

Jet Noise Generated by Naval Air Station Whidbey Island

Report: September, October, 2025

Does the Navy have the right to invade our homes?

We are under assault by Growlers as I write this!! Multiple Growlers are overflying our home with maximum jet exhaust noise. Currently we are being overflown approximately every one to two minutes. We have had seven low overflights in past 1/2hour.

Once the jets started flying 320 I had to turn up the volume on my audiobook to a level that seems dangerous to my ears. I am inside with the doors and windows closed. This is ridiculous.

Growler screaming over us!!!! S. Lopez. The sky is filled with jet roaring. 11:53am. Inside, our visitors who were asking about living on Lopez are now saying "NO WAY". Deafening. 11:54am. 9/17. Thanks to the untrustworthy Navy for invading us.

The noise level from the growlers has gotten intolerable over the past few years...but is so bad this summer we often have to shut all doors, windows and come inside and even then it rattles our house. RIDICULOUS AND ANXIETY PROVOKING!

Growler roaring over Mud Bay, Lopez. 10:02am, 9/15. VERY LOUD. Drowned out music I was listening to. That is home invasion. The Navy might say it has a right/need to fly in the skies, but it does not have the right of home invasion.

Your plane flew so close to my home that it rattled my bed-stand. How dare you cause so much disturbance to our lives. Whomever was in the aircraft came too close to Marrowstone Island.

8:59pm. Sept 2. On the heels of a Growler a minute ago, we now have another one ripping up the sky over South Lopez. VERY LOUD and UGLY noise. Will we be able to sleep tonight with windows open? The Navy is invading our home.

It is a beautiful September evening in Anacortes near the ferry and I need/want to relax to recharge so I can work tomorrow but there is this terrible deep shuddering thunder vibrating through my home. It is impossible to be at peace. Abuse

10:55am, 9/17. Deep throbbing prolonged roar from Growler activity at Whidbey. S. Lopez. I wonder if Larsen, Cantwell & Murray know what it is like to be in your home & have body and home vibrate from waves of jet engines' noise. 14 miles away!!!!

Since 2015 jet noise reports are submitted by residents of the Salish Sea region and Olympic Peninsula, using the San Juan County Aircraft Noise Reporting Website. This document provides data broken out by reports generated inside San Juan County and outside.

Beginning on page 11 please read the comments made by those who submit noise reports and feel the frustration, concern, and anger.

Understanding This Report

The San Juan County Aircraft Noise Reporting website was approved in 2014 by the County Council for people to have a reliable place for recording their reports and comments. Data reports began in 2015.

<https://gis.sanjuancountywa.gov/aircraft-noise-reporting>

Who submits reports? In October, 2019, permission was given for people outside of San Juan County to use this noise reporting website. This has enabled reports from the wider region.

Correcting Location Data

Beginning in January 2023, data reporting addresses a problem with the website's capture of location data. Many reports default to a location in the center of San Juan County (SJC) when the person does not provide their location. This artificially raises the number of reports attributed to San Juan County that actually come from outside SJC.

Here is what we are doing. Some reports with invalid location data can be corrected by their comments or zip code. Next we look only at reports with valid locations to determine the normal portion of "inside" and "outside" of San Juan County. Finally we assigned the reports with invalid locations to "inside" and "outside."

Future reports likely will show more reports from outside of San Juan County than previously. Considering the smaller population base of San Juan County compared to nearby counties also affected by Navy jet noise this is not surprising. This has been the trend since 2019 when we opened reporting to outside SJC.

Comments Submitted with September, October, 2025 Reports

NOTES:

Some reports indicate decibel level. Lawnmowers, for example, generally produce 96 dB. How would you like to have that running inside your home? Noise over 70 dB for a prolonged period of time is harmful to your ears and can cause permanent hearing damage. Noise over 120 dB can cause immediate harm to your ears.

Some of the people who submit a noise report also list their home address or phone number or e-mail. In this report, those personal identifiers are deleted/modified, as are expletives.

In bed, have early morning briefing at work and now jet noise?! It's not fair.

100+ decibels. Just got home and my ears are already ringing.

I am trying to work from home. 10k work project and I can't hear.

Almost continuous this morning. Just.Go.Away.

