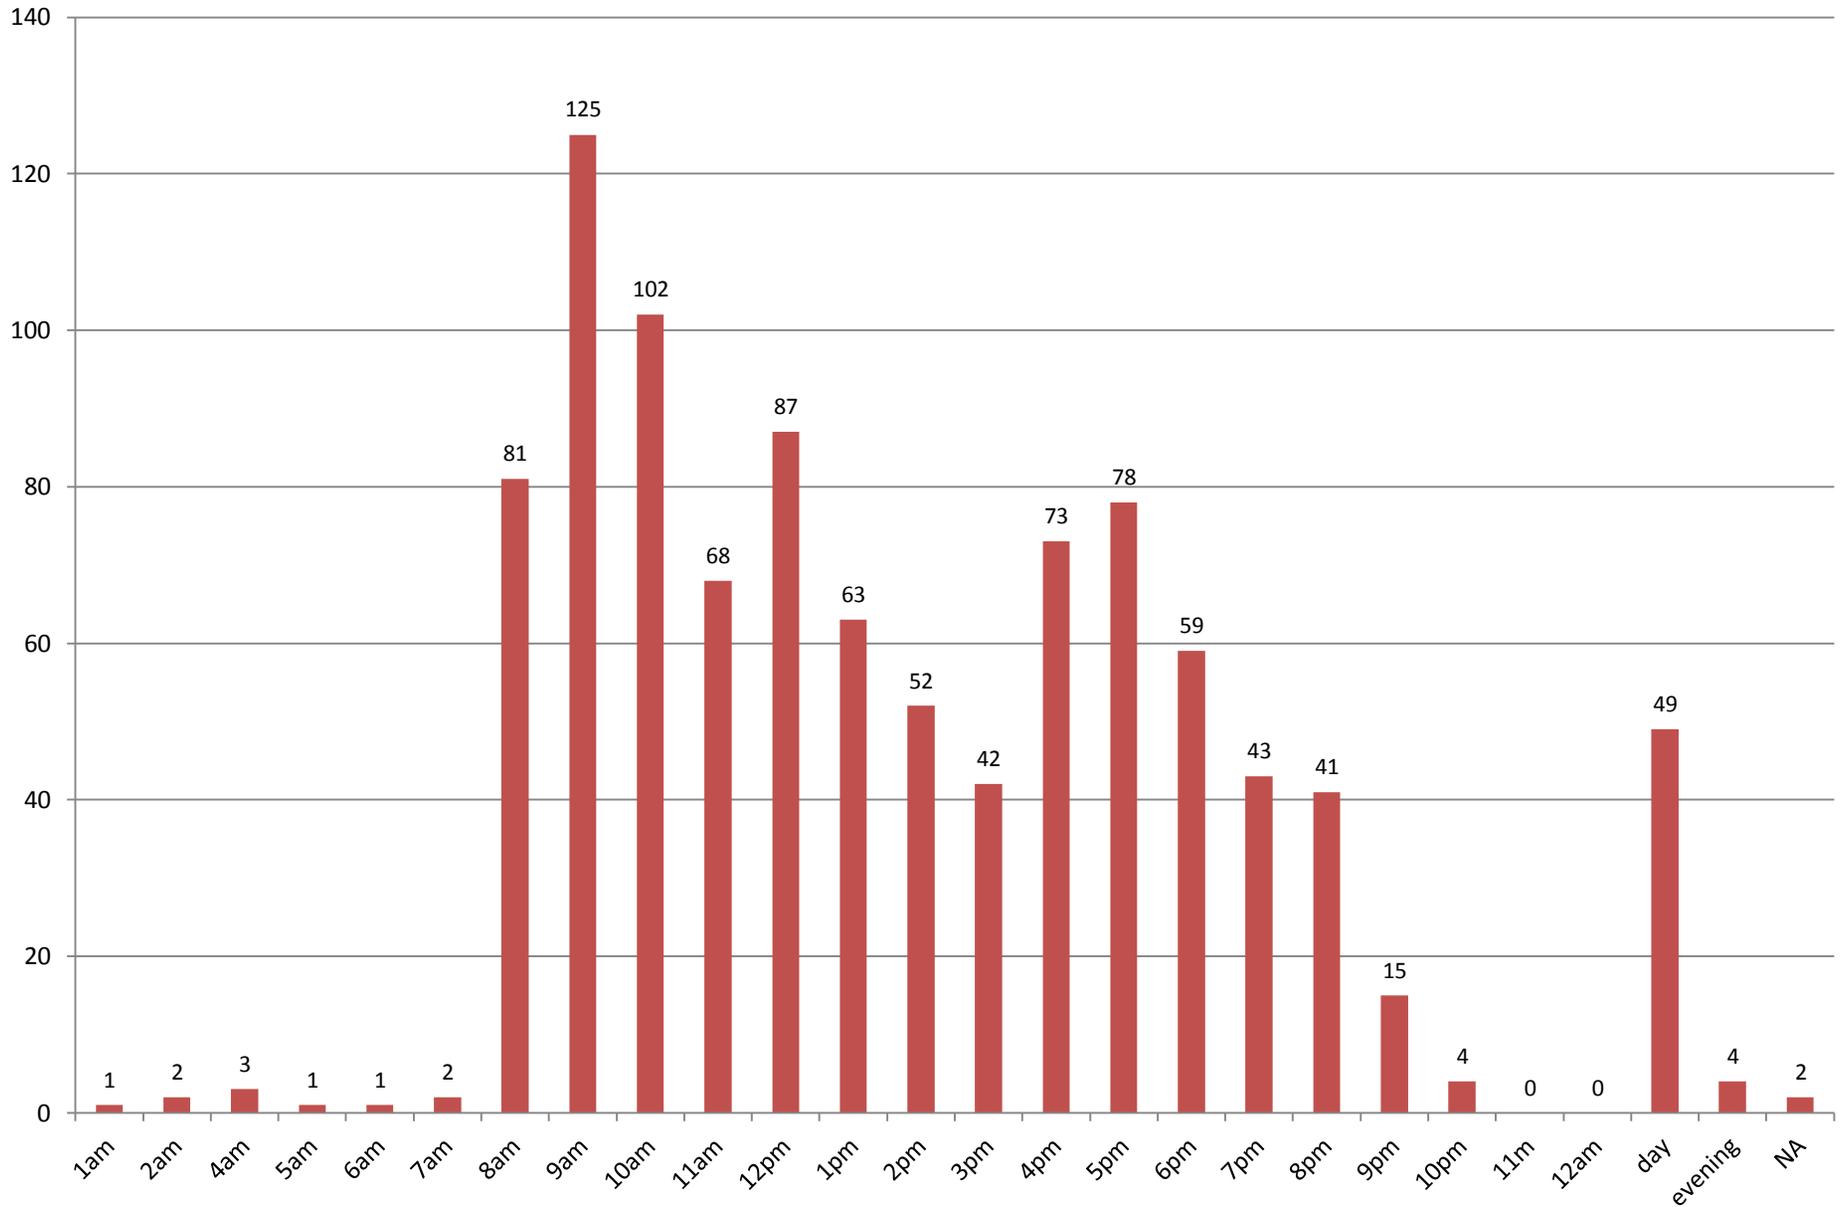

- Extremely Loud
- Rumble and Vibration
- Disrupted Activities
- Low Rumble

Noise Reports by Hour of the Day, January - December 2015. N=2303

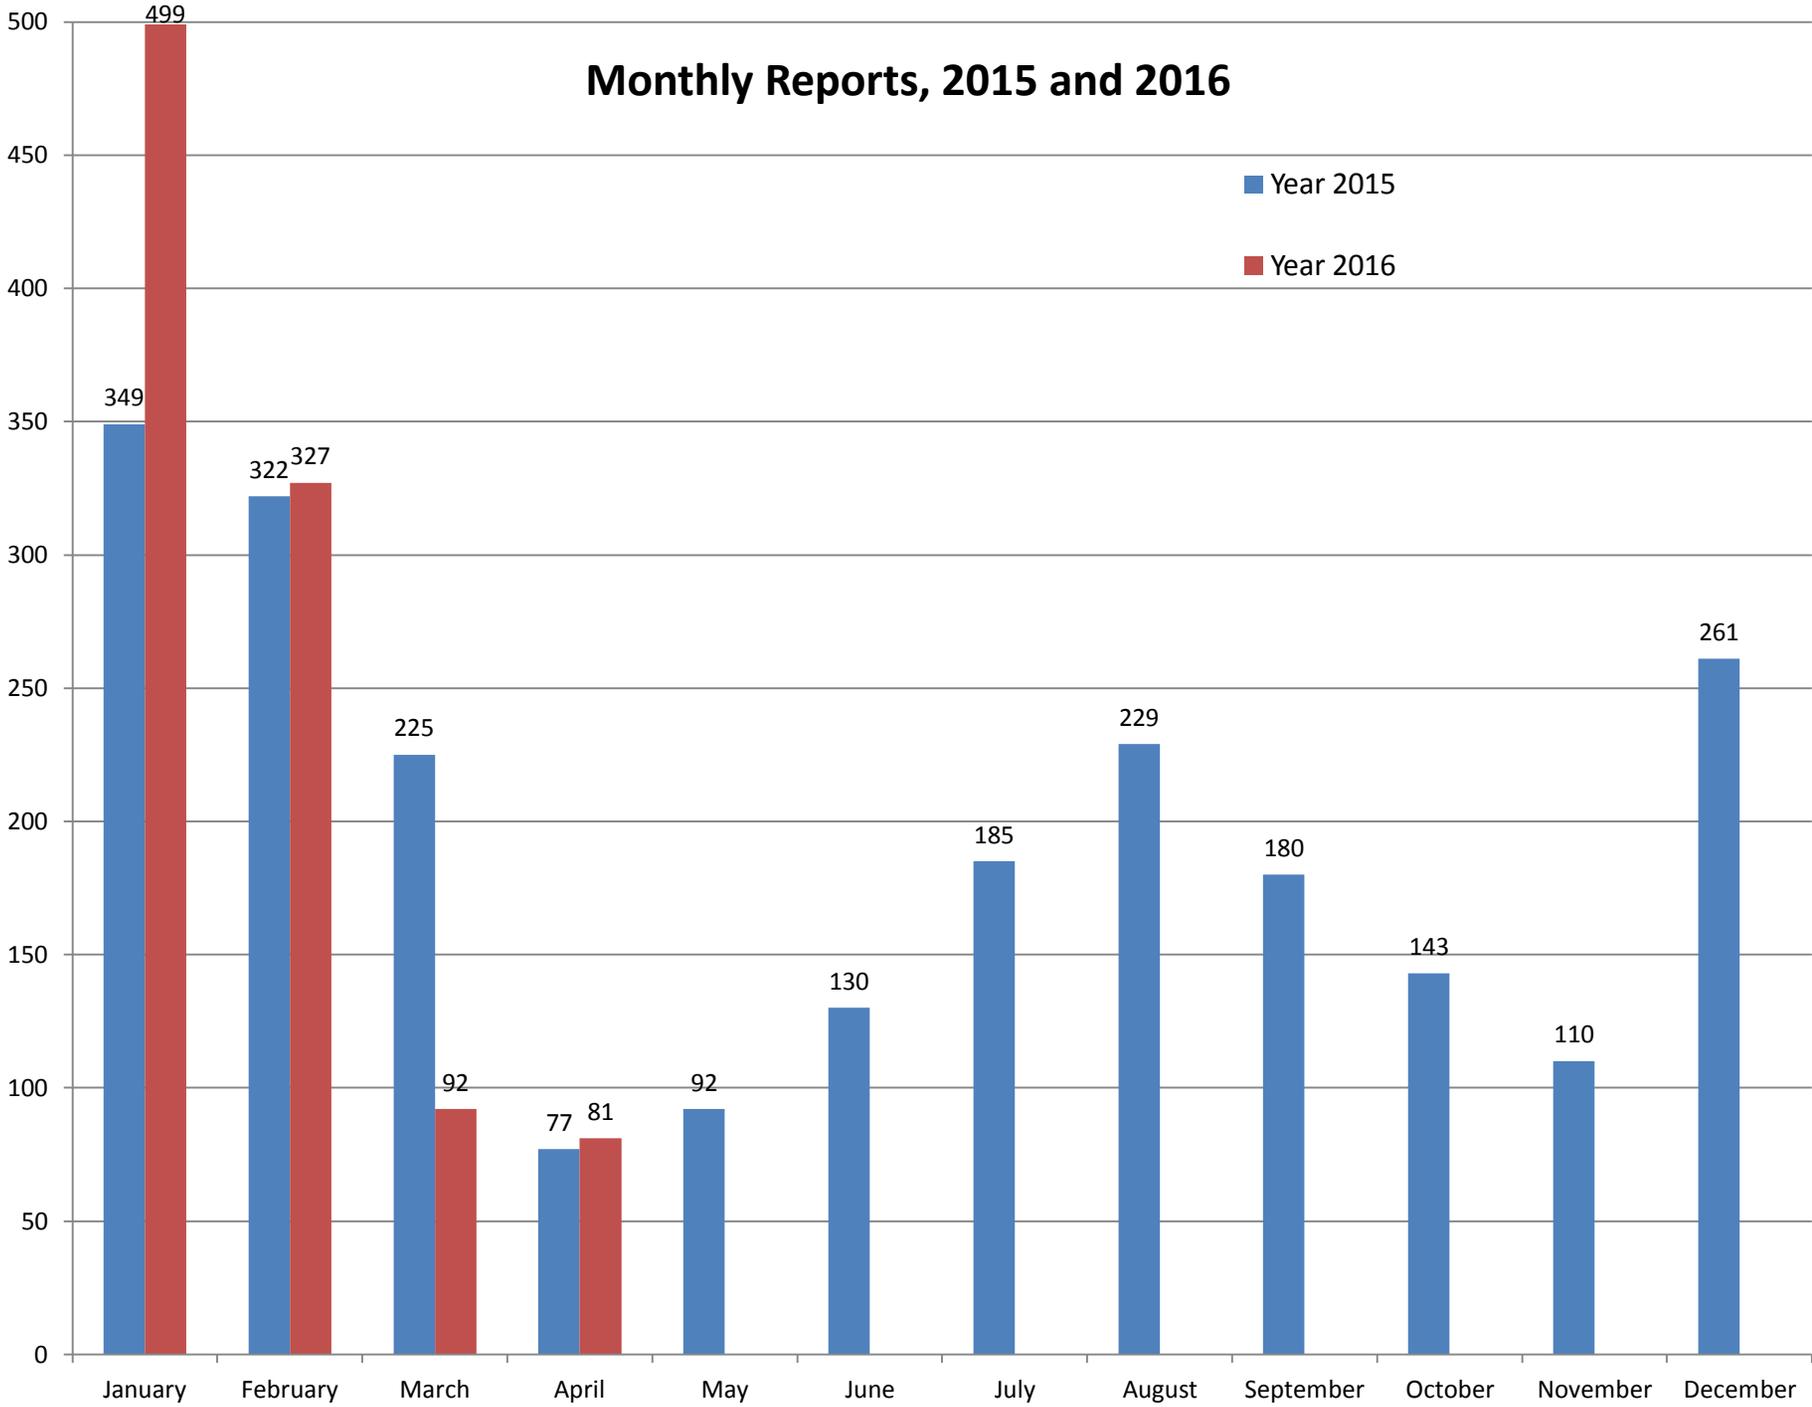

Noise Reports by Hour of the Day, January - April, 2016. N=999

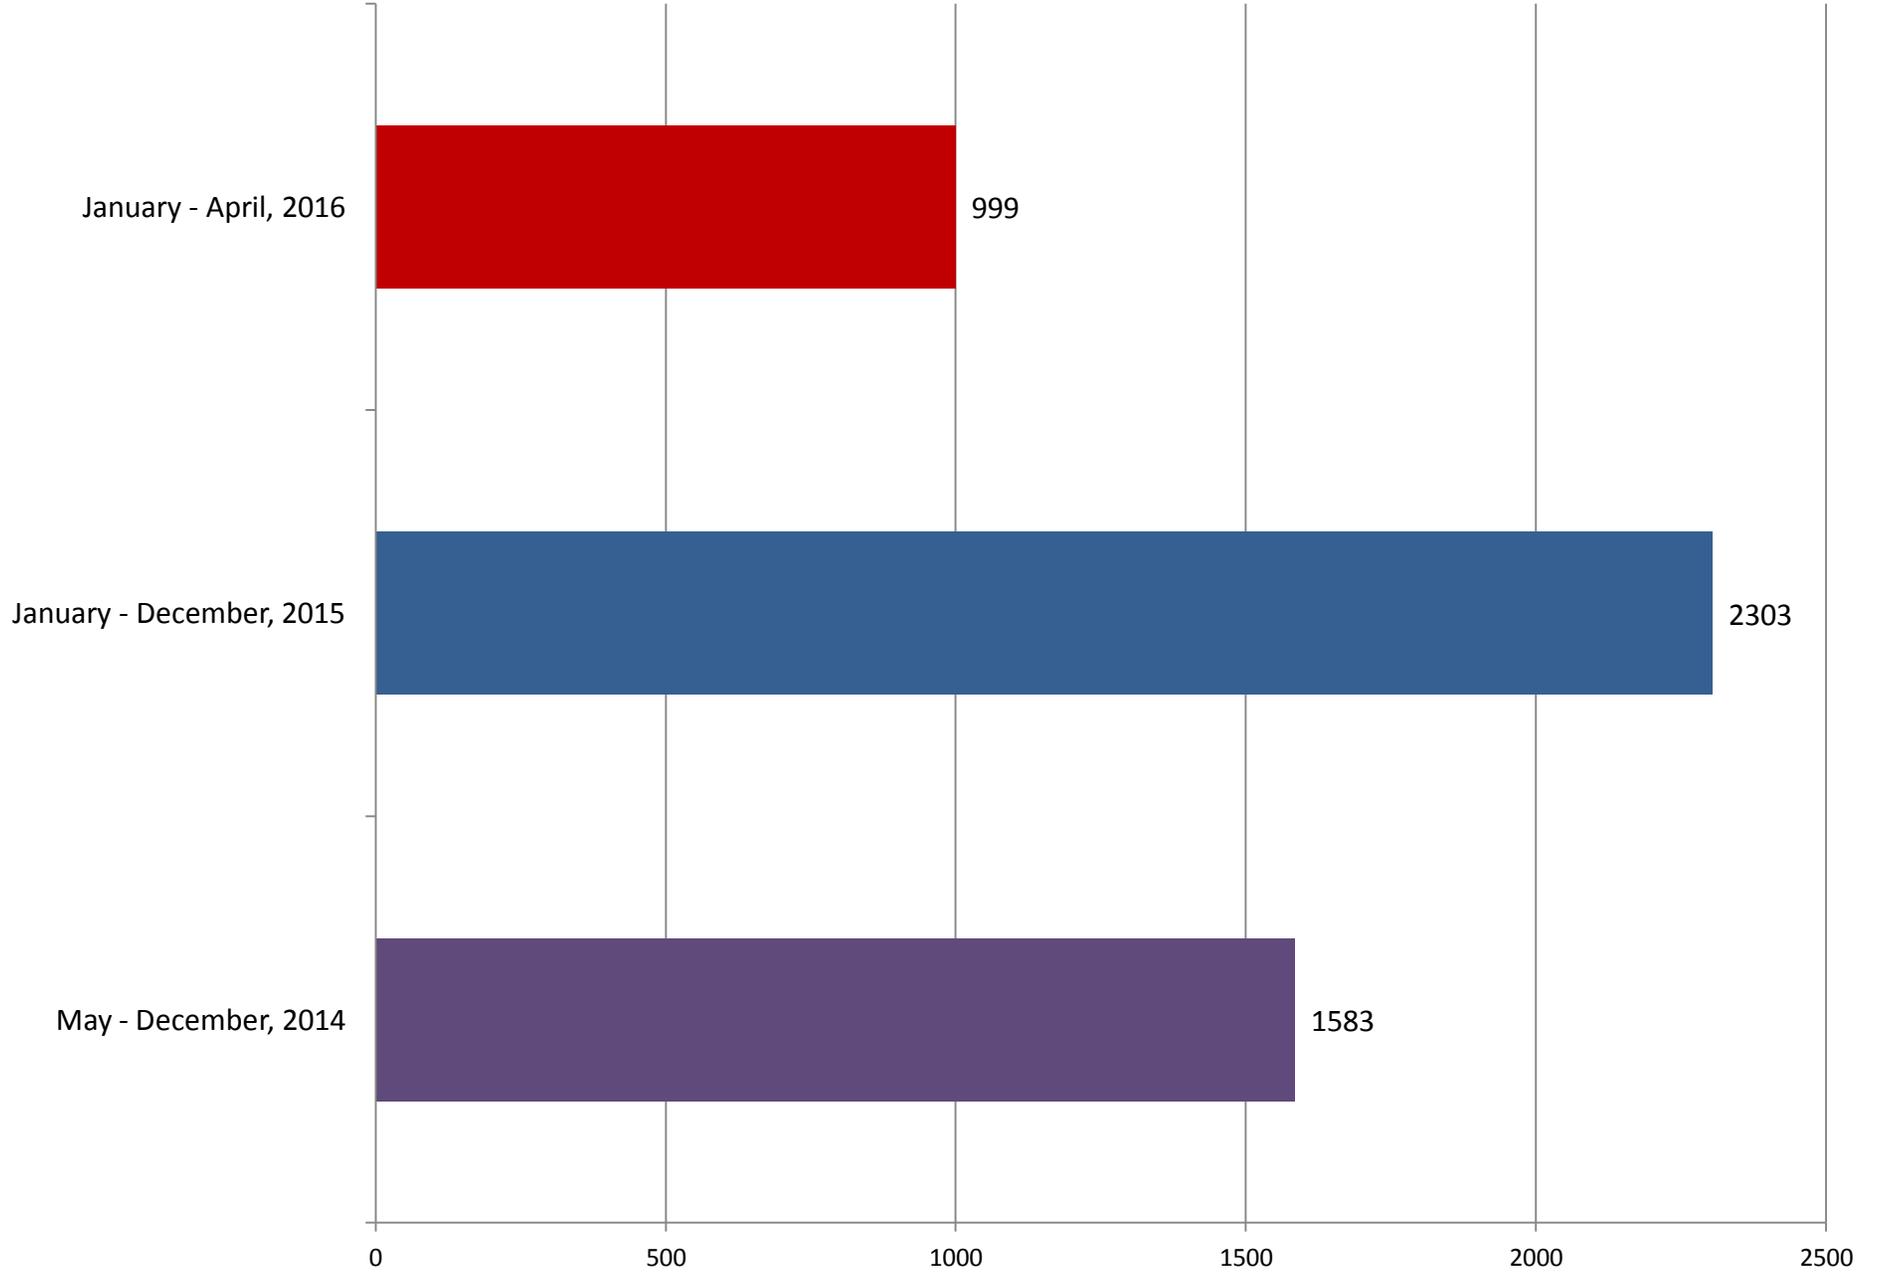

Monthly Reports, 2015 and 2016

Noise Reports: Totals to Date

Unedited Comments

January - April 30, 2016

Sooo much noise lately! This is bad! This one this morning is endless and scary.

roaring so loud

Aircraft sounds like it is overhead, more than one or returning. Can hear and feel vibration over the vacuum cleaner going!

The holidays are ov er - they're back.....

"Growlers overhead on easterly track.

Recording session scrubbed due to noise."

shaking my house

Could not see aircraft, just felt low disturbing rumble and vibration that made us feel anxiety.

Windows rattling. Sound like takeoff or static runup at NAS Whidbey.

loud enough so you can't talk

Low-flying Growler over my house - very loud and disruptive. All day there have Growlers flying just south of my house but didn't notice landing gear down and they were moving pretty fast, which is less noisy and disruptive.

again no talking too loud

we were entertaining guests and could not have a conversation - many repeated flights

ALL INSIDE MEASUREMENTS: 5pm 61,3dBA, 5:20pm overflight 75.8dBA, 5:22pm overflight 59..dBA, 6:05pm - 6:08 49.9-54.9 dBA (deep rumble), 6:08-7:24pm steady roar, 7:24pm overflight 70.8dBA, 8:15pm final blast. WE NEED A SCHEDULE OF TRAINING OPERATIONS

Yesterday was bad, today is intolerable

Out on a walk at Spencer, had to cover ears while the jet flew over. Then it was joined up by another one. We cut our walk short.

after deciding to cut our walk short and go back to the car, the smell of jet exhaust wafted down, causing us to put our scarves over our faces.

Windows rattled. Conversation difficult.

I hear a roar and FEEL the vibration - 3 in a row as I type - much more powerful than usual. Yesterday we had jets flying over all day until late evening! Are we being targeted?

On deck watching and listening to the birds. Disruptive noise. Why did I move to the San Juans?

Low rumble and shaking that woke us up and produced high anxiety.

The pounding of the planes lasted from 8 am till 8 pm. I live in the center of the island and it sounded like planes were passing right over my house. Not nice.

Growler jet flying at extremely low altitude heading in towards NAS Whidbey. Windows rattling, ear pain!

Yesterday there were numerous, loud flyovers and today the rumbling started at dawn.

After 45 minutes of constant noise I abandoned my absurd notion that I might sleep late and got up.

Appalling rumbling and vibration. WHERE IS OUR HUSH HOUSE?

Heard short rumble inside office

Been going on all morning - now 11:30am. Rattles my windows. Loud enough to hear over low television volume. Continuous rumble noise like this disturbs my vacation rental guests and does not help my reputation for a quiet and peaceful vacation stay.

disruption and scared dogs

HEY, LARSON, MURRAY, CANTER, WHERE IS OUR HUSH HOUSE?

INSIDE MEASUREMENTS: Constant roar between 8:12am and 10:02. 14 big noise entries ranging from 66dBA - 90.2dBA (8:25am)

The rumble, vibration of my home, and noise intensity is severe. I work part time from my home that requires phone calls and computer work. This work is very disrupted by the jet noise

WHY DO WE STILL NOT HAVE A HUSH HOUSE?

