

## IT'S COME TO THIS...

“Here, despite a gargantuan administrative record, covering nearly 200,000 pages of studies, reports, comments, and the like, the Navy selected methods of evaluating the data that supported its goal of increasing Growler operations. The Navy did this at the expense of the public and the environment, turning a blind eye to data that would not support this intended result. Or, to borrow the words of noted sports analyst Vin Scully, the Navy appears to have used certain statistics ‘much like a drunk uses a lamppost: for support, not illumination.’”

*December 11, 2021, Federal Magistrate J. Richard Creatura released his Report And Recommendation to the court in State of Washington, et al., v. United States Department of the Navy, et al., Case No. 2:19-cv-01059-RAJ-JRC, declaring that the Navy’s 2019 decision authorizing the expansion of EA-18G “Growler” at Naval Air Station Whidbey Island (NASWI) violated the National Environmental Policy Act (NEPA).*

“Regardless of whether or not you support the Navy’s mission or its expanding presence in our public lands, waters, communities, and in the airspace above us, it’s good to take a rational look at how we came to have an electronic warfare range for the loudest jets on the planet over the quietest national park in the Lower 48.”

## Jet Noise Report January – December 2021

Since 2015 an increasing number of jet noise reports are reported by residents of the Salish Sea region, using the San Juan County Aircraft Noise Reporting Website. This document provides data broken out by reports generated inside San Juan County and outside.

With the addition of 36 more Growlers in 2019, the region has been bombarded. **The number of noise reports in 2021 exceeds the number reported in 2020 by 50%.**

### Comments begin on page 14.

- ✚ CAMANO: 120 dB on Decibel X Pro. Wheels down. Directly over house. Altitude less than 100’ over house. Total disrespect for US citizens!!
- ✚ OAK HARBOR: Driving home and feeling strafed by navy warplanes, so loud in the car, so close felt need to cover my ears repeatedly because of ow flying aircraft- while driving north on 20 on Whidbey. Dangerous stuff over people.
- ✚ FORKS. Second time today of deafening noise as jets circled over Forks town, over the A road and up the river. Possibly heading to ONP coastline. Why over Forks? Never wanted them here nor their war games.
- ✚ ANACORTES: Horrible deep thunder- can feel the floor of my home in Anacortes vibrating. So deeply disturbing- as if an earthquake was recurring- Humans are hard wired to feel uneasy with this shaking. 7pm
- ✚ LOPEZ: What appeared to be a single EA-18 aircraft flying south to north over southeast Lopez Island at 700 feet at low speed that generated extremely high energy percussion noise effects on my home (window and wall vibration). 5 events in 15 min

**Listen to  
the jet noise that we  
hear in our region:**

<https://sounddefensealliance.org/growler-videos-audio/>

**The Navy dismisses  
noise data:**

<https://www.seattletimes.com/opinion/navy-should-use-our-data-on-growler-noise-not-dismiss-it/>

#### **INSIDE THIS REPORT:**

-  **Annual Comparisons**
-  **Monthly Comparisons**
-  **Report by Location**
-  **Reports by Type of Noise**
-  **Reports by Day**
-  **Noise by Time of Day**
-  **Map of Report Locations**
-  **Comments submitted with each report, revealing human impacts**

The San Juan County Aircraft Noise Reporting website was approved in 2014 by the San Juan County Council for people to have a reliable place for recording their reports and comments. Data reports began in 2015.

[gis.sanjuanco.com/aircraft-noise-reporting](https://gis.sanjuanco.com/aircraft-noise-reporting)

In October, 2019, permission was given for people outside of San Juan County to use this noise reporting website. We are seeing an increasing number of reports from the wider region. This report is compiled by Quiet Skies:

## Jet Noise Reports - All Locations 2015 - 2021

This chart provides some background to the history of noise reporting.

Jet noise reporting began in 2014 when San Juan County implemented a website for reporting jet noise. Data collection began in 2015. In the Fall, 2019, access was expanded to people outside of San Juan County enabling them to enter jet noise reports with the result that the number of noise reports is increasing, as has the number of aircraft at NASWI. This chart provides the simple totals of all noise reports in the database since 2015 through 2021.

