

Jet Noise Report May-June 2021

Here are some of the comments submitted by residents of our region regarding Jet Noise. More comments from Anacortes, Camano Island, Mt Vernon, Port Townsend, Coupeville and the San Juan Islands, begin on page 13. They tell the human story. Please read them.

- ✚ Exhausted from work, home late, have to get up very early tomorrow- wrenched from sleep by metallic screaming. Anacortes 10:20 pm
- ✚ Can't keep my children asleep. It's hurting their ears.
- ✚ S Lopez, 27 May 2021, Thur: 3:30pm Deafening ROAR, 95 + decibels outside, overhead. Actually painful. When our Government allows this to happen in our homes year after year after year . . . this is torture. . . plain and simple . . . torture.
- ✚ Unprecedented heat wave and now we have to shut all the doors and windows and swelter in the heat or be assaulted by 105+decibel noise inside our home. Reaches 90 + decibels with doors and windows closed.
- ✚ Off the charts, 130 db...20 feet over my house. Insane...
- ✚ In line for ferry in Port Townsend, unbelievable noise emanating from the OLF operations. These people in PT did nothing to deserve this onslaught of racket coming from the Navy. It's terrorizing, plain and simple.
- ✚ Over Forks, WA and so low, easily saw the pair. Probably 5-7000 feet. Set off car alarm, sounded like bombs about to be released. Very scary and far too low. Need to practice far from civilians and wilderness areas.
- ✚ Just above 700+ feet, 3 within 30 seconds of each other, fast and loud enough to cause ear pain.

Since 2015 an increasing number of jet noise reports are being made from residents of the Salish Sea region, using the San Juan County Aircraft Noise Reporting Website. This report provides data broken out by reports generated inside San Juan County and outside.

With the addition of 36 more Growlers in 2019, the region has been bombarded. Total jet noise reports within San Juan County grew **26%** from 2019 to 2020. Noise reports from outside of San Juan County have rapidly increased.

The first six months of 2021 have brought the number of noise reports to 76% of the number received for all of 2020.

Listen to this jet noise that we hear in our region:

<https://soundcloud.com/laurenkuehne/clearwater>

The Navy dismisses noise data:

<https://www.seattletimes.com/opinion/navy-should-use-our-data-on-growler-noise-not-dismiss-it/>

INSIDE THIS REPORT:

-  **Annual Comparisons**
-  **Monthly Comparisons**
-  **Report by Location**
-  **Reports by Type of Noise**
-  **Noise by Time of Day**
-  **Reports by Day**
-  **Map of Report Locations**
-  **Comments submitted with each report, revealing human impacts**

The San Juan County Aircraft Noise Reporting website was approved in 2014 by the County Council for people to have a reliable place for recording their reports and comments. Data reports began in 2015.

gis.sanjuanco.com/aircraft-noise-reporting

In October, 2019, permission was given for people outside of San Juan County to use this noise reporting website. We are seeing an increasing number of reports from the wider region.

This report is compiled by Quiet Skies:

<https://www.quietskies.info/>

Comparing Jet Noise Reports 2015 - 2020 and the first half of 2021

This chart provides some background to the history of noise reporting.

Jet noise reporting began in 2014 when San Juan County implemented a website for reporting jet noise. Data collection began in 2015. In the Fall, 2019, access was expanded to people outside of San Juan County enabling them to enter jet noise reports with the result that the number of noise reports is increasing, as has the number of aircraft at NASWI. This chart provides the simple totals of all noise reports in the database since 2015 through 2020 and the first half of 2021.

Comparing Jet Noise Reports by Location 2019, 2020, and the first half of 2021

For a closer look, this chart offers insight into three items:

- 1) The total number of reports in the first half of 2021 has already reached **76%** of the total reached in 2020.
- 2) Reports of noise incidents from outside of San Juan County have grown dramatically. Refer to the “dot map” on page 12 for a picture of this.
- 3) In 2019 and 2020 we experienced some incomplete report data wherein some reports did not include location.

Jet Noise Reports per Month, All Locations Comparing 2020 to 2021

Jet Noise Report by Type of Noise
INSIDE San Juan County
May-June, 2021

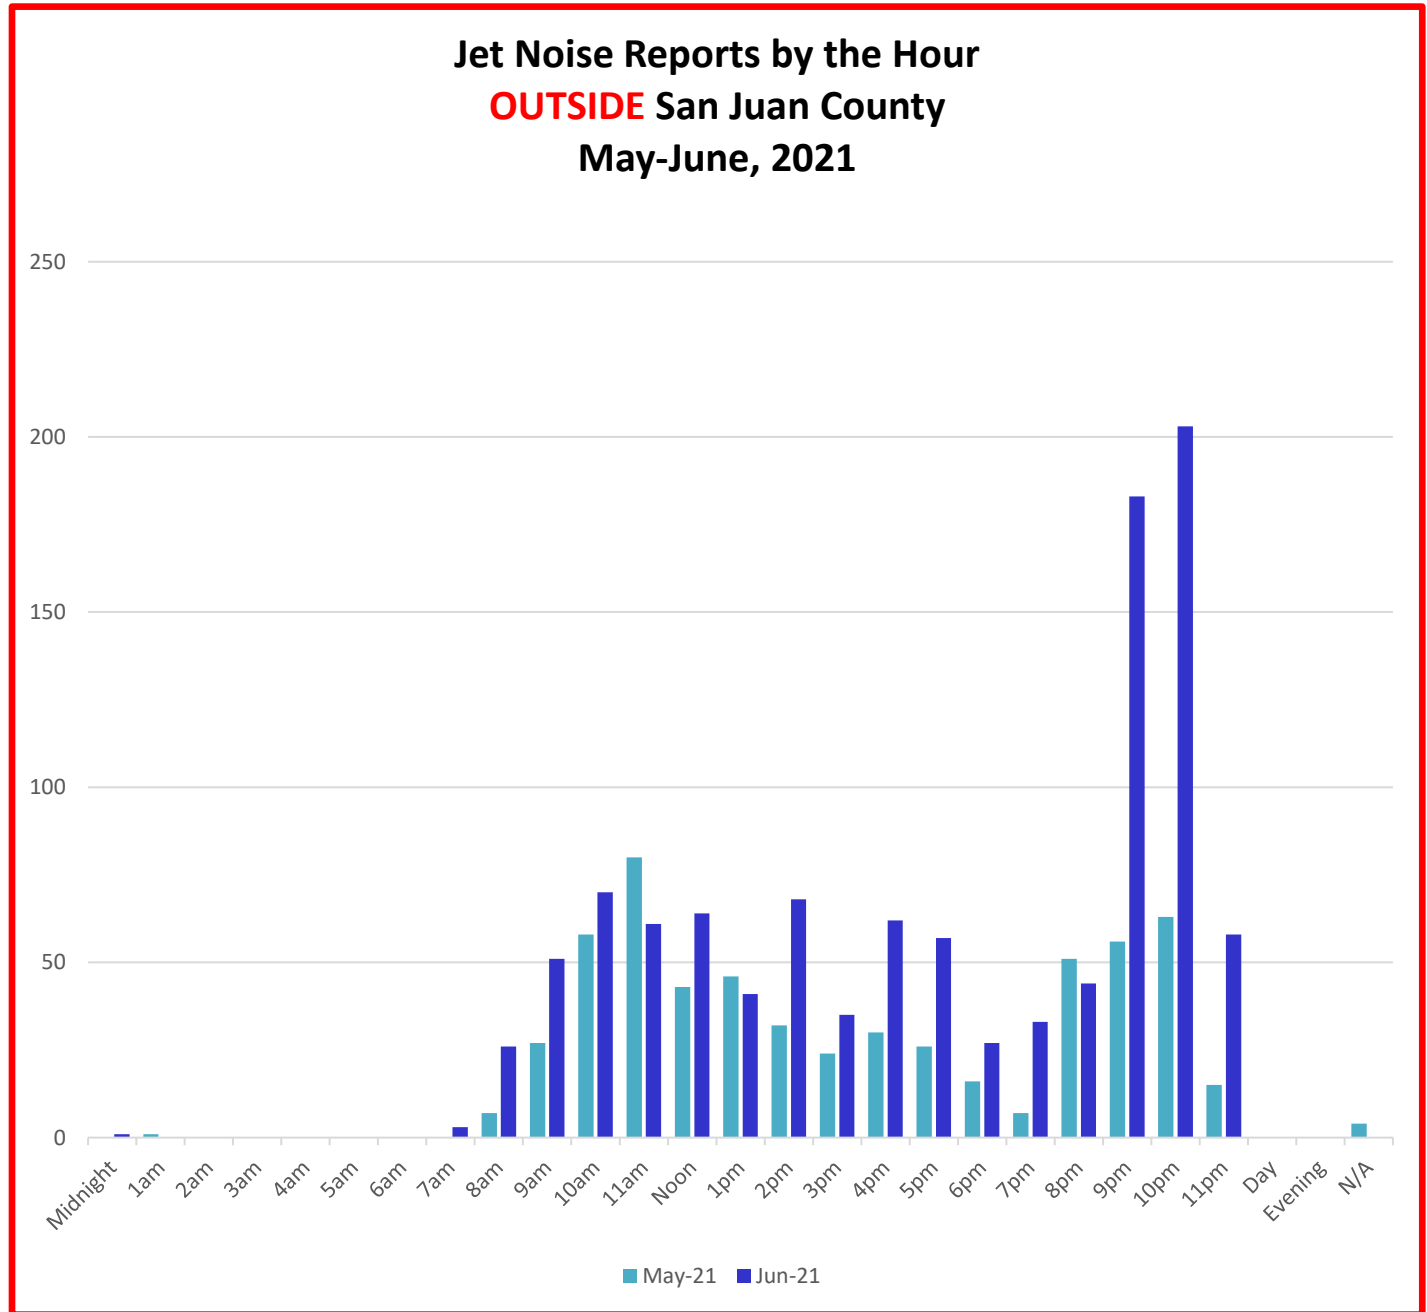

Jet Noise Report by Type of Noise
OUTSIDE San Juan County
May-June, 2021

For example, submissions that report noise 11:00 am through 11:59am are clustered in the 11 o'clock hour. Sometimes reports do not include a specific time. For those, related data may indicate Day or Evening noise disturbance, or Not Available.

Note that there are hours of varying noise incidents. The Navy persists in using "annual noise averaging," significantly underestimating of the impact of jet noise. There is no "average" noise felt by residents in this region. The noise is variable and unpredictable.

Jet Noise Reports by the Hour
INSIDE San Juan County
May-June, 2021

Jet Noise Reports by Day **OUTSIDE** San Juan County: May-June, 2021

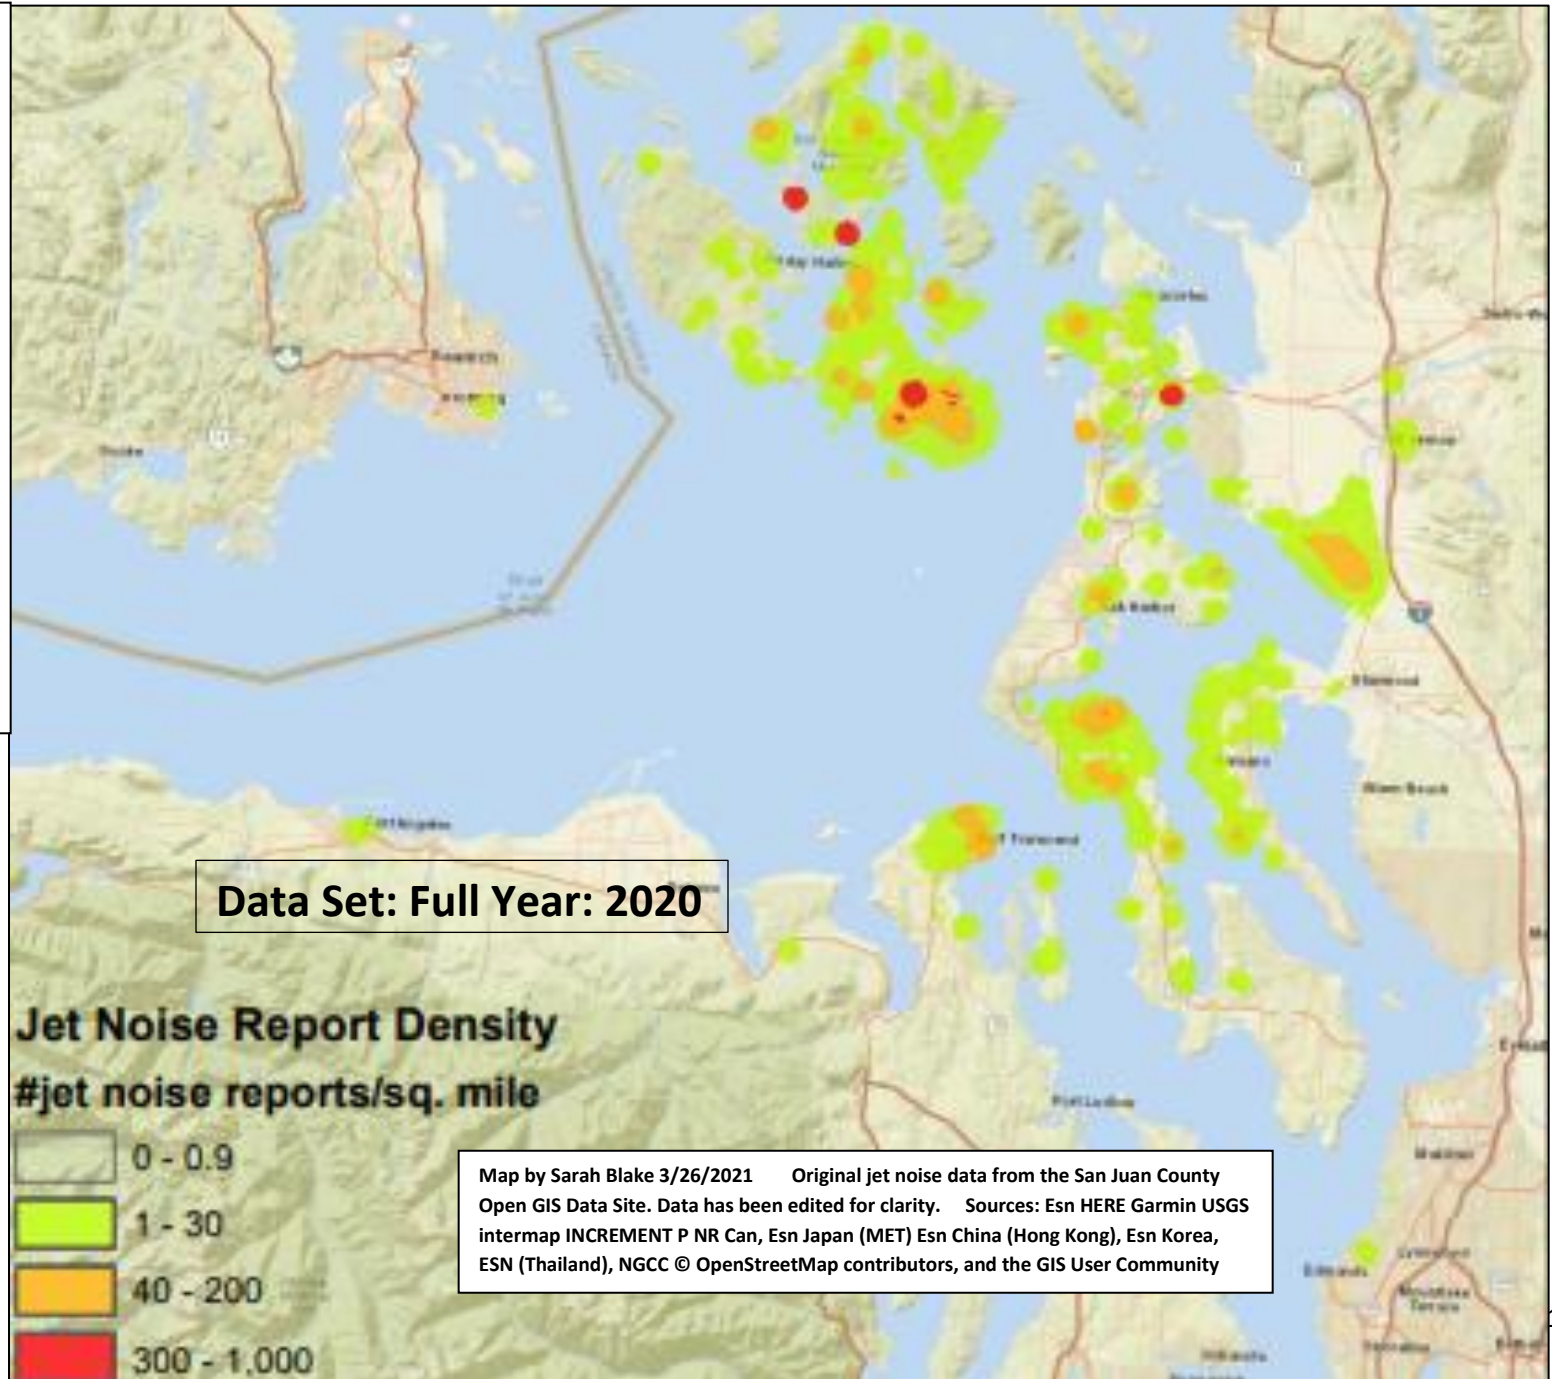

Another example: As described in the previous chart, the Navy persists in using “annual noise averaging” to justify its statements of low impact. As you can see in this chart and the one on the next page, there is no “average noise” felt by residents in this region. The noise is variable and each day is unpredictable.