Heard it most of the day

I work nights. I try to sleep in the morning. There were countless incidents on 01/05/2016 where the rumble of your jets woke me up. Who do I file a formal complaint with?

again a terrible disruption

so loud animals are disturbed and unable to converse

Loud rumbling noises; disrupted daily living activities

Deep rumble and some low vibration. This started possibly earlier in the morning...maybe 09:00 hrs, and lasted until noon

Actually, the noise has been going on all morning, but this one and the one at 0820 have been the worst; they sound like they're landing in my backyard.

An appalling morning of constant noise. WE NEED A HUSH HOUSE.

TNE NOISE LEVEL IS OUTRAGEOUS. THIS IS ONE OF THE WORST DAYS I HAVE EXPERIENCED.

We hear each one as they take off, land, or run their engines, they are very loud, rattle our windows, they make it difficult to concentrate and affect my nervous system, I cannot sleep and I need to for health reasons.

Excessive rumbling and vibration through the afternoon today. Seems louder than usual, with more vibration noticed inside my house.

Overflights : 98dBA This is a National Monument - a place people come to for peace and quiet and recreation. It is now a war training zone.

Low and consistent rumblings and vibrations in the house all morning

Very low and vibrations felt in feet and in the house. This is not ok. I moved to the island for peace and quiet. This is getting ridiculous.

series of jets circling over here one after the next

No aircraft visible, but heard low rumbling a few times throughout the day. Not overly disturbed by it.

ongoing noise most of the day.

LOUDEST YET! EXTREMELY LOUD AND VIBRATING THE HOUSE!

Sounds like an earthquake starting to happen. Very disturbing.

Too loud to continue conversation INDOORS!

Two extremely loud low-flying Growler aircraft over my house with landing gear down.

THESE GROWLER FLIGHTS ARE TOO LOUD, DISTURBING, ALMOST DISTRESSING AND TOO FREQUENT. THEY FRIGHTEN MY ANIMALS, AS WELL. THEY SOMETIMES HAPPEN VERY LATE NIGHT -- AND DISTURB SLEEP.

Disturbing noise all day beginning at 8:10 am.

continual overhead flights

Low-flying Growler with landing gear down.

continual overhead flights

I was deafened by the growlers at the ferry slip in Anacortes for an hour while waiting for a ferry home. I get home and they are flying over my home low and loud. The Navy couldn't care less what this does to the people who live here.☹

Loud noise and rumble

continual overhead flights, drowning out conversation

Loud flyovers. It's been going on for more than 11 hours.

Going on 8 hrs of loud rumble and vibration of our house. intermittent extreme loud jet excelleration noise. sounds like an earthquake or a war zone

continual overhead flights

42 noise events !!!! from Ault and overflights and pretty much constant roaring with two short breaks. INSANITY. Decibel range: 67,3dBA - 92dBA

Rumbling ranging from quite loud to low, but all day long from morning to night.

Very noisy all day long

Awakened by extremely noisy rumbling and by MY BED VIBRATING. How dare we lazy retirees sleep late! WHERE IS OUR HUSH HOUSE?

Decibels range from 74.2 to 90.8. Very disturbing noise assault that ruins our day.

continual overhead flights

loud, disturbing dogs

loud rumbling 8 am til 8 pm

Loud low rumble and vibration - so constant and for long periods effects my ears, head, entire system. I can't think, or work, or do anything. Do you really have any idea how horrible this rumble is??? It is unbearable.