Anacortes towards Washington Park, Tuesday mid morning to mid day so far is disturbed consistently with waves of deep shaking grumbling shuddering noise. It feels like an earthquake or an avalanche nearby and the body reacts accordingly.

Another damn day of jets wrecking the peace over beaches and parks. Nature's not your airshow—take the noise elsewhere. Unsat and infuriating.

every night wakes me up very loud

Jets flying out of flight path again. Jets should not be flying over Greenbank farm and south. Please stick to your flight path. We bought a home in this location because it was not on your flight path.

Super low-flying massive jet over a heavily populated area. It's like nobody gives a s*** anymore

The Growlers were loud and low last night over Orcas. WAY lower and louder than they have been all summer, at least 5 x throughout the evening into the middle of the night. THEY ARE WAY OUT OF THEIR DESIGNATED FLIGHT PATTERN TOO.

Watching the jets flying over making extremely wide turns Terry and Main street. As they come around they accelerate. Decibel recorded at 112.

Extremely loud, persistent Growler noise, yesterday, the night before and today. I have a headache from trying so hard to tune it out and its definitely robbed me of sleep & boosted my blood pressure. The Navy clearly doesnt care.

AGAIN, rumbling, vibrating waves of noise coming from Whidbey. Very loud and annoying. Like having a heavy coal train running right outside our home. South Lopez. 9/16. 7:39am. Why does the Navy have to be a bad neighbor DAY AND NIGHT?

How are people supposed to sleep so they can function the next day with this going on?

I have to close my windows for some peace and quiet

Impossible to focus on anything all day due to loud jet noise and now impossible to sleep as well! The health consequences are mounting.

Noisy enough to make me anxious

Once the jets started flying 320 I had to turn up the volume on my audiobook to a level that seems dangerous to my ears. I am inside with the doors and windows closed. This is ridiculous.

Too loud even indoors. They shouldn't be flying over the hospital!

While supporting an individual at work at Pacific Rim Institute, the jet noise became so intense, both sound and vibration, that he could no longer properly function to complete the work task and ended his shift early.

Growlers overfly neighborhood , making excessive noise

Very loud jet. Stopping conversations and calls.

Past two days, both the jets and the large Navy planes have been flying several hundred feet above houses in NE Oak Harbor. The loudness and unpredictable flights cause brain fog and anxiety. Dogs are barking in response. Their ears are in pain.

3 Navy Growlers passed overhead. We had to discontinue our conversation until the jets had passed by. We were on Aleck Bay on the southend of Lopez Island.

Couldn't hear husband or tv. Rattled window and dishes

Loud roaring Growler over head. S. Lopez. When the doors and windows are closed, the washing machine is doing its noisy thing, and the TV is on...and the growler roar still supersedes all of that, you know that is unacceptably loud.

South end, Lopez. Apparently, the Navy has decided to fly its fleet of growlers over Lopez. One after another. Here's another one. Roaring over us.

TWO GROWLERS ROARING OVER MUD BAY, LOPEZ. Deafening. I was outside and had to race inside to protect myself. 4:54pm. 9/11 Moving south to north. Why? Just having fun? Just touring? What kind of "training" is this - over a residential area?

9:25pm 9/11 South end Lopez. The growlers are roaring. The noise is very loud. Disrupting my ability to rest, so I get up and make this report. The Navy has reasons for late night bombing?

The roaring and rumble of the Growlers from NASWI continues. 9:43pm. Even closing windows does not keep the unsettling noise out. When will the Navy allow me to sleep? South end Lopez. September 11.

Disruptive

Woke out of sleep in a panic it was so loud and out of nowhere. Not a

typical sound; this sounded faster? Smaller? Doing diff types of maneuvers. Too late for this

It's an otherwise peaceful evening in Anacortes near the ferry terminal. Trying to go to bed but disturbed by horrible sounds echoing across the water periodically roaring in such a threatening manner. Great for terrorizing an enemy...

get f***ed

Evening horrible deep shuddering thunder- like continuous earthquake. Anacortes September after 8pm. So disquieting- raises inner feelings of dread. Utterly unhealthy to live with this.