Jet Noise Reports by Day **INSIDE** San Juan County: May-June, 2021

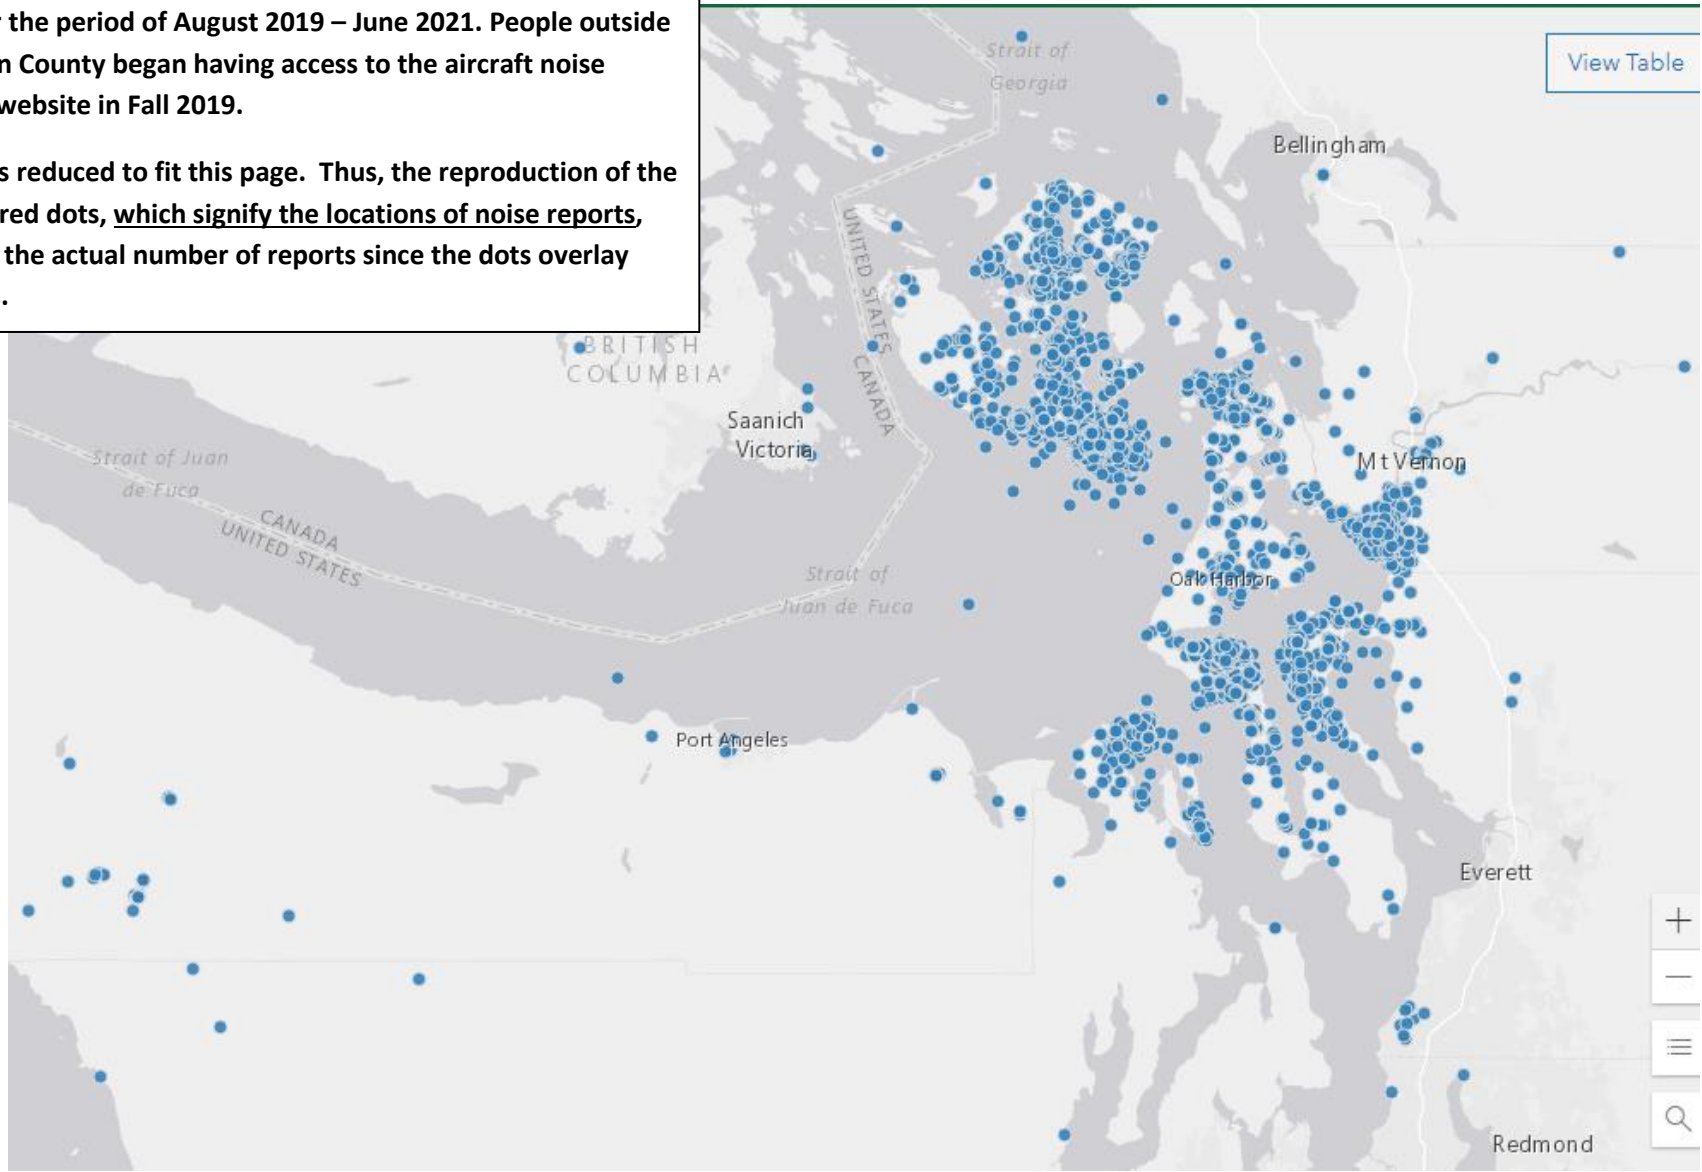

This is a “density map” of jet noise reports for 2020 only. For the sake of visual clarity, this map focuses on a limited area, though jet noise data come from further afield, including more of the Olympic Peninsula.

Referred to as the “dot map”, this picture of the Aircraft Noise Reporting Map offers a different view and includes the larger region, for the period of August 2019 – June 2021. People outside of San Juan County began having access to the aircraft noise reporting website in Fall 2019.

This map is reduced to fit this page. Thus, the reproduction of the multi-colored dots, which signify the locations of noise reports, minimizes the actual number of reports since the dots overlay other dots.

Comments Submitted with May and June 2021 Reports

NOTES:

Some reports indicate decibel level. Lawnmowers, for example, generally produce 90 dB. How would you like to have that running inside your home?

Some of the people who submit a noise report also list their home address or phone number or e-mail. In this report, those personal identifiers are deleted/modified, as are expletives.

S Lopez, 2 Jun 2021, Wed: 5:33pm another screaming overflight 75.4 in the house - 85.4 decibels outside - It's a painful noise and there's nowhere to escape. The Navy is not concerned about their impact on neighbors. Neither are Larsen or Murray.

My home is no longer my sanctuary. The navy has invaded my peace and mental health. This is infuriating. 11:40pm and the jets are bombarding us with horrific noise.

8:23pm, 5/12. SouthCentral Lopez. On an evening walk and suddenly a growler jet is screaming and roaring overhead. Heading NNE it seems. DEAFENING. What is it doing over this part of Lopez? Taking a shortcut? Quit playing around with your wartoys.

Pavey Rd Lopez. 5/11. About 2:10pm. Riding my bike and suddenly I am startled and holding tight. LOUD LOUD roaring. Is it a truck behind me? What's going on?? OH YES, a loud growler jet is screaming and roaring over S Lopez. Dangerous moments.

In Coupeville, for 12 hrs plus each day M-F we are gifted the unwelcome sound of peace shattering and nature suffocating noise the Navy has chosen to inflict on this community. They are terrorists

Shrieking/grating grinding sounds of EA18-G Growlers coming through the roof of our medical clinic in Mt Vernon around mid day- heard through ceiling, hvac and ambient noise of clinic, disrupting thoughts and conversations as they thankfully passed

In Coupeville in town, forget having a peaceful evening M-F EVER.

Over town in Coupeville, extremely loud and deafening. You absolutely suck Navy and have become a terror organization!!!!!!

87 dB on Decibel X Pro app.

We have the door open because it's over 80 degrees. All of a sudden, a jet flies so low everything is shaking and I have to cover my ears inside my own house.

Extremely loud Growler flight, loud enough to disrupt the sound on a meeting and make it impossible to hear what was being said, inside, downstairs. Cloudy days seem to be worse.

VERY loud over ear plugs and noise machine at highest volume - no one can be expected sleep with this volume of noise at near 10pm on. Monday night. Nor does the sound of the plane ever die out when you guys do your flyovers..just a constant nuisance

Woke sleeping child

It is especially meanspirited to use the onset of rain as justification or an excuse to route more planes directly overhead.

Flying jets late into last night so i was sleeping in. Then jets showed up at 8:30 this morning. How and when am I supposed to have a healthy night of sleep?

Coming over the roof top low, fast, hot, before starting FCLPs at OLF. There is just no care given to the health welfare, sanity, or safety of residents living under the flight path.

Loud Roaring across the sky

R. Larsen was recently at NAS Whidbey meeting top brass and mentioned more funding for research on jet noise. Why do we need more "research" as we are living under this horrific noise almost every day and night? The data is right here, right now.

Terrible engine noise from Ault lasting several minutes

Yowza - very loud!

12:22pm. I would like to be outside but the jet noise rumbling from Whidbey is so loud, persistent, irritating that I decline. What is the purpose of advertising the islands as peaceful when the Navy has declared war on us? NOT peaceful.

More engine noise Ault

Low flying growler aircraft with gear down

Came right over the house. Extremely loud.

S Lopez, 3 May, 2021, Monday: 11:30 am - 12:30. constant roars and rumbles 65 decibels inside the house.

CANNOT READ, CANNOT THINK, VIBRATING BRAIN, VIBRATING ENTIRE BODY. PLEASE STOP!

Loud jet noise all night. It's past 10p.m. and I still cannot sleep. This is untenable.

"Downtown Port Townsend and the Port of Port Townsend (Point Hudson) which used to be a pleasant place to be in the summertime

Has been completely destroyed by the abuse of noise of the U.S. Navy growlers"

The noise ended around 10:30 last night. It's 8:25 am and the jets are already back subjecting us to their torturous noise.

8:30 in the morning, ripping through an otherwise peaceful start to the day. I've lost all respect for our navy 100 times over. Their noise is having horrible impacts to the Puget Sound region and on me personally.

We can see that the navy doesn't care about the people they serve. The noise is absolutely horrible!! Why the hell were these jets ever allowed to be produced knowing they'd fly over US neighborhoods? Makes me sick!!

Dear god!! At the Coupeville ferry/Crockett lake, a jet comes ripping over. Loud like you don't ever want to hear. Absolutely horrendous !!!

Can't hear what the ferry workers are announcing on the intercom. The jets are louder than you'd ever imagine. Scary loud. Makes me sick that we're subjected to this.

Leaving home today because I can't take the noise!! Heading south and taking my pile of work with me. I can't believe I have to do this!!!

Too d*** loud to sleep again.

11 pm and it's sleep time for the majority of residents. This is an unacceptable sleep disturbance and affecting our health. Please stop. Now having to turn on all my white noise machines to blast it all out just to get some much needed sleep.

Unable to sleep because of intense noise and vibration.

Growlers starting FCLPs at OLF. Turn off the TV, close the windows, and hunker down against the noise blast.

Argh! Thought they were done. Settled in to relax and go to sleep, but no. New session of FCLPs starting at OLF.

The growlers are still flying at 11pm and scaring my pets. It's difficult to sleep.

Some of these incidents involved more than one plane based on noise produced, but I am unable to confirm that as I do not look at the sky so as to avoid having recurring nightmares of shrieking military aircraft.

Continuous rumble that can be heard in the house with windows closed. Started about 9:30. Now it is 10pm and I am sure will go through at least midnight. How are we supposed to function with no sleep.

Unable to sleep.

Woke me up!

Two Jets over Sperry Peninsula, Lopez Island, WA.

P8 over Coupeville, low, 11:12 pm

We're getting hammered, HAMMERED out here in Coupeville!!! From around 7 pm it started again, from already having been hammered this

morning. It is now 9:40 pm!! I am sick of being terrorized in my own home. The noise is awful and incessant!!

11:50- basically MIDNIGHT in anacortes and there is a sickening, otherworldly low shaking, shuddering, scraping, roaring intermittently causing my house to vibrate. Far away awful, terrible threatening alien sounds. Navy abuse of us. MIDNIGHT

Extremely loud over downtown Coupeville

Really? Again? I barely got to sleep last night due to the late night flights past 11 pm and they're fitting again this morning? This is brutal. If we wanted noise we would've stayed in Seattle.

Very loud, I am in a conference call and cannot speak or hear... very difficult to work from home here.

Woke family again!

It's getting to the point where I can't sleep, even my family who aren't complainers are starting to complain. The house is rumbling. It's like living in a war zone. No wait, we are living in a war zone. How do I make this stop?