Very loud rumble vibrating house with intermittent extreme loud jet noise going on now for 45 minutes

This has been going on all day, including low flying growlers directly over Cattle Point. If this is the new normal, we're going to have to move.

The fighter planes have been roaring today- soemtimes super load, others not so much but it has been all day long

All Day Long!

Loud rumbles throughout the day. At least 15 incidences.

at least one dozen noise incidents today, too loud to talk, had to cover my ears

Most of the day and well after dark. Below the cloud cover (low), dirty (gear, flaps down). Had to cover ears when outside. Dog wouldn't stay outside, scratched to get back in when they flew over. Talking halted inside very well-insulated house.

All day. Low. Loud. My husband talking about moving from the area, from our beloved home and life here on Lopez. I feel for the wild animals, no way to get away from the assault. Inhumane. Wreckless. Unnecessary.

We are not at war with you. Why are you doing this to us?

Frequent roars (like freight train coming towards the house) all morning so far. Very obnoxious.

House shaking, heart shaking, all I can think of is this thundering noise. Terrible Terrible Terrible

this continual noise is awful

I counted at least one dozen noise events before 1 pm, when I stopped counting.

same as previous day...rumbling and vibration all morning

Earthshaking noise from Ault field- engine runups. Woke us up and continue to degrade the quality of the day.

throughout yesterday and this morning

Been hearing rumbles since yesterday off and on

low roar, rattling windows

Another day of misery inflicted by the navy.

"Endless rumbling.

WHERE IS OUR HUSH HOUSE?"

Incredibly loud rumbling - very stressful. WHY DO WE NOT HAVE A HUSH HOUSE?

The jets have been flying over the island since earlier this morning and are still flying now at almost 2 pm

Been on going since yesterday

2:10pm HUGE jet noise above.

4:20pm. Tremendous jet roar above while waiting for ferry.

VERY LOUD rumbling and vibration

did not see but very loud and many of them, sometimes every few minutes, very deep rumbling

Rumble from airfield caused interior of house vibrate.

114.1dVA blast from Ault field, just after a long day of hearing relentless explosive noise beginning in the morning. It is impossible to concentrate on the writing work I'm doing at home.

Endless noise

6:27pm. HUGE vibration and roar rumbles throughout our home. This has been going on a long time.

6:29pm. ANOTHER HUGE vibration and roar rumbles throughout our home.

6:32pm. ANOTHER HUGE vibration and roar rumbles throughout our home. I am logging each time this evening.

6:35pm. ANOTHER HUGE vibration and roar rumbles throughout our home. I am logging each successive roar. I was off island today, luckily. Living on Lopez is bad for my health due to the excessive JET NOISE. The legacy of Rick Larsen.

6:36pm. The ROARING continues. ONE after another. the house vibrates.

6:44pm/ ANOTHER HUGE vibration and roar rumbles throughout our home.

All day disruption of normal activities from deafening blasts of noise from Ault Field. Typical inside decibel readings: 84.1 dBA at 11:34, 84.2 at 11:50 and on through the afternoon, 90.7 dBA at 14:30, 88.8 at 14:34, and 103.5 at 14:36. Torture!

House shook; loud rumbling

7:03pm. ANOTHER ROAR and rumble and vibration. A friend who was on Lopez for the past five days left, saying the jet noise was just too much. So much for tourism.

7:10pm. Jets roaring in the skies above. Tremendous jet roaring.

7:15pm. Excessive jet noise in the skies. Roaring seems everywhere.

7:29pm. Roaring in the skies continues. Sounds as though we will be bombed at any moment. Very threatening.

7:58pm. Roaring in the skies continues. I have logged all the moments I have had my environment destroyed this evening. The Navy is bombing us.

"7 am - 9 am intermittent rumbling

11:15 super loud rumbling - deafening

6:30 pm rumble

7 pm rumble

Noise was very upsetting today - loud and persistent"

ROARS AND FLYOVERS ALL DAY. 2 breaks around noon and between 4:06 and 5:21pm. 25 noise events felt like we were under attack. Very unpleasant to be outside. WE NEED A SCHEDULE OF AULT TRAINING!!!

8:01pm. The roaring CONTINUES. This is Navy terror. Why on earth should I think the Navy is here to protect us. Clearly we are collateral damage. Clearly.

2nd day in a row.

Loud rumbling most of the day.

These last two days were awful in the extreme...constant noise at an unacceptable level. House pets terrified. Spent the day under a bed!

Extremely loud ALL DAY. House rattled, pictures on walls shifted, painful on ears and body from the loud sound and vibration felt throughout the body. Could see the planes flying under the cloud cover. Why can they not fly a lot higher for less noise

extremely loud yesterday same this morning

8:23am. Jet noise fills the skies this early morning.

8:24am. HUGE ROAR and VIBRATION vibrates through my home.

8:26am. The jet roars and vibrations continue. One after another. This is an awful day in an awful week.

8:28am ANOTHER roar and rumbling vibration tears its way into my home. I live 14 miles away. This is not right. It is immoral. The Navy is clearly an immoral organization - terrorizing citizens.

8:29am. ANOTHER Roar and rolling vibration.

Another noise filled day? It is getting so that we hate to see clear skies. Too bad the Navy is so uncaring!

We were awakened by very loud almost constant rumbling. The Navy has no regard for the inhabitants of Lopez Island. Promises are made...changes can be made blah blah blah but still we are collateral damage to these jets practicing!

very loud and deep rumbling, very disturbing, put you on edge

Been hearing a lot more recently

8:45am. Continue jet engine roaring and vibration, which I am now giving the name of "bombing". That is what it sounds and feels like.

8:49am. The Navy bombing (jet roars and vibrations through my home) continues.

8:52am. The Navy bombing continues with yet another ROAR and vibration. I am concerned that the Navy feels that people who live 14 miles from their airfield are collateral damage

8:53am. Immediately after recording one bombing, another one jolts us. Roar and Vibration.

61.4-78.9dBA Blasts to start the day. If commercial airports can have Blast deflectors why can't the Navy? Why were Growlers based here without mitigation in place?!!!

9:15am. Jet noise fills the skies. Roaring noise all around. Deafening. We are being bombed by the Navy

9:19am. Vibrations continue with all the roaring. We are being bombed by the Navy.

9:25am. Roaring continues. jet roars fill the skies.

9:36am. jet roaring noise in the skies continues. Penetrates my home.

same as day before...low rumbling with vibration...starting to get old now. Lasts all morning and even into the afternoon today.

10:39am. Jet noise continues to penetrate my home. VERY LOUD.

10:10am. Another day of abuse. Jets continue to spread roaring and rumbling in the skies. All over. The Navy is bombing us, penetrating the peace of our homes.

Loud blasts from Ault Field began the day, continuing through the morning. Relentless noise making concentration impossible working at home.

10:58am. Jets roaring above in the skies. Jet noise penetrates my home. It has been an AWFUL morning. Trying to do my work and the noise intrudes into my home.

Our house windows in the Village are vibrating. Yesterday was intolerable, having to hear the rumble AND jets flying over the Village VERY DISTURBING

12:10pm. Jets roaring around. Lots of noise. Cloudy.

Rumbling at home all morning and now in Friday Harbor indoors

"An entire morning of listening to the navy. It is exhausting.

WHERE IS OUR HUSH HOUSE?"

12:26pm. This has been a horrible day. Jet roars and vibrations from run-ups or take-offs and jets flying all around the skies. Noise penetrates my home. TOO LOUD.

Constant very loud rumbling,

12:52pm LOUD jet flying over us. Cloudy.

1:10pm. Noise continues. Huge roaring jet flies above. Cloudy. Signature Growler roar. Prolonged.

1:21pm The horrible day continues. Jets flying over and around us as I type this. Noise penetrates our home. Thunder all day.

Loud rumbles

2:01pm. 2:01pm. MORE Growler fly-overs VERY NOISY. It has been nothing but jet noise ALL DAY.

3:27pm. Jet roaring over our home. TOO LOUD.

4:55pm. Jets roaring in the skies. Why go for an evening walk if all you can hear is Jets roaring around. Deafening. No walk.

5:11pm. Jets continue to roar around. Noise penetrates the house.

5:18pm. Jet roaring continues in the skies. This has been, and continues to be, a horrible day. Bombed by the Navy's Growlers. May as well live at the end of SeaTac runway, not Lopez island.

Single deafening flyover- forget dinner prep or conversation! 81.5 dBA

Our walk to Watmough Bight- a National Monument- was destroyed by loud blasts from the practice of the Growlers. These heavy. fuel

consuming planes the Navy is proud of are ruining our sanity and our homes.

06:07pm. RIGHT NOW Growler jets are roaring across the sky over my home. The house vibrates. The scream penetrates the house.

Jets are ROARING over my home as I write this. AGAIN. ROARING and SCREAMING. The sound penetrates the house and obliterates all else in this home.

ANOTHER DAY OF MISERY AND NOISE. WHY DO WE NOT HAVE A HUSH HOUSE?

Yikes! There have been 2 flight over our house in the last 5 minutes that were so loud we couldn't here the music on the radio. We live in a 10 year old well built house with double Windows Etc. This is too much!

6:17pm. The jets are still ripping the night. Roaring all over. Noise penetrates my home. This is terror at home.

99 decibels recorded outside. Low flight, directly over the house.

We are living with constant noise. This is outrageous!

6:45pm. Once again a major jet roar fills the air and penetrates our home. This is ongoing. This is abuse.

Huge blasts, overflights and steady roars. 63.9-79.3DBA UNBELIEVABLE THAT OUR GOVERNMENT IS IMPOSING THIS ON WHAT WAS ONE OF THE MOST BEAUTIFUL PEACEFUL PLACES ON THE PLANET.

Continual house shaking blasts from Ault Field. Horrible noise that penetrate our bodies- we are lab rats in a diabolical Navy experiment! Continuous inside noise level at 91.5 dBA

Loud rumble and vibration , with intermittent extremely loud jet noise

8:47am. Jet noise rumbles through our home again. It's Friday and it has been a horrible week of NOISE that penetrates our home. I have decided to leave

the island today and seek quiet elsewhere where I can do my work.

9:05am Jets roaring in the skies.

Loud rumbling as I was trying to have a peaceful morning caring for my horse. Horses were disturbed by rumbling. It's not healthy for horses!

This has been going on all day...rattles my whole house and windows. Disrupts the peace of my rental guests. This is not good for my business reputation, but I am at a loss as to what to do as I feel this website does no more than gather data.

My houses is shaking, my windows are shaking, and my livestock is visibly stressed and agitated.

Started earlier today rumble, noise and vibration and I live 20 miles, as the crow flies.

Still at it, started over 2 hrs aho

Extremely disruptive loud flyovers from the Growlers training. All week the south end of Lopez has been miserable.

And the noise and rumble continues

Walking outside. Jets overhead

Walking outside. Excruciating noise from jet overhead. Had to cover ears.

I have been bombarded with noise since 8.45am. I may as well live in a war zone. WHERE IS OUR HUSH HOUSE?

I could spend my entire day in front of this screen making complaints. The noise rarely lets up for any length of time.

The misery of the morning continuing through the afternoon.

The noise level is appalling.

Morning til afternoon, constant roar from Ault Field. Measured 92.0 dBA (14:06) inside, 91.9 dBA (14:30) and ongoing. No respite from house-shaking blasts.

Under siege on the South end of Lopez. A week of torture courtesy of the U.S. Navy.

Rumble and vibration has been going on since 9 am. Can't even enjoy a walk in the park

Not so much as "low rumble" as disturbing rumble all day long. So much for the 'peace and tranquility' of the islands.

4:51 PM. FRIDAY. Rumble and Vibration again. I heard jet noise all over the island today AND in Friday Harbor. Could not get away from it. A ROARING WEEK. The Navy has successfully ruined a week of life.

Culmination of a day of intense noise from Ault Field. Huge blast at 16:48!

Now they are interrupting the night.

5:04pm. Like a train rolling through our home. Like an earthquake. Here it is 5:04 on a Friday and our home vibrates from Growler engine roars. All day long. is this what we call "protection" by our Navy?

5:15pm. Friday. The roaring and vibration rolls through our home again. I am disgusted with the Navy. They claim they have no impact. Liars.

18 distinct noise reports. Steady roars and blasts all day. 62 -83.3dBA I wish our Legislators were courageous enough to challenge the Navy. Maybe our legislators have no power.

6:40pm. Friday. Incredibly the jet noise continues to fill the air and our home.. Will it ever stop? This is torture.

Too many day in a row...nerves ore shot!

At yoga class at Midnight farm...hard to practice meditation/pranayama breathing techniques with the rumbling of growlers

No one should have to listen to these planes; they should be retrofitted to damp down the noise.

Have had repeated low rumbling noise on the 7th and 8th in the morning

this is not the first time I've been woken up by the jet noises

"7:45 rumble & disturbing

9 a.m. loud rumble

12:15 loud rumble

2:30, 2:45, 4:15, 4:30 - very loud and upsetting rumble - holding hands over ears.

5:30 very loud rumble

6:15 very loud rumble

between 7 pm & 8 pm continued loud rumble for an hour."

10:59am SATURDAY. After a punishing week of roaring and vibrations and overflights, the roaring and vibrations appear to be starting again. IT IS SATURDAY!!! No peace at all.

11:03am SATURDAY. ANOTHER roar and rumble that vibrates our home. After a horrible week, more bombing.

12:02pm. SATURDAY. Prolonged roar and vibration. Right now. Keeps going and going. House vibrates. After a horrible week, Saturday continues the torture.

12:14pm. Yet ANOTHER Roar and Vibration that rattles us. Take off? Engine run-up? It is SATURDAY of all things. No peace.

1:05pm SATURDAY. ANOTHER in a continuing series of roars and rumbles and vibrations.Beautiful outdoor weather, but why would I want to be outdoors with that roaring? Cancelling my walk.

1:59pm SATURDAY. jets roaring around in the skies. Very noise. deep rumbling and loud.

01:12 ANOTHER in a continuing serious of BLASTS from NASWI. All day? It has been a horrible week of bombing and blasting noise.

It would have been nice to have had the weekend off after the battering we have been enduring this last week.

2:36pm ANOTHER ROAR on this Saturday. The roaring continues this Saturday. Very deep roaring and rumbling that vibrate this house.

2:41pm. Saturday. Jet noise fills the sky as they are roaring around. So loud I can hear it inside, despite the TV being on.

2:43pm Roars and vibrations very frequent today. Ongoing noise and roaring. Going on right now. Does not seem to stop.