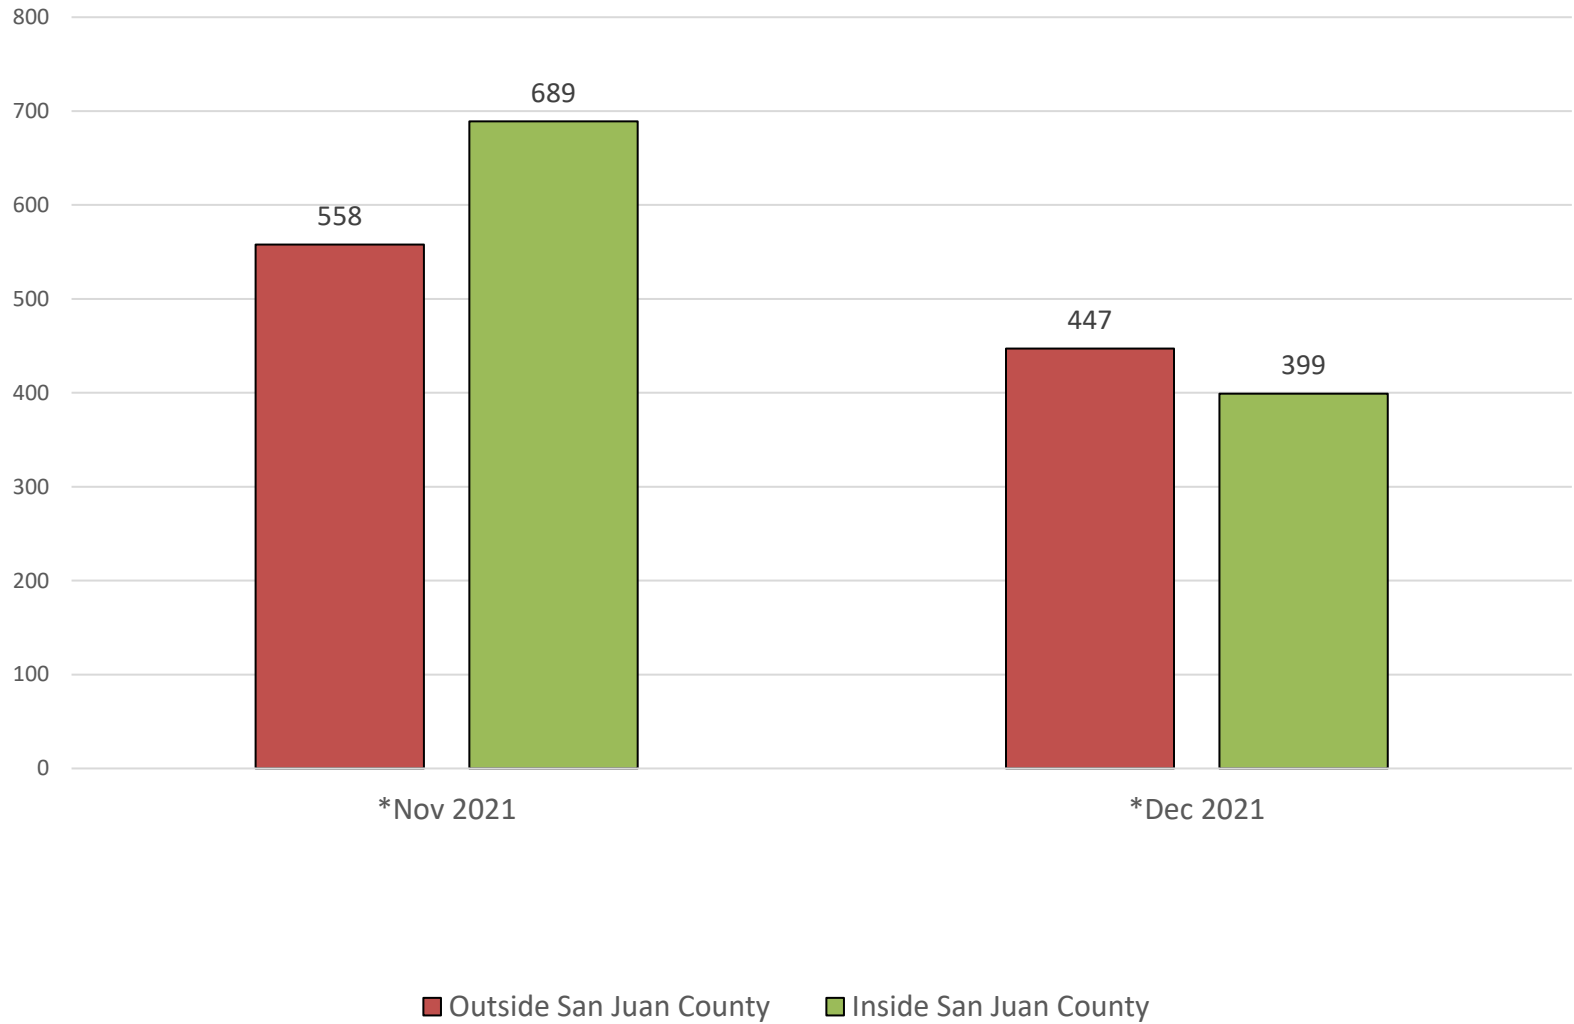

## Comparing Jet Noise Reports by Location 2019, 2020, 2021

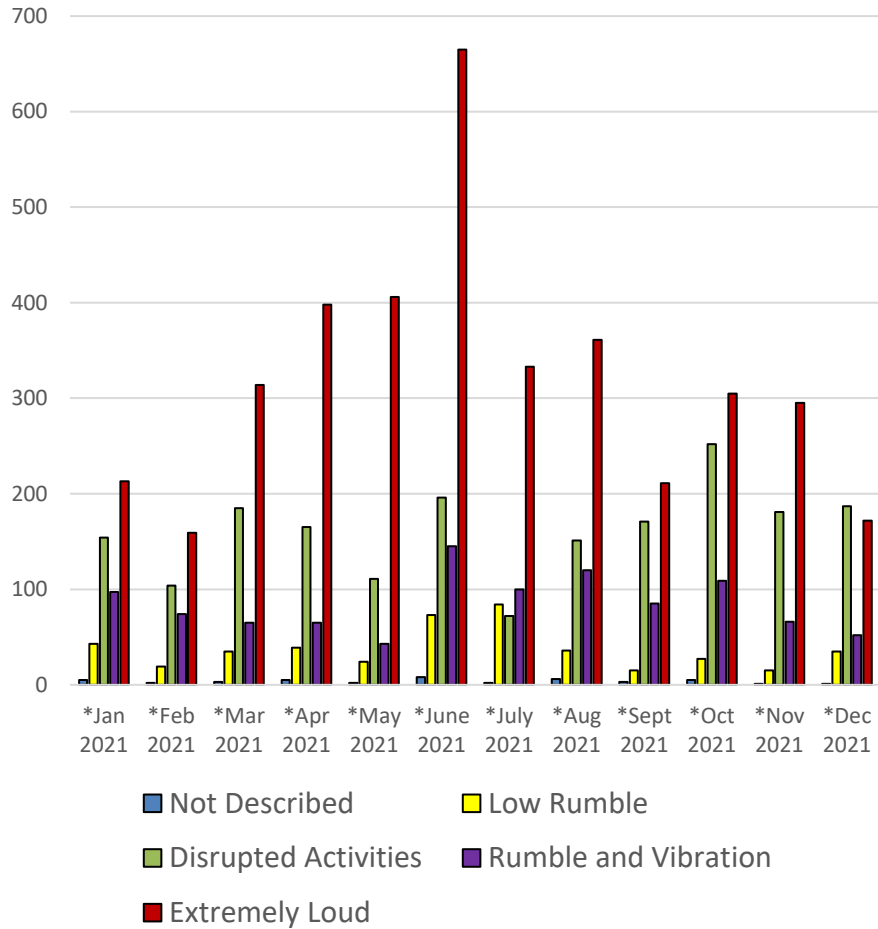

# Jet Noise Reports by Month 2019, 2020, 2021

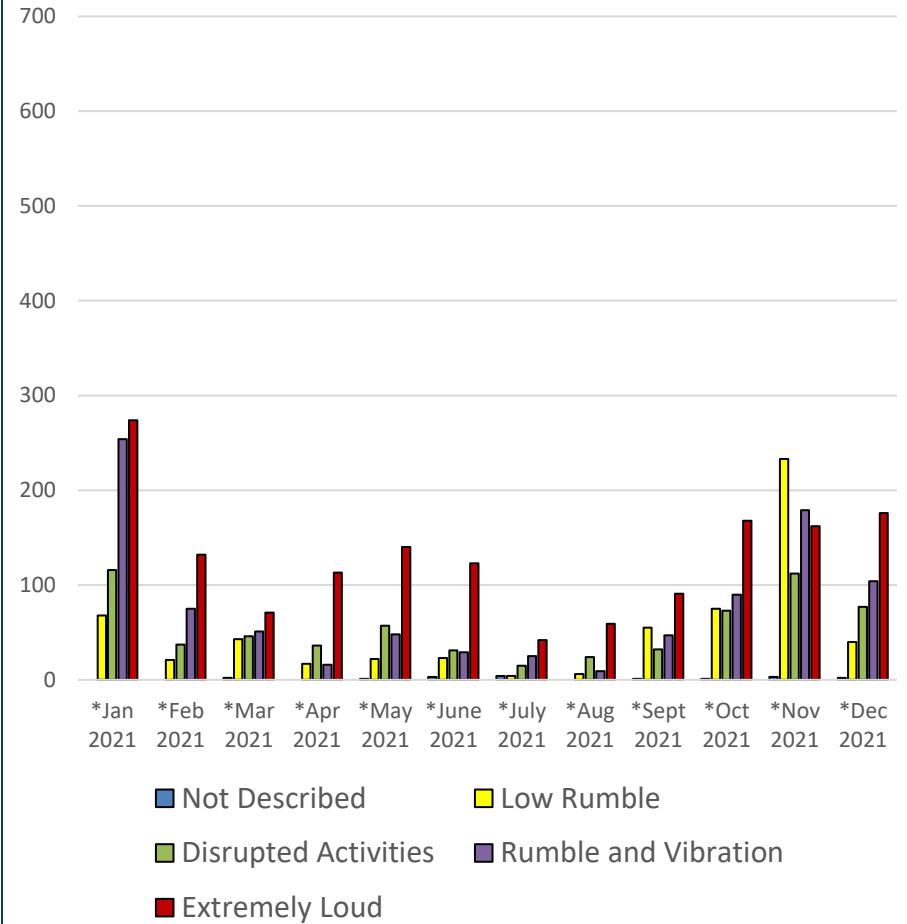

## Jet Noise Reports by Location Nov - Dec 2021

## Jet Noise Report by Type of Noise **OUTSIDE** San Juan County - 2021

## Jet Noise Report by Type of Noise **INSIDE** San Juan County - 2021

**Note the variation in noise experienced by month and by location. The Navy persists in using “annual noise averaging,” significantly underestimating the impact of jet noise. There is no "average" noise felt by residents in this region. The noise is variable and unpredictable.**

**August 2021: 120 reports were submitted with no location.**

**Jet Noise Reports by Day of the Month**  
**Outside San Juan County**  
**Nov-Dec 2021**

**Jet Noise Reports by Day of the Month**  
**Inside San Juan County**  
**Nov - Dec 2021**

**Note the variation in noise experienced by the days and by location. The Navy persists in using "annual noise averaging," significantly underestimating the impact of jet noise. There is no "average" noise felt by residents in this region. The noise is variable and unpredictable.**

# Jet Noise Reports by Day

## All Locations: January - December 2021

## Jet Noise Reports by Hour of the Day Outside San Juan County Nov - Dec 2021

## Jet Noise Reports by Hour of the Day Inside San Juan County Nov - Dec 2021

**For example, submissions that report noise 11:00 am through 11:59am are clustered in the 11 o'clock hour. Sometimes reports do not include a specific time. For those, related data may indicate Day or Evening noise disturbance, or Not Available.**

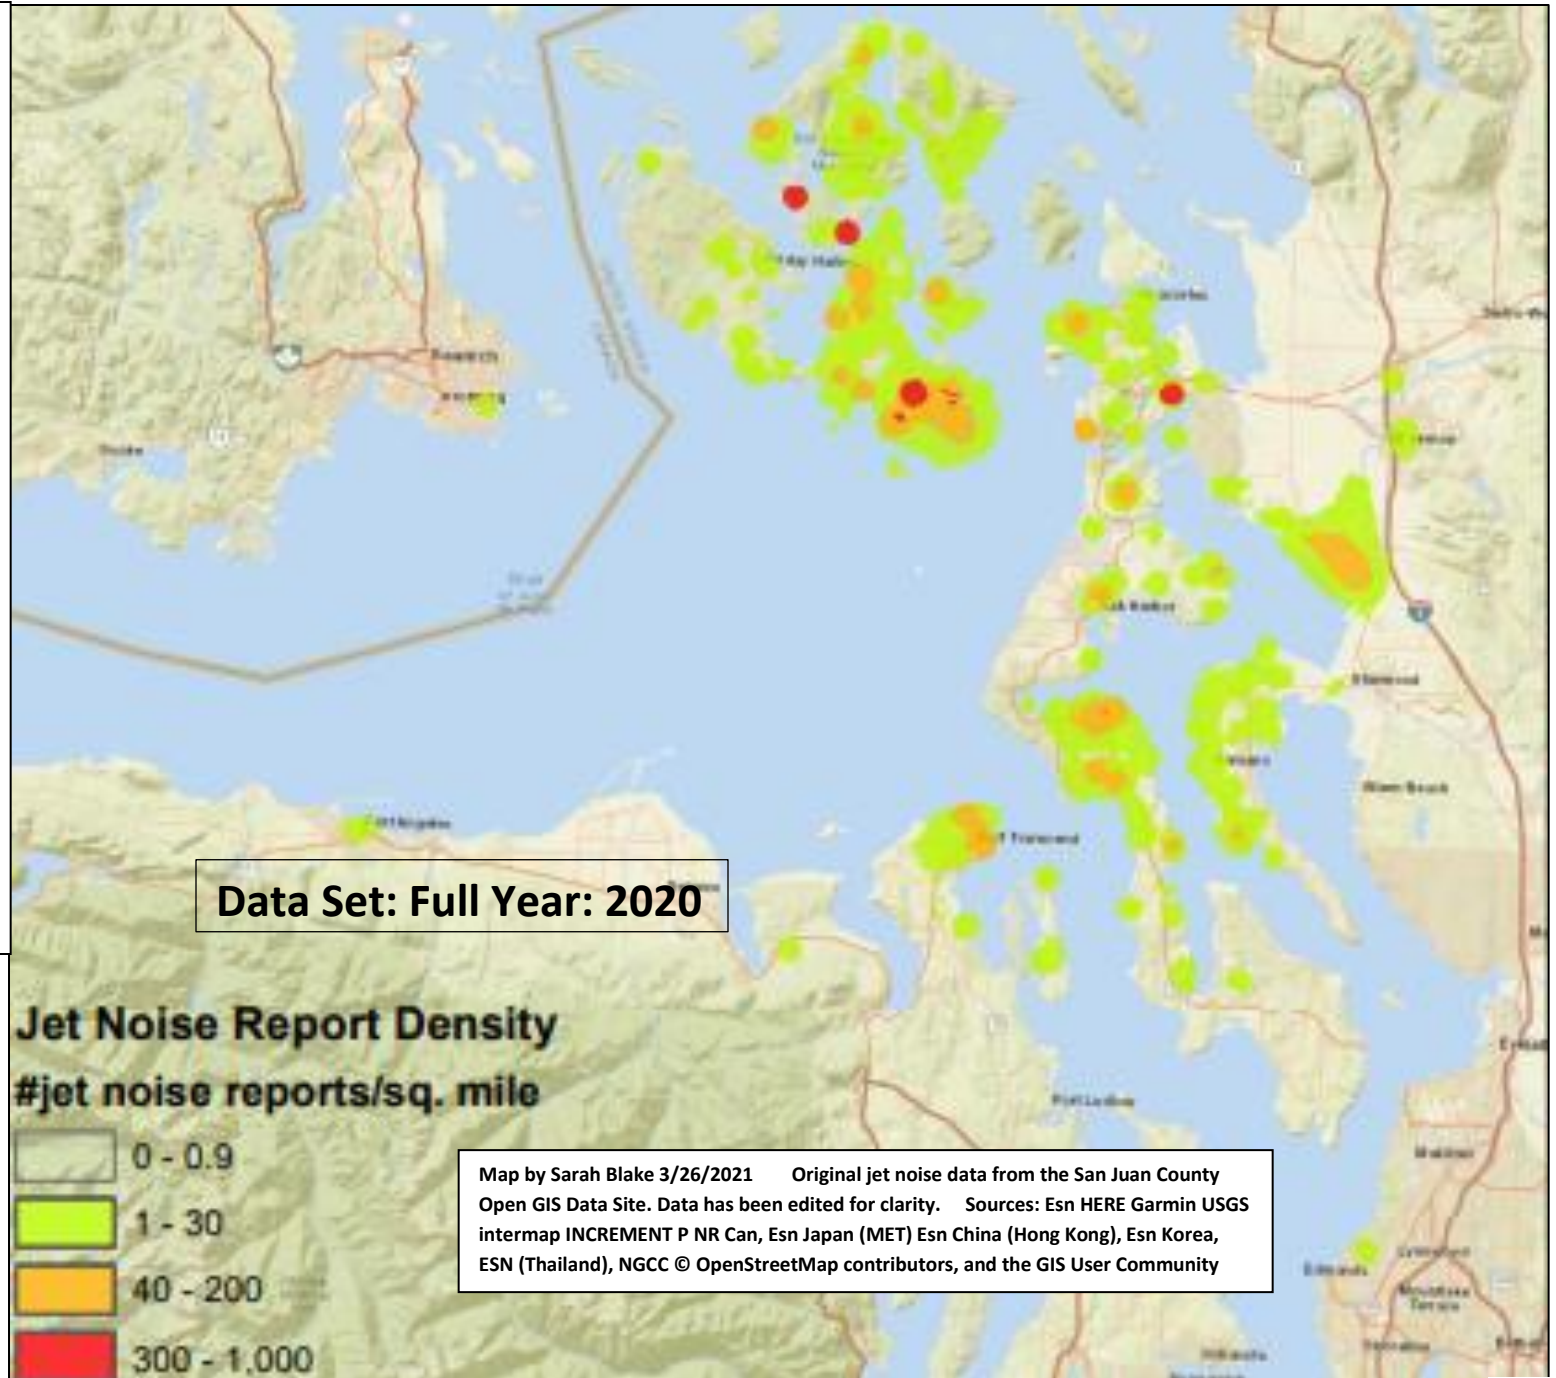

**Note the variation in noise experienced at different times of the day. The Navy persists in using "annual noise averaging," significantly underestimating the impact of jet noise. There is no "average" noise felt by residents in this region. The noise is variable and unpredictable.**

