

With the addition of 36 more Growler jets in 2019 at Naval Air Station Whidbey Island, the region has been bombarded. **The number of noise reports in 2021 exceeds the number reported in 2020 by 50%. As for the first ten months of the year, January/October 2022 reports are 33% higher than those reported in 2021.**

WHAT ABOUT THE KIDS????

"Mommy can I try to go to sleep now. Has this stopped?"

Growlers started flying over just as we were putting the kids to bed at 9 o'clock they can't sleep with this noise it's affecting the health of our children That have to get up early to go to school

Another week and flying again until midnight. Do they believe that children don't need good sleep for their overall health? and learning ? Then tomorrow they go to school and are expected to learn while the jets flyover the schools all day!

It's bedtime for most kids in this community. Some how it is okay to keep them up. Learning does not work well in tired children 🙄

Forks- blasting over the playground at the elementary school and circling . Two maybe three easily visible at about 8000' far too low over schools and people. Heading towards Hoh in ONP.

This is obscene to do to a community, waking us up each night at 11:30 PM with your hideous noise, no concern for even the school kids trying to sleep.

First week of school, 3rd night in a row of unbearable nonstop jet noise. Kids unable to sleep, everything shaking!!

It's about HEALTH! The Growler Health Impact Project, funded by the University of Washington's Population Health Initiative, will analyze the troves of raw Growler jet noise data collected over the past decade. The researchers gave a webinar on their objectives. You can watch the video here <https://www.youtube.com/watch?v=79HGX8GkQdc>

Jet Noise Report September-October 2022

SEQUIM: They were flying WAY too low directly above Sequim. Disrupted activities, was extremely loud, jumped up panicking for a few seconds until I realized what was going on. So lame.

MOUNT VERNON: The jets were loud enough that even though I was indoors, I was having a hard time hearing people in a Zoom meeting.

COUPEVILLE: On and off since noon, it's 11:30 pm and there are Growlers flying directly over Coupeville disrupting the peace and quiet. Someone please make it stop.

FORKS: floorboards shaking, rumbles still ratting and roar still heard two minutes later. Even woke the dog from a sound sleep!!

PORT TOWNSEND: Growlers flying at 9 pm . I live in Port Townsend and can't sleep because of the noise! It's extremely loud and I know they will continue late tonight. If I made this much noise I would have cops here taking me to jail, but the Navy can do whatever .

FRIDAY HARBOR: I live in town of Friday Harbor. Very loud flyover this morning.

LOPEZ: Roaring jet noise AGAIN fills our skies. South Lopez. Might as well live next to SeaTac. Disgusted with a poorly managed Navy. Waste of tax dollars.

Growlers Affect a Large Region. ALL Comments begin on Page 12.

Report excessive jet noise:

<https://www.quietskies.info/access-the-county-report-site>

**Listen to the jet noise that we hear
in our region:**

<https://sounddefensealliance.org/growler-videos-audio/>

The Navy dismisses noise data:

https://f4be68e4-2f42-4ce8-b4c0-6fb1e95c8ac6.filesusr.com/ugd/f9226a_2de6debab2a4dfd822451c6f6a3a75b.pdf

“Regardless of whether or not you support the Navy’s mission or its expanding presence in our public lands, waters, communities, and in the airspace above us, it’s good to take a rational look at how we came to have an electronic warfare range for the loudest jets on the planet over the quietest national park in the Lower 48.” Read this report:

<https://rainshadownorthwest.com/2021/11/01/the-loudest-jets-in-the-quietest-park/>

Energy, pollution, climate change! Did you know that 14 Priuses driving across the country produce the amount of CO2 that one Growler jet produces in a single hour of flight? For more about the effect of the Navy’s growler operations listen to these podcasts: <https://sites.libsyn.com/431445>

INSIDE THIS REPORT:

-  **Monthly Comparisons**
-  **Reports by Type of Noise**
-  **Noise by Time of Day**
-  **Reports by Day**
-  **Annual Comparisons**
-  **Maps of Report Locations**
-  **Comments submitted with each report, revealing human impacts**

Since 2015 an increasing number of jet noise reports are reported by residents of the Salish Sea region, using the San Juan County Aircraft Noise Reporting Website. This document provides data broken out by reports generated inside San Juan County and outside.

The San Juan County Aircraft Noise Reporting website was approved in 2014 by the County Council for people to have a reliable place for recording their reports and comments. Data reports began in 2015.

