

We Can't Get Away

Ahh, there's that Navy noise coming back to Mt. Vernon. After a blissful five day vacation, I almost forgot how horrible these terrorists are. Two full minutes of what sounded like 100 trains running through my house.

We have suffered HOURS of uninterrupted LOW overflights, beginning early today, continuing to this very minute! It is just about 4:00PM as I report this. Planes pA** directly over homes on the west side of Camano, INTENTIONALLY as loud as they can!

Awful echoing sinister thunder. feel it in the bones, pm Anacortes near the ferry. Constant dread, elevated cortisol= health risks ongoing. Abuse from the navy is routine and ongoing.

Outside hanging Christmas lights when Growlers start next session of flight carrier landing practice at OLF. Noise so loud it hurts. We are unable to do even the most normal simple things around our home when Growlers start.

Dec 13. South Lopez. 9:50am Tremendous rumbling vibration felt through the house. Felt and sounded like the earthquake I experienced in California a few years ago. PTSD. Thanks a lot NASWI.

Shaw Island. Horrible roaring, very loud, overwhelms all other sounds outdoors AND indoors. The noise from growlers is devastating, unnerving, unsettling. It causes a strong sense of unrest and unease.

Forks area - out on the 9000 logging road with a hunting buddy, high on a ridge scoping for elk and deer , twice Growlers blasted nature's quiet with their afterburners...can't escape them even out in nature!

I live in Winthrop, WA and was out walking on Studhorse mountain road. I was unsettled by a jet flying low over the valley. It was so loud that I had to stop and plug my ears.

Jet Noise Report: 2023

Since 2015 an increasing number of jet noise reports are reported by residents of the Salish Sea region, using the San Juan County Aircraft Noise Reporting Website. With the addition of 36 more Growlers in 2019 at Naval Air Station Whidbey Island, the region has been bombarded. This document provides data broken out by reports generated inside San Juan County and outside.

Beginning on page 11 read the comments made by those who submit noise reports and feel the frustration, concern, and anger.

INSIDE THIS REPORT:

- ✚ Annual Comparisons
- ✚ Monthly Comparisons. Total and by Location
- ✚ Reports by Type of Noise
- ✚ Reports by Day through the Year
- ✚ Reports by Time of Day
- ✚ Map of Report Locations
- ✚ Comments submitted with each report, revealing human impacts

Understanding This Report

Listen to the jet noise that we hear in our region:

<https://sounddefensealliance.org/growler-videos-audio/>

The Navy dismisses noise data:

<https://www.seattletimes.com/opinion/navy-should-use-our-data-on-growler-noise-not-dismiss-it/>

Jet noise raises emotions.

Hints on reporting jet noise:

The San Juan County Aircraft Noise Reporting website was approved in 2014 by the County Council for people to have a reliable place for recording their reports and comments. Data reports began in 2015.

gis.sanjuanco.com/aircraft-noise-reporting

Who submits reports? In October, 2019, permission was given for people outside of San Juan County to use this noise reporting website. We are seeing an increasing number of reports from the wider region.

Correcting Location Data

Beginning in January 2023, data reporting addresses a problem with the website's capture of location data. Many reports default to a location in the center of San Juan County (SJC) when the person does not provide their location. This artificially raises the number of reports attributed to San Juan County that actually come from outside SJC.

Here is what we are doing. Some reports with invalid location data can be corrected by their comments or other data. Next we look only at reports with valid locations to determine the normal portion of "inside" and "outside" of San Juan County. Finally we A**igned the reports with invalid locations to "inside" and "outside."

Future reports likely will show more reports from outside of San Juan County than previously. Considering the smaller population base of San Juan County compared to nearby counties also affected by Navy jet noise this is not surprising. This has been the trend since 2019 when we opened reporting to outside SJC.

Annual data is continually reviewed. Clarification of duplicate reports, as well as the addition of late reports sometimes adjusts the final numbers to a few more or a few less than previously reported.