# Jet Noise Reports By Hour of the Day

## All Locations: January - December 2021

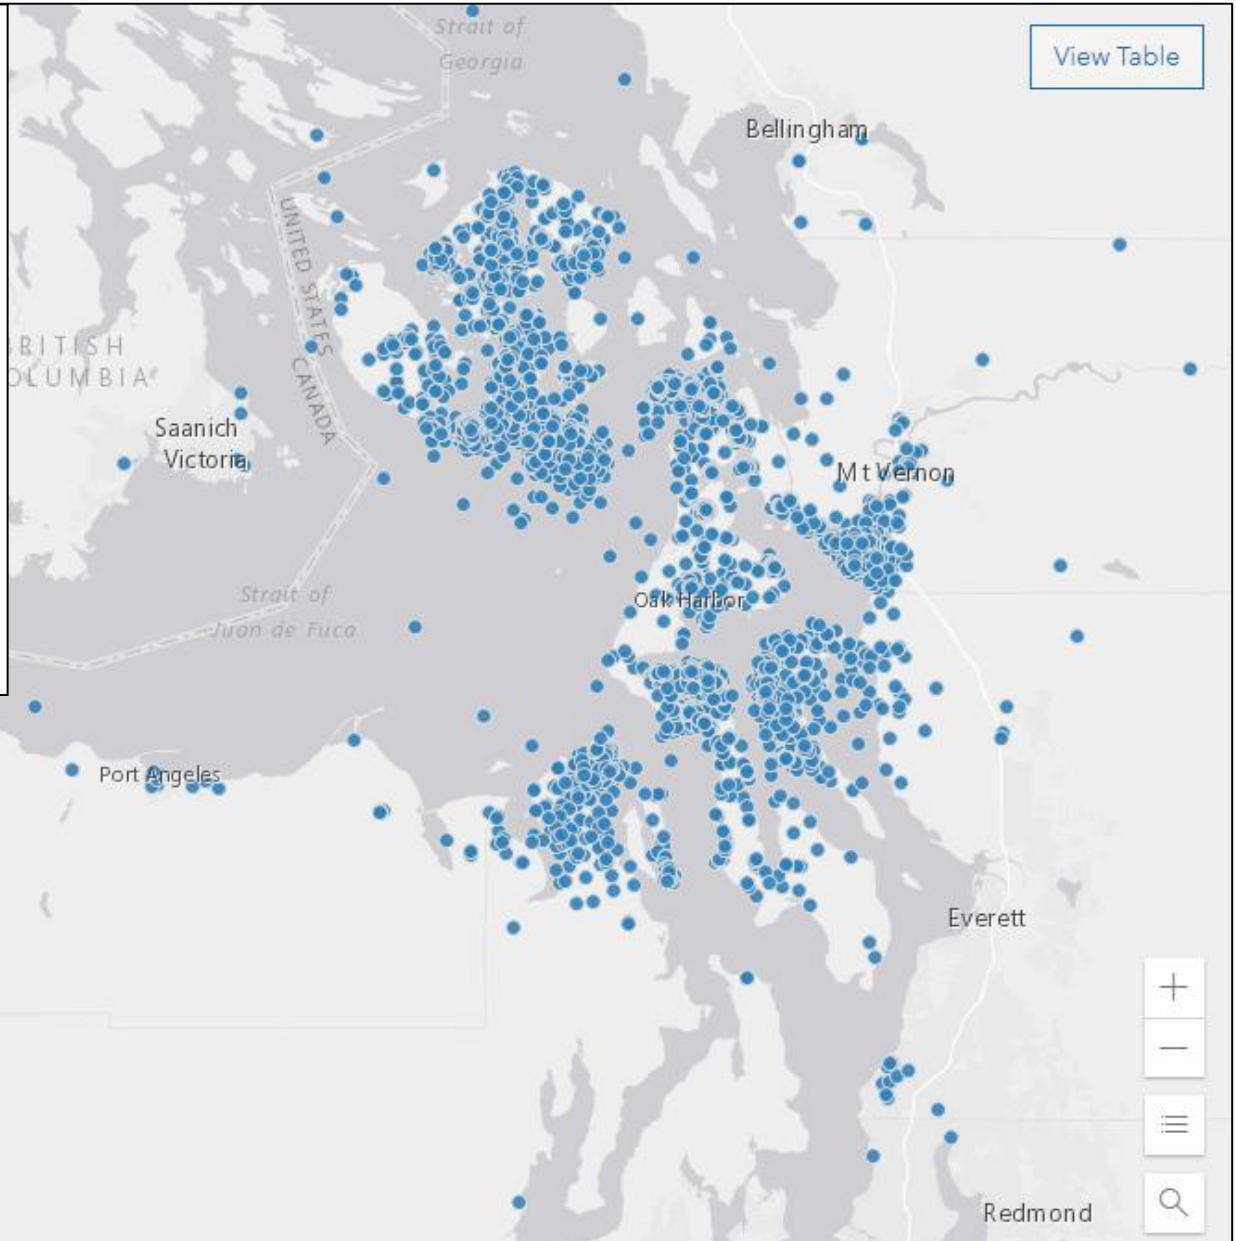

This is a “density map” of jet noise reports for 2020 only. For the sake of visual clarity, this map focuses on a limited area, though jet noise data come from further afield, including more of the Olympic Peninsula.; see the “dot map” on the next page.

Referred to as the “dot map”, this picture of the Aircraft Noise Reporting Map offers a different view and includes the larger region, for the period of August 2019-December 2021. People outside of San Juan County began having access to the aircraft noise reporting website in Fall 2019.

This map is reduced to fit this page. Thus, the reproduction of the colored dots, which signify the locations of noise reports, minimizes the actual number of reports since the dots overlay other dots, often hundreds of them.

This map represents 20,067 reports since August, 2019.

## Comments Submitted with November and December 2021 Reports

### NOTES:

Some reports indicate decibel level. Lawnmowers, for example, generally produce 90 dB. How would you like to have that running inside your home? Noise over 70 dB for a prolonged period of time is harmful to your ears and can cause permanent hearing damage. Noise over 120 dB can cause immediate harm to your ears.

Some of the people who submit a noise report also list their home address or phone number or e-mail. In this report, those personal identifiers are deleted/modified, as are expletives.

Jets are flying low, some exceeding 95 dB inside the home, windows closed - 110dB outside the home. It is disrupting work on a time-sensitive work project I am trying to complete. If I went outside it would damage my hearing, according to the CDC.

8:58am. Nov 1. S Lopez. Huge blasting roar from NASWI.

9am, Nov 1. South Lopez. ANOTHER percussive bomb-like roar from NASWI.

9:06am, Nov 1. S Lopez. Felt through the whole house, another blast-off from Whidbey. Rumbling vibrating wall of jet noise.

three pass overs, about 5-10 minutes apart

9:13am. Nov 1. S Lopez. PROLONGED rumbling roar from Whidbey. Like a LONG earthquake. Must be launching the whole tomfool fleet at once. The Growlers are a MENACE to local region. Still rumbling. Feel it in my body.

I keep thinking its an earthquake. Quite unsettling.

Dreadful repeated roaring that overwhelms all other sounds, even inside the house. Horrible, stress inducing noise.

9:15am. S. Lopez. 11/1 ANOTHER BLASTING RUMBLING VIBRATING ROAR FROM NASWI. DO SOMETHING! MITIGATE THAT NOISE UNLESS OF COURSE YOU INTEND TO UNDERTAKE ANOTHER STUPID STUDY. 14 MILES AWAY & OUR HOME IS RATTLED BY JET ROARING. The Navy tells lies.

im at home today because i am sick and there sure are a lot of these!

Loud rumbling and house vibration with growler takeoffs at Whidbey NAS. I don't report this often because it's so frequent I would be reporting every time NAS is active.

2 flying in formation

Shaw Island, Broken Point Road area. Loudness from planes nearly all day.

Just began flying around the perimeter of our property-very distracting. Waiting for them to work closer as the usually tighten their circle to approach OLF

10:09am. Nov 1. South Lopez. I can tell I will be making a lot of reports this morning. The jet rumbling has been just about constant, like right now.

10:18am. Nov 1. South Lopez. I can tell I will be making a lot of reports this morning. The jet rumbling has been just about constant, like right now, AGAIN..

10:25am. Nov 1. South Lopez. I can tell I will be making a lot of reports this morning. The jet rumbling has been just about constant, like right now. The SKIES ARE ROARING WITH JET NOISE!!!!

10:26am. Nov 1. South Lopez. I can tell I will be making a lot of reports this morning. The jet rumbling has been just about constant, like right now, AGAIN..

so many today

louder this time

11:56am. Nov 1. S Lopez. I can tell I will be making a lot of reports this morning. The jet rumbling has been just about constant, like right now. OUTSIDE and the noise is deafening. And it feels as if the trees are vibrating with the roaring blast.

3:16pm. Nov 1. S Lopez. Right now, a penetrating, vibrating wall of rumbling jet noise is pounding our home. It is a long roll of jet noise & vibration. Still going on. Murray, Larsen, Cantwell, you support the Navy and believe its lies. Shame.

2:30pm. Nov 1. Jet noise everywhere. S. Lopez. EVERYWHERE. Inside, outside, all around. We are engulfed by jets roaring around.

3:03pm. Nov 1, S Lopez Continuing with the rumbling vibrating roars from NASWI. I think jets just take off (ROAR and VIBRATING WALL OF NOISE) and then circle over us with more noise. NOISE EVERYWHERE.

3:03pm 11/1. S. Lopez. CANNOT WAIT TO LEAVE THIS NOISY ISLAND. We are bombarded with noise; this is not unusual. The Navy abuses this region. Growlers should not be placed here. Loudest jet they have & they place it here & then lie about the noise.

3:36pm. Nov 1. S Lopez. ANOTHER LOUD rumbling roar and vibration. Feel it in my body. Feel it in the floor. This is abuse.

3:41pm, Nov 1. S Lopez. ANOTHER roaring blast from NASWI. This has been going on since before 9am this morning. We are in a WAR ZONE, yet our legislators refer to themselves as concerned about the environment. Bah! All talk, no action. Blather.

4:08pm. Nov 1. S Lopez. ANOTHER ROARING VIBRATING WALL OF NOISE FROM NASWI.

4:10pm. Nov 1. S Lopez. ANOTHER INVASIVE RUMBLING ROAR FROM NASWI.

Decatur Island

Low flying growler aircraft with gear down

Low flying growler aircraft

Kids are trying to have a phone call with their out of town grandparents but can't hear them over the noise...please leave us alone.

5:26pm, Nov 1. S Lopez. Growler screaming directly over us right now, flying toward northeast. SCREAMING. Invades the house.

Decatur Island

Multiple low flying growler aircraft with gear down

5:29pm. Jets roaring over South Lopez. Nov 1.

6:26pm. Nov 1. S Lopez. The rumbling vibrating roaring from NASWI continues. RIGHT NOW!

6:29pm. Nov 1. S Lopez. ALL DAY jet noise, and now it is evening with MORE jet noise. Our home vibrates with the wall of percussive jet roaring.

Horrible deep thunder- can feel the floor of my home in Anacortes vibrating. So deeply disturbing- as if an earthquake was recurring- Humans are hard wired to feel uneasy with this shaking. 7pm

Decatur Island

Lopez

6:45pm. Nov 1. S Lopez. MORE JET ROARING FROM NASWI. IT IS SO UNSETTLING..

**Brutal**

**S Lopez, 4Nov21, Wed: 8:50am, 9:04 am - what will today bring? Another 12 hour day of ROARING jets? Or, do we get to have a peaceful day? The Navy schedule is useless - we never know when they will turn on the engines and scream overhead.**

**S Lopez, 8 Nov21, Mon: 8:59am - 8:20pm Another 12 hours of ROARING, BLASTING jets !!! One of the worst days ever . . . Does anyone in government even care that this is causing PTSD, heart problems and more? WE ARE FORCED TO LIVE IN A WAR ZONE.**

**Flying pretty much directly overhead-great, not really, when one is bbq dinner. Love to get this resolved and they find another path to fly!**

**I really hope and pray you guys win the lawsuit. I want these jets out of here**

**Repeated roaring and vibration creates horrible sensation, deep internal agitation. The roaring jets cause a truly horrible sensation, deeply disturbing.**

**I'm in my house wearing headphones and the jets are still way too loud for me, rumbling, shaking, it's a war zone here, but it's not. There is no reason for the jets to be here.**

**Man, that was loud!!!!**

**"Very loud and disruptive.**

**So loud unable to hear TV directly in front of me**

**Extremely loud growler or what sounds like one**

**It's impossible to have a normal or healthy life in Anacortes.**

**Nothing is more evil than the military.**

**Good morning!**

**Them growlers are at it again today!**

**Roaring jets, terrible inner sensation, like being shaken from within. This is NOT healthy for any living creature.**

**9am north lopez. Loud roar from NASWI**

**"Constant fly overs of U.S. Navy growlers Westward strafing our communities hundred percent exemption from anything destroying our environment.**

**With Patty Murray Derek Kilmer and Maria Caldwell in office I have absolutely no hope**

**They just keep coming!**

**this is the third plane in an hour! not normal activity.**

**This is the return flight of the one that passed over at 10:26 a.m.**

**Outbound flight**

**"LEAVE LOPEZ ISLAND AIRSPACE ALONE!!**

**GET YOUR DAMN GROWLER JETS AWAY FROM LOPEZ ISLAND!! YOU ARE HARMING THE HEARING AND WELL BEING OF THE PEOPLE WHO LIVE HERE...STOP NOW!!"**

**Decatur Island**

**loud enough growler flight to disrupt being able to hear the call I was on**

**Low flying growler aircraft**

**Your map is not working. Decatur Island**

**"Intermittent headache generating warplane noise rattling the walls of our medical clinic in Oak Harbor- all morning, ongoing into the afternoon.**

**relentless"**

**"Driving to work in Oak Harbor- passed over by 3 Growlers in succession, so loud in my car I felt I should plug my ears, but can't do that and drive.**

This is not safe to fly so low over the highway- with these dangerous aircraft.