gis.sanjuanco.com/aircraft-noise-reporting

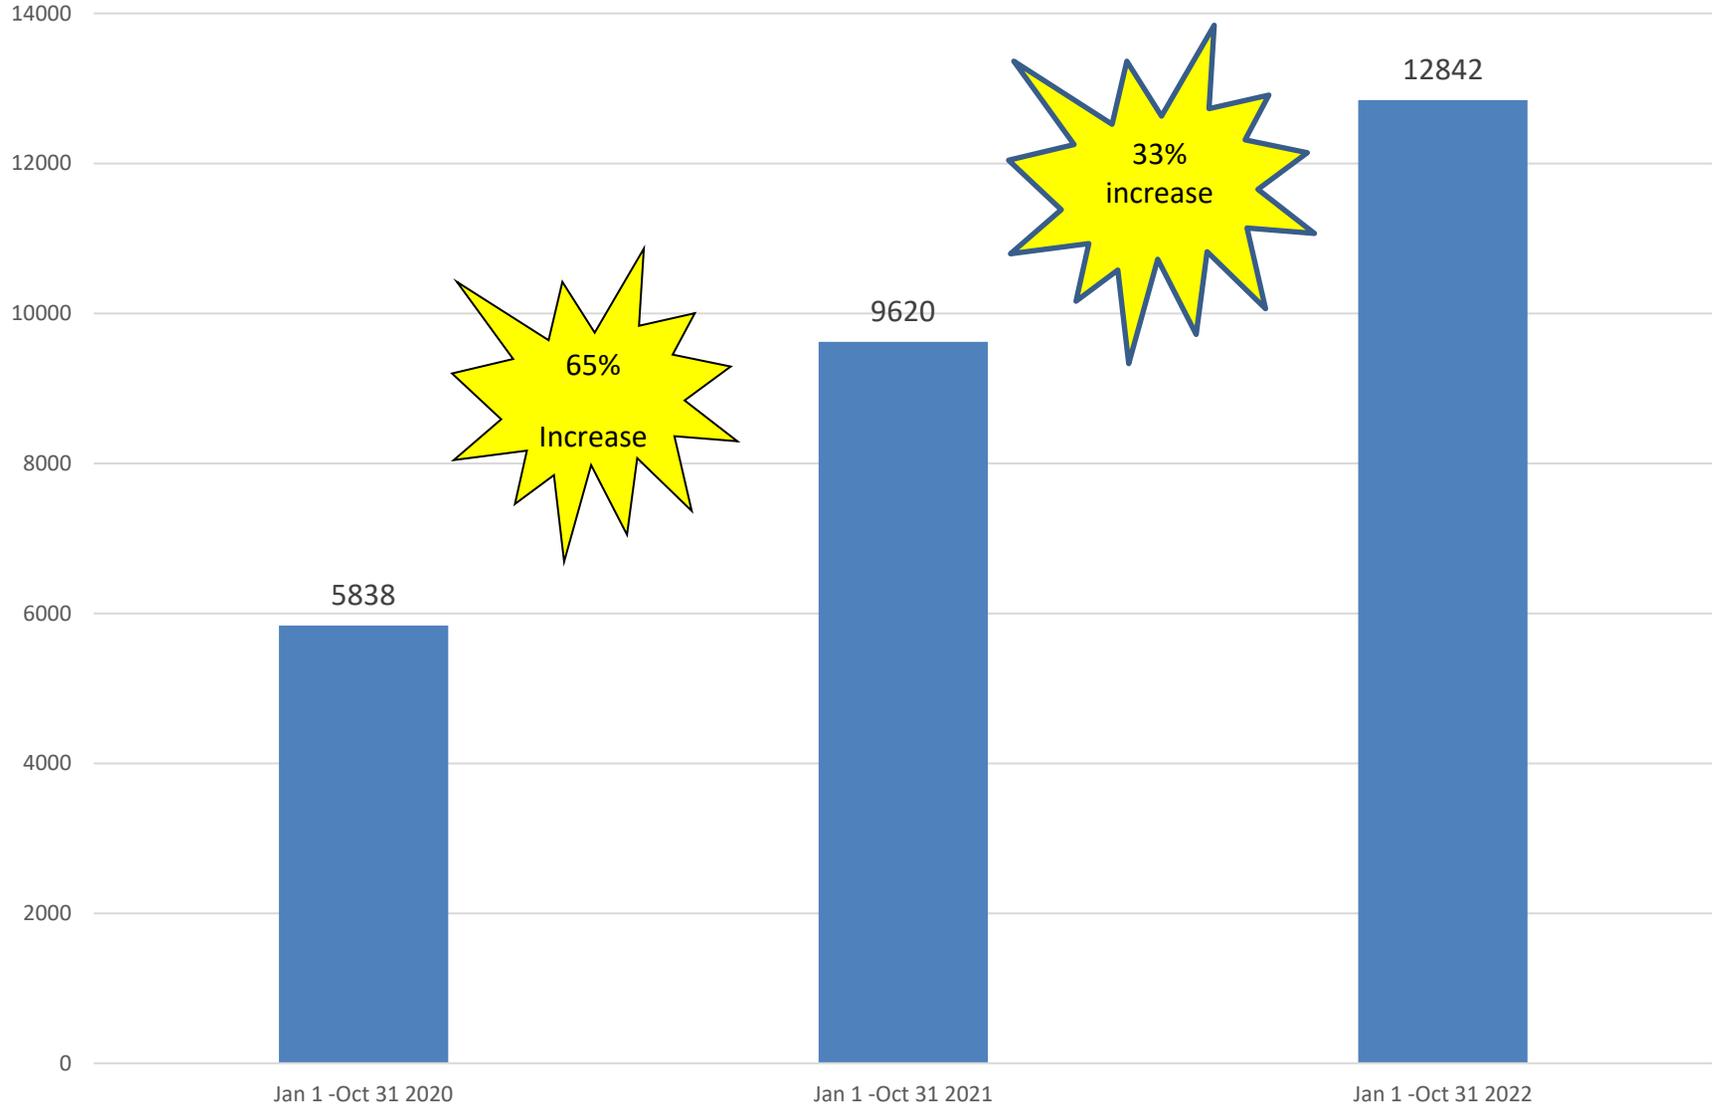

In October, 2019, permission was given for people outside of San Juan County to use this noise reporting website. We are seeing an increasing number of reports from the wider region. This report is compiled by Quiet Skies:

Comparison of Jet Noise Reports
First Ten Months of the Year
2020-2022

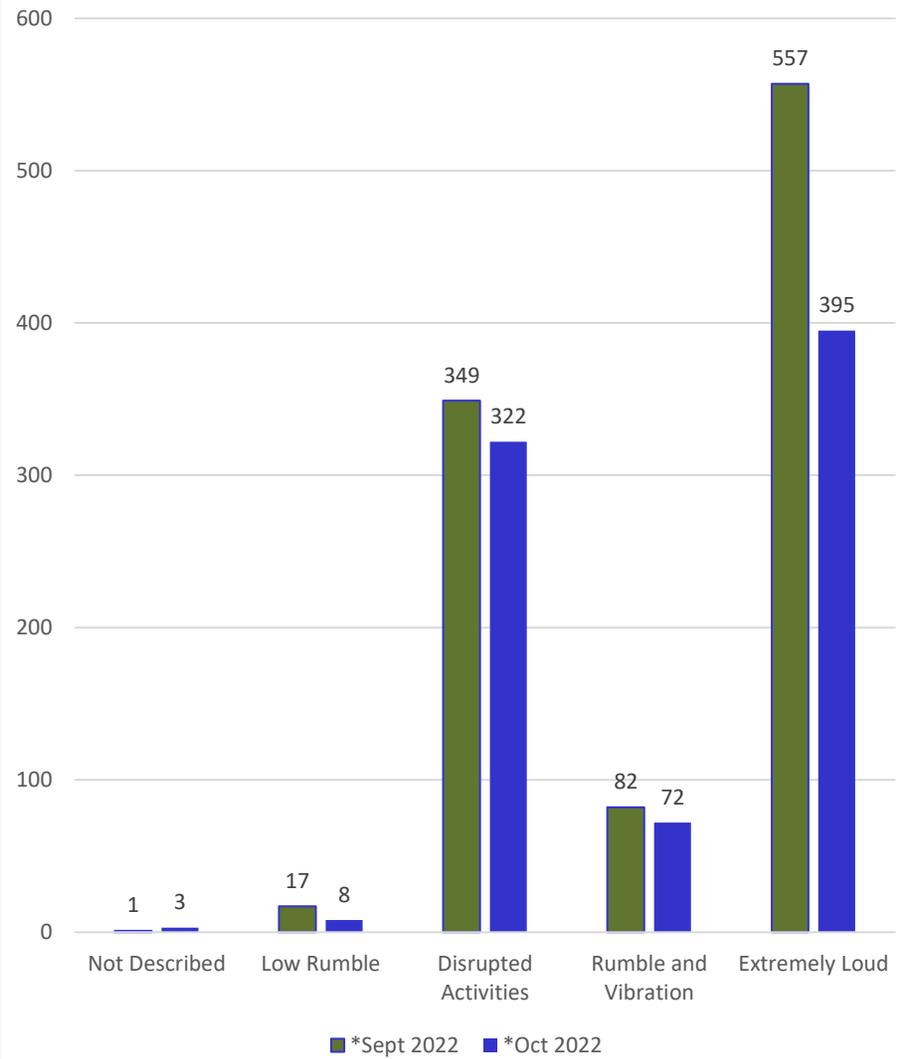

In 2019 the noise report website expanded beyond San Juan County. With difference in flight paths and population it's not surprising that communities such as Whidbey Island, Forks, Port Townsend, and Camano Island are making more noise reports than San Juan County. The map on page 10 indicates the impact of the Growlers is felt throughout San Juan, Island, Skagit, Jefferson and Clallam Counties.