Jet Noise Reports 2015 - 2023

This chart provides some background to the history of noise reporting.

Jet noise reporting began in 2014 when San Juan County implemented a website for reporting jet noise. Data collection began in 2015. In the Fall, 2019, access was expanded to people outside of San Juan County enabling them to enter jet noise reports with the result that the number of noise reports is increasing, as has the number of aircraft at NASWI. This chart provides the totals of all noise reports in the database since 2015 through 2023.

Annual Reports by Location 2018-2023

Jet Noise Reports by Month by Location 2023

Jet Noise Reports by Type of Noise Outside San Juan County Nov - Dec, 2023

Daily Jet Noise Reports, by Day of the Year, by Location 2023

Note the variation in noise experienced by days and by location. The Navy persists in using “annual noise averaging,” significantly underestimating the impact of jet noise. There is no "average" noise felt by residents in this region. The noise is variable and unpredictable.

For example, submissions that report noise 11:00 am through 11:59am are clustered in the 11 o'clock hour. Note the variation in noise experienced at different times of the day. The Navy persists in using "annual noise averaging," significantly underestimating the impact of jet noise. There is no "average" noise felt by residents in this region. The noise is variable and unpredictable.

Referred to as a “density map”, this picture, using 15,176 noise reports submitted by users in 2022, offers a view of noise reports in the region. Impact hits **San Juan, Island, Skagit, Clallam and Jefferson counties**. Of particular note is the reach of Growler Jet noise to the Olympic Peninsula, particularly the Olympic National Park/Forks area. On the next page, parts of the map are enlarged for a view of San Juan County and Island County. These maps are reduced to fit the page. A density map for 2023 will be produced within the near future.

NOTES:

Some reports indicate decibel level. Lawnmowers, for example, generally produce 90 dB. How would you like to have that running inside your home? Noise over 70 dB for a prolonged period of time is harmful to your ears and can cause permanent hearing damage. Noise over 120 dB can cause immediate harm to your ears.

Some of the people who submit a noise report also list their home address or phone number or e-mail. In this report, those personal identifiers are deleted/modified, as are expletives.

Out come the jets. In go the earplugs. Go to Hell, Navy terrorists!

The scumbag Navy commanders are sending their terrorists over Mt. Vernon again.

Davis Bay - Growlers Growlers Growlers. If I had to note every time they disrupted activities I would be on my computer all day long.. This is continuous and is destroying our time on the island.

Disturbing Home school

Shaw Island. Shattering noise and vibration, the sort that is felt before heard. This is grotesque, the quality of this noise is dreadful and inescapable. It is beyond comprehension that this is allowed.

Trying to work from home can't hear conference calls

EAR SHATTERING ... Multiple aircraft circling out over Saratoga PA**age

Disrupting birthday party

Very low flying 737-type military jet disrupting my evening

Three Growlers flew over on 11/8 at different times. All were low and loud.

Here they come again. The attack is foreshadowed by five minutes of rumbling and disruptive noise and then when their engines are facing you, it's Hell on Earth. The Navy noise models are an intentional lie. The reality is pain.

Can't even eat dinner in peace

Wow, that's an annoying and loud sound over Mt. Vernon right now. There are so many times the Navy makes me wish I was deaf.

Disrupted activities. No peace and quiet any more.

Another example of NASWI's in real-time morally decadent military authoritarian compromised consciousness with the pretext that they are saving us while destroying the environment of those who live here and their right to be protected from noise.

Two growlers flying low over Port Susan, on the East side of Camano island. Growlers coming from the SE and heading north over Beach Dr and Port Susan. I have never heard the jets so loud, or to fly as low. 9

Metallic tearing of the sky. 5pm disturbing the peace with sounds of war. Anacortes by the ferry terminal. Thursday -recovering from surgery and need rest. This is not conducive.

Multiple Growlers conducting landing practice, creating very disruptive conditions.