2:15pm. Nov 1. S Lopez. The jet roaring continues into the afternoon. The Navy must be launching everything it has at us. I view it as domestic terrorism. The Navy has no limits to what it can inflict on us. NOISE. VIBRATING HOUSE SHAKING NOISE.

2:18pm. Nov 1. S Lopez. The skies are roaring. Constant rolling thunder. Jet noise everywhere, echoing everywhere. It sounds like war.

Decatur Island

2:25. Nov 1. S Lopez. A horrible day. It feels as if we are being bombed. It sounds as if the jets are circling over south Lopez, with waves and waves of endless jet roaring.

12:39 pm Nov 2. Loud loud jet roaring over Stanwood. Can't see it, but it is oppressively loud and long and drawn out. Still loud roar as it flies away. Seems to be northeast. Just like a Growler.

Low flying growler aircraft

Decatur Island

Multiple low flying growler aircraft

Loud and irritating.

Frequent close loud flights. Moving west to east. 30 seconds apart. Over top of Camano

The sound of the aircraft was so loud that it hurt my ears. I finally covered them. I was only walking to my car, but I felt under attack.

All morning long and until now there has been an incessant rumble and a vibration so heavy that I feel like it is penetrating my body organs. I feel for people who live closer. I bet their entire house is vibration. It is very unnerving.

Growler came screeching overhead. What is the point???? Why over all these innocent people? The sound stops everything because you can't do anything in that noise!

Low flying growler aircraft

Repeated flyovers

VERY LOUD Growlers flying circles around us!

Was on call for work and had to pause conversation while plane(s) overhead. It was either multiple aircraft or one circled the area, because the sound went on for a period of time.

I'm assuming it was a military plane going overhead. It was very loud, enough so, to report it here.

First growlers all day yesterday and today, so bad the windows were shaking. Now jets screaming overhead.

Can't hear my spouse talking over the jet and he's sitting right next to me in my own house

Starting again- horrific screaming aircraft and shaking thunder rattling my home. After hard day at work- just what one needs to come home to. Anacortes 5:45 pm- sure as hell hope this does not continue for hours, but...

**GET YOUR DAMN GROWLER JETS OUT OF LOPEZIAN AIRSPACE!! YOU ENDANGER THE HEALTH AND WELFARE OF EVERY PERSON ON MY ISLAND. LEAVE LOPEZ ISLAND ALONE!!**

4th pass, much louder and longer than previous three

5th pass

After 9pm in Anacortes and still peace wrecking, sky splitting Warcraft tearing up the night sky. Egregious violation of our health and prosperity by the US navy. AGAIN

My house is shuddering again and I cannot sleep. Anacortes, 9:15 pm.  
Horrid violation of our peace

So low the whine of turbines heard.

Vibrating windows

Windows and doors shaking

loudest one yet this morning

i put disrupted activities because sometimes if the planes are loud enough there is an odd pain in my problematic ear that feels like a pressure issue and i have to wait for the plane to pass to continue anything

Lopez

Lots of loud rumbling, rattling windows

"Had difficulty caring on phone conversation, inside house.

Also lesser noise at 11:25, louder at 11:27"

Also at 11:20 and 11:23, not quite as loud as 11:24

It's been really bad for two days. Maybe weather has them flying over Olga area more. I've got welders working on a handrail, OPALCO trenching to replace cable on my driveway, and company sandblasting cabin next to me. Growlers drown out that noise!!

The third day with frequent flights over the San Juan Islands. Loud rumbling, many times a day. They seem to circle above the islands. Feels like living next to airport. This has to stop!!!"

"Screaming jets overhead, and far lower than they should be.

We hate you, here."

Still circling above since my last reports

Trying to give a presentation online, and the noise was coming through on the microphone.

"Still with the screaming jets. What, are they doing circles up there, or what?

Go find something better to do with your time and my money.

Oh good, it just got louder. Jesus."

Another source for jet noise coming from a different direction. Very loud. Sounds like they are doing exercises right above the islands. Stop this immediately!!

2nd pass and louder

10:33am. Nov 1. South Lopez. I can tell I will be making a lot of reports this morning. The jet rumbling has been just about constant, like right now, AGAIN.. The Roar is HUGE.

11:04am. Nov 1. South Lopez. I can tell I will be making a lot of reports this morning. The jet rumbling has been just about constant, like right now, AGAIN..and AGAIN.

11:52am. Nov 1. South Lopez. I can tell I will be making a lot of reports this morning. The jet rumbling has been just about constant, like right now, AGAIN..

Way off designated flight pattern, incredibly low and loud.

"Way off designated flight pattern. Way too low. Way too loud. Not ok!

Direct flyover by two aircraft.

Two keys 30 seconds apart south Lopez

Too,too loud right over home on Mud Bay

Continuing all day

Very low rumble and vibration just now. In addition heard several loud planes throughout the day but was unable to report until now.

Home from a hard day's work in the hospital in Mt Vernon- as hectic as it is- at least it doesn't sound like a WAR ZONE like my Anacortes home many nights- Ruinous thundering shaking sounds from Whidbey- horrendous and antithetical to Peace.

F\*\*\* the loud as f\*\*\* low flying military aircraft

Horrible deep, rumbling deeply shaking feeling sounds- like an earthquake- makes one anxious, as would an earthquake or avalanche. Anxiety provoking for a reason- terrible torture even when far off- still shakes my home and bones. Anacortes late

S Lopez, 10/15/2021, Fri: The ROARING begins . . . 8:53am - 9:32am 68.8 decibels . . . The San Juan Islands are collateral damage.

Several other loud Whidbey noises this evening. 6:11pm, 6:13pm and continuing for a long time, steady blasting noise; 6:18pm distant noise and several others during the evening. I can't always record the times, the impact is significant, frequent

Lucky enough to have a day off- unlucky to have it start right up- sounds like explosions deep thunderous scraping sounds from the south towards Whidbey. Shaking my home. Anacortes from 8:15 am

they do this three minutes apart now. the military doesn't care who gets hurt by their actions. they do whatever they want with no appreciable oversight or mitigation. they lie about the absence of harm. they pretend I don't exist. Dehumanizing.

Beginning Sep 18 and Nov 3, 2021 we have recorded a total of 479 noise events occurring at our home on Broadway street in Coupeville. These do not include CFLP operations at the OLF. These are flyover events of transiting aircraft. OUTRAGEOUS

Horrid disturbing thunder off and on all morning since 8am- occasionally shaking my home and violating my bones by shaking as well. It's mid day now in Anacortes

Low flying growler aircraft disrupting my work

Low flying growler aircraft

Low flying growler aircraft with gear down.

This is the second time in a couple days. Last time was on Monday a little earlier in the day. We were gone a couple days so don't know what happened then. It seems the flights are getting more frequent.

It seems like every 5 minutes another low flying growler aircraft, some with gear down

The loudest, or close to the loudest I have heard in 43 years living on Lopez. Headed in N by NE direction. Please ask pilots to stay above 4000'. Thanks,

Ridiculous, very loud low flying growler aircraft with gear down

If they were doing this in 2001 I don't think I would have graduated high school.

"Dramatic increase in noise on the south side of Orcas from Whidbey Air Station over the last month. It has happened repeatedly.

Once again they are using rain as an excuse to torture aggressively. I want so badly to be able to enjoy rainy days again, rather than be terrified when I see a grey sky and know the assault is coming.

this makes five rapes in the last ten minutes. I assume more military noise is heard in anacortes than anywhere in the middle east. i hope all pilots burn in hell.

Thanks for not flying all night otherwise constant roar

Seems to be right above my house, which is unusual. Patterns changed?

"Solid excruciating noise from the Whidbey Island Naval air Station war jets.

What a evil dark empire we are building for our children future

Too loud right over our home. On Lopez Island.

Damn low and loud

"Two jets

It was my son's third birthday and it seemed like the planes just kept circling around all day. Please stop harrassing us.

Just have taken 2 passes overhead and the second one measured 87.4 here inside the house. Yes it has my body clenches

Unsafe to be outdoors w/o ear protection.

me again, they have now increased their decibles measured inside our home at 90.9! This is not sustainable for this couple of seniors-especially me!

Noise ran off the eagles in the neighborhood tree

Monday morning, working from home since that's life these days, and jets are scheduled from "mid-morning - late afternoon." Currently sitting on a zoom call trying to hear and wondering when the navy will stop terrorizing the neighborhood.

Constant noise during landing practice for hours this morning!

Unsafe to be outdoors.

The risk of injury due to acoustic trauma is very great.

Again, all day long.

X4

Roaring throughout much of the day today. Horrible, stress inducing noise. The noise is inescapable and penetrates the whole environment. This is truly horrible noise.

I wasn't aware that late afternoon was 5pm! Flying off schedule again! This Monday has been horrible. Flying nonstop for hours

They've been out at the OLF for some 30 minutes now. Nonstop NOISE! The walls of my home are rattling/vibrating as they approach Coupeville Town, over and over again.

Constant noise lasting several minutes. Rattling windows. Finally stopped just now.

Jet blast noise started up again, not as loud as previous

windows rattling again

The bombardment of TOXIC noise continues in Coupeville Town from the OLF. Round and round they go, when they'll stop no one knows. 5:40pm

rattling windows again

Flying again- just not overhead -further out on their loop I suppose-76.1 decibles. Ha, this may instigate them to come closer. :-) Thank you for this way to document their flights and the affect they have on us.

flyover, loud

rattling windows

Roaring jets into the evening. Horrible noise and roaring.

low constant sound that lasts

Had to cover my ears, my dog scared — just south of Mud bay, Lopez island.

flyover

Constant rumble. Goes on for hours. Ridiculous.

Disturbing rumble. Unsettling. My dog is upset. It's hard to work, and if this continues, it will be hard to relax as well.

rattling windows

I've been busy but since about 5:05 many growlers have flown over (5-9?) one being pretty loud

several other times with jet noise

rattled windows

Roaring on and on and on for hours. The roaring causes a dreadful sense of unease. The noise is disruptive and painful, irritating, stressful. HORRIBLE.

very loud when turns

Several low and loud flights over south Lopez

Loud and very disruptive!

"Growlers continuously from 2:30 to 3:30– now again at 7:15 PM. Really? Is this necessary? What is this costing taxpayers AND the environment?????"

Can not hear . STOP, STOP

Seriously? Things are shaking and rattling!

Growler noise actually hurting my ears, inside at work- Oak Harbor, mid-morning

"Metallic screaming- to serenade me through and past lunch while attempting to concentrate at work in Oak Harbor.

This is not what P3 noise was. That was tolerable, and less frequent. This is an assault- and not conducive to health. "

"my eardrums are hurting, while trying to work and think in Oak Harbor

this kind of aircraft noise does NOT belong on top of people.

My office is right next to a school. Horrible for learning- how is this legal?

"Intermittently deafening- really hard to concentrate and certainly enough to hurt the inner ear, all while trying to heal people in a medical clinic- Oak Harbor.

What an unpleasant and unhealthy place. "

Super loud. Long time frame flying over top of Camano Island from west to east.

I wasn't aware that 3pm was considered mid morning or late evening. Can't even get a schedule. Smh

Low flying growler aircraft

Seeking shelter indoors.

headache generating metallic, tinny, echoing roaring from EA18G Growlers off and on all day at work in Oak Harbor. This is a miserable place. These aircraft belong far from civilians, and on top of enemies only.

This is the 3rd 'flying event' of the day-not directly overhead-mostly-yet the anticipation of when they will - tension increases throughout their exercises. Today's top reading are at 80 dcbls. The reverberations go on and on, vibrating the house

"Sorry- want to update the last couple passes that measured inside the house, at 91.1 dcbs

thank you"

Continuous engine noise. Loud thunderous noise.