2:53pm.. Saturday. TREMENDOUS RUMBLE THAT SHAKES THE HOUSE. This has been going on all day, at the end of a week that was nothing but jet roaring and rumbling. Like constant earthquakes.

3:05pm Saturday. A continuous rolling roar, rumble and vibration rattles us. prolonged roaring.

3:22pm. YET ANOTHER roar and vibration. The whole day has been filled with roaring and rumbling, penetrating my home. This is abusive.

4:35pm Saturday. Two growlers flying over my home, low. VERY LOUD. Roar penetrates my home.

4:50pm. SATURDAY. It has been a ROARING DAY. A Saturday no less. Consistent roaring from Ault Field, along with flyovers. Jet roars have been penetrating our home all day.

4:57pm. A very bad Saturday filled with jet roaring (right now) and vibrations through our home.

4:59pm. Jet roaring overhead.

A full day of constant noise from Ault Field and some flyovers, morning til late afternoon. Did not take sound measurements- burnt out from being interrupted & disrupted all week. Will keep logging these events!

This is a Saturday which we count on for relief from the noise. Sporadic BLASTS - shattering the sunny day.

10:21am. After a brutal week of noise and vibration, including SATURDAY, we get more roaring on Sunday morning. Roar and vibration are heard even while the TV is blaring a football game.

10:25am. SUNDAY ANOTHER roar and vibration penetrates our home .

11:28am Sunday. More jet noise fills the skies

Having a Sunday morning when disrupted by Growler flying over Lopez Village.

12:49pm SUNDAY. The jet noise roaring and vibration continues, at this moment. The roaring is never just one second. It is a long and continuous roar.

1:03pm ANOTHER ROAR and Vibration here on Sunday. Finished one horrible week...are we starting another horribly noisy week?

Reduced decibels are the only concession to the fact that it is Sunday.....

2:06pm. Jet roaring around us. Noisy skies.

2:44pm SUNDAY. As I write there is ANOTHER roaring rolling thunder hitting our home. Growler roaring.

2:47pm. SUNDAY. A huge rolling roar, prolonged. Right now. Keeps roaring and vibrating our home. How many days in a row now have we been tortured by this abuse?

All day long, blasts and roars from Ault Field. Too many incidents to list separately. Notable events at 10:21, 10:24, 14:45 and later.

3:03pm SUNDAY. jets are roaring around the skies. I hear them while inside over the TV sound. The roaring penetrates our home.

Another day of noise. Averaging 65dBA

Huge blasts from Ault field. It's a Sunday and we are sitting at Point Colville with friends from Seattle who are horrified that the Navy has created a war training zone out of the San Juans.

4:57pm. Loud jet noise.

9:10am. So begins ANOTHER week of incredible noise it seems. Big jet roar and blast at 9:10am

9:31am. Monday morning roaring rips through my home.

Two huge blasts the second one 84.3dBA. Another week of enduring noise from our Navy.

All morning, the low rumbling across the peace and tranquility of Lopez. It is not just the noise, but a sound that is so out of character here. It triggers anxiety with questions like: what is that sound? is it thunder?

2nd pass within minutes, could not talk or hear, very loud and unnerving, first pass at 1:26PM

Another day of disturbing noise from Ault Field. Is the Navy going for a new record of consecutive days of assault on our "uninhabited" island? An earsplitting flyover- a single Growler at 14:00, going from West to East. Duck & cover folks!

yes saw the plane and it was so loud you couldn't talk and scared our animals

5:37pm. A day of periodic roarings and rumbling that penetrate my home. Just one going through right NOW! The Navy appears to think we don't care that they are trampling our environment. For what purpose???

Yet another long day of chronic mayhem courtesy of the navy.

5:40pm Once again documenting a roar and vibration through my home.

5:43pm Roaring and rumbling and vibrations are continuous at this point. Will this be another miserable evening? Last week was filled with roaring.

5:56pm. ANOTHER roar and vibration. This is continuous. This is a very fine legacy from Larsen, Murray and Cantwell, indeed. The roaring is CONTINUOUS. My home vibrates.

5:49pm. The roaring and rumbling continues AGAIN.

5:56pm ANOTHER roar and vibration hits my home. Continuous this evening. It rolls and rolls. Like having thunder over your home constantly, or an earthquake.

Been going on for a couple of hours.

Extremely loud overhead Growler Jet Engine noise, Could not talk or hear for several minutes.

8:30am. The rumbling begins. How many days in a row, now? feels like forever. The noise and vibration comes into my home...ah, here comes another one.

8:32am. Roar and vibration AGAIN this morning. You know how your home rattles when a thunder clap is right on top of you. That is how this feels...continuously. We spend DAYS like this. Is this how our legislators act in our interests?

9:52am. ANOTHER roar and vibration in a succession of thunderous disruptions already this early morning.

9:04am. ANOTHER ROAR that rumbles through our home. The beginning of another disruptive day? I had hoped to stay home and work today. Will I be driven away to the Library in Friday Harbor? Here comes MORE rolling thunder.

9:05am AGAIN. Prolonged roar and vibration thanks to ignorance of Larsen, Murray and Cantwell.

09:07am. Another roll of roaring and vibration penetrates our home this morning. Continuous.

9:09am Roar and RUMBLE AGAIN. Continuous this morning.

9:12am More continuous rumbling that vibrates through home and bodies. This does not feel good at all.

10:03am Jet noise rumbles in the skies

10:06am Roaring and Vibration through my home AGAIN.

10:22 am. I am trying to concentrate on my research and the jet noise and vibration continues to penetrate my home. This more than disturbing. It is harming me.

There is intermittent loud rumbling coming directly into Aleck Bay. It shakes the things on shelves and I can feel it.???

10:40am. ANOTHER big ROAR and Vibration. Rattles me.

10:43am. PROLONGED ROAR and Vibration.

10:47am. Roar and Vibration rolling through again. Continuous this morning. No rest.

11:04. Jets are roaming the skies. Very Loud roaring going on.

11:37am Jets rumbling around the skies. very noisy.

11:39am. Big Roar and Vibration

12:26pm. This is a horrible day. The skies are currently filled with jet noise. Jets roaring all around. Cloudy. Heard but not seen. This causes much anxiety.

12:11pm. In a day filled with jet roaring something just made a HUGE roar and scream and vibration. I think it was a jet above us. Cloudy.

12:16pm. growler jets roaring in the skies above. Cloudy, cannot see them. Sounds like two. A very LONG roar. This is a torturing day filled with jets roaring around and being blasted by vibrations of jet engines. The roaring has not stopped.

12:19pm The jet roaring is going on and on and on. Like a 100 car train rolling in front of my home. the roaring just continues.

12:21pm. the roaring continues. They must be flying in circles above us because the noise just keeps going on. Cloudy.

12:23pm. The roaring is continuous. We have just been rattled again by a tremendous ROAR. jets flying above us. Roars from Ault Field. This is torture.

12:29pm More roaring, and another big blast right now rattles our home. I am trying to report each one to demonstrate the continuous disruption.

1:01pm MORE rumbling. ALL DAY. ALL DAY. ALL DAY. This is abuse.

1:03pm ANOTHER roar and vibration. ALL DAY ALL DAY. No let-up.

1:04pm Yet another Roar and Vibration, now followed by a jet roar in the skies. NOISE ALL DAY.

1:06pm. ANOTHER Roar and Vibration. This is CONTINUOUS. ALL DAY. Our home life is ruined.

1:10pm MORE rumbling. Continuous.

1:18pm. The rumbling of jet noise continues and goes on and on and on. My day may as well be spent sitting at the end of Seatac Runway.

1:48pm. the roaring continues today. ALL DAY

2:16pm. The rumbling continues. Sounds like jets are roaming around the skies because the noise seems everywhere. Jet noise pervades my home.

I've experienced 4 days of near constant rumbling, during the hours from 8 am to 8 pm. The noise is frequently loud enough at times that the windows and walls of my cabin shake substantially. I hope the NAVY is still considering building a hush house

2:55pm The jet roaring in the skies continues. ALL DAY we have had Growler NOISE. ALL DAY. And this is a continuation of many previous days, with no let-up. Big roar right now.

2:57pm A VERY BIG ROAR penetrates my home. This has been ALL DAY.

The number of complaints will always be far below the number of incidents because none of us can sit here complaining all day. I know that every complaint I make represents several instances of unacceptable noise.

3:14pm. More jet roaring and vibration penetrates our home. ALL DAY.

3:20 Jet roaring CONTINUES. ALL DAY. I can hardly think straight anymore.

3:28pm The growler jet noise continues to roar its way into my home. This has gone on since early this morning. Why are our legislators allowing this to happen..to treat us as if this noise does not affect us? Where is the mitigation?

3:42 The Growler jet roaring continues, as it has done ALL DAY.

4:03pm. big roar again. I don't know what to say right now. I cannot do my work because each blast and roar disrupts my concentration. This has been constant ALL DAY and for the past week.

4:29pm Low flying Growler roaring over Mud Bay toward the east. Long long ROAR. Noise penetrates my home.

4:32pm Jets are roaring all around the skies. I cannot rush to the window each time to look because I am TRYING to work. But I can hear the roaring quite clearly. Constant thunder.

5:25pm As I write this ANOTHER HUGE roaring above our home from jet. Torture.

5:01pm An extended roar, rumble and big vibration. This has been going on all day.

5:03pm ANOTHER HUGE rolling thunder that vibrates us. ALL DAY.

5:20pm Jet noise still fills the skies. Very noisy.

5:23pm. Tremendous roar from a jet, sounds overhead. I can't rush to the window to see. Long roar.

5:32pm Here comes another blasting jet roaring around.

5:32pm. A huge roar and rumble and VIBRATION shaking me up. Huge roar going on.

5:35pm. More huge rolling thunder. A very threatening roar. Reminds me of an earthquake I was in....and here is another ROAR coming as a blast, 5:26pm

5:39pm. HUGE Rumble roar and vibration. Think of the kid driving down the street with his radio bass blasting so loud it shakes everything around. That is what this is like.

5:40pm HUGE ROANR and Vibration AGAIN. This has been going on all day.

5:41pm. Sky is filled with jet noise, as if jets are flying all around. Now here comes another bone rattling blast. As if a cannon is aimed at us. It goes on and on and on.

Sounds like takeoffs at regular intervals. Windows are rattling.

5:45pm Yet another BLAST hits our home. Combined with jet noise roiling around the skies. The noise is EVERYWHERE.

5:51pm. Another blast and roar that shudders through our home.

5:58pm. Another roar from jets flying around. Constant disruption. Never knowing when a blast is going to hit.

"Off and on all day. Overcast skies. Noise especially irksome after dark.

The navy doesn't seem to care about being a conscientious neighbor."

6:23pm. Big ROAR and RUMBLE rigfht now. Started early this morning and jet noise has rumbled consistently throughout the day, making the house shudder and making me anxious as to what to expect. My concentration is nil.

6:33pm Growler jet is ripping and roaring overhead. Huge screaming roar. Long roar.

6:38pm More jet noise as I write this. Jet noise all around, as if several jets are going around and around. Their noise must be echoing. I can hear it clearly inside my home. VERY LOUD.

Growler. Windows rattling. Difficult to hear the Commander-in-Chief on the radio.

rumbles off and on all evening - I was busy so forgot to track times but very consistent

7:45pm. At Woodmen Hall, Lopez Village, in the middle of a social event. A screaming growler flew overhead. Conversation stopped. The scream and roar went on and on. Too loud and long.

continued loud noises that disrupted activities

I am adding this info now but I heard these aircraft at different times throughout the day

overcast, no visual

Meditation disrupted by rattling windows and rumble of growlers

8:36am The jet engine roaring has begun. Not another day of pain, I hope.....

8:38am. There is ANOTHER roar and rumble. It is looking like it will be another day of ROARING JET NOISE.

9:39am. The skies are filled with the rumbling of jet engine roars. It always sounds as if we live right next to SeaTac. It NEVER used to be this way. How can I even think of selling my home if prospective buyers drive up and hear CONSTANT NOISE?

10:21aam Tremendous and prolonged roar and vibration. This really feels like an earthquake that lasts and lasts. Very disturbing.

10:29am The roaring continues at this very moment. Long long roar and vibration. The house shudders.

10:42am. More jet roaring in the skies. Very noisy. This is not quiet island living!

11:03am ANOTHER big roar and rumble that vibrates our home. Again, like an earthquake.

12:30pm. Very loud jet roaring in the skies. I am inside and did not see them. VERY LOUD, signature Growler roaring.

3:14pm. Big Roaring and vibration. House shudders.

3:21pm. More roaring continues. TOO LOUD. Penetrates our home.

3:31pm. Another roar and vibration penetrates our home

Another day of endless noise. Thank you Larson, Murray and Cantwell. WHERE IS OUR HUSH HOUSE?

Huge rumble and roar heard in the Village at 4:50pm. Growler Engines?

4:01pm. The reign of terror continues. Another BLAST, roar and vibration of our home. Growler roaring.

4:07PM. The roaring is now almost continuous. This week and the past week have been hell. I am leaving my home and going into town to escape this aggravation. Rep Larsen apparently feels it is OK for our homes to be bombed with noise and roaring.

Heard another big rumble and vibration felt in the building. Sounds like Growler taking off.

very loud, very disturbing noise

8:12am. Jet noise already pervades our skies. A roaring sound is all we hear.

Off and on rumbling/vibrations. Overcast skies @ 40 degrees. Another day of fearmongering.

9:09am. Huge roar and vibration. Is this how Friday is going to be? Another miserable day?

Jet roaring pervades our skies. Noise noise noise. At this moment, it sounds like I am standing next to I-5.

yoga practice at Midnight farm again interrupted by growler rumbling

10:02am. Huge roar and vibration rattles our home. Growler take-off or engine run-up or what. The roar shakes us.

10:19am. ANOTHER prolonged Roar and rumble and vibration that shakes our home. It is not just a blip, the rumble and vibration goes on and on. Imagine standing right behind a jet taking off. That is what it feels like. This is a quiet island?

10:23am. The roaring and vibration that shudders through our home is almost continuous this morning. We live 14 miles from Ault Field and we feel it as if we are next door. This is not right. This is abuse.

Engine run up

10:32am. AGAIN AGAIN AGAIN our home is shuddering from blasts from jets on Ault Field. Roaring and rumbling.

10:33am. ANOTHER BLAST immediately following on one a minute ago. This is Torture. My home shudders, my bones are rattled. This is abuse by the Navy, which claims there is no effect???!!!

10:37am. Now the skies are filled with jet noise. Jets roaring around somewhere.

10:40am MORE roaring and another BLAST that vibrates through our home....and here comes another one. We may as well be in the middle of an earthquake.

10:42am the skies are filled with jet roaring. Cloudy so cannot see them, but it sounds as if they are roaring all around. there is no quiet, only jet roaring.