So disruptive and upsetting. I feel like I want to crawl out of my skin the noise is so relentless and loud. I'm trying to work and can not focus.

Third time today. Each time disrupted activities. Ominous sound that ruins the experience of living in nature.

Sick, was sleeping. Now wide awake. Thanks

Interrupted concentration on work. Multiple times today.

Shaw Island. Growler noise is bad today, ongoing and sustained. The noise is horrible.

Threatening roaring from the skies to the south. The opposite of peaceful. Makes blood pressure elevate to hear- Anacortes. This belongs in a military reservation. Monday afternoon

Multiple Growlers circling for practice landings.

David Bay . This is unfair. For 2 and one half hours this has been going on. We can only add one incident at a time. Need a continuous option,. Move the base!

Disturbing home school cIA**

I work from and need quiet space to concentrate. The airplane noise is a horrible distraction and breaks the peace.

Do I sound annoyed? All afternoon long. And they want more jets!!!!

Terrible thunder from the heavens to the south- sounds like end of the world. Very very disquieting- heard evening Anacortes near the ferry- otherwise should be a peaceful evening. Monday

PTSD rockin !!!!! It feels like WAR !!!

Groaning grinding creaking roaring sounds are shaking/vibrating my home and body. Monday night Anacortes. It is miserable.

The practice at OLF is too frequent and too loud. Return to conditions as they were before Growlers. "

Multiple Growlers circling, landing practice... sustained noise!

The sky is roaring and thundering to the south. It is hideous. The navy continues daily abuse of western WA. Anacortes 10-11 am so far. This after they flew and disturbed the peace for hours last night.

Flying over Mt. Vernon all day.

Can feel this deep thunder shuddering the floor of my home- off and on in the day. Tuesday, Anacortes. It is Disturbing. This is not healthy. This raises cortisol levels chronically- which causes ongoing harm.

More inconsiderate Navy jerks flying over Mt. Vernon.

Jet flying over. Reporting this dozens of times a day is getting depressing. The Navy doesn't care how many people they torture or how often or how bad. They're serving their own interests.

Toxic noise and toxic NASWI military authoritarian consciousness which impales everyone who is exposed to their toxic ways that are in the lowest levels of Asuras consciousness.

Continuously loud rumbling disrupting our household and my dogs which are afraid of thunder and similar noises.

South Lopez

It is 5:30, and just dark on a Monday night- should be peaceful in Anacortes near the ferry, but it is the usual Navy destruction of peace and well being, as there is shaking deep thunder coming in waves from the south.. Can hear it. Can feel it.

stfu

Shaw Island. Horrible roaring, very loud, overwhelms all other sounds outdoors AND indoors. The noise from growlers is devastating, unnerving, unsettling. It causes a strong sense of unrest and unease.

I hate the Navy. I hate how selfish they are.

10 am on a beautiful, sunny, crisp fall day in Anacortes near Washington Park- peace is disturbed for the first time with deep threatening thunder emanating from Whidbey. Creepy, unnerving sounds. Sadly guess it's good they waited to 10 am... awful

Lopez airport

If I saw a Navy base commander unconscious and face down in a puddle, I wouldn't even roll him over. Might take a leak in the puddle though.

Multiple Growlers doing touch n go ... RIDICULOUS UNINTERRUPTED NOISE!!

Shaw Island. Roaring from growlers, and roaring overhead as well. This is horrible, unsettling, destructive noise, completely disruptive to any outdoor experience. Even indoors, the noise is horrible.

PA**ed low enough to rattle my windows, then turned over town so the noise kept up for a few minutes.

Been wearing my earplugs for the last hour but it was starting to hurt so I took them out. Navy jets are still out there terrorizing Mt. Vernon. The Navy sucks.

Second jet in 5 minutes, this one rattling my windows

Low flying military aircraft parting the skies for future growler aircraft from Whidbey NAS. This happened last night and we had extremely loud growler aircraft flying over at 2300 and 0100. UNACCEPTABLE!!!