They have been flying all day

Besides the extremely loud and assaulting noise from the Growler aircraft, tonight we have one "funny man" aircraft who is leaking disruptive radio signal.

Good God this is really beyond belief that the Navy can subject the entire area to this level of noise. Find a place to do this flying where it does not impact so many or fix the dam jet noise to reasonable levels.

Environmental Outlaws!

too Dam loud

It's just too loud. As power is applied for their turn they fly 300 just feet over my home. I'm starting to take this personally.

These planes exceed 100 decibels according to my meter. They directly over our house. It is difficult to imagine that they cannot accomplish their mission flying over the sound. But to inflict this painful sound three separate times in is torture.

was in my home and could not hear the television because the jets were so loud. The noise lasted a half hour. I am sure another round will be coming.

Growlers just woke up my wife.

I'm inside my house and it's extremely loud.

"Nothing but solid war jet noise coming from Whidbey Island right now

I'm 18miles from where all this noise is overflowing our community"

Intense acoustic energy emissions make it unsafe to be outdoors!

So off and flying from around the property to over the house. Last night and again this morning it has registered at a peak of 91.4 inside the house. Horrible way to utilize my day;feeling that I should duck and cover!

Growlers touch and go practice. Constant, uninterrupted excessive noise.

Cannot hear my teams work meetings way too loud! I work from home and this is way too disruptive!

Lots of jet noise today, especially loud around noon and since 2:40PM. Another loud jet noise at 2:52pm.

Almost continuously for the last seven minutes. Sounded like a war zone.

This has been going on all day. Now at dinner time it's the loudest. Shaking the house

Roaring at various times throughout the day. Each episode creates a deep inner feeling of unease, like being internally shaken or rattled. This is horrible and dreadful and not healthy for any living creature, terrestrial or marine.

Vibration and rumbling each time a growler takes off from Whidbey NAS

Constant roar of jet noise from the airbase plus direct flights overhead. Have been non stop all evening.

extremely loud engine run ups

Over flights south end Lopez

So it's just every day now, huh? Nice. Really a nice way to live. Thrilled this is where my tax dollars are going, I have absolutely no doubt it's totally worth it.

HORRIBLE ROARING. The roaring alarms and startles every living creature. The sensations from the vibration are dreadful and stress inducing. Roaring from growlers and other military jets is truly dreadful.

Another day of jet noise starts...

all day every day for months now. it'd be a full time job to stand here and report every 15 minutes. really terrible. there is no freedom from this sound.

"Low overflight cause ear pain over the radio while driving- flying low over busy highway

dangerous- as always

SR 20 on Whidbey..."

"As it frequently is- hard to think/concentrate at work in Oak Harbor

Horrible racket sounds like giant metal vacuum cleaners scraping around inside my skull.

Perfect intervention for an enemy- except we are not the enemy.

Treated as such by the navy."

Flyover

Making circles around the national monument and destroying wildlife

LOUD JET IN THE SUNSET

Flyover

"US Navy growlers flying out of Whidbey Island destroying everything peaceful .Exempt from everything that's necessary for human life to be healthy.

F\*\*\* em

After 9pm- Anacortes. Woken from sleep by the sounds of warplanes- like a giant metallic vacuum cleaner lasting at least 90 sec very loud. Really woke all the way up- need sleep

Engine noise

Engine noise Ault

Ault engine noise

The whole house has been shaking this morning when the growlers roar. Noise and disruption from the growlers is harmful and horrible. The noise is hideous and affects all living creatures, marine and terrestrial.

Horrid engine noise all am and now a double flyover

Searing extremely loud, woke me up then again every 2 hours or so

Searing, terrible roar extremely loud, woke up for the 3rd time tonite

extremely loud all day, every 15 min or so

Has been going all day long

"Rumble all day long. "

Roaring from growlers has gone on all day. It is hard to even think while the roaring crescendos and the house shakes. The noise is dreadful and harmful. The noise overwhelms all other sounds, even indoors, & destroys a healthy acoustic environment.

"This is utterly ridiculous- the engine noise has been going on ALL day, my guests are appalled.

Now the engine noise is super loud, the whole house is rattling, and vibrations are coming up through my chair. "

four quieter pass overs preceded this louder one

The noise and rattling vibrations are unending and unbearable

another one

Multiole times today and over the last few days. Loud enough to wake up my dog and make him bark. Not happy with this noise.

Noise and vibrations so very bad today

Excessive noise from Growler takeoffs at NAS

Disrupted indoor conversation. Sounds like rolling thunder and frightens pet.

All day long and now all night long. There is no peace to be had.

2 growlers flying liw north to south direction. Extremely loud.

"3 jets very low flyover at 5:02pm, noise is continuing still, windows vibrating. Had to come inside when 3 jets flew south as noise was huge.

Lots of flyovers and jet noise today.

Noise still continues since 5:02pm. Loud rumbling, no breaks.

"

Has been happening all day long and cannot have peace

Rumbling continues - loud thrusts of noise that shake windows

Blasting noise continues. Our family cannot carry on a conversation inside our home.

Growlers have been roaring nonstop for hours and hours. The noise and vibration are dreadful, invasive. It is well documented that noise of this sort is harmful. It is also well documented that noise affects marine animals, including endangered orcas.

Growlers still going strong without a break. Can't stand it  
constant loud noise

**HORRIBLE INCESSANT ROARING**

Direct flyover, low elevation.

Stuff on the shelves are shaking!

Engine run ups. House shaking south Lopez

Noise from the growlers is terrible today. We tried to ignore the noise by playing music loudly. The growler noise overwhelms all other sound. The vibration is also terrible, very anxiety producing. How can this noise be allowed? It is terrible.

All day again.

The whole house is shaking. The noise causes pain to inner ears. It's almost like a sonic boom, except it goes on and on. Painful overall. Just horrible and inescapable.

The Growlers have been making noise throughout the day, upsetting our household and pets. At times I feel the house shake; it is traumatizing.

**RIMBLE RUMBLE ALL EVENING ONE AFTER THE OTHER!** I can feel it while vacuuming!!!

I'm trying to get some work done. The sound is so obnoxious.

Wow sooo loud. When will this stop

Interrupting my work. Regular disruptions all day today and over the past few days.

Bad enough it's been all day, now it has to go into the night, too? Normal people have kids to put to bed.

really bothersome. I moved here for peace and quiet.

The low rumble has been occasional for the entire afternoon and into this evening. This has caused our pet to interpret the noise as thunder which has caused her to be in a distressed state for a majority of the day.

Get your damn Growler Jets out of Lopezian airspace!! You have been roaring back and forth over and over. Everytime you invade our peace and quiet you leave me with ringing ears and a migraine!! **LEAVE LOPEZ ALONE!!** 🤬🤬🤬

Disruptive noise

And the noise continues, as it has all afternoon. There is only a small period of time between low rumbles which are disruptive to people and pets/wildlife outdoors.

Worked hard all day. Tried to relax in the hot tub. Loud Growler noise and vibration leaving me very anxious.. couldn't relax. I'm inside now and the sound seems like it is getting worse. How do people sleep with all this noise.

Engine turn ups South Lopez

Awful deep, low shaking thunderous rumblings- ruining the evening- hours since home from work - now after 8pm. Horrid. Anacortes

Constant noise from NAS with growlers sitting on the tarmac revving their engines. What happened to the hush box Rick Larson promised us?

Low loud flight over south Lopez

One of the loudest most disturbing jet noises from Whitney. What was that? All evening we have had jet noise. Before dinner okay it will end soon. During dinner have to cease conversation. After dinner the loud assaults continue. But this is awful.

Sound still continues from earlier extreme spud event

Have had jet noise all evening. Just doesn't stop.

Yesterday was a brutal day, roaring and vibration throughout the day and long into the evening. The roaring has started already this morning. The roaring is painful, disruptive, causes whole-body stress. This roaring destroys quality of life here.

Again. All day yesterday, into the night, and again all morning.

I feel like a live at the airport 🤬

This heavy noise continued into the evening last night and started up early this morning. Indoors, it rattles windows and causes ear pressure. Please take this noise pollution away from the Salish Sea.

Roaring all morning, following yesterday's roaring all day. Roaring is painful, loud, disruptive; it's hard to even think. Roaring shakes whole house, whole body. Shame on those who allow this environmental destruction. This should NOT be allowed.

"More jet noise

Very loud even inside house with windows and doors closed

Continues for several minutes"

Another day of jet noise. All day yesterday well into the evening. Started earlier today but wasn't at computer to log the noise events.

"And another one, and another one, and another one blasts loud noise throughout the area

Should be a peaceful day off work- Thursday mid-day, but it's Anacortes, so... NO; peace repeatedly wrecked by navy Warcraft shaking my home.

Camino Island is taking the brunt today.

:(

120 dB on Decibel X Pro. Wheels down. Directly over house. Altitude less than 100' over house. Total disrespect for US citizens!!

Rumbles all day and now flyovers....

91 dB on Decibel X Pro. How sad that the Naval Command has no concern for the health and well being of US citizens

97.3 dB on Decibel X Pro. Destroying the serenity of Puget Sound.

Many instances of jet noise. Was hoping once it was dark the noise would stop. Not so fortunate.

87.8 dB per Decibel X Pro.....inside the house. So much for a nice quiet dinner. Thanks USN

We've never heard the jets fly so low and close to us previously. Today has been non-stop since about 4pm it's now 550 and we just had 2 more pass right over the house. The house was shaking!

So low you can hear their turbined

"98.9 dB recorded on Decibel X Pro, screen shot. Altitude <600'

Why are the "training" flights so close to houses??"

"Really loud flights.

**Low loud south Lopez**

**Loud rumbling heard through house. Stopping and distracting homeschooling.**

**In meetings for business. Had to stop the meeting several times to wait for the jets to go by. Could not hear conversations. Important meeting planning for the year 2022 and was employee reviews. They just stop everything.**

**Jet flew directly over my house very low. Once over my house jets were pushed very loud. One would think it was on purpose. We are not on a flight path and they have to go out of their way to be here. This is after I reported an hour prior.**

**Rain storms. Wind. Trees down. Power out for days. Covid. Now jets starting FCLPs at OLF. I just want to enjoy a little peace and quiet and enjoy the good and beauty the PNW has to offer.**

**Currently Growler landing practice creating "non-stop" rumbling and ear-shattering noise. This has occurred at intervals all-day long today. Very disturbing, 82 dB peak levels measured in my yard.**

**"Menacing, Friday Night Punishing**

**We are PRISONERS OF THE SOUND OF FREEDOM "**

**The risk of injury from acoustic trauma is very high, 118 dBC. Walking my dog when jets suddenly appeared.**

**"Way too loud I was trying to go to the recycling center and they just kept flying and flying I had to cover my ears several times I'd say is deafly over 120 dB possibly 130 to 140 they**

**TGIF except for when growlers perform FCLPs at OLF. It's been a long week. Time to relax. But not possible when the jets sound like they are ripping the roof off.**

**Low and loud, curse you Red Baron!**

**This acoustic assault is trashing our Friday evening meal, having to seek shelter.**

**"Multiple noisy nerve shattering flights**

**Unbelievable**

**We've been off island all day to return home to the jets flying around the house- with the passes getting closer to the perimeter of the house- just now flew directly overhead. House vibrating with the rumbling of their prowess. It's 80 dcbls**

**Many, many tonight Friday. Really???**

**Brutal**

**"What an assault on a relaxed way of life. why not use this instead of water boarding. oops sorry that would be worse**

**Insanely - woken from deep sleep, recovering from weeks work disrupted with screaming warplanes after 9:30 pm. Friday, Anacortes**

**"Finally, a day without rain or wind.**

**I'm outside on my deck reading Proust, but can't concentrate due to Growler noise."**

**11:30 pm SUNDAY evening,,, roaring, deep shaking thunder of Growlers, Hideous. Anacortes**

**Low loud south Lopez**

**Many running this morning but this one was REALLY loud, in a zoom meeting had to wait out its passing. Still loud 2 minutes on (10:35) but not as bad. I could not hear or talk over the noise for about 30 seconds. Dog is shaking and by my side.**

**Stellar Sea Lion Rookery reporting in. This has completely ruined our life - can't hear myself think, feed or take care of my family. Seriously - what would a SSL do? Jets all morning!!!!**

Make them stop

Horrible roaring jets. Very stressful and disruptive. Impossible to screen, even while inside a solidly built house. VERY disturbing noise and vibration, truly HORRIBLE.