10:45am. The jets continue roaring above us. These are not isolated incidents. This is CONSTANT engine roaring. All we hear outside and inside is JET ENGINE ROARING and RUMBLING

10:51am. the roaring and rumbling continues. The skies are FILLED with jet noise that penetrates our home. Sounds like WAR.

10:55am. I will continue recording the jet noise that pervades our lives. The jet noise in the skies continues to penetrate our home. I have said this before: It is like standing right next to I-5 as trucks roll by. Impossible to be outside.

11:45am. The jets are roaring around. the noise is so disruptive. Cannot be outside or inside without having the roaring blasting away. Must leave home and seek quiet in the library for my work.

11:02am Jets continue to roil through our environment. The sound outside and inside is deafening. Cloudy, can't see jets, but the roaring is everywhere. We live in a war zone.

11:07am the ROARING continues. How would you like to live with this constant roaring. Who is protecting the peace of the San Juan islands? Why are the growlers here?

very loud and disruptive. life stops because of the extreme noise

ALL morning long there have been off and on roaring noise that vibrates in your head. Then at 1:30 the roar of actual planes. It's 4:30 and again the sound like a large furnace roaring!

5:38pm Tremendous roar and scream from jets flying over this Friday evening. Noise blasts into our home.

12:05pm Jet noise suddenly fills the air.

12:11pm. Jets are roaring around. The noise rumbles through our home.

8:52am. Beginning the week with roaring again. The roar rumbles through my home.

9:01am. the rumbling continue, fills the air inside and outside of my home.

9:43am. Roaring continues. Unpleasant to be outside since the roaring is everywhere. Like living next to SeaTac.

2nd tade off in 10 minutes disrupts and irritates what we are doing

This is the 3 aircraft takeoff. One at 9:00 one at 9:08 and now 10:10

10:46am. Big rumble heard in the Village. Sounds like the big growler jet engine roar.

Another morning destroyed by the navy - hours of intermittent rumbling.

11:17am. Hearing frequent roaring in the skies. Quite noticeable and irritating.

11:33am. Heard it again. Long roaring rumble heard inside Woodmen Hall.

11:58am. Once again, a roaring rumble in the air. Sounds like growler engines running up.

WHY DON'T WE HAVE A HUSH HOUSE YET?

really all day, much of day prior

A very noisy flyover.

1:35pm. Inside the Library, heard and felt a big rumble. Sounds like growler jet engine run-up or take-off.

4:12pm. VERY LOUD ROARING jet overhead. Roar penetrates my home.

Very loud jet overhead. Cloudy, unseen. Why do I have to hear jets roaring over my home when all the windows and doors are closed and the TV is on, and the noise still overcomes all the senses?

5:15pm. Walking outside and a low flying Growler flew from SE to NW over Mud Bay. Low and very loud. The Growler jet has a very long roar, coming and going, with a booming roar as it passes. Had to cover my ears.

While in the Southend Store this evening heard jets flying loudly above us. Very very loud.

As a loud EA-18G Growler flew over the south end of Lopez Island two of our lamps on automatic timers suddenly switched off 4 hours before their

scheduled off time. It is suspected that there is electronic interference from the growler.

Massive rumble, rattled windows. very sustained, lasted on and off since 9am this morning! this is ridiculous!

Rumbling off and on all day. I think this is engine testing but not sure - just really loud.

working at a job on Hughes Bay. I am so glad I do not live here. Loud rumble all day long - I actually felt it in my body at times. So disturbing

8:14am. Roar and vibration shudders my home. So early in the morning. Is this yet again another horrible day filled with war noise? We live in a war zone.

8:17am. ANOTHER ROAR rumble and vibration goes through my home.

8:22am. Jets are roaring above us in the skies, filling the air with loud roaring.

9am. The roaring and vibration this morning keeps coming, making my home shudder. The Navy has declared us collateral damage, right here at home. Disgusting.

takeoffs started again this morning around 8 am

9:01am. ANOTHER roar and vibration blasts my home. It looks like I will have to leave my home to work elsewhere on my research. I cannot think when my home is shuddering.

9:04am. This is a morning of war. We are being blasted by walls of roaring jet engines. The noise vibrates through my home. I cannot think straight. The noise makes me anxious.

9:10am. ANOTHER roar, rumble and vibration. This has gone on for the past hour (and month) and signals another day of the bombing of Lopez island.

At the ferry dock around 9:45 Big rumble coming from the south east. Same roaring as heard on the south end of Lopez.

Have just returned from 4 weeks of world travel. There were no vibrations or noises as bad as the growlers anywhere. This is not healthy for humans to be exposed to. Rumble and vibration all day yesterday and so far today.

Jets just went over our house low and loud...our 10 year old house with triple pane Windows was shuddering! Why in the world would the Navy fly the noisiest jet they have over populated area?

3:59pm Big roaring noise, prolonged rumble that shudders through my home.

4:06pm. The outrage continues. Roaring and rumbings that vibrate through my home. Our home is a WAR ZONE.

4:25pm. Roaring jet noise around. TOO LOUD!!!!

4:34pm. Jet roaring so loud and pervasive outside that I have cancelled my walk. TOO MUCH ROARING in the skies. The Navy and legislators have declared this to be a war zone obviously.

4:39pm. HUGE roar and rumble and vibration rolling into our home AGAIN.

5:08pm Two growlers flying low directly over my home. VERY LOUD. PROLONGED ROAR AND SCREAM.

5:12pm. TWO MORE GROWLERS flying directly over my home. Their ROARING lasts and lasts and lasts and lasts. Penetrates my home. I cannot concentrate on my work, and I cannot walk outside. Terrible noise. We are under attack.

5:43pm ANOTHER Huge roar and rumble and vibration that shudders through our home. A terrible day of Growler noise. January has so far been an AWFUL month.

Extremely loud, low-flying Growlers (two) with their landing gear down over my house. Very disruptive. Also, they aren't supposed to have gear down!!!!

6:02pm. Jet noise is penetrating our home. VERY LOUD and annoying.

6:09pm. Jet noise fills our home. Sounds like jets are flying above in circles, the roaring is EVERYWHERE. Sounds like we are in the middle of I-5 with trucks roaring all around us. VERY LOUD ROARING.

6:30pm. What started early this morning continues into evening. A roaring thunder that rolls into my home. This is war.

Two very noisy flyovers.

7:06pm. Loud growlers roaring over my home.

7:08pm. Jets continue to fly over my home. Too loud, and the roar is tremendous.

7:22pm. More jets are roaring over my home. So loud that the TV can't be heard.

7:42pm. Jet noise continues to fill the air. Jets are racing around somewhere. cannot see them, but their roaring is unmistakable. TOO LOUD!!!!

Noise on and off all day. Very loud tonight as we were eating dinner. Disturbing

Very loud jet noise. This happens more days than not and is very disruptive.

8:30am. The roaring has begun again. How many days in a row? 15? 18? I am worn down. Facing another miserable day.

8:33am. Another rolling jet engine vibration just shuddered its way through my home. Misery.

9:24am More roaring from Whidbey rumbles through my home.

10:19am. ANOTHER big roar rumbles through my home. Why live in the San Juans when it would be less offensive to live in downtown Seattle where my home would not vibrate?

10:18am. The rumbling and vibration continue. The degradation of the San Juan Islands continues. We are NOT a jewel, we are a war zone.

10:42am. The rumbling continues. I feel it in the floor of my home, and hear it throughout the house.

10:45am. here comes another roar and rumble and vibration. A bad morning.

11:14am. The roaring continues to rip through the air.

12:15pm, More disruptive jet roaring fills the air.

12:25pm. More roaring of jet engines. Disruptive.

Intermittent rumbling in the course of the morning. aircraft sounded like it was overhead

Low flying over the house, could see clearly. smell of jet fuel in the air, Comes from the Naval base, has made several passes over head.

12:25pm. More roaring of jet engines. Disruptive.

1:08pm. MORE Roaring. Disruptive NOISE that distracts me.

2:14pm. Jets roaring above our home. TOO LOUD.

4:13pm. Loud roar shudders into our home.

5:50pm, Loud jets roaring above us. Loud and prolonged roaring.

12:04pm. Very loud jets flying above. Sounds just like Growlers but the sky is cloudy. But I can hear them roaring overhead. Distracted me from my work because I thought something was wrong in my house.

12:08pm. More roaring jets above. VERY LOUD. Noise penetrates my home.

9am. Hard at work at home, trying to concentrate, and I am blasted by a huge rolling roar and vibration of jet engine noise. Ruined my concentration.

Rumble and vibration of house and body. disrupted conversation.

9:18am ANOTHER roaring rumble hits our home and disrupts my concentration. Sounds like a train is headed straight at our home, rumbling and roaring.

sustained low rumble from the Growlers based at Whidbey Naval Station. Sure way to ruin a quiet walk on Lopez Hill

Awakened by appalling rumbling. Silly me, I thought I would be able to sleep late when I retired.

Noisy flyover.

Loud rumbling.

Ridiculous amount of noise and vibration, work disrupted, windows rattling.

Another day of navy inflicted misery. WHERE IS OUR HUSH HOUSE?

I don't have time to complain about every incident - there are too many.

We are living with constant noise. Why? Why does the navy have to conduct their operations at NAS Whidbey? Why not an unpopulated area? Why are US citizen's rights of no concern to our government? Do we live in a democracy? Apparently not.

And again.....

4:30pm. Huge roar rolling into my home. Again. Throughout the day. The house shudders. This is continuous. There are no good days on Lopez Island. This place is a war zone.

Rumble low noise causing inner ear discomfort

4:42pm. ANOTHER roar and vibration rips through my home. This is no small noise. Thus is THUNDEROUS.

And yet again.....

5:58pm Looks like two growlers flying low over Mud Bay. Tremendous and prolonged roar and scream. Could not hear the TV.

loud

Extremely loud flyovers all day today. Growlers were flying really low.

7:11pm. Despite the tv being on, conversation, and water boiling on the stove, we clearly feel the

vibration shaking this home and the roaring penetrating our home. HUGE and LONG ROAR and VIBRATION.

8:34pm Loud roaring in the skies. Jets are roaring around somewhere and I can hear them clearly inside. Long long long roarings.

8:38pm. Loud roaring in the skies continues. Noise comes right into my home.

Distinct rumble caused vibration inside home

Aircraft directly overhead to the west 2 times this morning, Extremely loud and disruptive

Third time this morning, overhead and west. Extremely loud and disruptive.

Incredibly loud, overhead near Lopez Village!

At 6:20 there was a huge rumble and vibration. Then around 9 PM there was a terrible vibration and ear splitting noise from an airplane

My pets are terrified and hide under the bed. All day long you have made my life and my blood pressure feel out of control.

Sounds like a Growler takeoff or runup at NAS Whidbey.

Clouds with rain, slight wind

10:22. Starting at 0830 and continuing off and on. Rain and clouds. This has been going on over several days and nauseum!

12:01pm. VERY LOUD growler jet flying low over Mud Bay, heading northwest. Huge prolonged roar.

Anacortes ferry. Had to stop checking in as the Growlers drowned out all conversation.

starting at 3 pm and again at 3:30 - planes flying low and deafening noise. this continued for awhile, disturbing home activities

9:58am. Oh No. A huge blast, rumble and vibration. I really need to work at home today on my research.

I don't want to have to leave my home to escape these blasts!!! Is it going to be an awful day?

10:34am. I don't know what the roaring is but all of the sudden there is a huge jet engine roar penetrating my home, going on and on. I am distracted from my work.

10:45AM. Sounds like we are ramping up to a noisy and disturbing day. More roaring, like Growlers roaring in the skies above. I don't have time to go looking out the window.

12:49pm. Skies filled with the roaring of jets, not overhead, I think, but pretty near. Like the constant roar of traffic when standing by I-5.

louder than usual rumbling, houses rattling

Ongoing most of the day

1:29pm. Huge roar, rumble and vibration I felt in my body. Still going on. Feels also like the jets are coming this way because now the noise is different. Very disturbing feeling.

2:32pm There is a loud growler jet up above. I can hear it in my home, over the radio and the washing machine. It just roars and roars and roars. Deep roar that gets into your head and body.

Near constant noise all day. WHY DO WE NOT HAVE A HUSH HOUSE YET?

5:30pm. Another roar and vibration blasts through our home.

5:44pm. Loud rumbling of jet engines is penetrating our home. Engine run-ups? Jets overhead? The noise is everywhere. Disturbing. Oh, here comes a jet overhead. Roaring.

going on all day and evening so far periodically (intervals of a few minutes)

8:39am. Jet noise blasts have been rolling into the house already this morning. This is the fifth one. It seems continuous. A bad sign for today. The house shudders, I shudder.

Feels like a constant earthquake from the growlers taking off. Can't drown out the vibration with music. Disrupted all activities. Incessant roar...

9am. Another long rolling blast hits our home now. The house vibrates. The rolling blast is a very long one. I am despairing of my ability to work well today.

9:13am. Yet another long rumbling blast hits my home. Jets taking off? The thunder rolls through my home.

9:33am. Another roar shudders its way through our home. Broke my concentration on my work. The thunder is always startling because I never really know what is going on. Now, here is another blast.

0935am The roaring has been continuous for the past several minutes and now I am hearing jets in the air. Sounds like they are coming toward us. Lots of roaring in the air.

9:38am. Now we have a combination of roaring thunder and vibrations and jet noise roiling the air. The air seems to vibrate. There is no other sound but the sound of that thunder.

9:41am. The roaring continues, the air is filled with jet noise. I am worn out already from tension. here comes another blast..

Overflight

This morning even worse than the noise was the smell of jet fuel/exhaust in the air. Strong, unmistakable. It's not like we moved next door to an airport, this is supposed to be clean and quiet....(wind from the south)

Low-flying jets, under the clouds, 2 of them, not in formation.

10:48am. Huge jet roar overhead. Startled us and stopped the conversation.

louder than usual rumbling, houses rattling

In the Lopez Library, attempting to get away from jet noise today at my home. Just felt and heard a deep roar, as if the jet engine roaring is just over the hill.

A miserable day of intermittent rumbling.

1:41 pm A noisy P-3 (?) flying very low over Lopez Village. Why so low? It is quite noisy when it is that low.

4:01pm. Incredibly loud roaring from jets above. Cloudy, can't see. But they are roaring around so loudly you cannot get away from the sound. The roaring has gone on for more than a minute, Just keeps going on. Stopped conversation.

rumbling and flyovers on and off most of the day. Cloudy, some rain and windy.

4:33pm. Jet roaring in the skies. Cloudy so cannot see. But the jet roars are everywhere.

4:48pm. Started early this morning and we have been disturbed all day with roarings, rumblings, and vibration. And low flyovers.