Couple of disruptive noisy jets so far this morning. They weren't _over_ Mt. Vernon, but it doesn't really matter when you're talking about something as loud as an erupting volcano.

Every time I remove my earplugs (which are starting to hurt), those Navy A**bags are still out there. If they're going to be flying this often and this loudly, they need to go somewhere else! People were living here before it got this loud.

On any day is deafening. Sunday is no exception.

what are you doing up there? flying around in circles just to be extra deafening? Noise pollution - sound from 70 decibels and higher cause deafness. You, US Army already know this. YOU KNOW.

jesus christ this is old.

J F-ing Christ.

from 6 am this morning, so many it's a full time job reporting the hate planes.

4 flying a***** in less than 6 minutes. floor shaking, dishes rattling, headache commenced. guess it's time to get out the earplugs AGAIN or leave my home to poach wifi somewhere else so i can focus on research i need to do for work.

and here's yet another flying A**hole roaring overhead playing with their war toys.

Navy terrorizing Mt. Vernon. Loud enough I couldn't hear people in a meeting.

Low flying growler aircraft

I am TRYING to watch a kayaking tutorial on TV but must keep turning the volume up and down because these F***ing idiots keep circling right over my home. SO F***ING DISRUPTIVE. Obviously, there is no way I can even hear the TV when they are close.

The floor vibrate and the dishes rattle in the cupboard, the mirror in the bathroom vibrates against the wall when these F***ING A***** go roaring overhead. HOW IN THE F*** IS THIS LEGAL OR DOES THE NAVY JUST NOT GIVE A F*** IF IT'S LEGAL OR NOT?

"WHEN ARE THESE A***** GOING TO F*** OFF WITH THEIR DEAFENING NOISE? F***ING I HATE THEM SO F***ING MUCH. HOW MANY MORE HOURS WILL THIS BULLS*** LAST?

F*** THE NAVY, F*** THESE PLANES, F*** THE PILOTS, F*** THE MILITARY!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!"

Horrific noise persistent from 3:30pm to after 8:00 pm. We have a horse boarding facility and these horses can't cover their ears. Scared to death

Enormously loud jet flying over Mt. Vernon. I'd have an instant headache if I'd been outside. Went from silent to explosion of noise in a couple seconds. Jerk was probably flying close to the speed of sound.

I can hear the Navy terrorists getting closer to Mt. Vernon. Expecting my windows to rattle in a couple seconds.

Please do something more that document the Growler jet noise! End this flights forever!

"Still more airplanes 200 feet off the ground directly overhead.

F*** THE NAVY, F*** THESE PLANES, F*** THESE PILOTS"

"There goes another F***ing A***** roaring past directly overhead.
Headache and ears ringing now. Why do these F***ers think they are above

F*** THE NAVY, F*** THESE JETS, F*** THESE PILOTS."

"there go 2 morer F***ing a***** roaring directly overhead 200 feet off
the ground.

F*** THE NAVY, F*** THESE JETS, F*** THESE PILOTS"

Being too loud and continuing to destroy the environment for the Navy at
NAWI has been overcome my military authoritarian consciousness that
permits the death and destruction of anything. They have no reverence for
what is here.

Twin newborns in the house Extremely loud

Ear piercing my ears are ringing my blood pressure is high

Noise blasts all afternoon and evening. Shaking the house

Low flying growler aircraft disrupting my evening

The house is shaking so hard from the growler sound blasts that it will cause

Unbelievably loud flyover just now... lasted a long time - 2 full minutes. I'm
inside with all the windows shut and it felt like it was piercing my ears and
brain and painful.

"So incredibly loud - can't even watch TV inside the house with all the
windows closed - and this goes on for a full minute before it moves away.
Everything shaking. Horrible to treat people like this.

Lots of loud aircraft from late afternoon until just now. Too much and too

It was a nice long weekend without the Navy terrorizing the Mt. Vernon neighborhoods. Could go outside without the panic and fear of ear splitting noise at any second. It should be like that all the time. They just flew over.