Trying to meditate. Very hard with the jets flying

They just flew over again and my ears hurt. They need to stop. Have been having trouble sleeping.

Too loud 120 db+. Flying too close in .

Can't keep my children asleep. It's hurting their ears.

Low-frequency acoustic energy emissions are awful tonight, penetrating both structures and living tissue sheltering within the structures.

Okay. Had enough. Flew late last night and now FCLPs at OLF are starting again.

"They're back again!

MORE! My head is pounding. Going to leave and get out town until the weekend. I can't stand it here when the jets fly. Otherwise I love this peaceful, beautiful, quite place. Home is definitely not my sanctuary when rattled by growler jets.

Growlers have flown right over us 4 times yesterday and 4th time today. My daughter and husband were trying to ride bikes and had to rush home, They run 3 planes at a time. I was trying to teach an online course during one of them! This is ridiculous

Smashing my peaceful morning again. Thanks navy for being the absolute worst neighbor ever!!!!!!!!!!!!

In Coupeville, more of the same destructive Noise

Shame on all three of you

Simply sickening

Smashing our peace again over Coupeville

Let's begin another beautiful spring day with the sound of war.

House is vibrating... the noise is incessant, disrespectful and ridiculous. I don't think the situation is going to change in the foreseeable future. It's pathetic.

Oh go away

Total disruption of dinner conversation. Rude in the extreme.

"Shame on you. Hurting children, elderly, the sick and suffering, our environment, etc. etc.

Shame on you. You are pitiful.

Engine noise awakened me

"Engine noise from Ault

Vibrating my body through the floor. Stuff rattling"

Ault engine noise

Started at 10:18, nonstop through 10:21

More rattling windows

Loud enough to hear and feel over the electric toothbrush in my mouth. Heard again fifteen minutes later when I climbed into bed...if returning to base, should be a one pass and high."

I just have to say that I am SO TIRED of ROARING SKIES. Jets may be flying to the south of us, but the ROAR in the skies is almost constant. Outside is like having the roar of I-5 in your head all the time. It makes me crazy and sad. Sad for the USA.

June 11. Rumbling vibrating jet noise from NASWI. S Lopez.

Long period of noisy flyovers preceding this complaint

Growlers flew back and forth over the neighborhood for an hour or so. Woke us up.

The Grwlers are an already outdated weapon. And there destructiveness truly irritating to peaceful existence. The Navy needs to put their energy into cyber attack security.

The planes interfere with my sleep. They kept me up last night and woke me this morning.

Another sleepless night, until they stop flying., Ugh!

Constant engine noise for the last 20 minutes - and still continuing

Lots of rattling in home

New double pane windows rattling, floorboards and chair vibrating

Flyover

Flyover. OUCH

Ault

Navy proving for 3.5 sustained minutes that they give zero F***s about citizens.

3:46pm. 6/24. ANOTHER \$%^&*&^%\$#\$%^&* SCREAMING GROWLER JET ROARING OVER US. ALL DAY. ABUSIVE NAVY. S.LOPEZ.

2:04pm. June 24. Loud, echoing, deep, pervasive, jet noise. Comes right into our house and interferes with conversation. S. Lopez

3:39pm 6/24. S. Lopez. Growler flying from NE to SW over Mud Bay. Sounds like a mufflerless muscle car running up the motor right next to my ears. This is ABUSE. The roar is deafening. DEAFENING DEAFENING DEAFENING DEAFENING. ABUSE.

I was in the shower. Floors vibrated, glass door rattled and I could hear the after burners even with the shower fully running! Sounded and felt like an attack right over the house!

Way out of Forks, the jets flew over so loudly, all other noise drowned out and conversation abruptly stopped. No nature sounds for nearly ten more minutes after the last flyover. Very close to ONP.

Cape Saint Mary area, Lopez Island, Washington.

S Lopez, 6 May 2021, Thursday: 10am - 11:20am Roars 68.2 decibels in side house. 12:25pm - more ROARING 75 decibels outside.

Over Coupeville, absolutely smashing our peace

Three jets abreast, over town Coupeville, directly above town. Hey Navy, we are not impressed and would appreciate you finding another home!!!!!!

F*** off Navy!!!!

Growlers over port townsend!

"The Navy. Doing our best to harass citizens since 2005."

New passenger jet traffic

66.8 dB on Decibel X Pro app. Indoors with windows closed.

Loud rumbling through the entire house.

You're a disgrace!

You're absurd. This madness couldn't take place without the people who carry out these harmful flights. Shame on you.

2x the madness!!

Pain X2

Jet roaring over S Lopez. 11:16am. TOO LOUD!!!

Are we being bombed?

I guess that second was the mop-up run?

2x the destruction

3x the destruction

3x the destruction

South Lopez. LOUD jet noise. Too loud. Should not be allowed.

3:45pm. S Lopez. Startled by loud Navy jet. Commercial jets don't make that kind of scream and roar!

"Just above tree tops 200>600'

Two very dark painted Black Hawk military Sikorsky helicopters south bound from Port Angles maybe.8:15 pm

They flew over this area several hours earlier west bound."

All day every day. Go away!

The navy is a terrible neighbor.

Multiple aircraft deafening loud, and that's inside the house.

Long live fascism

What do you call a guy with a ***** and no place to put it? A navy pilot.

The growlers have been flying off and on all morning. Loud throughout the house.

"Roaring Growler practice from top of Little Mtn in Mount Vernon

Pain x2

Direct fly overs Colville and all of southern Lopez. Low level extremely loud blast. Beyond ear damage threshold and certainly head ache inducing

Flyovers continuing

Outside on walk and jet noise was so loud I had to cover my ears and my son got very frightened.

Ault engine

Flyovers for the last several minutes and continuing

5/12. 10:18am Shrieking and grumbling and roaring jet over South Lopez. Distracted.

1:03pm It sounds like a war is going on. The air is noisy with jet noise. Rumbling and roaring. Put the Navy in a less populated area. They are PESTS.

Flyover engine noise

F*** off

Loud jet over us. Roaring & roaring as if it will never stop. I have tried for some peace and quiet by closing doors and windows, but it is of little use. The roar pervades the air. Forced to Shelter in Place in my own home. The Navy is disgusting.

S Lopez, Mon, Jun 14,2021, 11:35am: Outside walking. The noise is impossibly loud. . . . hurting our ears. This must be over 90+ decibels !

May 12, About 8:32pm. Another screaming and roaring growler over S. Lopez.

"Too loud to think

Shakes deck"

S Lopez, 12 May 2021, Wed: 10:15am - overflight - 88 decibels - Outside. Why are they flying so low? This noise is violent.

Flyovers

A lot of growler flight noise throughout the late morning and ongoing

So loud it hurt my ears through solid earplugs

Terribly loud flyovers

In town over Coupeville again and again and again they shatter our peace and cause physical damage to our bodies. F-you navy

3 of them 3x the pain

2 jets too low always too loud

Long lazy flight of something like a 737

10:30am. LOUD LOUD LOUD roaring jet. S. Lopez.

1:13pm. Inside working on a complicated project & my concentration has been broken by a loud rumbling roaring jet overhead. I am not going to try to see it; I am fairly sure it is Navy aircraft, simply because it sounds the same as all of them. Mad.

1:18pm 5/13. S. Lopez. After being attacked by an aircraft a few minutes ago, we now have another screaming and roaring jet over us. I am trying to

concentrate and work. The Navy has turned this into a WAR ZONE!

LEGISLATORS: Why are you so silent?

1:52pm. ANOTHER LOUD JET. Navy jet...commercial aircraft does not make this kind of noise. I am busy at my desk, don't want to get up to look. But this roaring jet has distracted me once again. Windows closed and the jet invades my office! Lopez.

1:57pm 5/13. Mud Bay. Directly over us. TWO GROWLERS SCREAMING and ROARING. It is DEAFENING. I am tired of this war environment. The Navy is ABUSING the residents of this area.

2 growlers flying roughly se to nw. Covered ears but this didn't suppress the decibel level.

2 Growlers flying north over Cape St Mary turning to the east over Sperry Peninsula, Lopez Island, WA.

Time is approximate... ongoing disruptions... heard the growlers several times throughout the afternoon.

May 14. Very loud roaring in the skies. Jet noise. Disturbing. S. Lopez

For several days. We were told that this southern area is not a fly zone!

FOUR YES 4 GROWLERS OVERHEAD!!!

3 Growlers in formation.

Peaceful sounds of birds and raindrops on the roof are no more. Horrid bursts of thunder and shaking and rumbling sounds like end of the world. Navy F-18s tearing up the sky intermittently- anacortes 8pm. No way to treat your friends...

Very loud growler overhead. I understand I live in North Whidbey, but they speed up while they are still over my property/Deception Pass State Park. They turn on the afterburners, its so loud I cannot think/finish my conversation. Ears still ringing.

So loud we stopped pre-school until it passed. Really, we have to stop school to focus for the d*** jets.

Large airline/passenger type gray military jet flying low over Friday harbor.

2 Growlers traveling nne over San Juan Island was so loud some of us outside had to cover ears. One elder complained of pain. Flew near Goose Island (Nature Conservancy land) causing the gulls and comorants there to take flight.

Very loud all day long. This is noise pollution!!

Dreadful roaring and vibration. The windows are closed, nonetheless the noise overwhelms all inside sound. The vibration is extremely unpleasant.

Yet another LOUD GROWLER OVERHEAD!!

2 MORE GROWLERS FLYING WEST TO EAST OVERHEAD!!!!!!!! Noise lasted for 5 minutes. 😞

Another Growler in the area.

"VERY LOW LOUD GROWLER OVERHEAD FOLLOWED BY ANOTHER ONE!!!!!!

My Grandson and I were outside. He was frightened. They should not be allowed over a National monument. The noise is outrageous!!"

Get you D*** GROWLER JETS OUT OF LOPEZIA AIRSPACE! WE NEVER AGREED TO BE PART OF YOUR WAR GAMES! YOU ARE DAMAGING OUR HEARING AND GIVING US MIGRAINES! STOP FLYING OVER LOPEZ NOW

D*** YOU STOP SHATTERING OUR PEACE WITH YOUR D*** JETS!! WE ON LOPEZ NEVER AGREED TO BE PART OF YOUR WAR GAMES!!! YOU ARE DAMAGING OUR HEALTH WITH YOUR NOISE!

Several minutes of growlers over fisherman bay resulting in very loud noise.

Very low flying growler aircraft, slow and very loud disturbing my work

Low flying growler aircraft interfering with my life!

S Lopez, 17 May 2021, Mon: 12:50pm 68.6 decibels inside house . . . Followed by 72.4 dec inside at 12:52pm. At the end of the day - 6:55pm 72.6 dec and at 7pm 65.8 dec. Wonder if it will keep going and ruin yet another evening.

Another peace smashing Navy Growler headed east from Oak Harbor not content without blowing up the quiet here in Coupeville.

More Growlers more Growlers, on and on and on they go blowing up our peace. F-YOU NAVY!!!!!!!!!!!!!!

Celebrating a milestone with friends and family for the first time in over a year, on a beautiful day when the jets ripped through our outdoor gathering. A low flyover through Coupeville, ear splitting, disruptive, totally arrogant. Thanks Navy.

3 in formation 3 x the destruction. Thanks

Multiple jets multiple madnesses

stupid loud. All day. How can anyone possibly be involved with practices that do so much harm?

Fly overs

3:41pm. May 18. Lots of jet noise rumbling in the skies of South Lopez this afternoon. Sounds like thunder and is thus disquieting when I hear it.

One after another they fly over Coupeville smashing our peaceful existence

Thanks Navy for making our lives miserable

More than a dozen times today, flying east west over Coupeville absolutely smashing our world

Loud

Three jets together harming all

Long and loud

TWO GROWLERS BANKING OVER NORTH LOPEZ!

12:55pm. May 19. TWO Growlers clearly seen flying over Mud Bay, Lopez. Heading SSE it seems. Why are they flying over us? Is this on their pattern, or are they just fooling around.? I have NO TRUST in the Navy and their intentions. NONE.

1:57pm, May 19. TOO MUCH NOISE!!! There is too much jet noise in the skies. As if we are living next to I-5 and the constant roar of traffic. Disturbed by the noise.

What exactly did the residents of Coupeville do to deserve this terrorist attack by the US Navy on our peace??

I have counted exactly 18 jets separately flying over our home in Coupeville since beginning at 8:54am today. Each time, screeching, screaming, thundering, pounding and otherwise SMASHING our peace into oblivion. F-U Navy

I don't think the noise will ever end. It's infuriating...

Long slow rumble increasing to SO LOUD!!! Then a long slow decline in noise. SO annoying and irritating! PLEASE STOP THIS INSIDIOUS NOISE.

THIS IS INFURIATING! Over and over again flyovers. SO disruptive to work and personal activities.

So sick of the navy's noise. I can't believe this issue continues ... it's been going on for years now! How can this even be happening???

Directly overhead. Altitude 223 yards

8:12pm. LOUD jet noise echoing around. It goes on and on and on. Still going on. Disrupts the TV show. Still going. Not a commercial jet.

P-8 altitude 205.5 yards

Continuing growler noise

Ongoing jets flying

Flyover

Flyover Formation of 3 growlers

Double growler flyover with continuing noise from another location

"Two occurrences -- 10:23 and 10:33 a.m.

Low rumbling for approx 5 min either side of the time stated.

Apparently heading to the Olympic Peninsula and points west."

Another day of wrecked peace and quiet in the town of Coupeville.

Sick and tired of the M-F ALL DAY LONG onslaught of noise from these selfish and inconsiderate b*****s!!!!!!!!!!!!

Great... another day of horrible jet noise.

One after another... this horrible growler noise.

Deafening

9:03am. In an interior room w/ no windows, working on a project. I hear loud & ongoing roar, clearly of a jet. Very long roaring, not just a light plane. A jet is too loud when it penetrates my home, particularly a room with no exterior access. Lopez

S Lopez, 21 May, 2021, Fri: 9:02am - Crushing Screaming noise. Trying to go for a walk. 90+ decibels outside. Another gigantic ROAR outside 83.8 dec. at 10:03am.

Jet noise from Ault field in Coupeville..... a perfectly beautiful, peaceful day and the peace has been smashed.

So frustrated!

Very loud and disruptive

Yes, 11:31 pm on Monday 24 of May the Navy flew jets at OLF, disturbing the sleep of thousands of residents so two flyers could practice?? It's unconscionable!!!

Here begins another weekday onslaught of deafening noise over Coupeville. Thanks Navy, you SUCK.

Over Coupeville, in Town.

One hour and twenty min now of solid nonstop deafening noise from the growler operation at OLF, why do us Coupeville citizens have to bear the brunt of this situation?

Good GOD!!! Low and slow over Coupeville! Jeezee!

So much noise!!!

So Sick of the noise!!! It's awful and is taking a toll on my health.

A solid hour and fifteen minutes of Growler noise!!! It's 9:15 pm.... this is absolutely horrific!!

Too loud! Can't hear my zoom meeting!

Trying to sleep here

Hey USN, I found that missing bolt from one of your aircraft, it went through my roof. No, you can NOT have it back!

Our 10 year old daughter cannot go to bed, even though she has school tomorrow. She is afraid the growler will crash into our home. Honestly, my husband and I fear that as well. The growlers fly too close and too low over family homes.

So loud we could not hear our tv—all windows were shut. Had to yell to even call navy hotline.

The jets flew off and on and I was handling it rather well until 11 pm when I was still lying in bed trying to sleep. We live in a rural setting where people love to work and be outdoors. Being able to sleep is imperative.