5pm. ANOTHER ROAR and RUMBLE. Miserable evening????!!!!

5:02pm. The roaring and rumbling is becoming continuous. It penetrates our home.

6:03pm. A full day of roaring and jets overhead. The roaring is still continuing. Day after Day after Day after Day. This is torture.

6:36pm. The roaring in the air still continues. On and on and on and on. There is no quiet here. Just as if we lived right next to I-5.

8:28pm. A very loud jet is flying over our home. Dark and cloudy. But it has the invasive roar of a Growler.

9:26am. The skies are already filled with jet noise roaring. I have to say it again. Living here is like having your windows open right next to Interstate 5. The roaring is continuous. With any luck it is quiet at midnight.

9:44am. The roaring in the sky that started earlier this morning is suddenly getting louder. Very distracting.

10:44am. Growler flying over Mud Bay from the northeast. Very noisy. I am so tired of the jet noise distraction that I have just put on noise-cancelling headphones. Why do I need to wear headphones in my own home?

11:06am. Low-flying growler flying over my home from the NW. Heard despite wearing noise-cancelling headphones. Prolonged ROAR and SCREAM. Landing gear is DOWN.

louder than usual rumbling, houses rattling

1:38pm. More rumbling from jets. Distracting.

Just returned from walk. Started when it was blessedly quiet. Then BLAST, a jet roars overhead. In the trees, could not see it. Roar and scream lasted on and on. Had to cover my ears. Jet noise all over, This is a war zone.

The jet noise was over the top today. At around 3 pm the noise was so loud that it shook my body and I could not hear the person on the phone. More jets all afternoon and another super loud one at around 7 pm. Very disturbing and upsetting.

5:04pm. Big rumbles and vibrations shuddering through my home.

The rumbling and vibration continues. I am startled, distracted, and anxious that this may be the signal of all-night roaring.

5:26pm The ROARING continues, thudding right into my home.

6:01pm The roaring continues, roaring into my home. Will I be able to go to sleep tonight?

6:14pm. The rumbling and vibration continues. Dinner while your home vibrates????

6:21pm A huge roar and blast rattles me. A miserable evening again. the NAVY lies when saying there is no impact. LIES.

Periodic this evening

Growler low overhead west-southwestbound

7:35pm Roaring, rumbling and vibration continues. No way to escape the roaring. Like constant thunder. House shudders.

Loud jet engine noises, perhaps engine testing, surging louder and then softer repeatedly, very loud, disturbing, interrupting activities in household.

We exist in a thunderstorm that never abates - constant rumbling. WHERE IS OUR HUSH HOUSE?

7:46pm. That was a HUGE rumble. Probably not possible to sleep tonight until late. 7:46pm and Navy is still ROARING and BLASTING us.

8:16pm. The roaring continues. Another big roar and long rumble. The Navy is a BAD Neighbor.

The jets are continuing to fly overhead sounds like it may go on all night. Super loud, rumbles and vibration at times. All very disturbing.

9:41am. Noisy jets. LOUD

9:56am. Jet roaring. Noisy. I can hear it in my house.

10:55am Roaring again. Not sure what it is. Jets taking off? VERY LOUD. Can feel it throughout the house. Very troubling. EVERY DAY. It is too much.

louder than usual rumbling, house is rattling

louder than usual rumbling, house is rattling

louder than usual rumbling, house is rattling

Rumbling over the past hour

House shaking, windows rattling... very loud and disruptive. How could anyone "get used to" this type of intrusion. I reject the notion that this is "the sound of freedom" It is truly the sound of fear and intimidation and home devaluation.

Endless noise, endless misery. The military-industrial complex rolls on.....

louder than usual rumbling, house is rattling
Disrupted activities. VibRated house and body.

I used to be patriotic. I used to think our government had our best interests at heart. I used to believe the military was there for our protection. I used to think the USA was a great democracy. All past tense.

Loud vibrations and noise. Even the dog is nervous.
long duration - disturbing

The level and duration of noise here is beyond outrageous. WHY DO WE NOT HAVE A HUSH HOUSE? WHY?

Rumbling/vibrations off and on most of the day. A sunny day ruined by an uncaring military!

Went walking with friends in the National Park. All commented on the loudness of the growlers and how inappropriate it was to have them near a national park.

windows and house shaking... how can this be so loud from this distance? It is so much worse than living right next to an airport... is there no mitigation of run-ups and engine testing?

louder than usual rumbling, house is rattling

aircraft not visible, uncomfortably loud rumble in inner ear for nearly 10 minutes, items rattling in house.

4:31pm Returned to Lopez after days off island. Dreading return. No surprise. The air is filled with jet roarings. This place has turned into hell.

4:37pm. HUGE roar and long vibration makes our home shudder. Long rolling thunder that shakes us.

4:42pm. Incredibly penetrating thunderous roar and vibration rolls through our home. Rolling on and on.

4:47pm. ANOTHER in a series of rolling thunderous roars and vibration rips through our home. These are long disturbances, not short blips. The thunder lasts and lasts and lasts..

5:01pm. ANOTHER HUGE thunder roar rips through our home. Growler jets' run-ups or take-offs? This is continuous. This is abuse.

5:02pm. ANOTHER roar and vibration makes our home shudder.

5:21pm ANOTHER ANOTHER ANOTHER. Roar, thunder, vibration rolls through our home. There is nowhere to hide from this bone-shaking vibration. It is too huge and too long and too continuous.

5:03pm. ANOTHER in a continuous series of roarings and vibrations rolling through our home. One after the other. This is worse than being at Seatac.

Another sunny day ruined by the inconsiderate military

5:32pm Now we have jet noise roaring around in the skies. Now we have another rolling thunder and vibration. Nothing but oppressively loud jet noise from jets that are TOO LOUD for this area. Life is HELL here.

5:35pm. Jet noise all around. Noise penetrates my home. Why do I have to wear noise-cancelling headphones in my own home?

5:44pm. Even though I am reduced to wearing noise-cancelling headphones in my own home so that I can concentrate on my work, I still feel the vibrations rolling through our home.

5:46pm. ANOTHER vibration rolls through our home. Shuddering. I cannot concentrate.

5:56pm. The rumbling and thunderous vibration continues. This is AWFUL.

6:17pm. ANOTHER roar and vibration shake our home. GIANT and CONTINUOUS THUNDER. This is abuse.

6:19pm. ANOTHER ROAR and Vibration. This has been going on and on and on and on. Continuous abuse.

House shaking, windows rattling, disturbingly loud

Arrived home from a day off-island to be greeted with the usual barrage of noise. Life here is untenable.

They've been rumbling all day. Now it's 8:20 and they are still at. Put silencers on those dang engines. There is no excuse for not putting quieter engines on those planes.

An evening of very loud rumbling which made conversation difficult inside the house with all doors and windows closed.

"Eating dinner our chairs were rattling

were on all day,run up runway testing, with jets pointing towards Lopez"

Loud rumbles off and on all day. Very unpleasant. No one should have to listen to these planes

Could not carry on a normal conversation inside or outside our home. Feels like a war zone!

3 giant blasts - house shaking - body shaking. Also at 5:04am this morning, two wake up blasts. This is the legacy of Murray, Cantwell and Larsen.

8:31am. HUGE roar and vibration roles through our home.

8:33am. ANOTHER roar and vibration rolls through our home. It is a wall of noise that just hits us. Not short, but long.

8:35am ANOTHER ANOTHER ANOTHER roar, rumble and vibration hits us. Shakes us. What is going on? Feels like an earthquake with aftershocks, which I have experienced, so I know. This is the type of roaring and vibration that is reported in the news.

The first onslaught of the day.

9:06am. Another huge roar and vibration has hit us.

Here it comes again - low rumble building to huge blast. If the Navy had any concern for us it's neighbors, they would give s a schedule - we would know if this is the beginning of hours of noise we have to endure or just a huge short blast.

9:11am. This is a very long rolling rumble and vibration. Lasting and lasting. Very deep and heart-throbbing. I feel it all through my body. I am not feeling good about today. Will have to leave my home.

The second attack today.

More noise!!!! More intrusion into what WAS a treasure of peace and quiet. Growlers were placed here based on the Navy lie that Growlers are quieter than the Prowlers. Thus, no mitigation, no baffles, no HushHouse, just relentless noise.

And again..... third time this morning .

More crushing noise. Do Murray, Cantwell and Larsen understand living with noise canceling ear protection? The noise rattles the body but the "explosion, earthquake" quality is less. This is Life in the NW war training zone aka SJC Natl. Monument.

Fifth barrage today.

louder than usual rumbling, house is rattling

A low-flying P3 (?) plane over Lopez Village, flying NW, I think. Very very loud. Why is it flying low over Lopez?

5:06pm A very deep roar is occurring right now. I think it is a growler jet somewhere near. It is repeating itself now for the third time. Shaking me with a deep rumbling vibration.

5:13pm. Lots of jet noise in the air. Can hear it clearly inside over the audio. TOO LOUD. Why are these jets disturbing us? They are too loud and rumbling.

6:33pm. Loud jet overhead. I heard it through my noise-cancelling headphones which I now wear most of the time in my home due to jet noise.

7:27pm. growler jet flying low over Mud bay, going North/Northwest it appears. Long protracted roar and scream. It just does not stop. Penetrates our home. Distracted me from my work.

7:32pm ANOTHER Growler jet roaring overhead. What mission is possibly served by flying low over Mud Bay with a huge roar coming and going? This is abuse.

couldn't hear others speaking due to noise level

all day rumbling and vibrations

I cannot sit here all day making individual complaints but I ENDURED FIFTEEN DISRUPTIVE INSTANCES OF RUMBLE & VIBRATION IN THE COURSE OF THE DAY.

8:48am ANOTHER rolling thunder hits our home. Growler take-off? Engine run-up? Who knows, but it is impacting our lives by making it miserable to live here.

8:01am. Jolted by a sudden and incredible roar and rolling vibration.

8:35am. ANOTHER jolt or roaring and vibration that rolls through our home. Will I have to leave my home again today? I work from home and cannot concentrate when the house is hit by a wall of noise.

now your ruining my morning coffee

8:58am. Long rolling thunderous loud roar and vibration hits us again. Again and again and again. I am shaken again.

still disrupting my morning coffee

8:59am. ANOTHER rolling thunder hits our home. This has been constant since 8am.

woke me up from a nice sleep

still waking me up from what was a nice sleep

now your just an irritating pain in my day

Sinister growlers for days

9:01am. ANOTHER rolling roar and thunderous vibration hits our home. I cannot concentrate on my work.

more of the same

9:13am. had to go outside to speak with a contractor. Jets roaring around in the skies SO LOUD that we had to raise our voices to talk. Too unpleasant to be outside.

9:14am. Rolling thunder AGAIN. this is continuous vibration. Can't stand it. I am on edge.

9:36am. Huge ROAR and vibration a few minutes ago. I had the misfortune to be outside where I was shaken.

9:37am ANOTHER roar and rolling vibration. It is like having continuous earthquakes here.

10:55am. Very loud and pervasive roaring of Growler jets above. Too noisy to be outside and I can hear them inside. TOO LOUD. Constant noise this morning.

10:15am. ILah Rose Road. Shaken by a tremendous roar and long vibrating rumble

10:37am. Another rolling thunder shakes the cabin. Long vibrating wall of noise.

10:40am Still on Leah Rose Road. Another rolling wall of sound and vibration. Like an earthquake.

11am. Jets roaring around in the skies. Too noisy to be outside, no matter where I go.

11:04am jets continue to roil through the skies. Roaring all around. Noise penetrates our home.

louder than usual rumbling, house is rattling

1:06pm. Lopez Village. Between noon and 12:45 the giant roaring of growler jets was heard several times. The air vibrated, I am abused by this noise at home, and hope to escape it when I come to the Village. NASWI has declared war on SanJuanCounty.

increasingly worse over the past few days. maddening, can't focus, the lamp beside me is rattling

1:44pm A protracted roar and rumble with extensive vibration is heard and felt in the Lopez

Library. Not very different than what is felt on the South end of Lopez. Very disturbing.

Noise from morning till now. Cloudy with light rain

2:35pm, More deep rumblings with vibration have been heard and felt at the Lopez Library this afternoon. Why do engine noises from NASWI reach all the way to the center of Lopez?

2:49pm. Several rumblings, roars and vibrations are ripping through the Lopez Library as I write this. It is extremely uncomfortable to be here. The wall of Growler noise follows us around.

3:16pm and the rumbling and vibration from NASWI is still being felt and heard in Lopez Village. RIGHT NOW. This is abuse.

3:28pm The rumbling and vibration in Lopez Village has been constant all afternoon. I am here because the vibrations I get at my home are too painful. It is no better here. The Navy has declared war on us.

3:41pm. Incredible roaring and vibration is ripping through Lopez Library. This has been going on all afternoon.

4:18pm The rumbling and vibration continue in Lopez Village. The navy needs to know how disruptive they are. They are lying when they say there is no impact.

Starting at 8 am there was very loud rumbling that continued all day and now the Growlers see flying over low and loud. When I was feeding my horse on Sperry Road it was absolutely deafening! The Navy ignores our complaints and pleas.

This entire day, beginning at 8.30am, has been appalling. The noise has been almost continuous. I feel ill: exhausted and freaky.

Low rumble all day from morning to night.

Loud rumble and vibrations

8:15pm This hideous day continues. The night is filled with explosions of jet roars. There was no

where to go on this island to escape the roaring thunder and vibrations.

8:29pm. The roaring continues. There is no way one can sleep with this thundering roar blasting through our home. We are invaded by Growler jet roaring.

8:42pm. The blasts of jet engines continue to pound our home. There is no escape. The wall of noise surrounds us.

The "rumbling" began today at 8.35am. and it continued until 8.40pm. TWELVE HOURS OF NEAR CONTINUOUS NOISE! PEOPLE ARE EXPECTED TO LIVE WITH THIS? THIS IS CONSIDERED REASONABLE?

continual annoying rumbling and vibrations

8:03am The jet roaring has started. The wall of noise hits our home this early morning.

8:40am. More roaring of jet engines hits our home.

8:41am. Another blast of jet engine roaring hits our home.

8:46am. The roaring has continued non-stop this morning. Just like yesterday and the day before that and the day before that. The Navy considers us collateral damage, obviously.

Noise shook my house and disrupted work on my computer inside house. Aircraft flew directly over my house located adjacent to Perkins Day Park, west side of island.

Many very loud flyovers while at a doctors office in ANACORTES. This continued for the 3 hours we were there. Rain heavy at times

louder than usual rumbling, house is rattling

Extremely loud

Well, I suppose it was just too much to hope for a day off.....