Growlers making noise what they do best

Growler's really making a lot of noise tonight

Another episode of NASWI's Authoritarian Consciousness of Death and Destruction where they will destroy whatever suits their narcissistic caring desires in the name of training pilots. The Mosaic principle that should have been relinquished years ago

Density Altitude: -1100'

Damn the growlers are loud. Way too loud for residential area.

The noise of pattern 14 over a populated area is torture to all residents. We do not want you here, ruining this beautiful part of the country.

When they really want to ruin people's day they do their little touch-and-gos in a southerly direction, full afterburners mere feet above Admiral's Cove. This is one of those days, very pleasant.

HOUSE SHAKING !! Growlers circling out over Saratoga PAage, nearly over-heading Camano Island.**

Growlers making a lot of noise

I am so sick I can't stand this anymore. It's really affecting my health and to think I am military doesn't even care about the old people and the children and the babies that this is affecting.

This growler noise is just too much for this residential neighborhood

"You need to seriously! STOP!

My mental health is at risk!

We have suffered HOURS of uninterrupted LOW overflights, beginning early
today, continuing to this very minute! It is just about 4:00PM as I report

this. Planes pA** directly over homes on the west side of Camano,

The Navy's out terrorizing the Mt. Vernon neighborhood again. Just flew over with some painfully loud jets.

Enormously loud and long lasting noise as the Navy terrorizes Mt. Vernon with yet another too-fast and too-low flyover.

F*** THE MILITARY, F*** THE NAVY, F*** THESE JETS, F*** THESE A**HOLE PILOTS"

Start of FCLPs at OLF

Disrupting a mid-morning weekday with growlers flying directly over residential neighborhoods is business as usual on Whidbey Island lately and your politicians are fine with this. Remember that when you vote.

Four of those impossibly loud Navy jets just flew over my house in tight formation. Do your noise models account for that or are you just going to "average" that away too? FOUR!!!

2 growlers flying roughly east to west. Deafening.

NASWI's military authoritarian consciousness with their toxic noise and particulate toxins is about the death and destruction of this environment. and every living thing living here.

Nothing like coming home after work to an hours long roar of these jets. Give PT a break and move to the desert.

FCLPs at OLF once again.

Density altitude: -700'

Just more Navy terrorism over Mt. Vernon. Either that or the sky turned into highly volatile gas and exploded. It's hard to tell the difference. At least if the sky was exploding, it would eventually end.

F*** the navy.

More of the same, too loud Growler jet flights. Beneath the vernier of protecting us is NASWI's military authoritarian consciousness that is about death and destruction of Nature, citizens and the wonderfully beautiful area near OLF Coupeville.

Flying a stone's throw above my house all night and now all day. I took the week off of work to rest and have had to leave my house repeatedly to get away from the them. I am having anxiety/panic. It is louder than the word 'noise' covers.

"2 jets just roared past 200 ft overhead.

WHY IN THE F*** ARE THESE A***** FLYING INVERTED???

MAYBE THEY SHOULDN'T BE HOTDOGGING AND SHOULD STICK TO PRACTICING THEIR LANDINGS/TAKEOFFS SINCE THAT IS THE CLAIMED REASON THEY EVEN NEED TO BE FLYING."

Growler noise has been uninterrupted from early this morning through the present! Circling, circling with multiple aircraft resulting in CONSTANT peek noise levels.

Continuing FCLP at OLF. Miserable inside the house.

I meant, of course, PEAK NOISE LEVELS ALL DAY LONG!!! Not "peek"...

I don't like the smell of napalm in the morning.

Cool your jets!

Growler right over the house disturbing my barbecue

Another growler flyby making life hell here

Growlers appear to be conducting landing practice but are swings well out over Saratoga PA**age, greatly increasing noise levels.