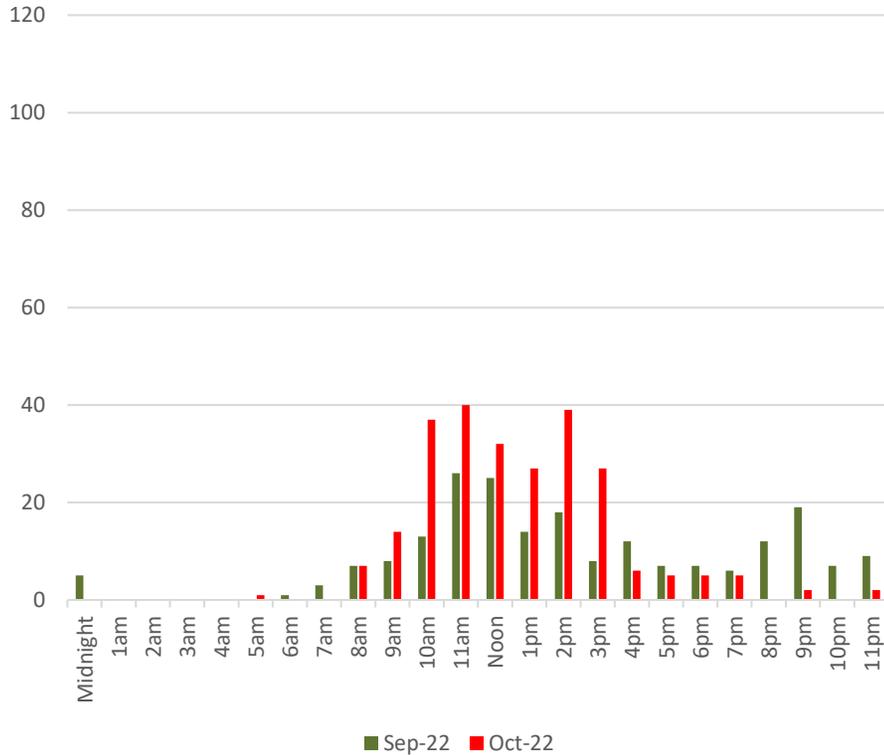

Jet Noise Reports by Type of Noise INSIDE San Juan County

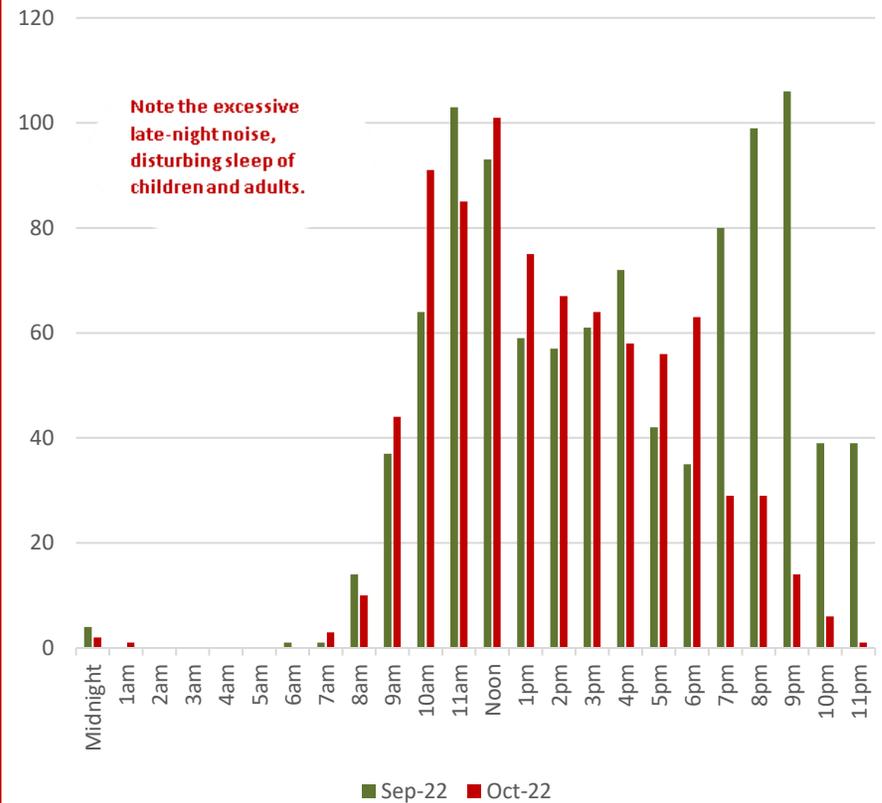

Jet Noise Reports by Type of Noise OUTSIDE San Juan County

Jet Noise Reports by Hour of the Day INSIDE San Juan County September-October, 2022

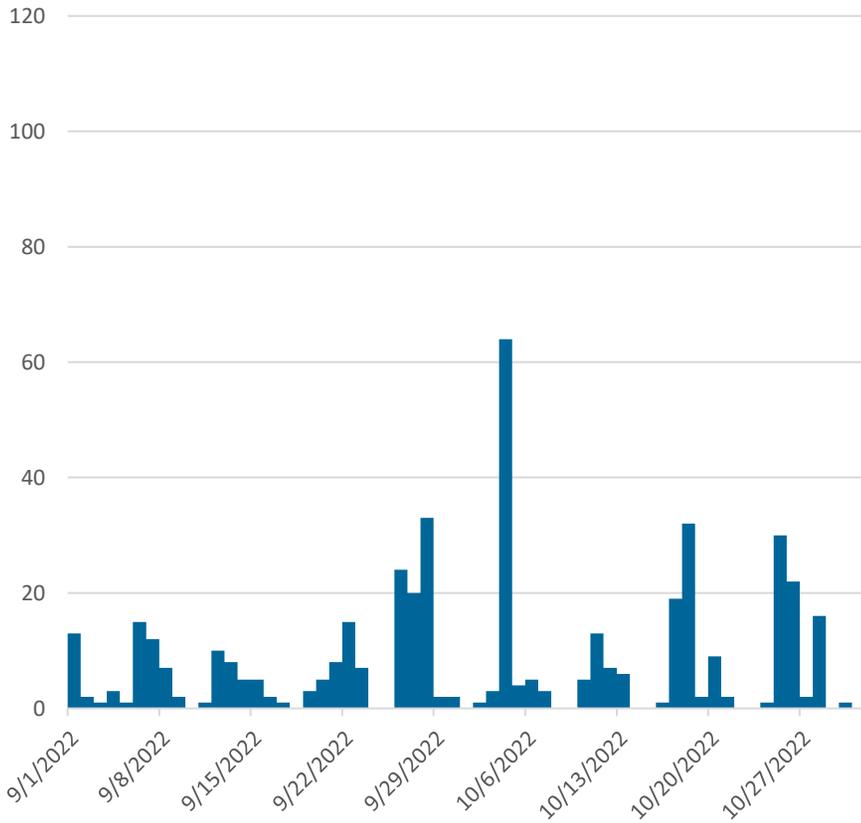

Jet Noise Reports by Hour of the Day OUTSIDE San Juan County September-October, 2022

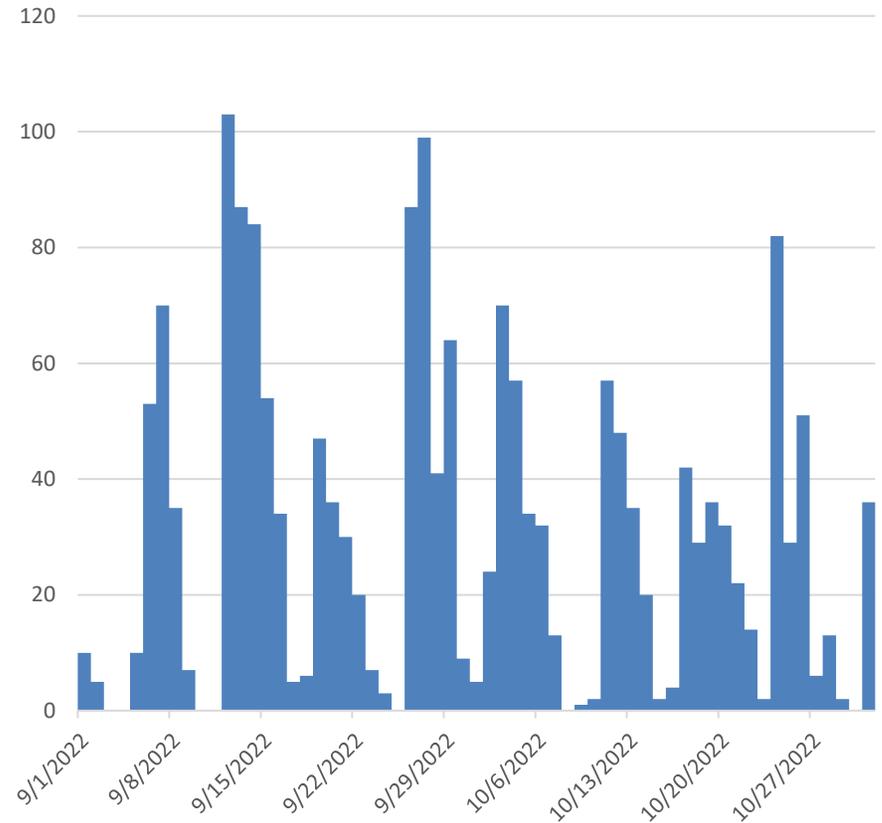

For example, submissions that report noise 11:00 am through 11:59am are clustered in the 11 o'clock hour.

Note the variation in noise experienced during the day and night and in different locations. The Navy persists in using “annual noise averaging,” significantly underestimating the impact of jet noise. There is no “average” noise felt by residents in this region. The noise is variable and unpredictable.