Warm night, windows open. CANNOT SLEEP. Trying to recover from illness. Does anyone ask the pilots how they feel about their assault on U.S. citizens?

"115 dB !!!! on Decibel X Pro app.

Flying W to E, directly over house. Eardrum pain!

And Naval Command continues to deny that there is anywhere else within the millions of acres of land available to the military to conduct this training. Pitiful."

Multiple noisy growlers flying. Hard to relax and have normal life with all this noise!!

Get your D*** Growler JETS OUT OF THE SKIES OVER LOPEZ ISLAND NOW!! WE NEVER AGREED TO BE PAWNS IN YOUR D*** WAR GAMES!!! LEAVE LOPEZ ISLAND IN PEACE!!!!

Low flying growler aircraft producing excessive noise and disrupting my work

Multiple low flying growler aircraft over my house disrupting activities

9:51am. I am inside, not looking outside because I am busy, but there is a VERY LOUD jet noise rolling (thundering) right into my home. Quite likely a Navy jet. This is not acceptable. It is too loud! South Lopez.

2:45pm. May 24. I have been out walking - a break from computer work - and all I hear is jet roaring from NASWI. A low level head-achey noise and pulsing throb.

3:05pm. May 24. We have been experiencing jet noise most of the day. Right now, a roaring jet over us. TOO LOUD. I am tired of the Navy's lies and tired of being ignored by Legislators who could have an impact.

4:27pm. SCREAMING Jet overhead. South Lopez. Now going into the typical deep growling ROAR as it veers away. The roar that takes a long

time to go away. Terrible jets. These are NOT QUIET ISLANDS. We live in a WAR ZONE.

4:29pm. ANOTHER SCREAMING JET overhead. Is it the same one circling? Or do they come in a parade? Sightseeing? You can tell I have NO TRUST in the Navy.

3:35pm. 6/24. South Lopez. MORE ROARING OF JETS. The roaring continues. What is the mission? Sightseeing? Why should I have any trust in a navy that lies about the impact of the growlers?

Keep Saint Mary area, Lopez Island, Washington.

Keep Saint Mary area, Lopez Island, Washington.

S Lopez, 24 Jun 2021, Thur: MORE OVERFLIGHTS!!!! 10:30am 87.6 dec, 11:55am 88.1 dec, 2:45pm 89.9 dec, 3:42pm 84.3 dec. Too painful to be outside (or inside) while everything is shaking. We are collateral damage! This is a WAR TRAINING ZONE.

Long, Low, and LOUD.

Low frequency noise, rumble style, coming from Ault Field. We're hearing it over and over this morning ALL THE WAY IN COUPEVILLE!!!!

So loud that as I am trying sit outside to eat I have to wear my Pelitor ear protectors (used to shield from noise as loud as gunfire) and I can STILL hear them! This after late night flying assaulting our sleep as late as 11 pm.

Growler roaring over Aleck Bay

10:18pm. HUGE JET ROAR from NASWI

5:28pm. Loud jet roaring over South Lopez. NOT a commercial jet by the sound of it.

S Lopez, 24 May 2021, Mon: 8pm Low VIBRATING deep roars. Everything is vibrating: the house, everything. More at 8:50pm, 9pm, 10:15pm. Larson and Murray promised a Hush House for engine testing - another false promise.

Heading West toward Olympic Forest.

Third time in the past 1.5 hours

Another day of peace smashing in the town of Coupeville

Low and fast with zero regard to the citizens below in Coupeville. You SUCK navy

Nearly 11pm in Anacortes and the sky is still shaking with grinding, thundering roaring- coming in waves and palpable in the bones. Ugly, ugly sounds. Not peaceful and hard to sleep. Navy torture sessions wrecking any peace.

It is almost Midnight- and those war machines are still tearing it up,,, deep awful shaking thunder, Anacortes

Well after 10 pm and the night sky to the south is devastated by what sounds like recurrent rumbling , shaking, shuddering explosions. Horrid sounds of navy Warcraft - ongoing. Anacortes - should be peaceful...

Every 45 seconds for the last 7 hours!!

Jets flying low directly over Deception Pass, Fidalgo, Ala Spit, and then South and west since this afternoon at close intervals. 10:20 pm and they're still flying. Jet training like this is just incapable in the middle of all these communities.

"Growlers flying today are extremely loud most of them between 115-120 decibels. I can't allow myself to be outdoors while they're flying. I have measured them at 120 dbs. Please take note of this problem!!!

My god, enough already. It's been nonstop for hours now. People need to go to sleep. My kids need to go to sleep.

My windows are shaking at 11:15 at night. My kids can't get to sleep. I have a raging headache. What the hell is wrong with you people?

Attack! Low flying (150 feet) of a military helicopter directly over the property - there is no sane reason for them to fly over civilian airspace ! This is bad bad bad!

8:04pm. Hard day of work. We want to sit outside, enjoy some fresh air & relax, & what do we hear? JET NOISE. Rumbling & roaring coming from NASWI. Persistent thundering JET NOISE. We might as well live next to I-5 or Sea Tac. Navy is a bad neighbor.

10:08am, S Lopez. SCREAMING and ROARING jet overhead. Disrupted my concentration.

10:34am, May 25. Tremendously LOUD jet roaring over South Lopez. It is a long deep roar, as if a train is moving right outside the front door.

11:38am ANOTHER LOUD LOUD Jet over South Lopez

12:10pm, May 25. I don't know what that Growler is doing, but its roar is long and echoing and rolling and rolling and rolling. Like a bowling ball going down the alley, an alley that is a mile long. A deep guttural roar. S. Lopez.

12:28pm May 25, ANOTHER LOUD JET roaring over S. Lopez.

Navy noise since 930AM today. It is now 1130PM. Non stop. Truly horrible. I have noticed a true increase in noise since they ended their "noise monitoring". What a joke letting Navy monitor their own noise.

Started at 9 pm. Just returned from medical treatment in Seattle and have no peace in my home.

This has gone on much too long.

Too loud for a peaceful evening indoors.

Can't sleep with that going on. Neither can my kid. Too loud. Horrible noise.

It's very late and hard to sleep with this level of noise.

what a lovely evening ruined

trying to enjoy a walk in the park, but no

Disruptive, loud, late at night!

Too loud to sleep and it's too late to not sleep. When will they stop? I've been waiting for hours.

I couldn't even hear myself talking to my friend.

F*** you

Still past quiet hours.

****s

Municipal quiet hours in Port Townsend begin at 10 pm.

If I was playing loud music right now, my neighbors could call the cops.

Still past quiet hours.

More than three hours of this nonsense. I pity anyone who paid for peaceful camping anywhere between Oak Harbor and the Quimper Peninsula this evening. I used to not think about the navy one way or another. Now I think they're a bunch of douchebags.

Two and a half hours of solid ear splitting noise now from OLF operations. The navy is officially a terrorist organization.

Two hours and twelve min now of solid deafening noise from OLF operations. How can we sleep?????????

Un-freaking believable that 11:05 pm at night we are being subjected to this level of noise

P8 aircraft, over town in Coupeville. The navy's strategy is to pummel the citizens of Coupeville as punishment for opposing their expansion of Growlers.

Low , fast and ridiculously loud. FU Navy

Go F*** yourselves Navy!!!!

For an entire solid hour the growlers have smashed our peace and tranquillity. They are flying at OLF

Over and over again they smash Coupeville

One hour and thirty six min of insane noise from the growlers at OLF.

This is the loudest we have heard jets in a very long time, flying low over Ebey's Reserve and downtown Coupeville. It is making it impossible to sleep and nerve wracking due to coming in loud waves.

I can hear the jets in my home, a loud ongoing long roar. They're flying at the OLF tonight. It's horrible.

In my home, just finished dinner and am setting down to write thank you cards. The jets are at the OLF. I can hear them in my home... sounds of loud roars, low wooshing sounds off and on as they circle the field, spewing their pollutants and noise.

The jets are at the OLF. I can hear them inside my home.... low rumbling, ongoing wooshing with intermittent loud noise.

Horrible jet noise inside my home!!! Windows closed!! Grating on my nerves... Ear plugs don't help. Please stop this madness!!

Ongoing horrible growler jet, air and noise pollution coming from OLF in Coupeville. They're hammering us tonight!!!

Round and round they go, making us all crazy in our homes! They're flying more frequently and later into the evening! I can't sleep, my nerves are on edge... how am I supposed to get up and go to work in the morning?

Complete abuse by the Navy. SO sick of the noise/pollution and what it's doing to me, my community and animals that we share this incredible area with. Why is this OKAY!?!?!?

It sounds like they're circling over our house.... absolutely horrendous, horrible noise the navy is subjecting us to. I'm mad as hell!!!

They started flying at the OLF at 8:05 this evening. It's now 10:30 pm subjecting us to ongoing extreme noise in our home for over TWO AND A HALF HOURS!! It's unacceptable that the navy would expect us to accept their spewing noise and pollution.

After flying well past 11-12 last night- My day off work- at home in Anacortes, already sounds like the world is exploding off to the south from here- deeply rumbling, SHAKING my house before 9am. Horrid abuse of Western Washington.

After a full day of echoing sinister thunder off and on, the back of my Anacortes house is shuddering from the sounds of navy Warcraft. It is palpable even if ambient noise is loud enough to drown it out- way too loud. Horrid. 9pm- no peace here

The navy has zero respect for civilian life. How could the jet noise get LOUDER leading into 11:00pm at night on a WEDNESDAY working night. Respect your civilians who pay your salary, cut your engines after a reasonable hour on a weekday

Please make it stop, it has been nonstop rumbling for hours

Constant rumble at night

CONSTANT RUMBLE AND VIBRATION FOR HOURS INTO A WEEKNIGHT THAT CAN BE HEARD THROUGH BOTH WHITE NOISE MACHINES ON LOUD VOLUME AND EAR PLUGS

Disturbed ability to make phone calls for my work as a hospice nurse.

It's almost 11pm and I'm trying to sleep, they are going to fly into early morning, why?? This is horrible

Too loud, had to seek shelter indoors.

Constant, so loud it is impossible to sleep and no where to escape and I have an early morning. It's despicable the Navy can do this to the local community.

It's been a few hours now, even with earplugs in my body is shaking with each pass and I can't sleep or do anything.

Tonight's FCLPs are starting at OLF.

Thought FCLPs at OLF were done tonight. Opened the windows and crawled in bed with my book only to be jolted up & racing to close windows. Way too loud with jets directly over our home. Wish they published times so we would know when they're done.

Again, thought they were done with FCLPs at OLF, but no. Started up again. Out of bed and rushing to close windows. Jets make life miserable.

92 flights just above the trees from 9 PM to 11 PM

Growlers are flying directly over our home. We are trying to get our 10 year old to bed. She is afraid they will crash into our home and so are we. I can't imagine what it is like for people and animals outside right now.

Almost constant...

Very loud and very late! Come on 10:30 at night?!?

"86.3 dB W to E over our house.

How can Naval Command continue to rely on the falsehood that there is no other place available to conduct this training, no place where this training would not harm U.S. citizens."

"96.6 dB on Decibel X Pro app.

NW to SE

Remember the early claims of Naval Command that the Growler is no louder than the Prowler."

11:23. NO SLEEP!! USN ENEMY.....OF THE PEOPLE

"Cannot sleep!!!,!,! :! ! ! ! ! ! ! !,!,! : :!

Really.....assault upon U.S. citizens. Naval Command.....no conscience....no remorse."

Loud and low. So loud my two year old grandson covered his ears without me saying anything. Visually saw the jet flying directly overhead. All conversations stopped.

I can hear them very low rumble in the far distance. They must be flying very far away but it is amazing how far the sound travels. I have heard them in the distance the last few nights.

Crazy amount of loudness and ongoing racket.

Pass by was so loud it completely stopped outside conversation.

ITS Getting worse more fly overs - Its a war zone

NOW THEY HAVE TO FLY IN PAIRS DIISRUPTING any sense of privacy or quiet

Crazy - They keep flying directly overhead! We are not on any flight path -

Crazy - airbase noise is constant. Was running late last night as well. HUSH houses? WHY not be a good neighbor and mitigate the noise!

Send help. It has not stopped - I can't imagine ever buying a place near an airport - but at least you knew what you were getting into. STOP THE BULLYING

YOU'VE GOT TO BE KIDDING! WHY CAPS? CAUSE THIS IS DRIVING ME NUTS - WINDOWS SHAKING AND THIS IS A WELL BUILT HOUSE. I COUNTED 9 FLYOVERS ITHIS HOUR. WHICH MAKES US A VERY BUSY AIRPORT.

Consistent noise well after 11 -

Another Pair Flying overhead - this is not their airspace - they have no rules, no accountability, which makes it no better than Belarus!

Engine run up blasts. Rolling thunder for hours

Direct flyovers and engine run up blasts. Double wammy. Peace time wartime life

This constant run up roar has gone on all day and now all night wave after wave of shattering noise

"Other military helicopters also

It's pretty much a continuous war zone most all day without bombs falling on her head"

This is crazy...this late at night

Directly overhead - WE ARE NOT THE NAVY'S training grounds

Low flying growler aircraft

Two black hawk helicopters went right over our house and shook our windows. We also had loud aircraft earlier today in the late morning or early afternoon, but it was not as loud as this. This was LOUD!!!

5:02pm. There is jet noise EVERYWHERE!!!! It is making me mad! All I hear is ROARING!!!!

11:38 am CONTINUING Rumbling roar from NASWI. S Lopez.

9:20pm, May 26. It is the end of the day. All evening we have been hearing the noise from NASWI. Thunder, rolling roaring noise. I cannot imagine what the folks on Whidbey must be hearing, if we are just hearing the noise from a distance. S. Lopez

10:36pm. Bursts of jet roaring noise from Whidbey. They are STILL running their engines. Why is it necessary to do this at night?

10:59pm. S. Lopez. HUGE ROAR of jet activity from NASWI. Too nervous to try to sleep, afraid this will go on a long time. It has been a HORRIBLE day of jet noise abuse.

11:02pm. The jet roaring continues from NASWO. Another huge roar. S. Lopez.

11:07pm. I am tired of reporting this. It is LATE NIGHT and we are being bombed by jet noise from NASWI. Like right now. South end Lopez.

10:06pm. May 26. S Lopez. CONTINUED RUMBLING from NASWI. WHY is it necessary to be disrupting the quiet of the late evening with roaring jets? What is the purpose?

8:07 pm. Just came in from a walk cut short by jet noise. The rumbling of jet engine activity permeates the air. It is annoying and headache-causing. South Lopez.

11:02 am CONTINUING Rumbling and vibrating roar from NASWI. S Lopez.

11:17am. S. Lopez. Persistent jet roaring noise in the skies.

11:44am, May 26. BIG JET ROAR.

12:37pm. jet noise in the skies. Distracting, irritating. Rolling, rumbling roaring noise!!!!!!

12:54pm. SCREAMING JET OVERHEAD. S. Lopez.
SCREEEEEEEEEEAMMMMMMMMMIIIIINNNNGGGGGGGGG

1:15pm, May 26 LOUD jet rolling and roaring over S Lopez. LOUD!!!!!!

2:01PM. May 26. LOUD LOUD LOUD JET over South Lopez. It just keeps roaring. The excessive jet noise has been going on all day. We live in a WAR ZONE!

4:35pm, May 26. More roaring of jets, South Lopez.

4:39pm, May 26. The jet roaring has continued. It is very irritating. The sound is like Bombs being dropped. A lot of thuds.

4:42pm. Now we have a very loud jet over South Lopez. The roaring weaves in and out, as if the jet is making turns. It is very annoying and disconcerting. The noise, as I write, just keeps going and going. The noise echoing in the skies.