It was such a nice day till the growlers showed up ruined it

Density altitude: -1100'

Ahh, there's that Navy noise coming back to Mt. Vernon. After a blissful five day vacation, I almost forgot how horrible these terrorists are. Two full minutes of what sounded like 100 trains running through my house.

Extremely loud, even more than normal. Which shouldn't be normal at all.

Relentless noise makes it hard to focus and distrusts the peace.

2nd round of insanely loud mid-day flights today. No concern for working people.

Outside hanging Christmas lights when Growlers start next session of flight carrier landing practice at OLF. Noise so loud it hurts. We are unable to do even the most normal simple things around our home when Growlers start.

And extremely horrible!!!!

"STOP!!!

This is F***ed!!!

"I am contacting govener!

My taxes are super high!!

One million for this house!! And this noise! Hell no!"

You really need to stop!

"This is unacceptable!!

The noise level is unbearable!!!!

What the hell is wrong with you people!!!!

There are children and animals trying to sleep!! WTF!"

"It's horrible !

Children and animals are eating dinner 

And they have to listen to war above them?????

Go away!!!!!"

"Density altitude: -1300'

Got off work early, what a waste of PTO. My home is uninhabitable. Hour after hour of unbearable, anxiety producing, terrifying noise. I am waiting for a jet to fly into my house. They are so low I could throw a rock and hit one from my yard.

holy motherF***ing S***. i HATEEEE these F***ing a***** in the F***ing war toys flying RIGHT F***ING OVER MY HOME ALL MOTHERF***ING DAY. THANKS TO THESE A***** I NOW HATE THE F***ING NAVY, I HATE THESE JETS, I HATE THESE PILOTS. F*** THE MILITARY

F*** THEM. F*** THEM F*** THEM. F*** THE NAVY. F*** THE MILITARY."

"AND HERE THEY ARE A F***ING GAIN. WHAT GIANT GAPING A***** THESE F***ING IDIOTS ARE.

F*** THE MILITARY. F*** THEM ALL."

Loud and long Growler noise all afternoon. Recuperating from surgery, but sleep is impossible when the Growlers fly. Does the Navy put its clinics and hospitals next to Growler landing fields?

House-shaking low overflight

Scumbag Navy jet just flew over Mt. Vernon again. Intolerably loud. Any organization that cared about people or was subject to laws would have gotten in trouble for how low and loud it was.

Lopez. Long blasts from take offs. Echoing over the water and shaking the houses

When will these a***** be done playing with their toys? I'm TRYING to use the internet. Since the a***** use their jammers the wifi craps out 2 min before and 2 min after they go by, which has been every 10 minuets. Do the math, means no wifi.

The jet flew over so low that it completely drowned out the turboprop I was standing 10 feet away from.

ARGH! PLEASE STOP. PLEASE! Nothing that loud should be in populated areas. You don't have to do that here.

Navy terrorists doing multiple extremely loud flyovers of Mt. Vernon. It's night time. Time to eat dinner, relax and shut down. It's not time to make it sounds like we're in WW3. These jets shouldn't be in populated areas.

"This training period has been going on too long. Relief would be good.

Sounds like a trucker convey driving around town. It's incredible and horrific how far away these jets can be and still have negative impact.

Time may be off by a minute or two.

They started flying like 30 min ago. I'm not sure what happened but as soon as they started flying it was an immediate reaction of feeling dizzy. It has not stopped. I should not have to feel this in my own home.

Trying to work from home. Hard to focus with all the noise

They have been flying all day. My body feels drained. How are kids and adults expected to get rest for school and work.

All quiet on the Eastern Front after a horrific A**ault by USN Growlers upon Puget Sound U.S. citizens (children, seniors, night shift workers). A CIA** action suit is in order; the WA AG tried, but USN Command pulled the "National Security" card.

Forks Annoying

Again with the noise! Are they doing touch and goes?

Why can't they put silencers on those Growlers?