Jet Noise Reports, By Day September-October 2022 INSIDE San Juan County

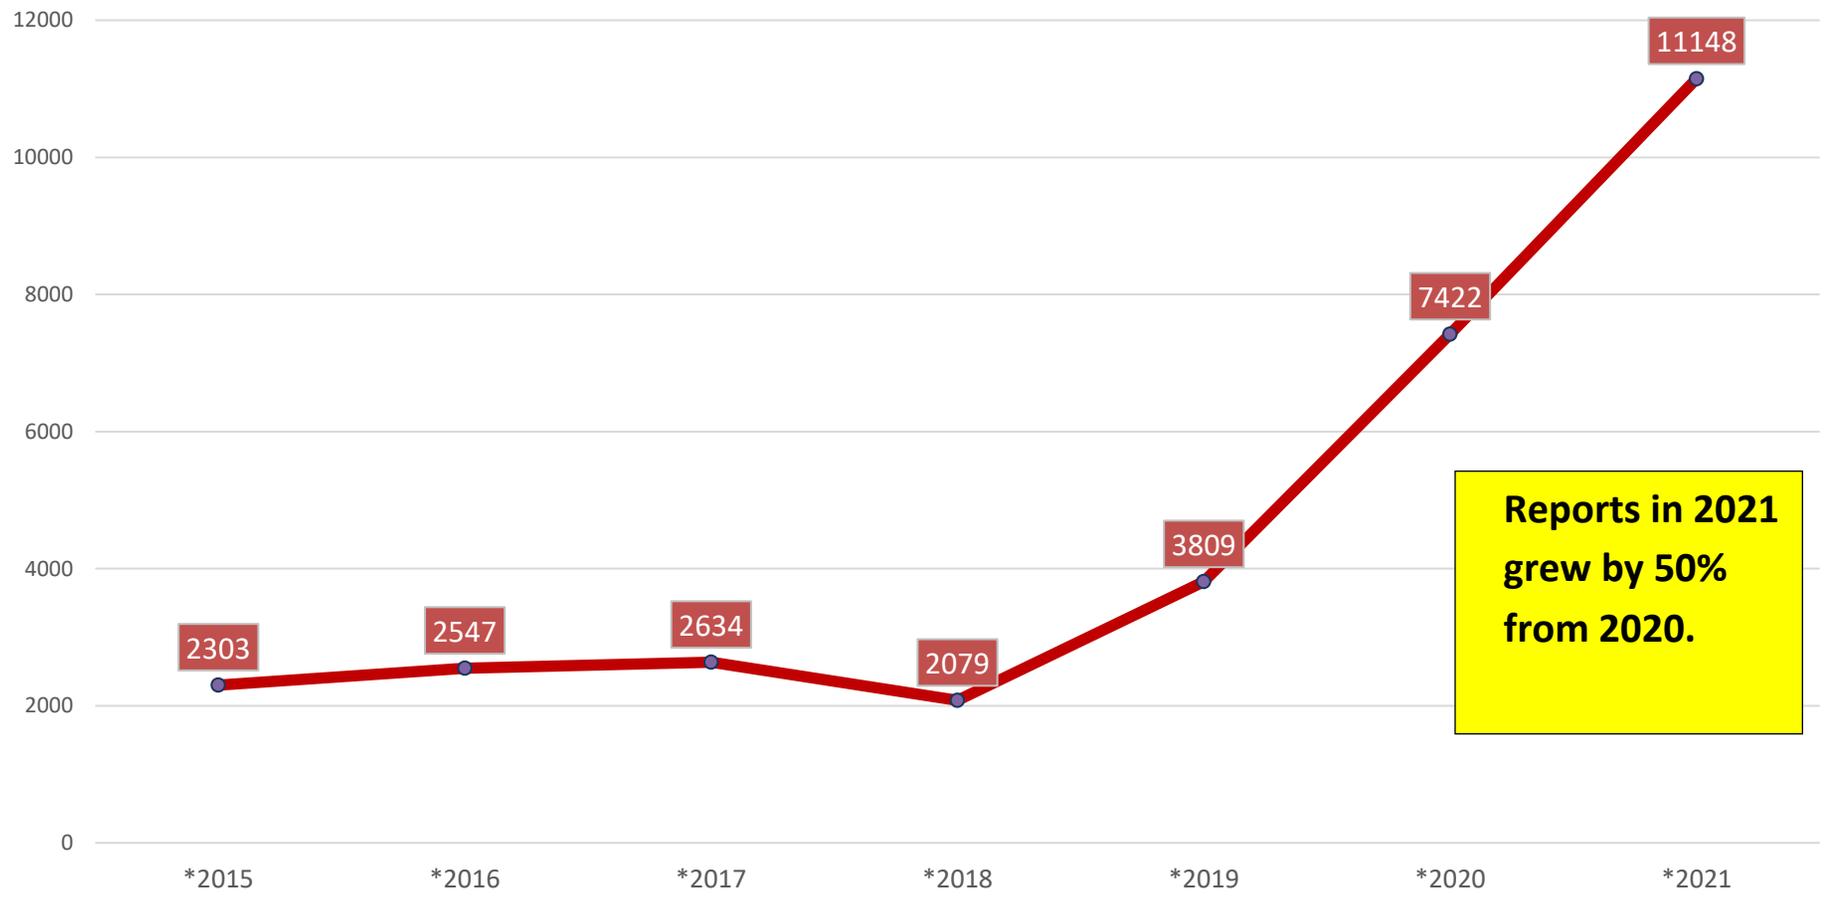

Jet Noise Reports, By Day September-October 2022 OUTSIDE San Juan County

Note the variation in noise experienced by month, day and location. The Navy persists in using “annual noise averaging,” significantly underestimating the impact of jet noise. There is no "average" noise felt by residents in this region. The noise is variable and unpredictable.