Just a Fall Tuesday, Anacortes near the ferry terminal- ruined by a few screaming metallic overflights and ongoing sickening deep, shuddering, creaking thunder from the south. These are sounds and sensations of destruction as earthquake-avalanche

Horrible threatening thunder from the south, here in Anacortes near, near the ferry. Thursday evening - time to wind down for bed but it sounds like the world might be ending to the south. So very disquieting. Abuse of civilians by the navy.

Winding down and ready for rest in Anacortes near the ferry terminal and it sounds like an earthquake, deep, deep shaking of my home and myself, repeating again and again. This is extremely disturbing. 9:20 pm presently. Navy abuse of civilians.

Low flying aircraft

They are still continuing to rumble loudly and have been interrupting my nighttime routine for an hour now. So very frustrating!

Too loud, too late.

This noise is crazy loud. I'm in my house on Orcas Island and can hear it very clearly. With full activity and lots of stuff happening in my own house. The noise is disruptive and needs to stop.

After a brief respite from Growler noise and circling conducting landing drills, they have begun again. Growler noise hour after hour today!

Flights so loud kids can't sleep. School night. During. They are flying rounds now over Camano when they never did before and they were too loud even before. This is so wrong.

Growlers circling for landing practice causing great disturbance to my family. Very frustrating!!

Growlers circling for landing practice. Very loud!!

Multiple Growlers circling making roaring noise. They began circling landing practice causing distress.

Repeated low flights over Camano as we are trying to get kids to bed.

They have switched flight patterns and are not following their scheduled patterns. We feel targeted and people are afraid to speak up because of it. We should not fear the Navy.

Trying to do homeschooling. The kids can not focus and keep stopping making comments about jet noise

"Really!!!!!! It's children's bed time again!! WTF

Shame on you!!!

are we at war? wtf

Just NO!!! So insanely loud!!!!!!

This is not scedualed???

WTF!

Why does the Navy lie when reporting 'none' re:OLF flight schedule?

Jets are flying low and they are off the flight path. Greenbank farm and south should not be getting jets flying directly overhead.

This has been going on and on and on and on and on and on and on.
Just stop it.

Sept 2. 10:03pm Ear splitting, Deafening, Growler over South Lopez.

Had to rush inside. No way to be outside now.

Two hours right over my house

F*** f*** the navy f*** the navy f*** the navy f*** the navy f*** the navy f*** the navy navy f*** the navy

3 hours straight. Inhumane

Right over my house. I don't see any flight path maps that put them directly over my house but they consistently turn right over my house which makes the noise even louder. 20 minutes in and it's already fraying my nerves.

Now it's unbearable inside the house. Very stressful

One hour and counting. Very stressful

1-1/2 hours and counting.

Again and again ridiculously too loud. But destroying the environment, livability, and being able to access living in one's home is serious business. NASWI is no respecter of the rights of others or other living beings.

Relentless 😡

After 10:30. Still blasting the region with sound that prevents sleep

Jets are soooo loud. You can see the like a hornets nest flying. We are not even the same island. Kids have school and trying to have out door activities. This is terrible. Growlers are not jets for this area.

Can't be outside without large headphones to block the sound that would blast an eardrum!

Flying over the elementary school and middle and high school as well as hospital. This seriously should be illegal.

Glad our children are so cherished and cared about. I'm sure they can't hear a teacher nor hear their own thoughts with growlers flying circles over their school.

I guess the new flight path is directly over the schools and hospital. So humane!!!! 🇺🇸 🇨🇦

Near OLF Coupeville, NASWI is unconsciously contributing to its environmental destruction with the rationalization that the Growler jets are protecting us.

They are flying circles over the hospital! So loud!!!

This is torture, interrupting our activities with NO warning and wasting taxpayer dollars when the government is shut down.

Navy's making unbelievably loud flights over Mt. Vernon area around 11:15am. Been going on for at least 10 minutes. It's impossibly painfully loud.

F*** the f***ing navy! F*** them right to hell. I'm praying for explosions

Hurt my hearing aids.

I honestly can't give a time. It was ridiculously loud ALL DAY and most of the evening on 9/23, including late evening, maybe up to 11pm. And then here they are again - all morning so far. I don't even live in loud noise map area. AWFUL over 24 hrs!

Second pass over Mt. Vernon five minutes later (12:30) by those incompetent b*****s. The sooner we scrap this whole program for more effective drones, the better.