"It's really tiring to listen to these rumblings hour after hour

Navy terrorists have been attacking Mt. Vernon all morning. Expect it to last all day. Wish I could plan around it, but one of the features of terrorists is they don't publish schedules that would let you work around their attacks.

"This has been going on for a couple hours now, not involving as much vibration as in the past, it is rather like a large garbage bin on wheels being rolled past. But it's not.

This has been going on for HOURS!

Constant rumble

Intermittently today there were some serious rumbling events, completely distracting. And why a propeller plane going straight over the middle of Port Townsend earlier? Always distracting, interrupting what I'm working on.

Navy's out there terrorizing Mt. Vernon. Not painfully loud (yet), but just knowing they're up there is a warning to stay indoors if you care about your hearing.

The US Navy continues to wage its ceaseless and unwanted war on Mt. Vernon. Won't someone rid me of this meddlesome military?

Navy out terrorizing Mt. Vernon this morning. Looking forward to another day with ear plugs and headaches.

Sunday morning and recovering from surgery. I feel anxious because you never know how many are going to fly or for how long ! Leaves you in a state of high alert . Which I doubt is conducive to healing !

You Navy A maggots. We only get two days a week without being terrorized for your glorious entertainment. What are you doing flying around out there on a Sunday afternoon?**

Dreadful roaring from growlers. This is horrible sound that penetrates all other sounds, inside and outside. This isn't healthy for anyone, including marine animals. Shame on those who bend noise regulations to allow this

LOUD JET NOISE DISRUPTED MUSIC LISTENING

Worst it's been in a while. Loud and making it hard for me to write. Will have to give up for now and turn on music to try to block out the sounds of the Growlers.

One jet flew over this am and another at. 6:29 PM tonight. Both were low and loud.

Tuesday evening- peace interrupted by creepy awful deep thunder from the south- from Ault Field and navy aircraft abusing the landscape and its people, who want peace for sleep. Go where people do not live.

7 pm going on for some time now- the south side of my Anacortes house is shuddering with low deep thunder of navy planes. It's disturbing, it's creepy, unnerving and awful even if not "loud." Such a huge swath of land is affected. It's abuse

"The jets have been flying non stop all night. I can not relax after a long fay at work. The intense noise and rumble is very disturbing.

I am wearing hearing protection INSIDE my home. "

Interrupted VOIP call

Do you inconsiderate pricks ever take a break? All day long you're torturing our neighborhoods. Get the hell out of here.

Disturbing dinner party

Navy jet flying over (or just near?) Mt. Vernon. Too loud for populated areas. Go away.

Ruinous, deep, rumbling, shaking -low thunder. From the South. Low frequency can feel through the floor in my feet- awful- 10 minutes just after dark on a Saturday. Anacortes near the ferry terminal. Deeply disquieting.

Yup, my body was vibrating again. Thanks a lot!

Disrupted business meeting

A second jet flew over at 2:59 pm. About the same amount of noise.

SO much for a peaceful weekend.

The jets are frigging annoying! Have to stop everytime they fly - Commercial airports with 43 million pA**engers aren't this loud.

When jet rumbling from Whidbey hits our home-a deep rumble with vibration-I am driven to get up & look out the window to see if a truck is coming up our driveway, or to see if the washing machine is bonkers.Then, AGAIN, I realize it is the jet noise.

Jet noise is invasive and has been going on all day. For every complaint please multiply it ruined ten as I can't stop to report every five minutes. They need to go train somewhere else!!!!

Gotta use up the fuel budget.?

Low flying and fast. Stay away from Orcas!

Low flying military aircraft disrupting my afternoon

It was a wonderful Christmas vacation with some much needed peace, but now the Navy is back to terrorizing Mt. Vernon. I think that was the 4th unnecessarily loud and low flyover in the last hour. Maybe the Navy could ask Santa for a new base.

Loud Growlers circling the San Juan National Monument.