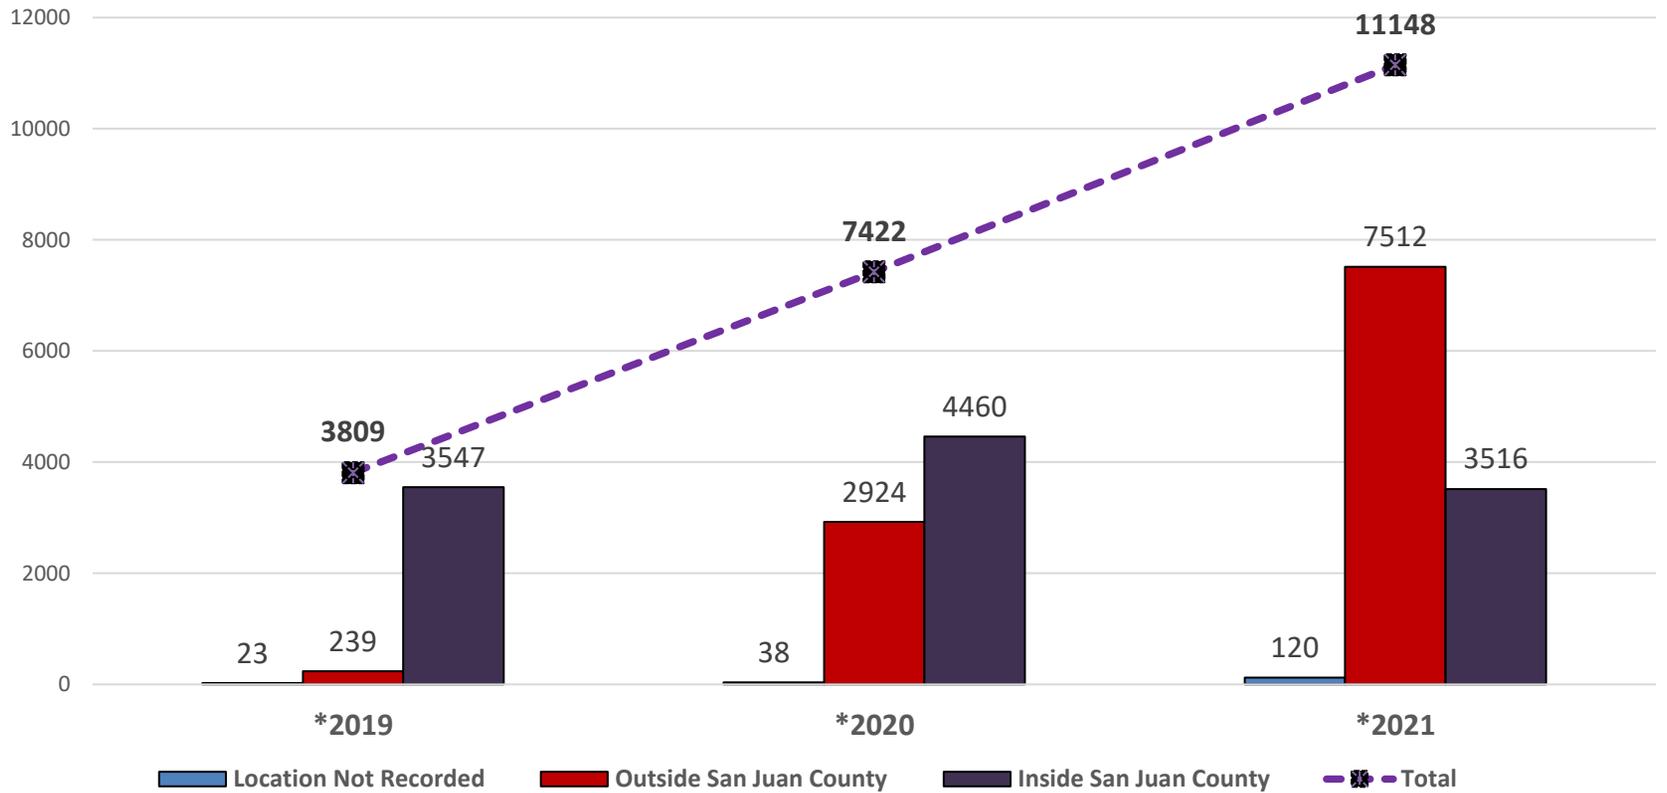

Jet Noise Reports - All Locations 2015 - 2021

This chart provides some background to the history of noise reporting.

Jet noise reporting began in 2014 when San Juan County implemented a website for reporting jet noise. Data collection began in 2015. In the Fall, 2019, access was expanded to people outside of San Juan County enabling them to enter jet noise reports with the result that the number of noise reports is increasing, as has the number of aircraft at NASWI. This chart provides the simple totals of all noise reports in the database since 2015 through 2021.