4:55pm. May 26. It sounds like there is a race track in the sky for the jets to run around. There is noise coming from all sides. Just to get some peace I may have to close the doors and windows. That is how the Navy requires us to live: CLOSED UP.

5:04pm. LOUD LOUD Jet roaring over South Lopez right now.

5:32pm. LOUD LOUD deep droning of a jet over South Lopez.

9:01am. Rumbling roar from NASWI. S Lopez.

9:33am. AGAIN Rumbling roar from NASWI. S Lopez.

9:43am. AGAIN AGAIN Rumbling roar from NASWI. S Lopez. I see this is going to be what the morning looks like, if not the day. I will start recording each time.

Rumbling vibrating jet noise.

10:15 am CONTINUING Rumbling roar from NASWI. S Lopez.

10:20 am CONTINUING Rumbling roar from NASWI. S Lopez.

10:30 am CONTINUING Rumbling roar from NASWI. S Lopez.

10:33 am CONTINUING Rumbling roar from NASWI. S Lopez.

11:13 am CONTINUING Rumbling roar from NASWI. S Lopez. I am trying to participate in a ZOOM with a client and the thundering jet activity is annoying.

11:24 am CONTINUING Rumbling roar from NASWI. S Lopez.

11:27 am CONTINUING Rumbling roar from NASWI. S Lopez.

It is 11:33am, May 26. The morning has brought us persistent jet noise, rumbling, roaring and vibrations from waves of jet engine activity. The noise in the skies is like rolling thunder right now.

11:55am CONTINUING Rumbling roar from NASWI. S Lopez.

11:59am. May 26. Tremendous rumbling and vibrating roar from NASWI. Felt it in the floor and in my body. The pressure from this wave of noise is scary.

12:06 rumbling vibration.

12:23am S Lopez. More roaring jet rumbling. A painful morning.

1:02pm. RUMBLING ROARING VIBRATING WALL OF NOISE from NASWI. BAD NEIGHBOR

1:50pm ANOTHER LOUD RUMBLING VIBRATING ROAR FROM NASWI

2:27pm RUMBLING VIBRATING JET NOISE S Lopez

2:42pm. May 26. THE BOMBING CONTINUES. ANOTHER ROARING VIBRATING WALL OF JET NOISE HITS OUR HOME. ALL DAY, SO FAR.

3:01pm. May 26. AGAIN. Another LOUD RUMBLING VIBRATING JET ROAR from NASWI. The ROAR takes up all of the sound in our home. Disgusted with the Navy. BAD NEIGHBORS.

3:06pm, May 26. ANOTHER RUMBLING JET ROAR. WHAT IS GOING ON? JUST LIGHTING UP THE ENGINES? TAKING OFF? WHATEVER IT IS, IT HAS BEEN CONSTANT TODAY. The Navy is an environmental PEST.

after enduring the extremely disruptive noise all day yesterday until almost midnight, evidently we have to do it again today. This is so very wrong. The navy needs to go back to nevada where no one lives and they are not wrecking so many lives.

S Lopez, 26 May 2021, Wed: 9:am - 10:31am. No FCLP's sched at Ault. This sounds like FCLP's. Another hideous noise day at home. I left and came back in the evening - Still roaring. Roaring finally ended after 11pm. We are collateral damage.

Started at 9:48 and lasted till 9:56

I want to sleep now! Not listen to planes.

If the noise is annoyingly loud inside my house, then how are the wild animals in this paradise we live in able to sleep when they have no shelter to buffer the noise?

Ongoing jet noise that is way too loud at Coupeville... and then something that was so loud it was scary. Like right over our heads???

Quiet hours in the campground begin at 10 pm. You are in violation of curfew. Is the navy an enforcer of law or a criminal? Right now, it's the second.

I could use \$10,867. After all, it's partly my money and I don't like to hear it being wasted.

F*** you, navy

Here we go again

sitting here reading and enjoying the sound of the rain and then these F***wits start up with their war games

what great neighbors the navy must be to the people of whidbey, given what d***s they are to us across the water. thing is, i didn't buy a house next to a naval station--the navy is bringing it to me. at least the people of whidbey chose for themself

After an absolutely horrific night of terrorizing jet noise last night, till 11:32pm, we get hit first thing this morning. The navy has lost all sense of decency.

We are being terrorized in Coupeville, absolutely terrorized

More and more over Coupeville.

"Over Coupeville again

"Continuation of the onslaught that Coupeville has endured for days now.

We are slammed each and every day M-F, without exception. This domestic terrorism must stop.

The 8th fly over of Coupeville, headed west. Absolutely smashing the sky. It's not just a momentary disruption, it causes anxiety and stress big time.

The jets have been roaring over Coupeville for hours. Its 10:50pm now and we want to sleep. Please at least fly during reasonable hours.

Ongoing disruptions throughout today... too many to report each and every time!! From extreme loudness to wooshing, annoying sudden loud rumbling. The noise is not conducive to work productivity. My shoulders are tense & concentration is minimized.

We got hammered yesterday... flying till 11:30 last night, now we're getting hammered today. It's absolutely uncalled for!!

Such wracking, wrecking deep thunderous shaking of the heavens from the south- hard flying over Whidbey shaking the back of my Anacortes home. Wrecking the peace. 11:15am. Can't wait to drive away from here to camp in Eastern Washington.

very loud growler overhead

Multiple exceptionally low fly overs causing disruption to sleep in my toddler.

Almost 11pm, and they fly so low, hard to sleep

Late night, low-altitude, and crushing noise pollution from USN aircraft is horrific!

Rumbling house, can't sleep, deafening loud inside with earplugs in, going since 930pm. It's absolutely debilitating

"Decibels over 81+ in house-

Flew also between 8-11:30 PM on May 24 & 26 with readings over 80.

Floor is vibrating- can I say I hate this? I do."

So loud we can't hear our tv with windows closed

Every day is torture.

" The first pass by my house at about 9:45 pm was the loudest but I did not have my meter out. Subsequent average of 70.5 db and incident noise at higher dB 91.1. Too much for our neighborhood and not an example of our Navy as good neighbors.

10:30pm and still going?!? This is excessive. Night flights are so disruptive to civilian life.

Deep rumbling, can't sleep because if it

Noise is preventing me from sleeping!

Trying to sleep. Noise prevents this.

3 Separate fly overs of Lopez Island. Aircraft Visible. Not just "hearing them"

Flying over Lopez Visual -

Fly over Lopez - what flight path? They go wherever they want.

Warming their engines on a cold night to ruin it for the rest of the population. Get a hush house!

Trying to get some rest, fat chance with the Navy flying all day

So, it was all night two nights ago, then all night last night, now all morning. I sincerely hope whoever decided this was a good idea lives right under the flight path themselves- though I doubt they do.

Jets flying directly overhead, roaring around and around. Horrible noise.

Nearly constant low rumble from the south combined with direct, extremely loud overflights. The same yesterday - the noise went on until well after 10 pm last night. Stressful and disruptive.

All morning LOUD GROWLERS OVERHEAD!

Military jets continuing to roar around directly overhead and nearby. This is dreadful, horrible noise.

So loud we had to cancel our meeting

Growlers overhead all day!!!

Get your d*** JETS out of Lopez Island Airspace!; WE NEVER AGREED TO BE PAWNS IN YOUR D*** WAR GAMES!! Leave us ALONE!!

Multiple low flying growler aircraft disturbing my work.

Low level growler aircraft

Multiple low flying growler aircraft

Multiple low flying growlers disrupting my work and home.

Low flight over my house Interrupted a zoom meeting

10:11am, May 27. LOUD JET over South Lopez.

10:36am. May 27 LOUD screaming jet over South Lopez. Thought it was going to land on my roof.

10:37am, May 27. Here comes ANOTHER SCREAMING jet over South Lopez. What is this? Did the one a minute before decide to circle again, or are they following each other? Games over Lopez? The roar is deep and prolonged now. GO AWAY!

10:43am May 27. Here comes ANOTHER jet. This seems to me to be a violation of the flight patterns. Lopez is NOT a tourist destination for sight-seeing pilots.

11:16am. May 27, S Lopez. LOUD jet roaring over S Lopez. Seems to be heading north by the sound of it, but there is cloud cover.

11:22am. May 27. The Navy is VIOLATING its flight paths. AGAIN we have a growler over head, crossing South Lopez.

11:28am. May 27. Growler directly over my home, Mud Bay, flying from the west to the east. LOW, below clouds. SCREAMING. I saw it turning toward Ault. THIS IS ABUSE.

1:03pm, 5/27. Heard this jet coming, now it is closer. The distant roar has turned into a screaming roar. Now the rolling roar & echo off the water/hills makes me think the jet is turning to go down to NASWI. Cloud cover, so cannot see it. HEAR IT!

3:05pm, May 27. LOUD LOUD LOUD jet roaring over South Lopez. It is to the south of my home, but the roar is like rolling thunder into my home.

3:23pm. May 27. S. LOPEZ. WHY ARE JETS FLYING OVER SOUTH LOPEZ TODAY? RIGHT NOW THERE IS A LOUD LOUD LOUD JET OVER SOUTH LOPEZ. APPEARS TO BE FLYING EASTERLY.

4pm, 5/27, We have really been targeted today. South Lopez. Right now, a screaming jet over us. Can't see due to cloud cover, but the noise indicates it is coming from west-ish and going north east-ish. SO LOUD. Overwhelms the TV sound.

still here. still going to report. every. single. time.

S Lopez, 27 May 2021, Thur: 3:30pm Deafening ROAR, 95 + decibels outside, overhead. Actually painful. When our Government allows this to happen in our homes year after year after year . . . this is torture. . . plain and simple . . . torture.

Disturbed our dinner

Just another day of agonizing jet noise over Coupeville. Will we have to build soundproof pods in our homes to sleep or escape? It's **TERRORISM!!!!**

Loud wishing noises coming from OLF... so loud and frustrating inside my home.

Hazardous noise levels!

"Growler noise From Noon until 12:10. I measured the dBs. Average dB 75 with peak noises as high as 97.8 dBs. The noise is even louder than at 10 pm last night. Too loud for residential living.

I am wearing Bose noise-cancelling headphones and I can still hear the jets very loudly through them. Adds insult to injury considering they were flying until way after the bars closed and then are back at it barely after I've had my coffee. **ENOUGH!**

Really load carrier practice today. Drove me indoors and into noise cancelling headphones. Please stop!!!!

Very loud, rumble traveling through entire house. Has been going on off and on. Most of the day and wa slate last night as well.

Direct fly over. No permission was ever asked. Why do they get to trespass?

May 28. 11:44am. Dill Rd. Lopez. Growler jet roaring over the center of Lopez. On my bike. Startles me.

5/28/21: Lopez Village. Growler flying **LOUD** over Lopez Village...way way way out of any flight path. Heading south.

"Unending sound overhead, moving around and not landing. NB: Last night, this was happening continually around and after midnight! **UGH!!**

If you want to reach me, I*****@gmail.com

Thank you"

Naval station Whidbey Island Sucking the life out of me and destroyed my life dreams

I am undergoing chemotherapy. Trying to relax. I need to close my windows. They started at 9 pm. This is ridiculous

Too loud. Our house is well insulated. We should not have to be pummeled by this noise.

Not again!! It's bedtime, you know. This is really obnoxious.

Constant abuse

So my choices are to sit outside on this lovely evening, get some air, and listen to the birds, only to have that ruined by the sounds of war, or shut myself inside, close all the windows, and roast. This is "freedom." **F*** the US Navy.**

STOP!

I'd like to see statistics on these reports.

go away! far away! and don't come back here ... stop torturing residential neighborhoods

"EXTREMELY LOUD NOW + EMF'S ARE BUZZING MY ENTIRE BODY

like the props of a propeller. The fact that it is continuous and unending reminds me of growlers.

This noise has been going for at least three hours straight! It's unending, there are no breaks at all! I moved to South Whidbey to get away from this horrible sound that is like nails on a chalkboard. Please make it stop!

Windows closed, earplugs in and they are still keeping me up. I know they are flying in the distance so they must be very loud somewhere else.

Altitude approximately 340 yards

Jets appeared in the middle of a FaceTime call. It's been a warm day and i had my windows open. Had to interrupt my call so i can close all the windows i had open to continue my conversation on FaceTime.

Weather warm and can't relax with disruptive noise I have to close windows to sleep. Do people's lives matter anymore?

It's after 11 pm...are we allowed to sleep

Direct Flyovers

Flyovers

Double growler flyover

Flyovers going on and on tonight

Continuing flyovers and engine noise

Engine noise all night

Growlers still disturbing the peace

"Endless abuse of of US Navy on my community and thousands of other's

You can't hear the westerlies or the summer frogs

What are we doing to are world"

It's a beautiful day, and we have to listen to this?!?

"The wild animals need peace and quiet to sleep and so do the humans.

"sure, wait til it's time to TRY to sleep and fly those f'ers

CAN'T SLEEP "

10:10p.m.. persistent loud aircraft noise interrupting my sleep.

exhausting ... constant vibration ... unable to focus at work

Another afternoon spoiled.

even louder than the constant wind. and way more expensive.

F*** you

I am beyond words. 8:34 am and they are bouncing at the OLF.

A perfectly beautiful and tranquil morning in Coupeville smashed by the navy's growlers.

Intermittent noise, from low rumbles to extremely loud going on from growlers at OLF for almost two hours. I'm in my home attempting to work. Concentration due to noise is at a low.

Unbelievable noise, you can only understand if you're here experiencing it. It is terrifying, nerve grating and incredibly annoying. There hammering us again today.

A peaceful evening interrupted AGAIN by the navy growlers.

Let's see it's 10pm now ... wondering how late they'll fly tonight? Can't go to sleep because of the navy's growler noise.. yet again!!!!

Over an hour and a half since the noise began, again, this evening. Loud intermittent wooshing and ear pounding noise coming from OLF. This situation is so terribly frustrating.

Cease and desist. It's bedtime for most people. Intolerable for us and for our fellow animals.

Off the charts, 130 db...20 feet over my house. Insane...

3rd time they have flown today. Will we ever get a break??

The windows are open because it's hot and they just flew really low. They need to stop, it's hurts my ears when I'm INSIDE the house

Can't even hear each other talk inside. Children are in school right now. It's not the time to be flying.

Too loud (and dangerous) to be out outdoors!

Jets went late last night and now starting FCLPs at OLF this morning. No peace for the weary. No coffee on the deck on this beautiful, warm sunny morning.

Next set of FCLPs starting at OLF. It is usually so peaceful and quiet here in Admirals Cove that when the jets fly it is a bone rattling, mind numbing contrast. Definitely got to move when we can find a more consistently peaceful spot.

Time to head back inside on this glorious spring day as the jets begin FCLPs at OLF. Too loud to be outside, too loud to be inside, nowhere to get away from this noise.

Just when you think it is safe to go back outside, they start up again. Another session of FCLPs at OLF.

Here we go again. More FCLPs at OLF.

Was asleep in bed with windows open thinking jets had finished for the night, but oh, no, here they are again. New set of FCLPs at OLF. Again walls shaking, windows rattling, and heart pounding.

Acoustic assault!

Growler noise overwhelms sound from an approaching vehicle at risk for pedestrians..

Jets come every few minutes—so loud that all we can do is stop and protect our ears—no working in yard, no tv, no conversations—just huddled up until they quit

On our walk today the passes the growlers flew over Ledgewood Beach were very hard on our ears. Please re site these noisy jets

97.8 db using Decibel X app inside second story of my home.

Jets flying low over Race Lagoon. Decibel levels reaching mid 80s inside the home (windows closed), well over 100 outside. It's making working from home very difficult, especially as they started at 8:30am & will fly intermittently until late night.