Jet headed NE over our house making it shake. I couldn't hear my music it was so loud.

this is an all day noise problem

louder than usual rumbling, house is rattling

louder than usual rumbling, house is rattling

louder than usual rumbling, house is rattling

INSIDE MEASUREMENTS: 8:05am-66.1dBA, 8:42am-78.1dBA, 8:43-9am STEADY ROARS 65-75dBA

11:33am. An unexpectedly quiet morning, so I could hear the creek rushing. Suddenly a low rumble rolls across our home.

11:39am. And so the roaring and vibration begin again. Huge rolling thunder now.

My entire life seems to be rumble and vibration interspersed with extremely loud.

12:10pm Low rumble in the skies. Jets doing something somewhere and I can hear them roaring around.

12:27pm Another noisy day, apparently. Jet roaring somewhere near. Except for the past holiday weekend, there is nothing but noise every day. Every day. We are in a war zone.

12:28pm. Startled by a huge screaming roar above. Something is going on and it is deafening. Coming from the northwest. Sounds like jets roaring in circles.

12:46pm. Another rumble and rolling roar that comes directly into our home. If the noise of these jets cannot be mitigated then they should not be here.

louder than usual rumbling, house is rattling

1:32pm Another big roar, as if a jet made a huge U-turn in the sky. A blast of noise and a long roar into our home.

Since we arrived at our home 20 minutes ago there have been three flights over low and loud. It was

impossible to chat with our neighbor in front of our house!☹

1:58pm. Growler jet screaming low over cabin. Could see everything on that jet. Huge roar coming, then overhead and then a blowout roar as it flew over, heading northwest I think. Had to hold hands over ears. Piercing.

Excruciatingly loud. One of the loudest flyovers I have ever experienced. Low fly over, roughly east to west. Terrifying.

"Low flying Growler south to north over Mackaye Harbor north on Lopez

Island. Disrupted a business conference call."

3:26pm. Another loud jet overhead nearby. A prolonged loud roar. A piercing yet deep roar. Very disturbing.

5pm. Jet engine noise continues to rumble through the air. Like standing next to I-5.

5:17pm. A big rumble and vibration AGAIN. Jet action AGAIN. Disturbing, annoying and distracting.

Pretty constant huge ROARS coming from NASWI. HAVING A MEETING. IT WAS VERY DISTRACTING. The war zone is moving north.

6:06pm More rumbling and vibration. We spend our days being blasted by jet noise. There goes another blast.

6:09pm More vibrations rumbling through our home. Loud roars.

Going on all evening at regular intervals

Once again jets rumble during yoga class...

Only hearing the noise - yesterday and all morning today. So loud our dog is cowering under the bed - windows rattling.

8:42am The house is vibrating and so am I. A HUGE roar rumbled into my home. Long roar.

Rumbling the walls in the bedroom

8:47am. ANOTHER rolling thunder hits my home. Prolonged rumble that shudders through the house.

Overcast, light rain. Probably another day of naval intrusion into our peace.

I didn't retire to the San Juans in order to listen to jet noise, dammit.

9:01am very loud jet roaring above.

9:04am huge roaring.

9:18am very noisy with jets roaring everywhere.

9:09am huge roaring. vibrations.

Windows rattling, low frequency rumble (spectrum analyzer indicates highest amplitude around 35 Hz). Conversation difficult. Periodic events started at 0845PST

The roaring and rumbling at my horse barn is incredible. The affect this has on the bald eagles, horses, and people who live here is hard to think about.

"Aircraft on the runway and taking off.

rattles the windows in the house. These jets must be facing away from Lopez to project so much noise from so far off"

Loud, annoying, windows rattling, disturbed activities

BLASTS: 8:45am 76dBA, 8:49am - 72dBA, Steady roars if 65dBA until 9:10am - blast at 85dBA, 10:10am - 73dBA, 10:20am- 76dBA, 10:22-87.2dBA, 10:25am- 77.2dBA. Unbelievable. This is routine to NASWI and they say we are in NO NOISE IMPACT AREA.

Passing overhead

Highest amplitude around 28 Hz on soectrum analyzer. Objects on kitchen table rattling! (Not to mention windows and walls). Conversation very difficult.

louder than usual rumbling, house is rattling

Rumbling and vibration all morning and through the afternoon - not a minute without vibration throughout the entire house - hard to get anything done

Extremely loud and strong vibration. Incessant roaring since early this morning. Rattles glasses and chimney flew.

SPL inside house increased by 19 dB during event. Highest amplitude centered on 28 Hz on spectrum analyzer.

high clouds, light wind from the NE. Loud enough to alarm a workman servicing my furnace.

Frequent rumbings, distracting

noise from the base, 'run ups', all day. I needed to where hearing protection to think or focus over my table saw. very disturbing. They're coming, they're coming, they're coming.

Growler flew just south of us. Vibration so bad windows and items on table and pictures on walls all rattled. Conversation impossible.

He second of three flights by Growler over my house. Incredibly stressful. Also before these 3 late flights, heard engine noise at least 7 times throughout the day. Interrupted my research work.

30 entries of huge blasts. A 10 hour day of noise. BLASTS INTERSPERSED BY PERIODS OF CONSTANT ROARING. This is the kind of thing I would expect a country like Syria to impose on it population. Barbaric! Thank you Larsen, Murray and Cantwell

There have been rumbles all evening and then growlers.

Growler jet flies directly over my house. Interups dinner conversation again so late at night.

Can't hear the TV

Outside with ear buds listening to a program and continue to be overwhelmed by noise pollution from Growlers in San Juan Channel and over Fisherman

bay. Navy's abusive action of citizens must be stopped. It's illegal to pollute.

Intermittent jet noise, various noise levels, often dreadful.

rumble frequently all morning

Dinner conversation disrupted by loud rumbling throughout the course of our meal

2 f-18's

The Navy needs to institute a noise abatement program like we have at civil airports. The article in the paper that stated that the outgoing C.O. of NAS Whidbey is a great steward if the environment is beyond absurd.

At least 10 flights yesterday and 1 so far today.

Noise over center of Lopez island

Disrupted my work conversation. Flew over my house along west shore of Fisherman Bay. Stressful.

Huge wall of sound - 70dBA inside house.

76dBA inside the house. Soooo loud outside - everything shaking

Loud disturbing rumble

loud enough to scare off our dog - windows shaking

76.3dBA - huge noise. Trying to work at home - very difficult

73.2 dBA Walking outside - had to come back in the noise was so intense.

76.6dBA More and more and more! Our legislators have brought us this war training zone

1:30pm Big Roar and disturbing vibration. A friend who lives on Davis Bay says it is like an earthquake each time. I could not agree more.

1:56pm A PROLONGED roar and rumble and vibration rolls through our home. Day after day. This is a war zone. This is abuse.

2:15pm The roaring continues. Our home vibrates from jet activity 14 miles away!!!! This should not be happening. This is WAR!

2:21pm The air assault continues today. Our house vibrates with the roar of a jet somewhere 14 miles away. taking off? I don't know, but it feels like an earthquake. The roaring and vibration is not just one or two seconds. It goes on and on.

2:23pm. Just finished submitting one report and now there is an even DEEPER rumble. The floor is shaking. This is a WAR ZONE.

2:26pm. The afternoon is filled with ROARING and our house vibrates. I am trying to do my work, my research and write reports, and I am constantly startled by BLASTS of roaring..walls of noise.

2:30pm ROARING and VIBRATION Continues. How would you like to be living in a state of continual earth tremors? that is what this is like.

4pm. In the Village: Loud roar in the sky, the air was vibrating. Clearly from Whidbey jets.

4:44pm. Inside the Library yet heard the roar and felt the rumble.

5:36pm. Outside in the Village. The air is filled with a wall of noise. Jet engine noise and the air vibrates.

8:45am. Roaring jet noise in the skies. Another miserable day. I am leaving, trying to find a quiet place.

9:22am. Post Office Parking Lot. Long deep rumble, roar and vibration in the air. Long long roar.

9:33am Ferry dock on Lopez. Huge roaring fills the air. Loud engine rumbling. Long and loud.

5:55pm. Outside the Galley in the Village. Loud BOOM and long roar in the sky.

8:33am. The bombing has begun on yet another day. Huge roar and rumble vibrates through my home.

9:12am the war continues. Bombed again. That is what it feels like. Rolling roaring thunder and just waiting for an explosion. House vibrates. I vibrate.

Sunny with a few clouds. Starting early, again. Went on most of yesterday loud with vibrations.

9:17am. Another roar and rumble with thunderous vibration. Now the air is filled with jet noise.

Another giant blast rolls in. Time to put on the ear protection. Very uncomfortable outside in the noise.

9:14am. This continues to be a war zone this beautiful Thursday morning. Home vibrates from engine roars. Long continuous rolling thunder. Lasts and lasts and lasts.

"Morning Blasts - another at 9:14am

72.4, 73.1 and 71.6dBA Will this be another day or relentless noise? WE NEED A SCHEDULE!"

9:23am The thunderous vibrations continue. A hideous morning. Being shaken in my own home. If this keeps up I will have to leave...But it always continues, so my hopes are useless.

9:26am. The assault continues. Another thunderous vibration hits us. A long shudder and roar.

9:28am Assault goes on and on. More roaring and vibration. I could just sit here at the computer and type in one bombing after another. While I type the roaring continues.

9:47am. ANOTHER in a long series of thunderous attacks on my home. Rolling and roaring for a long time. I live 14 miles away. Why do I have to be a victim of this?

9:53am MORE thundering vibration. LOUD and vibrating. This is continuous this morning. A day I should be outside and cannot. The assault is much worse when outside.

10:30am. ANOTHER roar and thunderous vibration. I can hear it over the radio, over the dishwasher running. The house vibrates with it. It continues,

rolling rolling thunder. We continue to be under attack.

10:33am Now here come the jets roaring over us. After their thunderous vibrating take off, they head straight for us. Disgusting.

10:39am The skies are now filled with the noise of roaring aircraft. Very unpleasant to be outside. Constant roaring.

11:04am Here come more jets roaring above and around. Very loud.

11:27am ANOTHER huge roar, rumble and vibration. Very distracting and disturbing. I am always wondering, is this an earthquake or what, even though I can be pretty certain it is Growler abuse.

11:33am. ANOTHER rolling thunder hits our home. SO LOUD! Prolonged roar and rumble. This is not a small think. It is jarring.

11:41am The bombing continues. Another round of roar, rumble, vibration. It is so upsetting. Always startling, Distracts me from my work. Makes my heart race.

11:45am. ANOTHER roar, rumble and vibration. This has been a horrible morning. My hopes for a quiet day appear to be futile. I always think it can't get worse, but it does. It goes on and on and on. Despair.

12:02pm. ANOTHER roar, rumble and vibration. This is torture. The house shudders. I am so distracted. I never know when that roar comes that makes me jump.

12:18pm Jet roaring in the skies. TOO Noisy.

1:16pm. The jet roar in the skies is TOO LOUD. CONSTANT NOISE and roaring. This is not the jewel of the Northwest. This is the Hell of the Northwest.

6:47pm VERY LOUD Jet roaring and screaming above us. I did not go outside to look because I was busy, but it was loud enough for me to have trouble hearing the conversation on my conference call.

Very disturbing noise, seems to go on almost daily. I don't mind the civil aviation noise here, at least they have a legitimate purpose.

8:45am. Another day begins with HUGE roar and rumble and house shuddering with the vibration.

8:46am Following right after the other ANOTHER roar and rumble and vibration shakes our home.

9:14am. At the Southend store. Walked outside and was shaken by a tremendous roar and rumble. Went on for a long time.

9:40am At the ferry dock on Lopez. Huge roar coming up from the "south". tracking the inland water, it seems. A pounding deep roar. Growler activity.

Extremely loud, house shaking rumble. Either the jet engines being tested are getting bigger (and louder) or my poor cabin is finally succumbing to the relentless onslaught of low frequency blasts from the Navy.

Vibrating chest and ears

Very loud disruptive and painful to ears fly over

"growler flying low over Lopez Hill

two different times"

Absolutely deafening noise from jet directly over my house by Beach on west side next to Fisherman Bay and up the San Juan channel toward. Loudest jet ever heard here - since Growlers started flying from Whidbey. Very upsetting.

Our home shook as another Navy fighter flew near it.

Cover-your-ears level intensity. Window and object rattling. Repeated at 8:43 and 8:46pm. Duration greater than 30 seconds.

Horrible roaring, vibrating, dreadful noise and vibration. Cannot believe this is allowed. This noise destroys all normal well being.

The noise was unbelievable head vibrating and ground shaking, both inside and outside of buildings in the village!

loud jet noise over the southwest side of the north end! flying over the area for several minutes

Ongoing super-loud rumbling. Extremely well-insulated house seems no defense. Overcast. Little wind.

"Growler engine runup.

Windows rattling. Table shaking in bedroom. 10:00 PM, FFS!!!!

Low flyover

Low altitude and very high thrust

My windows are rattling and my dinner time is being disturbed after a long day of work.

aircraft above clouds

The last few weeks have been brutal but I have been too busy to fill out this form. Today the noise of a plane was ear splitting and yesterday the rumble from testing went on for hours. I am so disturbed and upset by the noise.

loud rumbling and vibration starting at 7:30AM continuing to now-evening. Activities disrupted all day. Sounds like an earthquake!

Loud rumbling from engine run-up entire day waking us at 7:30 and continuing still through dinner and now bedtime!

R U kidding? Constant roar at 4:30am? Super-insulated house, triple-pane windows, backdrop to the wind.

How long is this going to last? Amazingly unaffected by the very gusty winds.comstant loudness.

I've been awake now for 20+ mins--constant loud roar that even the high winds do nothing to mask

Still rumbling-- well over 1/2 an hour straight

Okay, maybe what I heard last night was not you guys--I'm not usually awake at 4:30am. If I was mistaken, I apologize....

Completely drowned out the music I was listening to INSIDE; walls and windows rattled.

Takeoff or runup noise. Very loud, especially in the 70 to 125 Hz frequency range.

The windows of my residence are rattling. I am working at home today and finding it extremely difficult to concentrate on my work and I am losing valuable productive time that translates directly into my earnings.

It has been rumbling awhile, some much louder than others. Puts a person on edge.

Highest amplitude at 43 Hz. Windows, glasses in cabinets, and silverware in drawer all rattling. This sucks.

Audible inside; loudest sound in the environment

Disrupting rumbling

More of the same. Takeoffs / runups. Lots of low frequency noise and rattling walls and windows.

8:35am. Yesterday was bliss. Quiet. Now, this morning, the huge roaring and vibration penetrates our home again.

I was working in my orchard when 2 jets flew over and I had to stop talking to my friend and hold our ears for 3 minutes. The sound was deafening and this has been going on all day and yesterday.

low flyover

When can we expect your hotshot children to learn how to fly their toys respectfully. I have 25,000 hrs in jets. Your children suck.