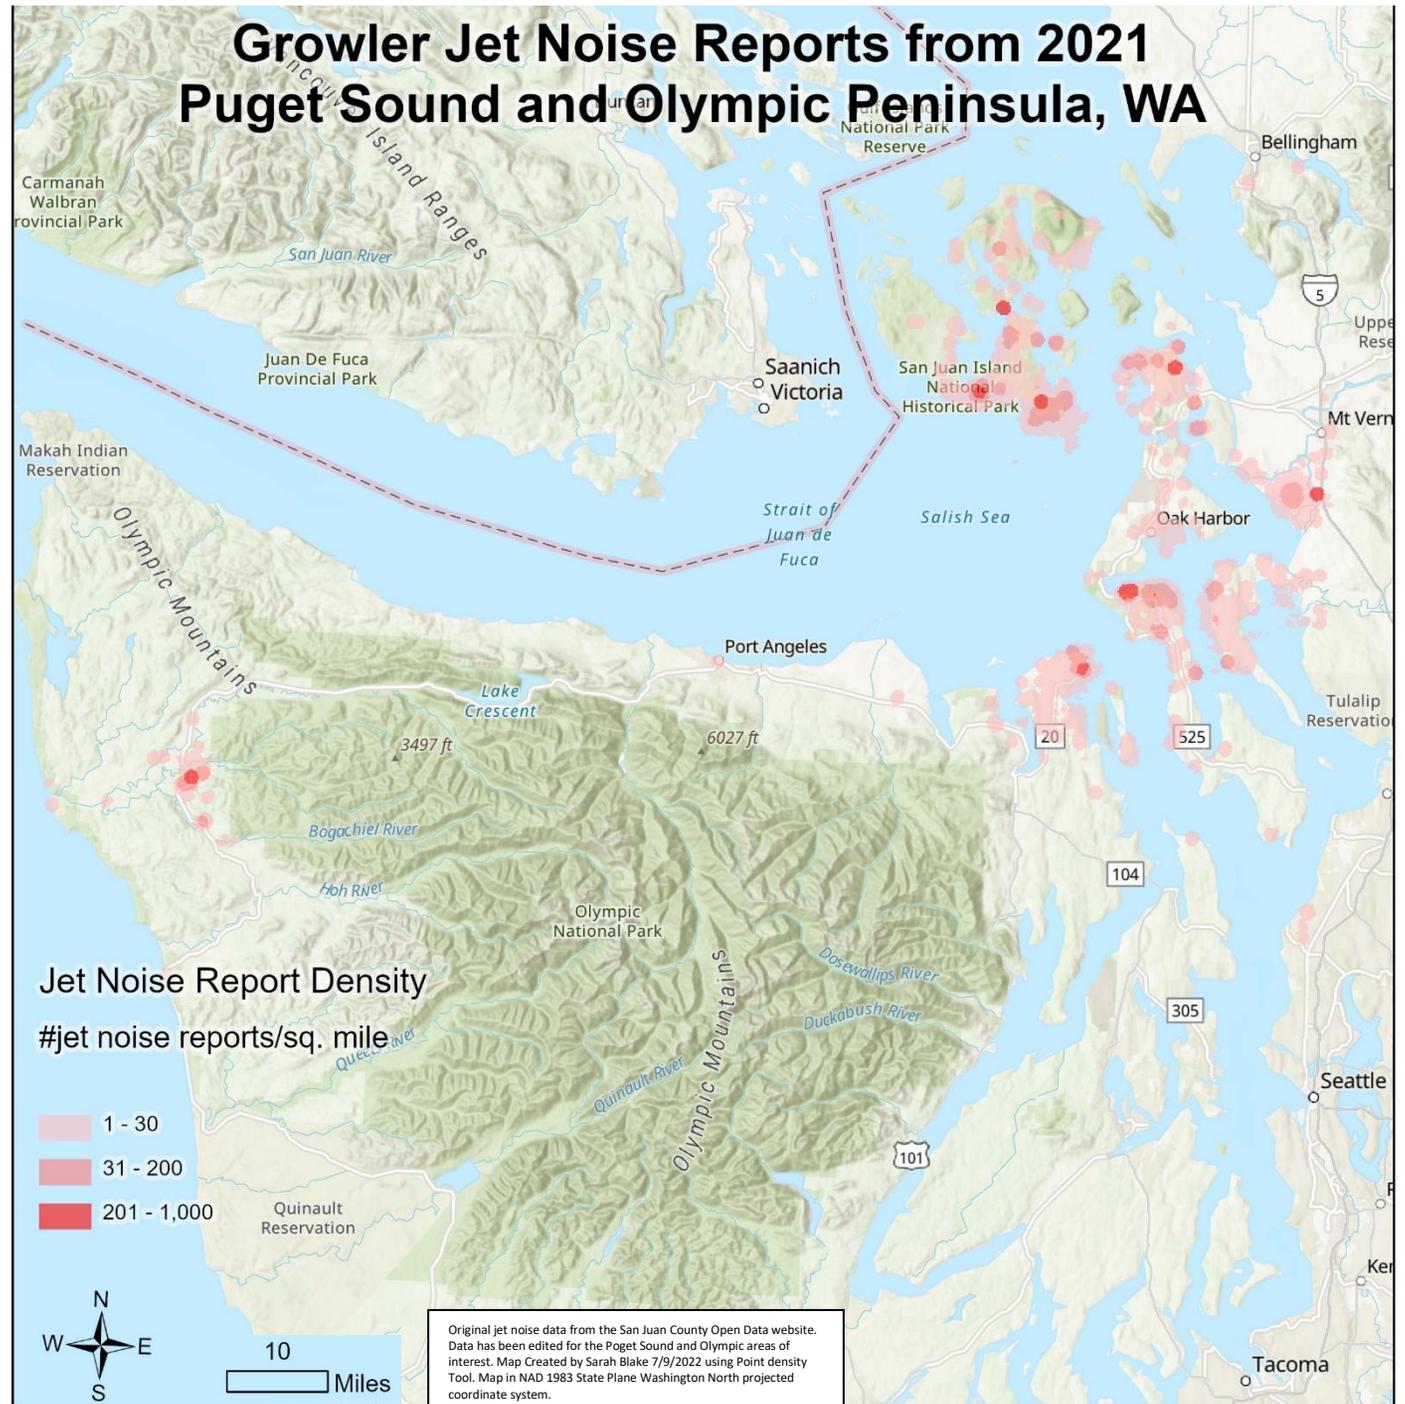

Comparing Jet Noise Reports by Location 2019, 2020, 2021

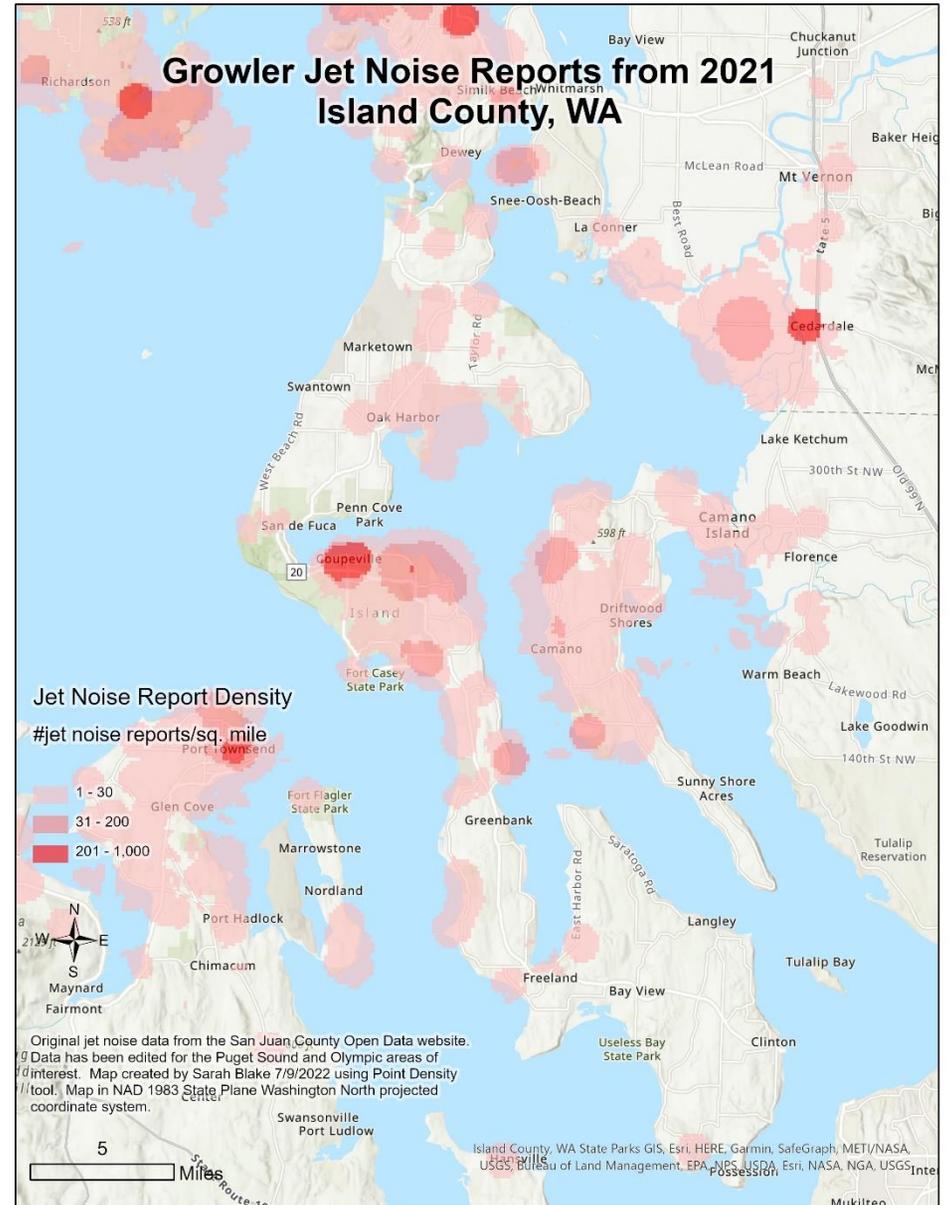

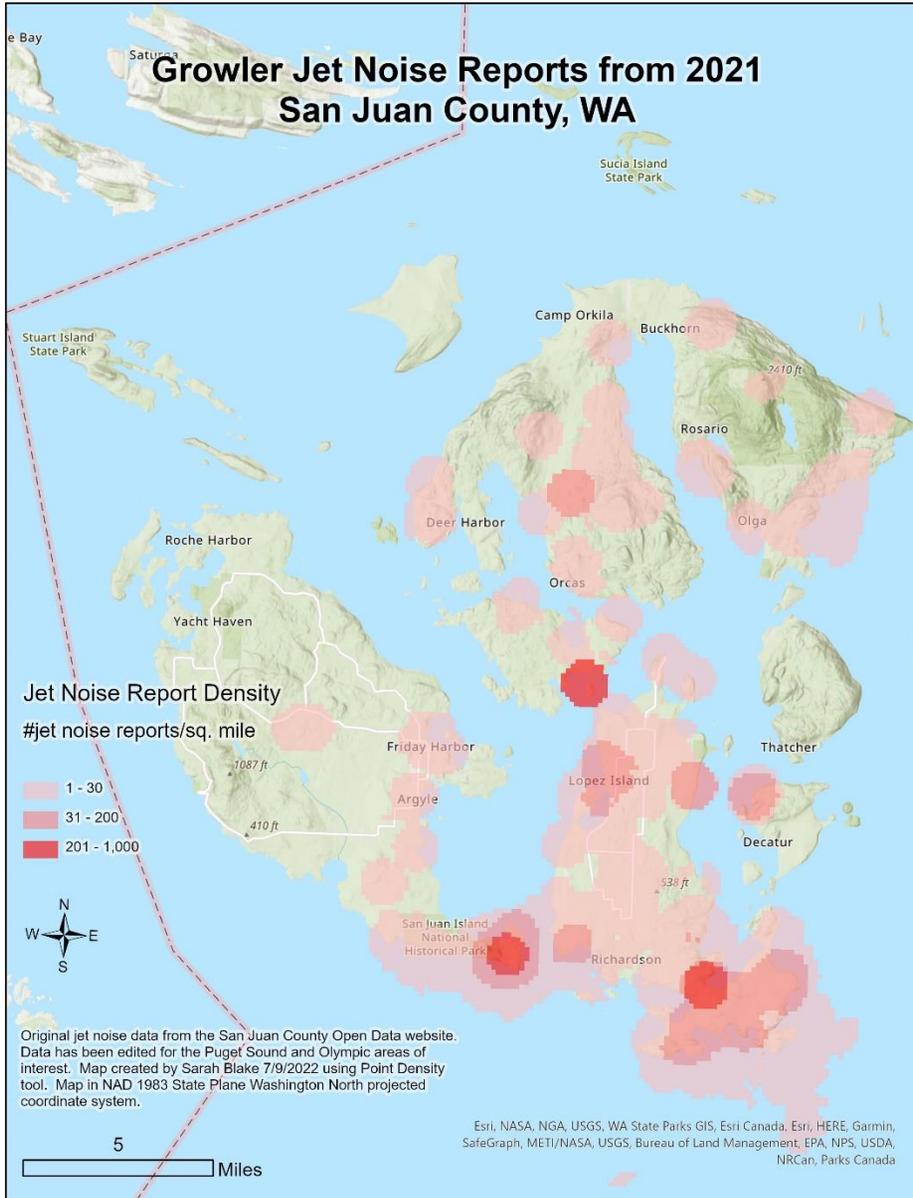

In 2019 the noise report website expanded beyond San Juan County. With difference in flight paths and population it's not surprising that communities such as Whidbey Island are making more noise reports than San Juan County. The map on page 10 indicates the impact of the Growlers is felt throughout San Juan, Island, Skagit, Jefferson and Clallam Counties.