Too loud for location where people live. You have got to move this somewhere remote

Two jets very loud and low right over my house. Way out of their flight path just to go over homes and rattle the nerves of home owners?

Loud over house- zig zapping around - not doing touch and goes- just flying around- then back across the water to Coupeville to do touch and go. Have had many not flying in the pattern for touch and goes- just flying wherever.

"83 dB per Decibel X Pro app over house, W to E.

Great sunny morning then the Growlers ruined it all with obnoxious level of noise. Find a place away from people trying to live there lives to do this!!!!

Give us a break all day of hell from noisy Growlers. Did you have any requirements on noise when you specified these jets. They can quiet down large commercial planes why not military??????

I'm 12 miles from Ault field and can hear planes clearly when they take off from inside my house. Planes are often so far away they can barely be seen, or not seen, yet still are extremely loud- compared to a jet I can clearly see but can't hear.

Flights solid and loud. They have been flying since 8:30 am so loud I could not hear my zoom meeting. Now it is 10pm at night and still flying so loud I can not sleep.

It's now 2:44 and has been pretty much non stop since 8:30 this morning. Planes are flying way out over saratoga passage. Noise is heard loudly and rumbling from inside my home to the extent I have a headache.

Barely above 500 feet

Woke us up

Constant noise that is disrupting sleep.

Hello, I have been awakened for the third night in a row by an unbelievable level of noise and rumbling over my house. It is after 10pm on a weeknight,

I am a registered nurse and need to be awake very early in the morning. This is unconscionable!

This is insane. It is after 11pm. This unbearable and completely disruptive and toxic noise makes no sense. Please take your operation to a place that is not populated with people and endangered wildlife and nature.

It's past civilian bedtime. Jet engines still roaring

June 2. 1:15pm. Lopez Sound Rd. Roaring growler jet over head. Thunderous.

June 2. Around 1:07pm. Hunter Bay Rd. Growler jet roaring overhead. Scary.

June 2, 11:08am. S. Lopez. SCREAMING LOUD ROARING GROWLER. The roar just goes on and on.

June 2. Morning. Loud and deep Growler jet roar. South Lopez.

9:41pm. S. Lopez. June 2. Thinking I could sleep. Impossible. There is roaring thunder from NASWI.

9:36am, June 2. Mud Bay, Lopez. LOUD growler jet. I was outside and the roar was DEAFENING.

June 2. 5:32 pm. Outside trying to relax. And what do we hear? LOUD JETS roaring. South Lopez. Thundering noise.

5:36pm. June 2. So lucky we came inside a minute ago. Our home is filled with screaming and roaring Growler jet noise. If we had been outside it would have been HORRIBLE. As it is, inside, we cannot hear anything else but jet roaring. S Lopez.

Cape St Mary area, Lopez Is, WA.

Single growler traveling roughly west to east. Could not escape the decibel level.

S Lopez, 2 June 2021, Wed: 9:34am 65 dec inside, 10:17am 82.9 dec inside, 1pm, 82.5 dec inside. These were all overflights. The last two were extremely loud inside and 10 decibels louder outside. House shaking!

It's not mid morning. It's 8:30am. They flew late last night too. They need to stop and be more accurate with the times they will fly.

"Thunderous abusive Noise

We are now in a war zone

The endless proxies for war"

We have had constant rumbling noise for the last 2 days starting before 9 am until almost midnight. This has never gone on for all day until now. It is bad enough when it's late at night but now all morning, too?

In line for ferry in Port Townsend, unbelievable noise emanating from the OLF operations. These people in PT did nothing to deserve this onslaught of racket coming from the Navy. It's terrorizing, plain and simple.

This has been going on for days now. Please stop.

Enough already!!!!

Wow! And I thought Coupeville was bad! Jets adjacent to Port Townsend!? That was annoying!

Disrupts sleep

Medical? Helicopter..low flying

Home from a long day at work- loud rumbling noise heard from inside my home. It's difficult to fall asleep with the loud whooshing noise rising and falling. Planes doing there touch and goes on the west side of Whidbey- can barely see them- sooo loud

Disrupted sleep

"I am trying to sleep. way too loud with growlers flying for that. they should use growlers instead of water boarding

Everyone in my house is so tired this week. Late night flights not allowing anyone to sleep. Earlier today we almost quit preschool for the day due to the flight noise.

"They don't even follow a flight pattern anymore...I think buzzing houses is what they are training for

P-8 800 feet

P-8 800+ feet

Run up blasts continuing all day. With loud waves every 30 seconds or so

Obnoxious rumble that penetrates the house. There is no escaping it.

10:46am, 6/3. South Lopez. This must be the jet roar that will never stop. Growler overhead and it must be wandering around. The roar is unceasing. On and on and on and on. What is that #\$\$%^&*@#\$\$% pilot doing? Sight-seeing?

11:28am. Just stepped outside for some fresh air in between jobs, and all I hear is the thunder of growler jets to the south. Seems that is all we hear on South Lopez...jet thunder. The Growlers are the WRONG jet for this populated area. Came inside.

6 growler jet flyovers...one after another.

They aren't supposed to be flying today 😞

Too loud, too low (again)

Been all day and some nights this whole week

it's not enough to be bombarded with terrorizing noise during the week, now we get it on a Saturday! YOU SUCK NAVY

Jet noise on a Saturday morning, how nice. Thank you Navy for utterly destroying any semblance of peace that we may be attempting to enjoy on our properties.

Weekends are no longer off limits it seems.

Constant rumble for more than ten minutes. It sucks all life out of the forest.

Who are protecting?

I need my sleep as I have a chemotherapy treatment tomorrow. That is stressful in itself. Hearing these jets is totally unacceptable and distressing

People are winding down now, wanting to relax and go to sleep. But this is not to be. The Navy feels it has to run its \$45,000 an hour jets at maximum speed in an area that ought to be peaceful and quiet.

Really? Trying to sleep here. Thanks for the consideration.

Please let us go to sleep.

So loud while playing golf you couldn't hear the people you were playing with. If Whidbey wants the base then keep the jets up there not 15-20 miles south.

horrible that you do not care about the health and well being of all residents ... body and brain buzzing from the EMF's ... shame on all of you

Loud enough to blank at the wildlife in our fourth around us

Unable to sleep due to continuous jet noise. Unacceptable.

Shouldn't the navy be dumping oil in the water or something equally polluting but more quiet?

Awakening us as usual by shattering our peaceful life in Coupeville

F-OFF NAVY~!!!!!!

Another otherwise peaceful morning ruined by the jets.

My windows rattling for over 30 seconds...

Working.... noisy jet flying over. Disrupted work-flow.

Flyover in Coupeville, rattling house, dishes and windows.

Another flyover, another house vibration and disruption.

Rippin' over Coupeville - loud, long noise trail.

Another night of horrific noise.

It's been over an hour of loud jets again. And I am trying to get some sleep. My heart is racing and blood pressure is up due to this intrusion of visceral noise. This is so painful.

They can do whatever they want. There needs to be limitations. Since there are more people living here, they need to be more accommodating.

I read a post of Facebook about the noise. And lime everyone on here just says “move” or the “navy was here first”, yes but it isn’t always possible to move, especially with the housing right now. Yes the navy was here first, but that doesn’t mean

Time to turn off the TV and close up the windows and doors. FCLPs are starting at OLF. Going to be a late night.

A nice 20 minute respite, but now they are back with another session of FCLPs at OLF.

Starting another session of FCLPs at OLF. We have lives and need our sleep. This is just not acceptable. It was not like this before the expansion. Miserable now.

stop strafing kiket island.

Flew early and hard to work from home. Now started to fly late at night and it is loud throughout the house. All 5 in house have trouble sleeping because of the jets. Two are infants.

Jet noise shook our windows and objects on desk at work

In a remote region in the Hoh River region five miles inland from the coast at 3100 feet altitude, jet noise stopped conversations as we hiked. Even louder than a logging site!

Over Forks. Circling overhead from about 9:30 pm to nearly midnight. Could not get to sleep.

I worked a 15 hour day today and the only thing I want to do is go to sleep. But at 10 pm when I finally get to move toward bed the Growlers started up, rumbling and roaring back and forth. Last night they flew until after 11:30 pm - same tonight?

"Extended time frame -- from 3:25 through 3:37+ p.m.

from Whidbey toward the Olympic National Park"

Who protecting who

"Endless shattering war energy from are declining empire.

The length of the noise was what was disturbing. It just went on and on and on. If they are just flying over, why does the noise last for what seems like 30 mins or more? The time stated above is an approximation.

Di hear the Growlers at night now which is disruptive and something that should not be happening.

"It's too late in the evening for this annoying disturbance! I heard that you fly over us because you don't want to disturb the Navy families living on Whidbey Island. There is no excuse for that.

The noise of the planes is very disruptive. It's hard to focus on other things.

Cannot go to sleep when these planes are flying late at night. Could they stop a bit earlier? Thx.

F*** GROWLERS F*** GROWLERS F*** GROWLERS F*** GROWLERS F***
GROWLERS F*** GROWLERS F*** GROWLERS F*** GROWLERS F***
GROWLERS F*** GROWLERS F*** GROWLERS F*** GROWLERS F***
GROWLERS F*** GROWLERS F*** GROWLERS F*** GROWLERS

Smashing the peace in Coupeville 8:54 am.

Looooooooong sloooooooooow LOUD engine growl from Jet over Coupeville.....
mind numbing, nerve grating.

Another looooong, slooow and LOUD jet over Coupeville, rattling windows and nerves.

House rattling from the jet noise. Loong slow jet noise over Coupeville.

The noise keeps going and going... it's horrible. 9:50pm.

People who don't live here have no idea what it's like to live under these jets. Growlers have destroyed the peace and quiet that was once known in Coupeville.

Over and over again, flights over Coupeville.

Another night of ear splitting jet noise in Coupeville.

9:45 pm and the jets are at it at the OLF. It's so d*** noisy and irritating!! This is madness!!

11:29 pm in Coupeville ... the Growlers are still flying bombarding us with their toxic noise.

It's almost midnight for crying out loud. Go to sleep keys. We are not at war

Another late night as FCLPs start at OLF.

Starting another session of FCLPs at OLF.

A few moments of peace but now back for more.

too loud to enjoy the inside of my house. at 9:30 they flew directly overhead.

11:31 p.m. cannot sleep! The USN assault on the citizens is criminal!

10:56 PM. CANNOT SLEEP THE ENEMY WITHIN !!!

Cannot Sleep. What the hell is wrong with Naval Command,???

Again flying late at night disturbing sleep to the entire household.

Still flying. My pit bull dog is shaking and cowering at the bottom of my chair. She shakes every time they do a blast.

Had to stop conversation until noise diminished several times.

2nd plane to fly over within last 20 minutes or so.

Over Forks, WA and so low, easily saw the pair. Probably 5-7000 feet. Set off car alarm, sounded like bombs about to be released. Very scary and far too low. Need to practice far from civilians and wilderness areas.

Just above 700+ feet, 3 within 30 seconds of each other, fast and loud enough to cause ear pain.

They are continuing to fly over Forks and ONP but this was another very low pass with after burners full thrust and full noise like when they take off or try to evade detection. Could not talk with my friend standing next to me on my deck

VERY FAST SCREAMING LOUD GROWLER OVERHEAD

8pm. June 8. Lopez Village. LOUD LOUD LOUD Growler flying toward the south/southwest over Lopez Village. With friends outside and the noise was deafening. Conversation stopped. This was an abusive flight, apparently off any flight path. SCREAMING!

Low flying growler aircraft

Periodically today - and right now - deep jet noise rumbling . Startles me and I wonder if it is thunder and a storm coming?? South Lopez.

Coupeville, extremely loud 10:04 am

Coupeville... extremely loud overflight 10:07 am.

Coupeville 5:52 Long slow loud jet noise over town.

Coupeville 10:08 pm.

Extremely loud. Coupeville 10:15 pm

Why are these flights happening so often and so long in duration? Very loud at times and disturbing.

Wow, you're breaking all the noise rules for after 10pm. City of Port Townsend. Who do you guys think you are?

I'm about to go to sleep and now must wait till all the planes are done flying around. Why wait till bedtime to fly these planes by residential areas? I have a meeting tomorrow.

The noise from the planes kept my child awake! This is after I turned on white noise to disguise the sound! It was incredibly irksome, and greatly impacted our quality of life.

Where can I move to not have to listen to the military-industrial complex?

F*** off already

municipal quiet hours begin at 2200. it is now 2323.

Coupeville has become the epicenter of peace smashing noise from the Navy. They simply do not care at all about our rights to peaceful existence.

Another day of flyovers from the growlers. Noise, house rattles and mind numbing.

Extremely loud flyover to olf over downtown Coupeville

Trying to get to bed. It's like living in a war zone. Peace, what peace?

Disturbing my sleep again. I have two noise machines running in the house and I can still hear them. This is disturbing the peace of an otherwise idyllic neighborhood. This is our retirement property and do not like being intruded upon in this way.

Huge noise just came through the house. Shaking windows and walls. They fly too low and too late. Again we are not at war, no reason for this. I'm trying to sleep

Here we go. Another night of hellish noise.

Growlers still going. Had an exhausting day. Going to try to bury my head under the pillows to try to get some sleep.

Been non stop for days in the middle of the night. This is brutal and inhumane.

It's late at night and can't sleep. Have an early shift for the hospital :(so loud and why do they need go fly so often and late.

Really loud with multiple flights disturbing the night. I really need to get some sleep and that is impossible with this racket.

11:36am, June 9. SUDDEN LOUD JET ROAR. Deep and penetrating, now it continues. South Lopez. Startled me and I lost my concentration on my work.

When the house shakes I know the jets are too loud. Why! Can you not train AWAY from the residential areas? We are on the middle of Camano Island and last night was the worst ever!!

2:13pm LOUD JET NOISE IN THE SKIES OF SOUTH LOPEZ. IRRITATED.
CONSTANT THUNDER.

12:59pm June 9. First the screaming then the roarnow the deep rolling ongoing roar. LOUD JET ROARING OVER SOUTH LOPEZ. I am in the trees...noise seems to go from South west to North. DISRUPTIVE. What is the purpose?

1:28pm. June 9. SCREAMING and ROARING jet overhead. TOO LOUD. S. Lopez.

4pm. S. Lopez. Growler overhead, coming from Southwest, heading west. SO LOUD IT BLOCKED CONVERSATION. I COULD NOT HEAR WHAT MY HUSBAND WAS SAYING. THE ROAR WAS DEAFENING, AND UNFORTUNATELY WE WERE OUTSIDE. THIS IS ABUSE.

5pm. June 9. ANOTHER ROARING JET NOISE INVADES OUR HOME. The growler is the wrong jet for this region. Period.

Single growler traveling roughly from west to east. Very disruptive

S Lopez, Wed, Jun 9, 2021: 3:55pm - Overflight, 90 decibels inside the house. Over the top loud. Torture is what this is called.

Coupeville 9am. Extremely loud.

Ongoing noise from the jets today, Thursday... it's now 5:43 pm and we've been getting hammered all day. Coupeville.

Extremely loud Coupeville 7:25 pm

It's 10 pm in Coupeville... the incessant noise continues for over an hour solid now after a day full of noise.

Coupeville 10:11 pm. Extreme noise.

The extreme noise continues... 10:28 At night.

I think the noise has finally ended... 11:24pm

Heading west over Olympic Peninsula

Extremely loud and disturbing downtown Port Townsend

Too loud. Always too loud. Just send the flyers over the naval base and stop ruining the paradise here.