Earthshaking blasts from Whidbey NAS. Growlers are torturing us again with body penetrating, mind racking vibrations and powerful disruptive noise. Ongoing now and all morning. The so called "Sound of Freedom" is a blunt weapon being used on us!

RIGHT OVER HEAD - What are they doing flying over LOPEZ when there are thousands of miles of seaway? Actually, they shouldn't be there either - time for them to leave

Ear shattering multiple flyovers above our home on the south end of Lopez Island. A continuing struggle to live our lives in peace. Shame on the Navy!

Prisoners of the Sound of Freedom

Loud, and the, REALLY LOUD. Still going 5 minutes on. Disruptive to hearing or participating in discussion. CANNOT teach a class with this going on, no way to know when it will happen either. Cannot work.

OMG. Menacing!!!

They are circling around the perimeter of the house- one pilot likes to cut corners and fly over the house- just registered 87.6 dcbls. Not a conducive way to do my work inside my own home.

"Disrupted outside conversation

Very noisy "

Going on all morning. Dog keeps barking.

I was inside my house and all of a sudden they come out of no where, I had to cover my ears, inside my own house. They are flying way too low. I can't

imagine if you are working outside and all of a sudden they fly over. It's ridiculous

Multiple flyovers of LOPEZ - Can hardly work. why are we on the flight path!

Seems like they've started up again. Loved the quiet.

Add extreme x4

Multiple low flying growler throughout afternoon and evening.

Pretty bad today

Too hazardous to be outdoors.

House shaking

Low loud south Lopez

Very loud, why at this time of the evening????

Horribly LOUD NOISY JET OVERHEAD!

Very very loud and slow fly over, similar to earlier in the afternoon

Nice quiet dark evening prepping dinner when the Growler jet comes screaming over. They have been flying all day. Each time it disrupted what these islands are known for--peace and tranquility. What a travesty!

that's ridiculous. are we at war?

The jets are flying low, reaching 120dB and disrupting work. Even inside, windows closed, the noise level are intolerable.

Yet another one!!

Why we are the target? Cell service is bad enough, they think they should practice electromagnetic warfare over Lopez

All afternoon. We are not a WAR ZONE

Peace wrecking thunderous racket- Anacortes. Peace free zone early evening. Abuse of civilians routinely happening again.

Number 3!!!!

Geez give us a break NAVY JETS!!! One after another.

**GET YOUR GOD DAMN JETS OUT OF LOPEZ AIRSPACE NOW!! YOU ARE DAMAGING MY HEARING WITH YOUR GOD DAMN GROWLER JETS!!**

It's like a war zone this evening. Multiple low flying growler aircraft over our property.

Low flying growler aircraft

Low flying growler aircraft, ridiculous night

Lid jets several times this evening, more loud than usual. Conversations had to stop.

extremely loud and repeat fly-overs by at least 2 growlers.

extremely loud. unable to hear close companion talk. multiple fly-overs.

We've been getting hammered over the past two days in Coupeville with horrible jet noise. It's starts at 9am and went all day yesterday.. now again this morning. Unfortunately I don't see an end to this. We have to endure or move. So sad.

Long-lasting rumble for 2 min

"Solid jet noise coming out of Naval air Station Whidbey ievery day !we can't even hear the wind in this part of the world when it's blowing 25 kn what would life be beyond war jets

The number one polluter in this whole region exempt from everything"

Jets have been flying all morning, but they sound further away so much more manageable. Two loud flyovers at 1:29 pm and 2:29 pm. Both scared

the dog in from the garden. Sure would be helpful to have a schedule to plan yard work or classes.

"Starting FCLPs at OLF. First jet over came in so fast and low that it set off a bunch of car alarms in the neighborhood.

I hate these f\*@+ing jets!"

West side getting the brunt

Many very noisy Growler flights for carrier practice. So ends an otherwise nice day.

"More nerve shattering noise from the growlers.

a very short one

Vibration all morning

Rumble-on-Rosie

Screaming jets.

**LOUD JET BANKING OVERHEAD!!!**

Multiple Low flying growler aircraft with gear down

**GET YOUR DAMN GROWLER JETS OUT OF LOPEZIAN AIRSPACE NOW!! WE NEVER, NEVER, NEVER AGREED TO BE PART OF YOUR DAMN WAR-GAMES PRACTICE!! STOP DAMAGING OUR HEARING YOU COMPLETE JERKS!!**

**GET YOUR DAMN GROWLER JETS OUT OF LOPEZIAN AIRSPACE!! YOU ARE DESTROYING OUR HEARING!! We NEVER AGREED to be part of your WAR-GAMES practice!! Every time you roar overhead you leave me with ringing ears!! STOP ABUSING LOPEZIAN YOU JERKS!!**

Low flying growler aircraft

Needed to cover ears outside

Extremely loud fly over multiple times disrupting activity.

sure would be nice to live like a normal person

Jets have been going all day, making chandelier shake and rattle, even making road rattle as we walked outside. TOO MUCH NOISE, TOO MANY FLIGHTS ALL WEEKEND LONG

GET YOUR DAMN GROWLER JETS OUT OF LOPEZ ISLAND SKIES!! YOU BASTARDS DON'T CARE WHO YOU HURT!! YOU ARE DESTROYING MY HEARING!! Every time you inSTOP AB00pp00 lol 0USING LOPEZIANs YOU JERKS

Again, rattling chandelier .

Low flying growler aircraft

Again with the chandeliers shaking and rattling

This is a particularly loud and disruptive day

How long tonight ?

i am noticing that the growlers often occur concurrently with other aircraft, perhaps there are just lots of airplanes

i also notice that they seem to like to fly on low visibility days

Potential for injury from unshielded exposure to acoustic energy is high.

Will turn on tv now to drown out jet noise. Hope it stops soon tonight  
!!!!!!!

"Making my ears hurt. find another less populated place to do this

2:03pm South Lopez Dec 13. Loud jet noise rumbling in the skies.

South Lopez Dec 13. MORE loud jet noise roaring through the skies.

South Lopez Dec 13. A lot of jet noise this afternoon and right now. Rumbling and roaring in the skies. Cloudy so I cannot see them, but I sure can hear them over all the other household noise.

"What was the BEST part of the thanksgiving holiday? HOLIDAY from Growlers!!!

Hideous noise returns - sky shredding screaming warplanes. Anacortes. 7pm..."

Extremely loud and low south Lopez

Multiple low flying growlers

Woken from sleep in Anacortes. Horrid warplane noise. I need sleep because I was awake to after 3 am doing surgery last night on call- need to recover to have energy for clinic tomorrow. Was tired today in clinic after little sleep last night.

"Every few minutes growlers flying West towards the Olympics over our community.

After burning 1300 gal. of aviation fuel

Thank you Derek Kilmer Patty Murray and Maria Caldwell for continually voting for more money for this demise of the human race"

Thunderous noise overhead, but not weather related. Disruptive to say the least. Hoping this isn't yet another day of annoying fly overs.

Low and loud. No reason for it other than to harass the population below.

South Lopez Dec 13. 4:22pm. The jet noise continues to roll right into our home. The jets must be everywhere. The skies are roaring.

South Lopez Dec 13. 4:24pm. I have to keep reporting this noise. It is excessive. The jet noise is everywhere.

South Lopez Dec 13. 4:32pm. The jet roaring has been continuous.

4:58pm. South Lopez Dec 13. The house is vibrating again with jet roaring from Whidbey.

Loud low Lopez south

Low flying growler aircraft with gear down (like based on noise)

Low flying growler aircraft upsetting my work day

Multiple Low flying growler aircraft with gear down

Deafening sound overhead

Second day in a row LOUD JETS BANKING OVERHEAD!

GET THE HELL OUT OF LOPEZ AIRSPACE!! YOU JERKS ARE DESTROYING OUR HEARING!!

Woke my son up from his nap

Just flew overhead several times while I was trying to put my kid down for a nap. Please stop terrorizing my family. The Jets were relentless yesterday too.

Low flying growler aircraft

LOUD GROWLERS OVERHEAD AND BANKING OVER OUR QUIET SKIES. A second day of this horrible insane NOISE!!!!

Low flying growler aircraft

End the military occupation of Anacortes.

Very low and noisy for the past half hour or more.

Instead of hearing wind in the trees on arriving home to Anacortes- it's horrific wracking deep thunder emanating from Whidbey- 6pm without peace. All war all the time here. Abuse of our landscape and it's citizens.

Again roaring jets all afternoon and into this evening

Sh\*\*\*\*\* country on the planet.

Low flying growler aircraft

Extremely loud. Criss-cross path overhead and low. OBNOXIOUS!

Very low altitude very high frequency low, lasting several minutes

Doe Bay Orcas Island! Rattled windows

Trying to participate in important Zoom meeting at home 6:30 pm in Anacortes. Repeatedly disrupted by EA-18G aircraft. Unconscionable intrusion into civilian lives in "peacetime"

Today was terribly noisy all day

Is it circling around the area? It is not stopping.

And here is another growler disturbing the evening. WHY?

Driving home and feeling strafed by navy warplanes, so loud in the car, so close felt need to cover my ears repeatedly because of ow flying aircraft- while driving north on 20 on Whidbey. Dangerous stuff over people.

The frequent and loud noise from jets today has been a disaster to our entire family. We are all working on projects that require complete attention and focus. The rumbling noise makes concentration difficult. No peace.

And another one. What's going on this evening? This is the third disruption in 15 minutes!!!

Two passes overhead. I'm trying to get the kids ready for bed. The loud planes are scary. please leave us alone.

All afternoon and now at 7:15 pm in evening Growlers fly over my house. The jets must move their base to the desert - far away from homes and persons. Today the jets noise was horrendous, extremely upsetting.

GET THE DAMN GROWLER JETS OUT OF LOPEZIAN AIRSPACE!! You are acting as if YOU are the most important people on the Planet...WAKE THE HELL UP! DO YOU EVEN CARE THAT YOU ARE DAMAGING OUR HEARING BY FLYING SO LOW OVER OUR HEADS??! 🤦‍♂️ STOP ABUSING US NOW!

"Anacortes- evening, extremely loud overflights 7:40 pm. Drowned out TV....

Very low and close by. Very disturbing

"Why on a Tuesday evening do we need to put up with this?

My dog is going crazy.

This is patently ridiculous."

Huge piercing rumbles and engine noise over my house. Startling and horrifying. Never in my decade of living on Lopez have I been confronted with such upsetting noise. This horrendous noise is unfair to all islanders. Go far away Growlers.

The military's casual contempt for its victims ceased to be shocking a long time ago, but the harm done does not attenuate over time. It never gets easier. There is no getting used to it.

Prior to 2009 I never once experienced a traumatic military assault over my room in Anacortes. Now it happens thousands of times a year.

Loud flyover.

Yet another extremely loud flyby- enough to wake the dead. Anacortes 8:40 pm. Navy abuse.

THIRD DAY IN A ROW RIDICULOUSLY LOUD JETS FLYING OVER THE SAN JUAN NATIONAL MONUMENT. Why not fly somewhere else?

Hurt my ears; couldn't carry on a conversation.

I was out walking my dog when an aircraft passed overhead. My dog was frightened by the noise and hid. The noise was loud enough that it was painful to my ears and I needed to cover them with my hands until the aircraft had passed.

Low flying growler aircraft

Loud, LOUD. Go away!

Multiple low flying growler with gear likely down

Once again, rumbling and vibration all afternoon.

"I was simply sitting in my home, which has a LOT of sound insulation, only to hear the deafening sound of the Growler screaming through my morning.

extremely loud grownler flights, the growlers are much louder observationally than even the larger transport planes they fly

Cannot have a conversation!! PLEASE STOP!!!!

Direct flyovers One after the other for several hours. The loudest ever

They're back. Yuck.

Planes flying all day. Ugh.

I just had an elderly friend in Anacortes be scared to death by a jet that sounded like it was in her living room. Meanwhile, jets are now flying directly over our home -- again and again.

92dB over house E to W.

Another one.

They have been flying off and on for the last several days. This time it was so loud it rattled my bathroom mirror. I am on Camano. They did not do an EIS over Camano. BAD N IGH BORS!