Extremely loud jets flying over Mt. Vernon area at 2:20pm.

Incompetent Navy s*** are still out flying their outdated noise making torture devices over Mt. Vernon. They have no good reasons to be doing this except they're b*****s.

Navy being domestic terrorists over Mt. Vernon. Multiple times today. Enjoying my lunch with earplugs again.

Navy terrorists starting bright and early attacking the US citizenry. Someone should....convince them that their little noise making toys are already outdated)

Holy crap, what are you s***bags doing up there? Go fly in the desert, you b*****s! Enormously loud flights at 3pm over Mt. Vernon

I'm looking forward to when it's revealed this entire Growler program was an incompetently run waste of money and everyone involved gets court marshaled in well deserved disgrace.

It sounds like a war zone in Mt. Vernon right now? How many jets do these s***bags have in the air right now?

My ears are killing me. I had to have my earplugs in for most of the day yesterday and now it's hurting to put them in today. Please, Navy, just give us an accurate schedule so I can know when I have to wear these things!

The anti-hero Navy pilots were out attacking Mt. Vernon with their sonic weapons again at 11:45am.

This has been a really annoying week with the Navy flights. It's rare to go outside and not at least hear the rumble. They're constantly flying. I'm in a panic if I realize I don't have my earplugs with me.

Two in a row. Deafening.

Deport the Navy! They're the real criminals

Do you f***ers ever quit? Early yesterday morning, all day, and into the late evening. All morning today.

I hate the Navy. I REALLY hate them. I used to respect our military, but years of seeing how they've been handling this Growler project has shown they really don't give a s***. Just want to play with toys and kill people.

More wasteful and unnecessary torment from the incompetent and inconsiderate US Navy at 2:50pm over Mt. Vernon

The Navy leadership are worthless, outdated, selfish s***. And their toys are outdated too. You'll all be replaced by AI and drones soon enough.

Less tormenting civilians

The pieces of dogs*** running our local Navy branch are commanding them to attack the citizenry of Mt. Vernon again. 1:30pm

Unnecessarily loud flight over Mt. Vernon at 5:10pm

Navy still torturing Mt. Vernon area. It's been nonstop pain from these wankers all week

S***. S***. And S***! Whoever is flying up there right now is a s***bag or whoever told them to fly this low and loudly is a s***bag. 3:05pm over Mt. Vernon

STOP! WTF? It's constant debilitating noise out here right now. All day long. My head is splitting and my ear canals can't stand the earplugs any more

There's the s***bag Navy attacking the citizens of Mt. Vernon with their sonic weapons again. It's 10am and I'm already planning a full day with earplugs.

Those Growlers sure are worthless for their intended job, but they're amazingly effective at torturing US citizens. Good job, Navy. You're the bad guys.

S***bag ant-hero Navy out tormenting citizens again. Around 12:50pm.

Wouldn't be a Tuesday without the US Navy torturing the citizenry. Another excessively loud flyover of the Mt. Vernon area around 2:30pm.

I see the (mostly worthless) schedule the Navy posted for today. "Wed, Sept. 24 Morning, the Mid-Aft to Night" so basically "sucks to be you ALL DAY LONG

Deport the Navy! They're domestic terrorists at this point.

I heard the Navy dumped a couple more aircraft in the sea. Keep going! Maybe start with the one that just flew over Mt. Vernon at 3:10pm.

Navy leaders are garbage people. I hope they get brought up on charges and spend the rest of their lives in a military prison.

Growler flyovers

Many other growler flights today

Rattling our windows and hurting my eardrums

Help! Every 2 to 4 minutes we have loud blast of noise from Navy Whidbey.

So sorry that someone shot Charlie Kirk, not acceptable, not what USA should be about, but the Navy is shooting us every few minutes, many times per day, many days per month.

I'm in autoreset mode

Extremely loud, south Lopez

Please shut the noise down Whidbey, go to bed. Go someplace more appropriate for this type of practice. Don't be all here within reach of N Korea or others. I want to go to bed but can't because of the Navy Whidbey noise level.

Growlers overflying our neighborhood

Growlers overflying our neighborhood repeatedly.

these flights harm children and the elderly. Clearly, there needs to be a class action, SOON!