The following three “Heat Maps” use color variation to show the intensity of jet noise reports. The first map is of the larger region and includes the Olympic Peninsula. The next two focus on San Juan County, and then Island County.

These maps are based on data for all of 2021; 11,148 reports.

Comments Submitted with September and October 2022 Reports

NOTES:

Some reports indicate decibel level. Lawnmowers, for example, generally produce 90 dB. How would you like to have that running inside your home? Noise over 70 dB for a prolonged period of time is harmful to your ears and can cause permanent hearing damage. Noise over 120 dB can cause immediate harm to your ears.

Some of the people who submit a noise report also list their home address or phone number or e-mail. In this report, those personal identifiers are deleted/modified, as are expletives. Some reports do not include comments.

ONP - High surf waves and rolling rocks couldn't drown the roar and rumble of jets over Rialto Beach out of LaPush, WA. Felt in chest and heard distinctly as jets circled.

Labor Day ! My family has to go inside ! These planes will ruin our memories and gatherings! My husband served and I no longer feel proud just absolute sadness !!!

Almost midnight on a Tuesday night and the growlers are feet above this quiet residential neighborhood. Truly and utterly disrespectful to the island community

There should be another noise option above "extremely loud" based on the growlers that just flew directly over the Admiral's Cove community on Whidbey. I truly believe these jets are doing serious hearing damage, my ears are literally ringing

Another day ruined by the Navy jets

Forks School region - blasting loudly over the voices and the hustles of nearly one hundred kiddos and coaches' whistles as football practice on four fields commenced. Add boom box stereos and jets conquer all noise.

Noise goes away then returns in a few moments. Ugh.

Measured between 100db and 125+db. Excluding the weekend this is the 7th day in a row at these levels.

Mount Vernon / Big Lake. Multiple jets right over the house. Too low, too loud. Been going on for about five minutes so far. It's not possible to be outside without earplugs.

DOUBLE the noise in Port Ludlow. Two growler jets overhead side by side. The noise just goes on and on and on.

It won't stop!

While at our community beach with my 1 year old daughter the growlers began directly overhead. The sound was overwhelming, she was terrified, shaking & crying go home. We have ear protection on her now inside as they're still flying over our house.

"Rumbles so loud windows shook.

10:45 at night! WT..?

89- 112 decibels

Mount Vernon / Big Lake. Intensely loud noise for the last half hour. The rumbling feeling is like having an anxiety attack

South Lopez, 12:41pm. Loud jet with a long long approach and roar and still roaring as it arcs around.

Full ***** afterburner over center of town

9:51am, 10/18. S Lopez. HUGE SHAKING RUMBLING ROAR from Whidbey. I feel it in the floor and in my body. Like a coal train rolling through my front yard. Murray, Larsen: How is this acceptable? The Navy uses jets that vibrate in homes 14 miles away?

Forks - heard over a loud leaf blower and felt vibrations in my chest. Circling still at 3:36 pm over town, forest and rivers. Evasive electronic war games are invasive to peace and recreation!

Loud enough over ONP to blast the silence. So much for a Quiet Park!"

There are low flying fighters, don't know if they are the Growlers out of Whidbey, they fly 24 hours and as of today 2 at a time. They circle the Blue Mountain area and are so loud and disruptive that I can hear them through my radio head phones.

They were flying WAY too low directly above Sequim. Disrupted activities, was extremely loud, jumped up panicking for a few seconds until I realized what was going on. So lame.

This has been going on the ENTIRE day. Non stop jets flying back and forth not to mention all the other little planes.

I live in town of Friday Harbor. Very loud flyover this morning.

Shook me awake

Loud rumble and vibration - continuous.

Shook my whole house

Three minutes of jet noise, unmuffled, just splitting the air, complete disruption. Ruin my day

Growlers have been flying overhead since this morning. Extremely disruptive

Talking about recording nature - Sea Lions, oyster catchers, geese, seals, sea gulls. Growlers are destroying the sound scape. Sort of like having your thumb over your camera lens.

I am neither a runway or landmark or have any military or training value. I am a series of quiet sanctuaries, rural and natural preserves. Why the military feels they have to go out of their way for a 4 jet engine refueling mission is beyond me.

All day long loud rumbling -sounds like an ominous thunder storm approaching

and again - cover ears - run indoors - so loud.

Below the clouds below the clouds.. sound barrier?

Enough for one day!

first one ive heard in a while, sad that they will continue to increase and disrupt my peaceful mornings

House vibrating, rumble and vibration.

I was teaching a class online. I had to stop the class and cover my ears it is SO loud. My students are missing out on class time because of the Navy. And here it comes again....

Jet screaming overhead, circling around again and again.

"Keep up the good work! us

You have to wonder if the people who complain here shoulder any responsibility or not investigating the area before they moved here? 🙄"

Need this happening over the state capitol or over their homes and see how they like it.

Pairs

Pilots flying the proper flightpath/elevation are creating significant but not deafening noise; but some are flying far too low, creating extreme noise in the house even with windows closed. Work & conversations not possible. Dangerous to go outside.

Probably the same bird, going away, coming back, going away, coming back. Only a few minutes- if that- of peace and quiet.

Several times today the jets have flown over so loudly, so low I've had to cover my ears despite being *inside my house*. It is horrendously loud. I hate the Navy with every fiber of my being.

So loud, both dogs looked to the sky and neighbor and I had to pause conversations. School day too and recess time.

Thanks for all you do by compiling these reports, usually I'm on the water with no way to report the noise at the time, but alas, I am home today!

The horrendous roar of the military industrial complex Rattling through my body

This is abuse. Get the damn growlers out of here

Too low, too slow, and too loud!

Trying to sleep and growler just flew directly over home by hospital so loud windows vibrated and hurt my ears. Unacceptable! I work and need sleep to get up early, this is horrible making people suffer when the jets should not fly so low and late!

Very loud growler flyby ear shattering noise

Very low and directly over our house!

What are they doing over Orcas today! Sounds like diving for the treetops. TERRIBLE!

Two growlers flying straight over Lopez Village. Why? This is not the pattern!!!! Extremely loud screaming roar. Abuse.

All evening long. Watched a 4 engine jet fly over earlier. Bigger plane. Less noise. THE GROWLERS NEED TO GO SOMEWHERE ELSE. 1 Jet. 20 Destroys 125.7 square miles of space!!!!

Extremely loud, even with ear protection on

Come on people...My head if full of Covid and the vibrations are bad. Even my dog doesn't know what to do.

"Really putting on a sound show! Thanks for the misery.

is this noise going to be on all day again?

So loud all morning you can hear the noise blasts at the far north end of Lopez

Disrupted business calls. heard on Flat Point, Lopez Island.

REALLY out of flight pattern! TOO low and loud!

GEEZ 😞 THE LOUDEST GROWLER JUST FLEW OVER MY HOUSE SO LOW MY EARS ARE RINGING!!!!!!

"Low GROWLER over my home disturbing our dinner! Go fly elsewhere PLEASE!

Rumble screech rumble....."

Geez that Growler was LOUD!!!

Oct 17. A very noisy jet day for Lopez. Another roar from the supposedly distant NASWI is again pounding Lopez Village.

LOUD GROWLERS!!!

searing, violent sounds!