89 dB over house .W to E screen shot verification Decibel X Pro.

What appeared to be a single EA-18 aircraft flying south to north over southeast Lopez Island at 700 feet at low speed that generated extremely high energy percussion noise effects on my home (window and wall vibration) . 5 events in 15 min

"Multiple flights shattering the peace

"EXTREME NOISE..HARD TO,TALK,...

RUMBLES ALL,DAY With LOUD BURSTS. I HATE IT,

"Put a muffler on those noisy jets

ENOUGH ALREADY!!!!!!!!!!!!!!

Jets flying low and loud. Hopefully they will stop soon. They are mentally and physically disturbing!!!!!!!!!!!!!!

93.3dB E to W over house. Decibel X Pro.

Too loud

95 dB - 97 dB E to W, 2, maybe 3 planes. WTF.....War games over Camano Island?

S Lopez, 1Nov 21, Mon: 8:56am - 9:14am Huge ROARS 68.6 - 78.4 inside. 10:15am - 1:19pm More HUGE ROARS - 65.4 - 78.2 decibels inside. 1:50pm - 6:27pm More Huge ROARS! A nine hour day of noise . . again. HIDEOUS. Larsen and Murray are responsible.

S Lopez, 2Nov21, Tue: Roaring NOISE from 9:16am - 11:30am. Toaster rattling, Windows rattling 69.7 - 79.1 decibels inside.

S Lopez, 3 Nov21, Wed: 8:44am - 8:28pm Another 12 hour day of noise! Tried to escape to N Lopez - the roaring 12 - 15 miles north was actually worse! What insanity! Complete, total disregard of the communities beneath the jets. . .

S Lopez, 11Nov21, Wed: 9:05am - 6:25pm A nine hour day of noise. Exhausting. No where to get away from it.

S Lopez, 17Nov21, Wed: Never ending ROARS 3:45pm - 7pm. This is happening (again/still) on a day when no FCLP's are scheduled at Ault. This happens so often. There is no peace and quiet in our homes - just the constant threat of GIANT ROARS.

S Lopez, 18Nov21, Thur: 10:05am - 10:45am - Steady takeoffs at AULT and screaming overflights. Our home is rattling: 82.1 decibels inside. More ROARING 4:30PM, 6:07PM AND A GRAND finale AT 6:27pm of 83.8 inside. . . 94 decibels outside, painful. .

Roaring jets. Horrible noise and sensation. Earlier this week, jets screaming directly overhead. Head splitting noise.

"96.1 dB over house. flight E to W. verified by screenshot Decibel X Pro.

Inexcusable disrespect for U.S. citizens by Naval Command! Protect and Serve???"

Cape St Mary area, Lopez Island, WA

Roaring jets. The noise is stressful and dreadful even when not overwhelming.

Low flying growler aircraft

The loudness of it really scared my new kitten. He is shivering from fear. Please fly elsewhere.

More NOISE!!!! Why? So disruptive and irritating.

Very loud fly overs of several airplanes

Lasted for a longer period than normal. Seemed like the military planes were staying over this area for an extended period. When in a meeting, it is hard to just pause and wait for them to pass when they remain for a minute or so.

This is so low and loud its sounds like the jet is going to crash.

Very low loud flyover. Unbearable.

It just never ends, does it. All day, almost non-stop. Jets screaming overhead. Well, at least you fit in around here- around here, people just do whatever they want because they can. I can't wait until we've saved enough money to get the hell out.

The flyovers have been going on for almost 20 minutes. They are VERY loud.

Number of flights and loudness level really has increased over the past couple months. Especially on cloudy days, they seem to fly more often and a lot lower (i.e. louder).

"Live across doe bay road

South Lopez Dec 13.. 12:50pm. ANOTHER rumbling vibration from Whidbey. This is beginning to shape up to be a bad day.

1:30pm. South Lopez Dec 13. Now another rumbling roar of jet noise. House vibrates.

1300 333 362

3 fly bys

Loud enough to vibrate and scare my cats under beds, where they usually do not go

S Lopez, 22Nov21, Mon: 11:07 am - 2:53pm Constant Screaming jets. Trying to work outside. Bose headphones barely diminish the ROAR. 78 - 88 decibels outside.

S Lopez, 29Nov21, Mon: Growlers GROWLING from 8:32am - 2:57pm. Wonder how Larsen and Murray would feel if this was happening over and around their homes? How would they feel about being collateral damage?

S Lopez, 30Nov21, Mon: 12:50pm - 7:30pm, 6 hours of periodic 68 - 75 decibel noise.

Happened last week as well and prior weeks as well

PLEASE STOP THIS POLLUTION

thank you"

Olga

Make it stop please"

Doe Bay Orcas Island

Loud much of today

Low flying growler aircraft

This is sacred dinner time. The extremely sound ended a very lively discussion over dinner. Would you please stop.

THIS IS OBNOXIOUS!!!

Multiple low flying growlers

Jets roaring directly overhead

As with yesterday, shaking chandeliers and vibrating house. I wonder if any of these fliers have any idea what it is like to be on the receiving end of their flights all day long

South Lopez Dec 13. 4:47pm. I report now each distraction. The jet noise penetrates our home.

4:49pm South Lopez Dec 13. The jet noise continues. Might as well live at Sea Tac airport.

South Lopez Dec 13. Jet is screaming over us. Not only is the jet noise echoing in the skies, but the jets are coming over us.

4:56pm. South Lopez Dec 13. House is vibrating from blasting of Navy jets. Pleased to read the Judge's Magistrate has found the Navy's EIS, shall we say, inadequate. Common knowledge that the Navy lies to protect itself. America: a country of lies.

LOUD circle around Olga!!! GO AWAY!!!!!!

Flying directly over sji. Just like yesterday. They should take a different path. Stop this!

Low flying growler aircraft with gear down

Another Jet flying over Olga to disturb our peace and quiet.

With Naval air Whidbey warjets swarming our communities with this horrendous noise lately it sure sounds like we're getting ready to go to war

I was talking on the phone and had to interrupt my conversation because the aircraft noise was too loud for me to be heard.

Extremely low flying growler aircraft with gear down

Low flying growler aircraft

How about you test patterns elsewhere for a change????

Low flying growler aircraft with gear down

Really, loud enough to hurt my ears sitting in my own home? This is unconscionable.

Walking and listening to beautiful Christmas music in this season of Peace, when through my ear plugs come two screaming Growlers. So much for Christmas.

Same aircraft. Enough already.

Loud low flying aircraft. Very disturbing

Noise from growlers throughout the entire day. Noise from jets immediately overhead on and off throughout the day. HORRIBLE DREADFUL NOISE

Any jet is extremely loud at dinner time.

"Geez what a deafening

sound they are making tonight"

Blanketyblank jets raising h377 over state park.

Crsp. In bogachiel stae Park and all we get is noise from jets

For the past several weeks, the jets have been flying regularly - it is very loud. At work I don't have access to the computer and when I get home from work I forget to report. So I am reporting now before work. The noise is upsetting/disturbing!

"Really loud multiple overflights

Ear damaging noise from the growlers 17 miles from NAS

"Driving me to drink. very loud

Loud flights all morning. If it continues it will interrupt homeschooling. It really bothers the kids in forms of distraction.

"This has got to stop

"Every three or four minutes screaming growlers westward returning eastward 1300 gallons each attack,totally exempt.

What bullsh\*\*

SO LOUD!!! How is it that the Navy requires hearing protection for its personnel but you can repeatedly fly low over civilian areas???

Unconscionable. Move your jets to El Centro!!!

"Again they fly the loudest plane they have over my home. wife is depressed by all this noise

Disrupted my work

I work from home and the nearly continuous onslaught of loud military planes is extremely disruptive!

Multiple low flying growler aircraft

"Walking preserved Weeks Wetland only to be blasted by 2 Growlers twice within 10 minutes. Every time they thunder by my body goes into an adrenalin rush. I can't stop that. a far cry from enjoying the healing qualities of nature.

"Give us a break. very deafening

"Waterboarding would be preferred over the constant ear shattering noise from the growlers

Forks: Growlers circling overhead...disruptive to peaceful evening

Rialto Beach in ONP, deafening roar loud over the pounding surf at nearly high tide. Let this park be Quiet!!

Low flying growler aircraft

Get your damn Growler Jets out of Lopez Island Airspace!!! Every time you scream overhead I end up with ringing ears!! You are DESTROYING OUR HEARING!! WE NEVER ONCE AGREED TO HAVE YOU TORTURE US AS PAWNS IN YOUR WAR GAMES...LEAVE LOPEZ ALONE!!

Also couldn't hear our tv! Don't like vibrations going through my body!

1500 feet? There is no "loudness" score for this.. hearing loss .

Low flying growler aircraft

S Lopez, 21 Dec 21, Tue: Another long day of constant ROARS - 8:45am to 3:12pm. A screaming overflight at 5:37pm. Still at it at 8:20pm. 12 hours of periodic ROARING. Do the Navy pilots realize the pain and suffering they are causing over our region?

S. Lopez, 22 Dec 21, Wed: Steady Roar - 10am -11:30am. All I want for Christmas is peace and Quiet !

Low flying growler aircraft

What the hell is wrong with these people flying there jet at night.

came right on the heels of the first one, just to be extra meanspirited.

Low long rumble that caused the windows to shake. Sounded like the aircraft was flying lower than usual.

"Jet flying over Olga. Loud and irritating!!

Another jet flying over Olga making a lot of unwelcome noise.

LOUD JET OVER THE SAN JUAN NATIONAL MONUMENT! Go somewhere else!!!

Direct flyover.

Another LOUD JET OVERHEAD

Multiple low flying growlers disrupting my work

this is just terrible!

Growlers passed over us at Lopez Road twice in 10 minutes. It disturbed our household that was trying to enjoy lunch with our two year old grandson

Please stop terrorizing my family.

sleep is sacred! awakened every night! quit violating our rights!

Third direct flyover in 30 minutes. Feels like we're in a war zone.

Painful vibration from growlers. Deep bodily sensation. Very VERY disturbing.

God it's been all morning, one after another. It's awful.

All. Day. Long. It scares the kids, it scares the animals, it keeps us all on edge. Is that what the navy is aiming for? A little domestic terrorism, you know, just for fun? As a treat?

Low elevation flyover - the windows were shaking.

Yet another low level flyover. Loudest I've ever heard here.

Takeoffs from Whidbey NAS

"Get your damn Growler Jets out of Lopezian airspace!! WE NEVER AGREED TO BE PART OF YOUR DAMN WAR GAMES!! LEAVE LOPEZ ISLAND ALONE!!

"Dreadful roaring for most of the day. Unsettling and painful, creates huge background stress. Shame on those who allow this.

Growler noise all day long! Very unsettling! Find a more suitable base in California!

"Lots of Growler noise today.

Hope we get a break over Christmas."

**STOP USING LOPEZ ISLAND AS YOUR "TRAINING GROUND"!!! WE ARE PEOPLE NOT PAWNS!! PEOPLE WHOSE LIVES AND HEALTH ARE BEING DAMAGED BY YOUR NOISE POLLUTION!! STOP FLYING OVER LOPEZ NOW!!**

Couldn't listen to music inside house at center of Lopez Island

Excruciatingly loud flyover and constant all day today.

Much too loud for our dog and us

Flyover. Woke the dog up.

All day long.

Both obnoxious and disturbing. I'm trying to work!

Multiple passes, very disturbing even with windows closed and sound of rain.

Cross Road. Started maybe an hour ago.

So close to my house that the low tone had the same effect on me as the mind implant in Vonnegut's "Harrison Bergeron". Splitting headache and inability to concentrate because they've been growling for most of the afternoon.

they have been going ALL DAY, rattling my windows at times, impossible to work

South Lopez Dec 13. Loud jet noise. I can hear it clearly in the house though the TV is on and the dishwasher.

South Lopez Dec 13. Another loud jet blast.

South Lopez Dec 13. Rumble and vibration from Ault activity.

1:47pm South Lopez Dec 13. ANOTHER rumbling deep roar and vibrating wall of jet noise.

South Lopez Dec 13. Awful afternoon of jet noise. The jet(s) I am hearing now are not commercial. This is the Navy abusing us.