EA18G overhead WSW-bound at high thrust and low altitude

EA18G overhead WSW-bound at high thrust and low altitude

Many very loud jet noises. Even heard a very loud one in Lopez Village at noon, so not just the southend is being blasted

Two Growlers in formation NE-bound

8:45am Excessively loud jet with a very long roar broke the morning quiet. Cloudy, so could not see, but the noise piercingly penetrated our home.

8:47am. yet another huge jet roaring above us in the skies. VERY LOUD. Growler sounding because of the LONG roar.

Loud over Village where it is not supposed to be

8:21am. Huge roar and vibration shuddering across our property and through our home.

8:24am. ANOTHER roar and rumble and vibration hits our home. Is this going to be another day when I cannot concentrate on my work in my home office? It never used to be this way.

10:18am I have to wear noise-cancelling headphones in my own home in order to avoid the distraction of the jet roaring. What gives the Navy the right to invade my home? Control your noise!!!

10:20am. Though I wear noise-cancelling headphones in my own home so that I can concentrate on my work, I can still feel the vibrations shuddering through my home and body. Jets roaring this morning.

11:11am. More rumbling and roaring of jet noise into our home.

11:17am. MORERoaring and vibration rolling through my home. The house vibrates. I feel the shuddering.

11:21am NASWI is really rattling the airwaves. I am shaking, my home is vibrating. Jets taking off? Engine run-ups? They should be smart enough to mitigate this thunder. Not so smart, are they?

11:30am. This is absolutely thunderous. The house vibrates as the thunderous roar rolls through. Long rolling sensation, like a train going through the

house. The Navy is invading us, treating us as collateral damage.

11:54am. Another rolling vibration. The roaring has been continuous this morning. Not a good day to live on Lopez island. NASWI continues to invade us with roaring jets and thunderous vibrations.

1:42pm Characteristic loud growler jet roars somewhere overhead. I am inside, but can clearly hear the roar of the jet, the long long long roar of a growler.

8:07pm Characteristic LONG LONG LONG LOUD LOUD LOUD roar and scream of a growler flying directly overhead this evening. The noise was disruptive.

8:20pm Rumble roar and vibration from some jet action coming from Whidbey this evening.

9:14pm HUGE rolling thunder and vibration at 9:14pm!! What is going on? Now is the time for rest, yet my home is being hit by engine ROARING!!!! Now here comes a jet zooming overhead.

4:25. Loud rumble heard and felt. Jet rumble. jet noise permeates the skies.

Utterly dreadful noise and vibration. Very disturbing to think noise like this is allowed. This noise is dreadful and deeply disruptive. Deeply disturbing.

Saturday 9:54am. HUGE roar, rumble and vibration are shuddering through my home. Tremendous and prolonged.

Saturday 9:56am. ANOTHER huge roar and vibration hits our home.

Saturday 10am. ANOTHER in a series of huge blasts of vibrating thunder hits our home.

12:20pm. In the Village. Experienced a terrific rumble and roar and the air vibrated. Same experience as the jet roaring on the South End.

12:32pm. Once again in the Village felt the air vibrate with a huge roar, same roar as experienced

on the South end from Whidbey jets. No0w it is all the way into the Village.

Saturday afternoon. Jet noise pretty much all day today as jets roared around somewhere. Clearly heard though not seen. growlers are TOO LOUD for this region.

On what should be a beautiful spring morning filled with birdsong, instead there is a dreadful roar and rumble of navy jets. This noise destroys ALL peace.

Very disruptive

Loud low Growler over North Lopez

Extremely loud low flying Growlers with landing gear down over my house.

Extremely loud low flying Growler with gear down over my house. Lots of rumbling in the distance.

E-18 flight pattern right up north on San Juan Channel. So loud that interrupts dinner conversation. Why do they insist on flying so late - what's the purpose?

Multiple, low flying, very loud Growlers with landing gear down over our house.

"deafening noise all day

observed plane flying with wheels down"

noise all day long and very loud in afternoon

We love the Navy. Please keep our brave and beloved Navy Pilots safe. Fly Navy!

We had to shout to talk at Midnight's Farm leaving yoga.

Low jet overhead

Very loud and disruptive.

Two Growler Jets flew directly over me and the causeway on Bayshore. Flew very low then banked to east across Lopez Island. Noise so loud it startled me.

Only minutes later after flight of 2 Jets - this jet even lower and louder flew over causeway. Noise from jet so loud it was as if I was standing behind a commercial jet taking off on runway at Seatac. Painful to ears. Unlawful environmental noise.

Two fighter aircraft in tandem and then a solo coming from south and then turning east

jets flying all day - constant noise

11:32am. Ripping and roaring noise of jet above. Noise penetrates above the sound of washing machine and music on the audio. Cloud cover, but distinctly a Growler flying low.

Aircraft directly overhead. Had to stop meeting until flyby ~ 1 minute had occurred

Noon. Extremely loud Growler Jet roaring above. Long long and loud loud roar very characteristic of Growler. Broke right through the regular indoor household sounds. penetrates everything.

12:18pm. Jet noise as several jets have been roaring around the skies over the past 15 minutes. Too LOUD. Signature Growler roaring.

1:15pm. Excessively loud jet roaring. Very long roar, just keeps roaring and roaring and roaring above, as if it is circling the area. Loud inside the house. TOO LOUD outside.

2:37pm here comes ANOTHER growler roaring overhead. Their roar is so characteristic. LOUD LOUD LOUD and prolonged, as if the jet is circling above.

2:49pm. Totally unpleasant to be outside. The jet roaring in the skies is almost constant. The noise blots out all normal sounds, as if we are living right across from a train yard. these jets are TOO NOISY for this area.

3:13pm. MORE LOUD jet noise fills the skies. Growler jets emit loud deep roar, and it lasts a long time. Not at all like other aircraft that flies above and near us. The Growlers are TOO LOUD. Disturbing and distracting.

Noise so deep it jars every aspect of being. Allowing this sort of noise in the environment is antithetical to health and well being.

Loud aircraft overhead

This is a deep rumble that doesn't sound like FCLP's continues on and on -

Aircraft flew overhead at low altitude and speed with a very high thrust setting.

Low, slow, dirty, flying northward overhead. Under the overcast, wind insignificant.

10 different noise entries 69.7 - 78dBA

LOUD!!!

LOUD

Periodic jet roaring today. Tonight there is a consistent rumble and noise in the sky. These Growler jets just make too much noise through deep deep roaring. TOO NOISY!!!

1:10 - 85dBA, 3:46pm - 75 flyover, 7:07pm - 8:30 pretty constant roaring 67.6 - 76dBA Probably FCLP's

Loud rumble and vibration heard. We usually don't have vibration here on N Lopez but I heard my house rattle! Lasted for a whole minute!

78.6dBA inside measurement - too loud to be outside.

Overflight - 90dBA (inside measurement. I was walking - very uncomfortable outside.

1:35pm. VERY LOUD two growlers clearly visible flying over Mud Bay. LONG and prolonged scream and roar. TOO LOUD!!!!

4:33pm Very loud jet roaring above us. A long roar, usually indicative of a Growler. Cloud cover, so cannot see.

7:53pm. Bothered by an extremely low-flying LARGE plane overhead. Don't recognize the type of plane. Big and loud because it is flying so low and slow.

steady roars 65 -70dBA inside

85dBa in the garden

Also 3:52pm, 4:02pm, 4:12pm, 4:14pm, 4:22pm, 4:24pm, 4:31pm - very low, many with landing gear down, flying west to Iceberg, turning south over Straits, repeated pattern. Other times later in evening.

Going on since the top of the hour at regular intervals

Giant blasts, working in garden. Huge sound pressure on ears.

continuous blasts - too loud to be outside

WE NEED A SCHEDULE!!!!!!

As if on tarmac at SEATAC directly behind 747 taking off for 3 minutes - that's the bombing of sound we heard & felt. Even covering ears didn't keep this from hurting. Plane very very low, landing gear down, from E turned S over Straits.

Aslo 12:12pm, 12:25pm, 12:29pm, 12:37pm, 3:06pm, 5:15pm and a few later.

2 - Growlers overhead turning east = 88.7dBA INSIDE THE HOUSE - deafening!

Very loud, disrupted early sleep, flew over west side if fisherman bay noise 9:14-9:18

11 roars each lasting 2-3 minutes ranging from 65-79.3dBA. Each roar punctuated by silence. Engine testing? Why at night!!!!!!!!!!!!

Why did they wait until 21:30 to do this?

Repetitive. Growlers just south of here westbound at low altitude. Very loud, especially low frequency oise when aircraft have passed. Windows rattling, etc.

Inside measurements. 9:05am Blast, 9:25am Another blast, 9:30am overflight 79dBA 89dBC - everything is shaking, 9:32am 70dBA, 83dBC, 9:42am 66.8dBA, 9:46am 72dBA-84,4dBC. Horrible.

I'm inside a room with acoustic treatment, with noise-isolating headphones on (29 dB rating),

listening to music, and I can hear Growler noise over it all.

Big blast! 72 dBA inside the house - 85dBC . Wouldn't a schedule be nice. Is this the beginning of a horrible afternoon or just another jarring blast?!!!!!!!!!!!!!!

11:45am. Standing outside the library in the Village. Distracted by very loud jet roaring above. Cloud cover, so could not see, but it had the signature long and loud roar of a Growler.

8:52am SUNDAY MORNING. Skies are rumbling with deep jet roaring. Not regular airplanes, but rumbling roars.

7:43am LOUD roar, rumble and vibration of jet engines. A beautiful morning. A loud, disruptive ROAR.

8:38am. Loud jet roaring in the vicinity. Too loud. Sounds like growler roaming around.

86dBA in the house!!!!!! Everything shakes. Our tax dollar at work.

Two Growlers over flight (85dBA inside) headed east. Very disruptive.

3 noise events, 62.6 - 75.4 dBA inside measurements more noise, again.

4 - huge blasts each lasting a minute or two. Are these engine testing pointed at Lopez? Whoud a hush house make a difference? 68.7dBA - 108.6dBA inside measurements. Unbelievable loud . . .

Off and on most of the day starting around 0900

79.9dBA outside. Huge Blast. I was walking - The week begins with noise.

8:40pm. It is such a nice evening, but no use taking a walk outside. The skies are filled with jet rumbling. Deep, pervasive, NOISE.

9:38pm. Loud jet roaring in the sky. Noise penetrates our home over and above the TV. Disturbing and distracting deep and constant roar.

9:40pm. There is ANOTHER ROAR. Very loud jet engine roaring. Consistent and pulsating.

9:51pm. Loud jet roaring fills the skies. A wall of noise is hitting our home in waves. Cannot have the windows open. This is disruptive.

9:42pm. The loud roaring continues, following other vibrating roars. It is a wall of noise that penetrates our home, above the normal household sounds. There it goes again. Jets taking off? Engine run-ups?

Intermittent roaring. DREADFUL NOISE.

8:46am. On the phone at home when conversation was disrupted by very loud jet noise. Sounded like a loud growler overhead. Not one of the small planes. VERY LOUD ROAR. I could not get to a window to see out.

9:37am Disturbed by constant roaring and what sounds like jets taking off. Not sure. But the noise is CONSTANT.

10:08am. The rumbling continues. Very noisy outside. Unpleasant to be outside.

10:20am Extremely loud jet roaring overhead. LONG LONG ROAR. Deafening. We were doing a tricky project outside and could not hear each other. Dangerous. TOO LOUD.

10:05am LOUD JETS roaring. First the rumble, then the jet flying roaring in the skies.

11:05am. Roaring jet noise disrupts the air. Difficult to be outside.

11:36am. More roaring. jets flying loudly overhead this morning.

2:43pm. The day has been full of noise. Jet engines roaring for take-off, I think, and jets roaring in the skies. So noisy outside. I just hate to go outside when it sounds like bombers are bearing down on us in minutes. Roaring right now.

6:32pm. There is a persistent and disturbing low rumble from Whidbey this evening. Sounds like imminent thunder. Always a noise FROM WHIDBEY. IT NEVER USED TO BE THIS WAY.

The roaring is continuous this evening. It penetrates our home. Having given up any idea of sitting in the yard this evening, it is just as bad inside our home. The GROWLERS are TOO LOUD. The roar is too deep and penetrating.

6:08pm Growler jet flying LOUDLY and LOW over MUD BAY. Very Loud screaming roar.

7:01pm. The jet roaring fills the skies and penetrates our noise. Jet engines running? Jets taking off? It disturbs outside activities.

9:35am. Deep roar of jet engines and long vibration hits our home.

9:49am. I am trying to work at home which requires some concentration. We are getting hit by roaring and vibration as, what, jets are taking off? I cannot concentrate.

9:54am. The roaring continues. Vibrations hit our home.

9:57am There goes another ROAR and VIBRATION. How can I concentrate on my work when this disruption is occurring?

10:02am. The roaring continues. Will this be all day? Do I have to leave and go to the library so I can concentrate? I am far away from Whidbey, why are we being assaulted?

10:08am. After an assault of continuous roaring and vibrations, we have jet noise overhead. Cloudy. TOO LOUD and PROLONGED wall of noise.

Totally unpleasant to be in or outside this morning. Jets roaring in the skies. Jet noise fills the air. Why don't they just fly over Whidbey Island, the island that loves them so much? Why fly over the San Juans?

11:34am. Had to wear headphone this morning to block jet noise while working. Took them off the answer the phone. Jets still roaring in the skies. No peace. Jet noise penetrates my home.

2:16pm. A very noisy aircraft above. I could not see it because I was on the phone and not looking out the window. Very noisy and hard to hear the person on the phone.

Clearly see two Growlers, no problem with visibility right over Lopez Village. Had to stop my conversation at work.

Very loud flyover on north end - west to east - low to the islands under low cloud cover - 3 times in 30 min

Loud an directly over Lopez Hill, Lopez Island, WA

1:36pm Very loud jet in the skies. A long long roar. Goes on and on. Signature roar of the Growler.

3:01pm. A HUGE and sudden roar startled me. I raced outside to see what was wrong, think a car had gone off the road. It is a growler, flying from the NW toward Whidbey. A PROLONGED and roaring wall of noise.

Extremely loud. I did see the aircraft, I don't know the elevation.

11:39am. Growler jet flying over the west side of Lopez. Heading north. Loud roar. Heard it coming before I could see it. Loud roar continued. Disrupted conversation.

3:04pm. Loud jet roar somewhere above startled me and diverted my attention from my work. A very loud and continuous roaring.

3:16pm. Growler jet flying over Mud Bay. TOO LOUD!!!!

3:18pm. ANOTHER LOUD Growler jet flying over us. TOO LOUD!!!!