Why don't you do this at 2am when no one is bothered by it? Why do it during the day or in the evening when people would like some peace and quiet? People will be fast asleep at 2am.

The only way I can drown out the noise so I can sleep is to turn on the fan but it's too cold to do that tonight or many other nights. It's such a horrible noise. Very disturbing!!

It's the time i normally attempt to sleep and just now the planes begin their noise. How many are awake listening to the endless rumble too late in the evening? Here comes another and another. Please stop flying the planes when people need to sleep.

Too loud to sleep

Night after night, thundering overhead.

Trying to walk on the beach you numbskulls!

EMF'S HURT

The noise prevents a good nights sleep night after night.

Growlers have been a consistent rumble for last 30 minutes- XXX TXXX
Street Port Townsend

We are being used as a testing ground for determining how much noise can be inflicted on a given town before it succumbs and the population deserts. This is inhumane and by any reasonable measure would be considered torture.

Yes, 7:32am and the navy is blowing up the sky. They are terrorizing us!!!!!!!!!!!!!!

"We have been unable to visit with guests or sleep the past two nights because of jet noise. They seem to be flying directly over Coupeville.

We are located at XXX NW 7th street.

We strongly protest this abuse."

Loud roar, windows closed, interrupted work flow.... again.

Another loud flyover town of Coupeville.

SO annoying, this ongoing noise!! Interrupting work over and over again. The noise makes it difficult to concentrate.

Smashing our peaceful evening, yet again. This is agonizing and has been going on way too long. It's so frustrating that there's been no movement on improving this horrible situation. No one benefits from this ongoing madness. No one.

Having to stop and take shelter whenever a EA-18G passes overhead violates an entire community.

Why? For countless nights I have not gotten much sleep because of the jets. It takes me hours to fall asleep. They fly too low, too much, and they are too loud.

So tired of them ruining my peaceful home.

P-8

Walls shake. Windows rattle. Go inside and hunker down for the rest of the day and into the night as FCLPs start at OLF.

2 within 30 seconds 600+ feet painful to the ears

3 a/c painful to the ears

While on our dog walk, a growler flew right over the top of us and just below a huge flock of geese. How soon before there is a bird strike? How safe/responsible is it to do these operations over a residential area next to a wetland preserve?

Growlers still going. I have a meeting with folks from the east coast at 6:30 am. Sure would be nice to get some sleep. Hard part is never knowing when they are actually done for the night or if they will be starting another session.

I can't believe it! They are now flying over Seattle. These suckers are so loud. We watch planes landing at SeaTac and they are nothing like this.

"Today noise abuse over Mc Curdy point and Protection Island wildlife preserve

Last night till midnight

No chance of the necessary time to sleep.

One form of torture

"Bovee's Meadow, Olympic National Park

Stopped bird chatter and conversation. The four young duckling huddled to their mom. Most unpleasant interruption lasting about 15 minutes."

Another late, very noisy, disruptive night as FCLPs start at OLF.

So disturbing to sleep and mental wellbeing. Nervous system is constantly being triggered.

When the Growlers train night after night without a break, how am I supposed to catch up on sleep?

"We have been unable to visit with guests or sleep the past two nights because of jet noise. They seem to be flying directly over Coupeville.

We are located at XXX NW 7th street.

We strongly protest this abuse."

11:30 at night-- closed up house because of thesejets.

"Calawah River region of Forks, WA

suppose you work nights or are ill and need sleep? What are us lowly civilians supposed to do? It is impossible and frankly torturous to endure the daily onslaught of flights over Coupeville.

Low and slow, grinding, mind numbing jet noise - EXTREMELY LOUD - Town of Coupeville.

Still flying overhead all the way down in King County. You look up to see commercial air traffic but all you hear are the frigging growers. Maybe this will wake up the region.

I have been having trouble sleeping because it is so loud into the hours of 10 and 11:00 PM

12:23pm. June 11. S. Lopez. Hit again by jet roaring rumble and vibration from Whidbey.

"I have NO issues with your planes!!!!

Keep on flying :-)"

LOUD GROWLER NOISE LASTING MINUTES!

LOUD GROWLER NOISE LASTING MINUTES!

Low flying growler aircraft with gear down. Extremely loud!! I thought Growlers were not supposed to fly over San Juan Islands with gear down???

12:27pm. 6/11. S. Lopez. Prolonged, ongoing roaring and vibrating noise from NASWI.

11:17am. Roaring jet. The jet noise that enters my home is even louder than the dishwasher, and that's LOUD and ANNOYING!

11:23am. S. Lopez. HUGE RUMBLING JET ROAR, A WALL OF VIBRATING NOISE.

11:25AM. another rumbling deep roar from NASWI. S. Lopez.

11:26am. S Lopez. ANOTHER ROARING RUMBLE FROM NASWI. IT PENETRATES MY HOME.

6/11. Rumbling jet noise this morning. Thunder. Now jet noise roaring around us, and over us. Loud screaming jet. S. Lopez.

11:10am. Rumbling from NASWI interrupts me, Taking my attention from my work. A truck driving up my driveway? Someone walking up the steps to the front door? Ah, no, d*** jet noise from NASWI. South end Lopez.

11:28AM. another rumbling roar from NASWI. REMINDS ME OF THE NOISE AN EARTHQUAKE MAKES, no wonder it is so irritating and deeply concerning.

12:18pm. June 11. Deep rumbling vibrating wall of jet noise hits us. S. Lopez.

1:35pm. June 11. LOUD LOUD JET roaring from Navy . South end Lopez.

1:37pm. June 11. ANOTHER LOUD JET ROARING. Lopez.

Coupeville. Extremely Loud 10:35 am

Sixth time circling overhead and still circling...all bird noise stopped, dogs barking then suddenly quiet with worst of rumble and roar

Moving from Northeast toward Southwest toward Olympic Peninsula.

Moving from Southwest to Northeast from the Olympic Peninsula

Continuous abusive noise from these weapons of mass destruction 10 miles from Coupeville

Is this ever going to end???

Noise, noise.... SO MUCH NOISE!!

Double the jet noise... two flying side by side, low, over Coupeville town. Such good neighbors, the Navy.

Hours of horrible jet noise out here in Coupeville.

Having to seek shelter indoors.

FCLPs starting at OLF. Another week of late, extremely loud, long nights.

FCLPs starting again at OLF. I think they are trying to rip the roof off tonight.

They're training out of OLF tonight, nowhere near here, but buzzing through Deception Pass with the engine noise bouncing off the water. It's after 10:00 p.m. Just unacceptable that this continues.

F*** em

F*** em

More noise than should be happening in beautiful place like this. Why fly here with so many people impacted??????

Started to do some preschool outside with shapes but came in after the loud overhead flight.

116+ dB's

Totally outrageously loud. Deafening and damaging. STOP!!!!

Can't even think or talk with this noise pollution.

Disrupts phone call. Person on other end could clearly hear the after burner blast. Forks, WA along the Calawah River

Came in directly overhead, barely above 500'. Noise was extremely painful to our ears v

2:28pm. Huge burst of jet roaring AGAIN. S. Lopez.

11:37am, June 1 LOUD LOUD LOUD jet overhead. Obliterated the sound of the Zoom I was on. Disrupted the conversation. Lopez.

2:20pm. June 14. Loud and deep jet rumbling heard to the south of us. Distracting. The noise comes into our home. Lopez.

June 14. 2:27pm. The skies were distantly roaring while I was out walking during my break. But then, suddenly, a HUGE roar of a jet over South Lopez. TOO LOUD.

Coupeville 10:40 pm extremely loud woosh noise.

10:58 pm Coupeville. Noise from OLF and flyovers.

2:44pm. June 14. The jet noise is constant. They are roaring to the south of us and the noise rolls around, deep and rumbling and loud. It sounds as if they are just circling. This is torture. CONSTANT THUNDER. No peace in our home.

98239

Low pass, full throttle, deep rumble, whine and whistling like bombs flying, full afterburner roar and fan still hear them circling. All nature noise shut off and dog agitated by sounds , barking from inside house. Offensive.

Twice overhead sounding first like rumbling thunder growing louder to a high whine like bombs being released in movies to a huge growling roar...hiking back logging roads outside of Forest a service property

Wild animals are trying to sleep. They can't sleep with all this noise.

do you care at all?????????????????

Coupeville 6:37 pm noise in the distance, rumbling, low frequency noise.

7:17 pm Coupeville Extremely loud flyover.

A single growler just flew over our house at 1000 feet headed east and then took a hard r turn to thenorth

"24 db at my property at the moment

Peace and quiet

There must be no activity whatsoever at Oak Harbor or I would hear it 17 miles from my place

You've beleaguered this town long enough. Please go somewhere else.

Extremely low & loud pass over house. Now regular loud noise, like the majority of the time now.

Another 11pm flyover. Extremely loud!!

We have been sitting outside enjoying the beautiful evening. But now time to head inside and close the house up tight to soften the noise assault brought on by the growlers starting another night of FCLPs at OLF.

"Coming back for more....

Argh"

They are flying up North and they are so loud we can hear them near them mid/ south end of Camano. Warm evening and can not sleep with windows open.

Extremely intrusive on the peace and quiet of a beautiful evening.

trouble going to sleep with the planes making low rumbles across the sky.

12:30pm, June 16. LOUD LOUD LOUD Jet roaring over South Lopez. The roaring goes on and on. Obliterated news report I am listening to...in my own home!!!!

1:06pm June 16. LOUD LOUD LOUD AGAIN. Long roaring of a jet over South Lopez. The roaring is incredibly deep and penetrating and goes on and on. It takes over every sound I hear.

About 10:15pm. Awakened by a very loud jet overhead. A prolonged roaring, like all Navy jets. This is abuse.

Very strong fuel smell. Either not burning clean or dumping?

Coupeville 8:35 pm.. ongoing noise from OLF ... from low growls to whooshing noise... hurricane like.

Jet Noise. Ongoing. Coupeville.

Constant noise, like it's a tornado or hurricane coming from OLF jet noise. So irritating. Can't sleep. Coupeville 9:46pm.

Two solid hours of noise from the OLF. It's 10:40 pm. .

scam call today w caller ID "U.S. Navy". person said Navy has legal action against me. That is ILLEGAL - "spoofed" # was 360.315.1867. 1: scam calls will not silence my right to report noise pollution. 2: put whoever is doing that in check for fraud

Too loud to hear T.V.

Hearing operations from Ault field all the way in Coupeville. Low frequency noise for intermittent periods.

Sounds like the shuttle launching over Coupeville!!

Long slow extremely loud rumble across the sky over Coupeville.

Long slow LOUD flyover..... low frequency noise that is so disturbing!

Too low and too loud, can't even hear my TV

FCLPs starting at OLF. This is getting old after weeks of late night flying and they plan the same for next week. My sleep is so messed up. I am exhausted.

More FCLPs at OLF! Argh!

8:45 pm on what was a gorgeous summer evening and the Growlers are just getting started with their repetitive noisy loops, "night to late night" 4 nights this week

Stop the noise!!!!!!!!!!

"More noise disturbing our peace

1:16pm, 6/17 S. Lopez. LOUD Roaring jet overhead. I thought something was wrong with the dishwasher and came running. I should have known better. That Roar penetrates our daily lives. If you like Sea-Tac but hate the traffic, come live on Lopez!

2:54pm, 6/17. TWO GROWLERS doing sightseeing over Mud Bay, Lopez. Flying, I think, from the East toward the Southwest. Is this part of their pattern? Do they really need to send ROARING JETS over our homes? STILL ROARING.

"Single growler traveling roughly NE to SW.

DISRUPTED business conversation."

S Lopez, 17 Jun 2021, Thur: 9:17am , 9:27am - HUGE BLASTS from Ault in the 70+ range inside the house.

9:50am, 6/18. THREE GROWLER JETS LOW OVER MUD BAY, LOPEZ. THREE!!!! THE SCREAM IS DEAFENING. Flying from west to east. Still roaring in the skies. Is this "The Mission"? To startle me? To deafen me? The Navy is an abuser. Legislators are complicit.

Cape St Mary area, Lopez Island, WA

S Lopez, 18 Jun 2021, Fri: 9:55am - overflight - CRUSHING NOISE - 75.8 - 82 decibels

They are flying when it is not on schedule. Not nice at all. Can't enjoy the weather. Smh

"There is a underlying lack of love for this wonderful planet. Especially the US navy air station Whidbey.

If we do not fix this ,the destruction continues

Abusive growler noise coming from coupeville this evening and also to the north east in the Olympics

Another day of racket and peace shattering by the Navy. You suck Navy, period!!!!!!!

Repeated fly overs of the town of Coupeville is criminal and torture to us. Spread your insane noise to other people as well, don't they deserve it too???

After a perfectly peaceful holiday weekend, the jets are back making their horrible, intrusive noise.

An almost perfectly peaceful day with a few flyovers earlier has turned into the sounds of horrible jet noise. Round and round they go at the OLF, spewing unbearable noise and pollution.

Flying unscheduled. What a nightmare. Please make it stop. Disturbing the peace and quiet. Sad

Very loud and too close to the ground!

I thought they posted night to late night. I was just going to start my online music class. Nope. Too loud. Plus too warm to have to close all the windows.

Starting another round of FCLPs at OLF.

Noise registered over 99.0 tonight. Thieve has been jet practice every Mon.-Thurs. late nights since the field was repaired this spring. Way to much. With little to no practice out of Oak Harbor.

No reason to buzz the houses...just being obnoxious! This isn't Top Gun you jerks!

We have been tolerating this noise for many days not always reporting each time. They pass by at 96.4 dBs. Too Loud for a neighborhood

The noise is ridiculously LOUD

Perfect summer evening; clear skies, gentle breeze, birds chirping, bunnies sharing tails.....and then comes the Growlers. Wonder where the Naval Command resides at times like these. East Coast no doubt.

We were outside enjoying the summer evening and had to move inside because of the jets. No we are stuck inside on a hot summer night having to close the windows and we can still hear the rumble through the entire house.

Flying by Ledgewood Beach at up to 95.9 dBs too loud

Stinky jet fuel and burned rubber smell fill the air. Noise INTOLERABLE, pattern 32 jets nose to tail. Session is NOT scheduled. We need our windows open in this heat. This is why your presence is so loathed.

They are not even scheduled to fly right now and they are barely skimming the treetops causing everyone to run for cover.

All activities have come to a halt! Unable to communicate with each other.

9:40am. Roaring jet over South Lopez. Deep and loud rumbling and roaring.

11:12am, June 21. Jet heading toward the WEST over south central Lopez. Screaming at first, then the deep roar. Interrupted a Zoom broadcast I am in.

@XXX hXXXXXXXX drive oak harbor

It sounds like jets are landing in my backyard. "

Guess that last pass wasn't annoying enough.

I feel like we are in a full time war zone

Horrible, startling NOISE out of nowhere!! Low flyover in Coupeville.

Out of nowhere! LOUD, earsplitting noise. No warning, not notice just BOOM and your hearing is impacted.

LOUD AS HELL. Destroying central Whidbey with jet noise and air pollution.

Really? Fast, loud and low. RIDICULOUS NAVY!! Is this how a good neighbor behaves?

Another night to late night of FCLPs at OLF. This had been going on for weeks. I am exhausted.

Growler Jet very loud. disruptive to conversation. Measured 86 db inside the house

Too late and too loud.

Again extremely loud and low over downtown Coupeville going directly to base.

10:24pm. IT IS TIME TO SLEEP AND THERE ARE JETS ROARING OVER US!!!! WHY IS THIS ESSENTIAL TO SOME GODFORSAKEN MISSION? THE SKIES ARE FULL OF JET NOISE!! HOW CAN A PERSON SLEEP? The Navy is an abuser. Legislators are complicit. S Lopez.