Deep shuddering thunder , mostly to the south- shaking my home with low sounds so far few hours over mid-day so far- Thursday. Just back from Oak Harbor and numerous growlers are circling near ground- practice over our heads. Unhealthy- Anacortes

Deep, creepy, threatening sounds of growlers in Oak Harbor- heard in Anacortes near Washington Park. Not a relaxing place that park. The sounds are like avalanche or earthquake- shaking at low frequency. Very disturbing- and for hours so far today

Navy out terrorizing Mt. Vernon. Should also note they were making noise at 2am and 6am too. No conscience at all with these jerks.

Hiding in the low overhead clouds, growlers flying disrupting my morning

"Planes flying over a number of times

Very loud and disturbing"

The Navy jets have been "screaming" the last couple days over Mt. Vernon. Still getting the familiar "roaring" and rumbling and shaking of windows, but they've added a high pitched scream to the mix. Needless to say, they need to take this elsewhere.

Incredibly loud Navy jet just flew over my home in Mt. Vernon. It's very windy out there right now. I hope they have lots of trouble landing.

Low flying growler aircraft disrupting our morning

Five or six extremely loud flyovers so far today, and a near constant stream of less-loud-but-still-disruptive ones. This increase in number of flights and noise-per-flight should never have been approved (wait, it wasn't! The Navy lied)

Wow, that was loud. Any responsible and ethical organization would feel it was inappropriate to do that over populated areas. Not the Navy, though. They'll selfishly do whatever they want.

Eat a cliff-side, you inconsiderate jackA**es!

A couple of flyovers were too loud and disrupted dinner. It is revolting NASWI's lack of caring for all of us living here. The military authoritarian consciousness is destructive.

Navy's out there terrorizing the whole county again with their machismo engines. Just endured an extremely loud flyover near Mt. Vernon.

Whole bunch of Navy terrorism this morning. There are too many jets flying too low and too loudly for this region. Move them out. This expansion never should have been approved (and wouldn't have if the Navy had been honest)

Vibrating house and excruciatingly loudover head

Extremely loud series of continuous jets overhead. My cats are hiding and terrified of the vibrations and repeated roars. This can't be legal. Horrible impact on us and the environment. I can't even imagine what it is doing to our underwater friends.

South Lopez. Really disturbed by loud jet vibrating roaring noise from Whidbey. The air is FULL of the noise. What's going on? Do you have all the jets fired up? Very annoying on a peaceful morning.

South Lopez. Jet roaring continues. All morning we have been pestered by LOUD LOUD LOUD LOUD jet noise, noise that is so loud it travels 15 miles to hit us.

Just another report of the Navy terrorizing Mt Vernon with extremely loud, unnecessarily frequent, and inappropriately low flights. I hope the base commanders get cancer for Christmas.

US Navy continuing to fail to care about the people they're torturing in five counties (and two countries). Excessively loud jets just flew over Mt. Vernon. Getting ready for another full day of earplugs.

Screaming Navy jet AGAIN over S.Lopez. Noisy day. Very distracting ... we live in a quiet place (one would think) but get these blasts of noise that get me off task, look around, wonder if it is a car coming up the driveway, or something else wrong.

Ugh, it sounds like a war zone.

Insanely loud flyover of Mt. Vernon just spoiled the peace of the Solstice/Yule. Jerks.

Sounds like it's going to be another lovely day with earplugs stuffed fully into my ears. The Navy's out terrorizing my corner of Mt. Vernon with some particularly low and loud flyovers. Disruptive and debilitating. They can and should go elsewhere.

Lopez. All morning

I chose to drive to Oak Harbor from Anacortes- to go to Wal-Mart and at least 6-7 times in the car I wanted to cover my ears with jets from Ault Field screaming right overhead. I had to drive. This is unsafe and terrible for people living here.

If you aren't anti-military in every form, in any place, then you are just as evil as the pilots, their managers, and the scum who cheer them on. COER and the SDF are as evil as the navy. They both support endless war. They only differ on locations.

Flight stopped conversations as we were walking outside