South Lopez Dec 13. 3:51pm. The rumbling vibrations from what I assume are Growlers taking off are vibrating right through my home. I hear the noise and I feel the percussive noise.

South Lopez Dec 13. An incredible amount of jet noise. As if the jets are simply circling overhead. The noise is everywhere.

South Lopez. Dec 13. More jet noise. I read the news regarding lawsuit over Navy EIS. "The Navy appears to have used certain statistics 'much like a drunk uses a lamppost: for support, not illumination.'" That sounds right. Ashamed of the Navy.

South Lopez. MORE JET NOISE. ALL DAY LONG. MY NERVES ARE FRAYED.

Unbelievably loud. working inside and it was ear splitting for about 2 hours non stop

9:56am. South Lopez. Dec 14. Growler screaming overhead. The roar is tremendous; it fills our home. Working on a report for work and I am startled and distracted. Another example of Navy abuse.

The noise disturbed my activity.

Low frequency vibrations shaking the house all morning

Dec 14, 12:07pm. South Lopez. ANOTHER loud jet screaming and roaring over South Lopez.

Trying to complete a very expensive on-line trading and can't even hear because of the jets. I can't work at work. This training is 10k dollars and I can't hear.

Dec 14. Loud jet screaming over us. NOT a commercial jet. Too loud with a long long roar. S. Lopez.

Dec 14. S. Lopez 4:12pm. LOTS of jet noise rolling around in the skies, coming right into our home.

Low flying growler aircraft

The aircraft that just passed was loud enough to be quite painful to the ears and probably generate hearing damage.

"First: there is no way that I can see to turn on the exact location map.

Secondly, we are at Cross Road, Lopez Island 98261"

**GET YOUR DAMN GROWLER JETS OUT OF LOPEZIAN AIRSPACE NOW! YOU JERKS ARE DESTROYING MY HEARING!! EVERY TIME YOU ROAR OVERHEAD I AM LEFT WITH RINGING IN MY EARS AND MORE OFTEN THAN NOT A MIGRAINE!! WE NEVER AGREED TO BE YOUR GUINEA PIGS! LEAVE US ALONE!**

Low flying growler aircraft impacting my life!

All day. Right through dinner time. Including multiple direct flights over the heart of Lopez School

The usual grinding, shuddering shaking deep disturbing thunder emanating from Whidbey to the south. Ongoing since I arrived home, so far 2 hours. Horrid navy abuse of us. Anacortes 6:30 pm

Thought it was landing in our living room. Horrible!!

6:48pm. Dec 14. LOUD LOUD jet overhead. South Lopez. The roar continues to go on as I type this. Still roaring. Still roaring. Now it is louder.. Still roaring.

I could feel this sound in my chest

It is dinner time and the sound is overwhelming.

Loud Low flying growler aircraft

Another loud low flying growler aircraft

S Lopez, Dec 14 7:33pm. Sudden LOUD SCRAPING ROAR of a jet over us. Sounds like it is scraping the sky. A rough, raw noise. Just settling down and WHAN, the jet noise. Navy has no business flying over a populated area with this noise.

So loud I had to stop talking on the phone. I could feel the rumble in my stomach.

Not again.

My dog hates it.

Jet flew directly over my house. Again out of flight pattern. So incredibly loud, the sound went through your entire body. Recorded on phone. So stressful. Lasted almost 2 min.

Roaring growlers. Destroys all sense of normalcy. Creates huge background feeling of unease, stress. Dreadful roaring.

Very LOUD JETS OVER LOPEZ! This is not the quiet place we moved to to get away from Prowler jets!

It's been pretty bad the last several days. The noise hurts. The planes fly directly overhead over and over again. I live here with my family. I worry about the health of my young children.

Loudest I have ever heard. Single plane seem to stall or fly very slowly over Swifts Bay. I don't know what training exercise this is and why it can't be done over the Straits of Juan de Fuca instead of over populated areas.

Two jets flying very loudly and low over MacKaye Harbor. It happened at least three times on the 13th. Again very loud and disrupted dinner at 7:40 PM. Very low.

Two jets flying North to South over MacKaye Harbor.

S Lopez, 15 Dec.21, Wed: The day begins with Bose headphones on. 8:57am, 9:26am, 9:35am - Growler takeoffs in the 70 decibel range.

S Lopez, 17 Dec 21, Fri: Day begins with an 85 decibel Blast at 8:56am and continues until 12:25pm with a final House shaking 80 decibel ROAR at 2:30pm

Very loud over our house, disruptive!

Distracted from telephone conversation.

More LOUD JETS OVERHEAD!

Low flying growler aircraft with gear down

What are you doing to ocean wildlife??

Fly over the desert!!!!!!

Forks. Second time today of deafening noise as jets circled over Forks town, over the A road and up the river. Possibly heading to ONP coastline. Why over Forks? Never wanted them here nor their war games.

Just returned to town from "quiet" Seattle to a conversation interrupting roar from jets over Forks. Can't even stand outside the Post Office talking with a friend without the jets' rumble and growl - impossible to hear my friend six feet away! Grr!

The noise was loud enough to feel the vibration inside my body, and to scare the living daylight out of my cat.

Very constant this afternoon, few breaks at all

Low flying growler aircraft

Flyover

Jets roaring around over the islands. Very noisy and unsettling.

Roaring, distant and near. Ongoing and incessant. Just awful.

On a Zoom Board meeting, and had to stop and let the Growler go by before I could unmute my computer to participate. This is right over the Village.

1pm, Dec 4. 2 Growlers over Mt Vernon, flying east to west. Incredible jet noise.

These planes kept me from falling back asleep for an hour or

Constant military war jet traffic out of Whidbey Island over Discovery Bay.. Kilmer .Murray and Cantwell. 100% supporting and spending as much money as possible for military expansion in Puget Sound.

Really loud multiple flights. Please give us some peace.

Please stop flying neat my house. It is deafening

Loud and deafening in a residential neighborhood

Way too loud for a residential area.

Already considerable roaring this morning. The roaring is so horrible and creates such a feeling of dread and unease, so stressful and inescapable.

Decatur Island

Bombing ruin? Right over Davis Bay and the Sea Lion Rookery. Can't hide from this. Makes me crazy

Loud and rumble enough that it cut of conversation and rattled a couple of windows. Second pass a few minutes later.

Not as loud as earlier - don't know if that was due to elevation or a different aircraft.

Having lunch with a large group at Skagit acres. At noon deafening noise by jets stopped the conversation- could not hear the person next to you. Happened 2 more times with in the 1 or 2 hours we were there. Very disruptive to the holiday event.

"Directly over house, E to W, 200' above house!!!!120 dB on Decibel X Pro

So much for the (worthless) judicial "review."

Two flight very loud over our house. Scared the kids

Another loud flight right above disturbing the peace.

Sunday night, Dec. 18. Coupeville. 6:45 pm. Two jets, one after another. I guess I'm not surprised I'm hearing Growlers on a Sunday. I feel like no day is off limits anymore. WE ARE SICK OF THE NOISE.

Another very noisy and deafening fly over.

More noise on a Sunday night.

The noise is so loud my walls are shaking and items are falling off my shelves. Daily this noise is unacceptable. Please be more considerate of the locals.

"Endless war jet noise throughout our soundscape never ending.

Are senators and representatives of this state forever okaying spending in this arena"

Trying to have a zoom meeting and plan 2022 year for business. Had to stop during jet noise

Really?? Night flying the week of Christmas??

Nerve wracking roaring, Drowns out all other sounds. Distressing and very stressful. HORRIBLE NOISE.

"Westward bound Whidbey Island navy war jets spewing poison over our heads.

A world Beyond war.....

Unfortunately I can only imagine

Stay safe and healthy

Ongoing aircraft traffic this morning

the military has no regard for the wellbeing of anyone or anything but their budget allocation.

extremely loud growler flights overhead loud enough to disrupt video conference audio

nobody joins the military apart from trash who will do anything for money no matter who gets hurt in the process

"Two growlers went over in about 10 minutes times they were low and extremely noisy above 90 dbs. We have had many planes flying over the north end of Camano Island for the last 2 years. I have been reporting them to the Navy but not to you.

F\*\*\*\*\*. Loud

Growlers have been flying over all morning and continuing

Absolutely dreadful almost incessant roaring, the noise overwhelming all other sound. This is terrible noise, stress inducing, anxiety provoking, the opposite of beauty, peace and that which gives life affirming meaning. Allowing this is wrong.

South Lopez

Low flying growler aircraft with gear down extremely loud

LOUD LOUD LOUD!

"Even disturbing to our dog!!!!

FIND A DESERT!!!!!!!!!"

A beautiful, quiet winter solstice - and all day long the rumble of war jets.

Stupid jet

A day of nonstop roaring. Terrible noise and terrible sensations caused by roaring. Extremely stressful and truly horrible.

Single EA-18 at 700 feet heading due north. Visibly viewed it dumping fuel from both wings at a slow speed in a fuel burn profile

Loud low flying growler aircraft

Loud low flying growler aircraft

Engine run up rattling the house South Lopez

Was really hoping for a break from Growler noise for Christmas. Haven't seen my kids/grandkids for a long time (we're boosted and tested and masked). They were stunned at the disruptive noise levels of the growlers. I apologized to them.

Couldn't carry on a conversation at the dinner table!

Very LOW LOUX JET just flew over my home!

Low flying growler aircraft

They didn't sound like growlers. High pitched jets. Maybe two.

Much too loud all day

Low and loud south Lopez

i guess they want to earn their christmas bonuses by making the runup as miserable as possible.

Low flying growler aircraft

The last week has been unbearable in our home. All afternoon, evening and very early morning the low rumble continues. 40 secs on 10 off. Makes me

want to cry as it triggers my PTSD and anxiety. I can't comfortably be in my own home with ear plugs

Very loud flyover. Couldn't see aircraft but it was too low and very disruptive

Are we never to be afforded peace in our homes any more? The navy has become a terrorizing force.

The same plane, over and over and over and over and over...

Two days before Christmas and we are pounded by jet noise, the Navy has no respect for the community, zero respect.

Too loud, too low, too close. Cape Saint Mary area, Southeast Lopez Island, Washington. Had to plug ears for fear of further hearing loss.

Freaked out our pet bunny

All day today , flying high and extremely loud over Coupeville, you suck Navy!!!!

Why do they need to fly other hours from 7am to 8pm

Two days before Christmas, no peace on this part of Earth. Flying over Coupeville again

More jets ever damn day!!!! We are being driven to insanity here in Coupeville

Terrorizing us in Coupeville , just another regular day.

Eight jets so far this morning since 10am. Two days before Christmas and this is what the Navy does to its citizens???

What an unbelievable, quiet, wonderful place we live when there are no Warcraft screaming through the air- Christmas Eve, eve, in Anacortes. Sadly a rare pleasure here. Quiet peaceful evening. 8:10 pm

who else would running huge choppers around on christmas eve

"go for a walk on christmas, I said.

unlikely to be disturbed by pointless military torture program on one of the biggest holidays of the year, I said.

hahaha"

Still need to burn some fuel?

Time to move the growlers to California desert

It's been five days since a growler jet flew over Coupeville in this snowy, quiet week after Christmas. One just flew over and broke the silence. It reminded me how truly awful and disruptive these jets are to daily life.

S Lopez, 1 Dec 21, Wed: 8:05 - 8:58am, giant ROARING AND BLASTING from Ault field. The day continues with huge noise at 1:42pm followed by an EAR SPLITTING, SCREAMING overflights - 3:30 - 3:40pm and a final BLAST of 85 decibels at 5:20 - 5:30PM.

"S LOPEZ, 6 Dec 21, Mon: No FCLP'S scheduled - but - a ghastly day of almost continuous BLASTING AND ROARING and overflights for 6 hours (9am - 3:17pm) - 68 - 80 decibels.. Finally down to a rumble at 7:25pm

S Lopez, 7 Dec 21, Tue: Periodic disruptive, conversation stopping NOISE from 9:20am - 6:40pm. We are collateral damage! Larsen and Murray have placed a WAR TRAINING ZONE over what was one of the most peaceful places on earth.

S Lopez, 13 Dec 21, Mon: Noise begins at 9:15am. Steady roars and overflights, with a few breaks, until 6:30 pm. . . then rumbling. We often have more noise on non- FCLP days - like today - or is the Navy just lying about what they are doing?