10:27pm. Growler jet is screaming toward us. I hear it coming. Now it is over us. The roaring INSIDE our home is loud and obliterates all other sound. It is night-time. Now it is loudly roaring away. This is abuse by the Navy.

10:41pm. ANOTHER JET SCREAMING OVER US. It is no exaggeration to say that the Navy is a terrorist organization. The Navy has NO BUSINESS screaming jets over our home and treating this region like a war zone. %^&*\$%^ It is 10:41 pm of all things.

S Lopez, 22 Jun 2021, Tue: Excruciating Overflights and we are 12 miles from Ault - 10:10am 88 dec outside, 10:27am 92 dec outside, 1:55pm HUGE Roaring over head, 2:55pm - 86.4 dec - this one sounded like it was going to crash - on us!

45 minutes and counting of awful noise in Coupeville... 9:45 pm

Horrible loud rumbling from OLF, Coupeville 9:55 pm.

Coupeville.... Extremely loud jet noise coming from OLF and overflights,
10:00 pm Coupeville.

XXXXXXXXXX drive oak harbor

10:10 pm Coupeville... extremely loud flyover.

Over XXX hXXXXXX drive oak harbor

XXX TXXXX Street Port Townsend

XXX hXXXXXXXX drive oak harbor

"Whimper Peninsula is now a nightly nightmare of The biggest bully on earth .

The US navy

The navy way"

"I just had a chemotherapy treatment and now need my sleep and rest to heal.

It is impossible with this noise"

You're not making friends for the Navy among the residents here. It's the opposite.

Too much too long. Please stop.

Sound of the planes is interrupting my falling asleep.

EMF'S HURT LIFE

Jets continued for over an hour. Nice evening for flying - I get that training is important - but it was fairly constant for at least from 9am to past 10pm.

Very loud, relentless aircraft noise tonight preventing me from getting to sleep! I awoken extremely early and this continuous disruption of sleep is getting to me.

die in a crash

Flying for hours now.... just got another good loud flyover with doors and cabinet glass rattling. Ridiculous.

It's late, it's loud, my heart is palpitating. Not good and hard on health. Why SO loud??

Wake up to vibration and noise. Some pictures have to be straightened on wall.

Too low, too loud to sleep.

Another late night of FCLPs at OLF

FCLPs still continuing at OLF. We would love to sit outside on this beautiful summer evening and enjoy the spectacular full moon. But not to be since the noise from the growlers is so unnerving and painful.

It's 10:30 at night. Why are you still flying when we're trying to sleep!

I have not lived here long enough to be sure of what caused the ongoing rumbling noise but it was similar to staying at a hotel near a major airport. I gave up trying to watch a movie on tv.

Disrupted sleep

10:39.....no sleep here. REALLY!?!? And Naval Command justifies keeping U.S. citizens awake when there are thousands of alternative sites for their "training"

Still going @ 11:00 pm. How many children ages 4 - 10 are trying to sleep so they are fresh for school tomorrow? But they cannot sleep thanks to Naval Command decision to assault U.S . citizens....men, women, and children. The Enemy Within!

11:15 p.m. now. Naval Command all snuggled in their beds.....somewhere far from the Puget Sound. No sleep, though, for the U.S. citizens the USN is "sworn" to defend and protect.

Where are the voices of the politicians sworn to act in the best interest of the citizens of Puget Sound. Apparently, the USN has hood-winked them.

The jets have kept the two babies up tonight. The rumbling was very loud in their room. I will plan to sleep in the unfinished basement. This is torture.

This is the first time in 10 years we have had a military fighter type aircraft flying over our neighborhood low enough to drown out all conversation and making the entire house shake. This is not acceptable.

Really annoying constant white noise. Sets my nerves on end and causes anxiety. I hate it.

"Disrupting rest after chemo treatment today. Do people have no respite!

Low very loud flying over Parker Road, Coupeville

Low overflight south end of Lopez

S. Lopez. Jet roaring over us.

9:37pm, 6/23. Roaring in the skies continues. It is a hideous noise, as if there is a war going on just a mile to the south of us. The Navy is killing us with jet fuel pollution and deadly penetrating jet noise. Ashamed of the USA.

About 9:20pm, June 23. The sky sounds like it is being ripped apart. Jet action at NASWI. On and on and on. And then the growler screaming overhead, heading northeast over Mud Bay, Lopez. Can't be outside. The noise is too much. We are at war.

XXX TXXXX Street Port Townsend

SO MUCH NOISE TODAY AND TONIGHT. WE ARE SICK OF THE MOISE!!!

Multiple flyovers .. loud AH. 9:47 pm Coupeville.

Extreme noise tonight 6/24 98239, 9:53 pm

We're getting hammered out here in Coupeville. It's 10:30 pm and the Growlers are all over the place making their GOD AWFUL NOISE.

Disrupted sleep

I am hoping to sleep but the planes are making it impossible.

This is really obnoxious.

Too loud to sleep.

EMF'S HARM LIFE

Loud enough to shake the house and disturb conversation for the past hour or so.

"Another night of pure hell scape

The growlers just woke up and I was starting to abuse our community there's nowhere downtown Port Townsend or the Port Of Port Townsend where you can escape "

We're sick of your crap flying over our homes wrecking our peace. F off!!

6 straight weeks of weekday night flights at the OLF, why has the navy become a terrorist organization????

No decency from the Navy whatsoever!!!!

F*ing ridiculous this time of night,, screaming overhead while people are sleeping!!!!**

Obnoxious constant noise for day after day. This is NOT the sound of freedom, but that of oppression. D* the Navy for their abuse of those they are mandated to serve.**

Horrible rumbling coming from somewhere!! Ruining our soundscape and peace. Please STOP and find a solution to this madness!!

Another LOUD as H* flyover.**

Way off in the distance, but low rumbles and constant noise felt and heard in my home.

Noise from Ault field today, all the way in Coupeville, polluting quiet skies, over and over and over again. Loud, low frequency rumbles.

And the noise continues!! Hearing rumbles and low frequency noise all day today from Ault field in Coupeville.

From Ault field..... noise, noise, noise today!!

Low and LOUD over Coupeville JEEEEZE!

After a day full of jet noise, and a few hours break early evening, they're running up again.

This is one of several flights today—one too many. The noise is deafening and I have to wear my headphones in my house so I can think. Not good. Not pleasant. Downright awful.

Starting another long, loud night of FCLPs at OLF.

FCLPs still going at OLF. So loud and disruptive. Too bad. I would love to be outside to enjoy the absolutely gorgeous sunset tonight. Oh, well, another night perhaps.

F* em**

Sounds like right over the house and we're in the no fly zone.

Waaaay off their map. Thanks for waking up my family:-{

They're waaaay out of their "flight pattern".....again

I'm pretty sure it is jet noise. It is the second night in a row that I cannot hear my tv because the sky is rumbling.

Wonder how the pilots justify their assault upon the CITIZENS OF THE UNITED STATES, they (allegedly) are sworn to defend and protect.

"10 pm?

Please stop. Enough already! I can't even hear tv!"

"Please stop!!!

Sooooooooo loud! Its exhausting!"

Was very surprised to hear this growler coming from the south and flying north over west Lake Whatcom! Very loud and disruptive!

On and off ALL DAY and now it's 9 pm a sure sign that the war machine is alive and well in my home town while we deal with post chemo treatment recovery in my home. Loud rumbles are constant and precluding rest and recovery.

The news says no more fans on store shelves. We should open windows at night so the house get as cool. We can't with the jets blaring over head. The navy doesn't carry! It is hard to keep a west facing house cool.

10:32am, June 24. Growler jet flying west. Huge screaming and shrieking as it approached, then deep ripping roar. Still roaring. Growlers are WRONG for this region. Destroying us. S. Lopez.

3:15pm. 6/24. I had the misfortune to be outside to relax in the sun for a moment. Then the deafening shriek, scream and ROAR of Growler over us, heading west-ish. This is abusive and terrorizing. There is NO NEED to be flying over S Lopez.

2:33pm. 6/24 The Jet roaring continues. I am so upset by it that I will try to report each noise incident that invades my home. South end, Lopez.

2:49pm 6/24. LOUD LOUD LOUD LOUD jet over South Lopez. AGAIN.

June 24. S Lopez. Growler screaming overhead.

A looong drawn out low frequency rumble penetrating the walls of my home. Work has been disturbed for over five minutes now.

Noise pollution from the direction of Oak Harbor (10 miles away).

Over town in Coupeville again, headed west with unimaginable deafening blasting sound. F-you Navy!!!!

Shame on all 3 of you

Ongoing - very disruptive

In Coupeville over town, begins the day of peace shattering noise for our disrespectful Navy

In town over Coupeville, vibration throughout the house. F*** you Navy F*** you!!!!

11:56am. S Lopez. AGAIN. We have had jet noise all morning. Not constant, but frequent huge bursts of roaring and screaming that make me jump. Like now. S. Lopez. The war is going on somewhere and the Navy thinks they need to fly over our homes.

10:44am. S Lopez. ANOTHER ROARING JET FROM NASWI. Disturbing, annoying, disruptive.

1pm. June 24. Loud jet over S Lopez. Too loud..

1:47pm, 6/24. ANOTHER jet roaring over us. South Lopez. Screaming and roaring.

1:45am, June 24. S Lopez. LOUD deep threatening roar from an unseen jet. Noise fills the sky.

2:15pm. 6/24. I feel like I am living next to Sea Tac airport. We have had jets zooming over South Lopez all day. They seem to go every which way: south, north, east and west of us. Because the growlers are ridiculously loud, their noise spreads far.

June 24. Roaring jet noise in the skies. Disturbing.

S LOPEZ, 25 June2021, Fri: More overflights! 11:30pm 65 - 75 decibels inside

Four jets in formation just flew over our island at ridiculously low altitude, maybe less than 500 feet.

Four growler jets, flying in formation and very low, just flew over my farm on Marrowstone Island. Spooked my livestock!

X4 Growler Jets in formation FOUR TIMES THE NOISE!!

Cape Saint Mary area, Lopez Island, Washington

Cape Saint Mary area, Lopez Island, Washington.

S Lopez, 26 Jun 2021, Sat: Overflights on a Saturday - 1:40 (84.8 dec) and 1:45pm (79.2 dec) Screaming jets overhead are creating a version of PTSD. We live in a WAR ZONE.

XXX TXXXt Street Port Townsend

Just when you'd want to go outside...

Another endless evening of miserable Jet Noise

US military helicopters flying low over the water westbound

Navy SAR helicopter flying in circles over Whidbey General, Coupeville, smashing the peace while Growlers approach from Ault field to add to the horrible noise over central Whidbey.

9:20 pm.... the growlers have been flying nonstop for almost 45 minutes subjecting us to their HORRIBLE NOISE during this unbearable heat event. PLEASE STOP HARMING US with your noise and air pollution!!!

The noise horrible whooshing, constant pounding, low frequency noise continues. 10:15pm Coupeville.

It's time to go to bed. Stop flying

With the windows open, it makes it hard to do anything. Just what we need, HOT and Loud. Ugh, no thanks. They should take the week off because of the heat.

Had to stop talking with neighbors due to loud rumbles

Record breaking heat & Navy forces us to close our windows so they can spew noise, air pollution and risk fires. Flyover WAY too low and off course. Years of comments disregarded.

Unprecedented heat wave and now we have to shut all the doors and windows and swelter in the heat or be assaulted by 105+decibel noise inside our home. Reaches 90 + decibels with doors and windows closed.

Next set of FCLPs at OLF tonight. Shut up in house, lights and electronic off, windows and doors shut. It is a very uncomfortable 89 degrees inside. Too loud to be out or open windows. Poor dog is overheated, panting, and agitated by heat and noise.

We our stuck inside on one of the hottest days of the year.

The WHOLE house is shaking repeatedly from the noise and vibration from Whidbey growlers. This sensation is distressing to the inner ear. This is TERRIBLE noise pollution, painful and destructive.

What kind of horrible Neighbor flies on a night like this? All times record heat and we all have our windows open trying to survive! I've been a supporter until now.

They keep flying over my house, and everything is shaking and rattling. Usually they pass over once and then move on, but for some reason they are making multiple low passes over our home. My dishes are rattling; feels like an earthquake.

S Lopez, 28 Jun 2021, Mon: 10:30am 76.8 dec, 10:45am 77.2 dec inside the house. From 2 - 2:30pm a steady Low ROAR 55 -65 dec. Then at 3:12pm a screaming Growler overhead at 88.6 dec. Welcome to the Peaceful San Juans . . .

P-8 1600' altitude.

Erroneously reported earlier as P-8. Caused ear pain. 1200' altitude.

P-8

In a meeting this morning and the jets keep flying over. They're loud and so disruptive!!

Horrible NOISE. Jets flying over, over and over again at about 20 minute intervals. Sounds like a space shuttle launch over Coupeville!!

FOUR GROWLERS over Coupeville..... QUADRUPLE the noise.

Loud jet noise.

Noise pollution from Oak Harbor/Ault Field is blasting Central Whidbey.

There were more flights between 20:00 and 20:30, but I was in the water and could not note specific times.

2 loud jets.

Low flight over south end of Lopez

About 2:15pm or so on June 29. I was on the phone. A jet overhead came screaming and roaring so loudly over our home that I could not hear a thing. The conversation was disrupted. My sister asked "what was that noise." We could not talk. S. Lopez.

June 29, 12:37pm. LOUD roaring noise coming from Whidbey.

10:54am. LOUD LOUD Jet roaring over South Lopez.

Much too loud to even hear words coming from tv

Cape Saint Mary area, Lopez Island, Washington.

S Lopez, 29 Jun 2021, Tue: 2:16pm , Another Overflight! 86.2 dec outside. .

Between 3:23 pm and 3:45 pm, 5 P-8s at about 1500' directly overhead. Not as loud as the Growler but still a conversation stopper.

2 Growlers @ about 1200'. Caused some ear pain.

Horrible noise. Coupeville.

9:05 pm Growler Shuttle launch in Coupeville.

Much of the afternoon over the incoming tide noise and wave pounding, at times, conversation stopped.

Didn't make enough noise the first time, came back for spite?

All evening flying overhead from 5:30 and now continues at 10:30 pm Argh!

Exhausted from work, home late, have to get up very early tomorrow- wrenched from sleep by metallic screaming. Anacortes 10:20 pm

It's called sleep. Disrupted!!!!

Once again flying overhead- not supposed to be in their path. They can be heard numerous times through out most days- they are so loud can hear them from inside the home when they take off at Ault. Just gets louder as they fly over.

Taking off again at Ault. It's deceptive to think the noise corresponds with scheduled practices. They take off every 15- 30 minutes most mornings for a

**couple of hours-return later. Have heard them in Laconner, Marysville,
Mount Vernon, Burlington**

Loud! Stopped phone call.

Loud noise disrupts our dinner conversation.

**Husband I talking and another jet interrupts our disc. I measure decibels in
the house at 84.**

Loud jet growler

**Low flyovers all evening and now I to the night. Impossible to do anything
inside or outside Children can't sleep**

Low flying growler aircraft with gear down

**12:39pm. June 30. LOUD LOUD LOUD jet noise over South Lopez. the
roaring just goes on and on and on and on. My Dad used to say that noise
like that was demons bowling down the lanes in the skies, and that is what
it sounds like. Echoing Roaring.**

10:05am, June 30. LOUD LOUD LOUD jet roar. S Lopez.

**10:52am, June 30. Loud jet roaring over Mud Bay, Lopez. Obliterates all
household sounds. Ruined my concentration on my work.**

Disrupted sleep. Extremely loud, low flyover.