Constant rumbling. Ears and stomach vibrating. Very uncomfortable

Super loud flight, heading east

Had to put my hands over my ears to be able to stand it outside where I was working in the Village.

With the windows open at my place of work my co-workers and I were unable to hear each other speak.

Disrupted dining experience and had to cover ears. What is the point?

Constant very loud noise

Loud enough that I had to pause a business call. This noise is going to forward remote workers out of San Juan County, damaging the economy.

Very loud jets. Causing disruption of conversation, must close all windows.

Very loud jet noise and vibration.

multiple flyovers beginning at mid-day.....very annoying and lolud.

Cloudy day and the jets were doing flyovers about an hour ago....very loud.

"Probably the loudest jet noise I've heard yet. . Loud enough to stop what I was doing to report it.

Very uncomfortable and disruptive.

Mount Vernon. So damn loud

Mount Vernon. Thanks to the Navy, I really hate Tuesdays.

Business call could not be heard.

"Loud, but lasted less than a minute before they flew off.

(Some other community had to hear it.)

Hand to exit business call. These fly-overs are making it difficult to conduct business in San Juan County.

Lopez village. Juge roar from NASWI. Rumbling, prolonged. Loud.

Couldn't carry on with a conversation.

Mount Vernon. Another two passes from extremely loud jets. Can you inconsiderate jerks please move out to the desert? We don't want your "Sound of Freedom"

Obscenely loud, even inside my well insulated home.

We would never know if under attack by the enemy. This is horrendous for the preschool children in the Village, the baby next door, not to mention my ears and body by our own military.

DISRUPTED ALL OF US.

Sick of this deafening torment this afternoon.

Had to hang up the phone. Too loud for health.

Rialto Beach, Olympic National Park - two jets together is slow east circles over the beach and Marine Sanctuary flying north towards Cape Flattery. Very loud. Intrusive in the natural setting. Only 8-10,000' above us. Easily seen.

Extreme ear piercing noise!

Was asleep--I am a very sound sleeper--disrupted my rest. High flight but noisy. I do not think it was a growler. Also because I was asleep, the time is an estimate as I do not have a clock in the room.

RIGHT OVER HEAD WITH A VENGEANCE!

Oops!

That is the loudest those aircraft have ever been, though they have been overhead many times today. This was just nasty, and clearly intended to be as bothersome as possible.

LOW LOUD GROWER OVERHEAD disrupting children at the beach!

You've got to be kidding me. Loud jets at ear splitting (run inside) levels - all day - some so loud you've got to cover your ears even indoors. WTF!!!!!!!!!! Such abuse would be illegal under any other situation.

Doing laps over Lopez???

Blasts of jet noise happening

2 jets very very low and loud flying south to north

Very loud very low flyover

Very loud flyover

"The big prop plane flying overhead - that noise level is tolerable

Growlers noise level no"

Various times with Navy Whidbey jet noise this afternoon

"Lots of Navy jet noise

9:04am South Lopez. Another vibrating rumbling road from NASWI. The floor vibrates.

10/26 LOUD LOUD Jet roar over our home. There is no need for a growler to be flying over our home. We are not on any reasonable path to or from Whidbey. S. Lopez.

Guess a no sleep night, again

Just keeps blasting away at us

"Jet blasted stopped for 30 seconds then started up again

Why attack us with this noise?"

"There is no category listing continuous jet noise from Whidbey

It is after 9pm, give us a break"

"More jet noise

Doesn't stop for several minutes"

Disrupted sleep

"This blast has gone on at least 5 minutes, now more

Many others this evening and day

Why are we subjected to this torture?

This is not freedom

This is oppression and abuse by the navy upon those who pay taxes and are caring citizens "

"This constant very loud noise is not stopping

Please stop please

It is late

Noise is very loud and continues non stop

Navy doesn't care about the US citizens lives"

Low flying growler aircraft with gear down

Low flying growler aircraft

Low flying growler aircraft, the season of noise, noise, and more growler noise is upon us.

Extremely loud low flying growler aircraft with gear down

Low flying growler aircraft

Low flying growler aircraft

Multiple low flying growler aircraft likely with gear down. Why is their flight path come through Lopez island and east towards Thatcher's Pass? The Navy is unfair to those of us living on Lopez island.

Low flying growler aircraft

Like a war zone today, low flying growler aircraft disrupting my life. Many seem to have gear down.

Low flying growler aircraft

Not more growler flights today, disrupting my evening.

Low flying growler aircraft with gear down

Low flying growler aircraft disrupting my day

Forks - blasting over the playground at the elementary school and circling . Two maybe three easily visible at about 8000' far too low over schools and people. Heading towards Hoh in ONP.

Forks They're still flying over town after a full day of jet noise. Give it a break, Navy, we deserve some peace from your noise. Can't we settle into night with quiet?!

Loud Low flying 4-engine military jet

Loud single growler

Low flying growler aircraft

Loud low flying 4-engine military jet conducting flight training near my home

Yesterday at 12:34 and 2:09 a Growler also flew over. Those two were lower and louder.. They disrupted activities.

Tuesdays jet was really loud. I was outside. Wednesday one flew over at 9:29 am. It wasn't nearly as loud.

Before the Growler flew over there was a P3 that flew over. Of course the noise was minimal compared to the Growler.

It was extremely loud. I had to cover my ears. Awful!

More rumbling and vibrating racket from NASWI. The LOUDEST jets are placed in the islands. Is that really a reasonable burden for citizens? Murray, Cantwell and Larsen trade our lives for the deceitful military. 10:28am S. Lopez.

This is the 6th Growler to fly over our house today. What's going on?

One Growler just flew over. High but very loud. Afterburner on?

"Really loud and low over the house. Couldn't hear the TV.

Yuck!"

Engine run up. Everything rumbling on south Lopez

Rumbling over Lopez south end

Low over south Lopez

Low over south Lopez

Low over our Lopez. Extremely loud

Two Growlers low over south Lopez

Low and loud south Lopez. It's almost 10 pm

Loud noise

I'm not sure of the exact time - it was a few minutes ago.

I'm not sure about the exact time now as I couldn't make note of it when it was happening. It was around this time.

Jets still flying. I had to cancel my online class, so students have their class time **STOLEN** from them by the Navy. Do they or I get compensation for this? Of course not.

Several other blasts earlier this morning

Another blast, louder this time

Expect many more jet noises today but can't spend the time constantly sending in reports.

Several other jet noise from Whidbey this morning

Rumbling windows

More rattling of windows

Very loud flyover

Spent day in Friday Harbor away from Navy jet noise. Back now to noise. Will it cease so we can sleep or another night with several hours of noise?

Low and loud south Lopez

7:30pm. 9/12. South Lopez. Out walking after a day of sitting at the computer. No relaxation, though. The growlers are pounding the skies. The air is filled with noise, swooping and echoing jet noise. A miserable way to get exercise.

10:06am S Lopez Big rumbling roar from NASWI

4:11pm, Oct 24. S Lopez. Huge **BLAST** of jet roar overhead. I was outside and had to come in immediately because the noise was so severe.

10:13am Loud jet rumbling and vibration. **VERY LOUD** and **ANNOYING**. South end Lopez.

MORE LOUD rumbling and vibration from NASWI. A noisy morning from the abusive Navy. Southend Lopez.

10:07am Oct 18. S Lopez. **ANOTHER** rumbling roar. Vibrating through our home. The noise fills the air. **MURRAY, LARSEN, CANTWELL**: where are you? The Growlers need to **GO AWAY**. They are wrong for this region.

1:53pm, Oct 28. Loud screaming jet over South Lopez. Now turning into an even louder roar. The roar is continuing. Still roaring. Commercial jets come and go. The Growler has a prolonged roar. Excessively loud. **STIULL ROARING. STILL ROARING.**

A few minutes ago, a huge rumbling jet roar shakes us up. Lopez.

Loud Growler over us. South Lopez.

Blasting!!!!!!!!!!

8:59am. **HUGE RUMBLING ROAR** from Whidbey. South Lopez.

"Hoh Ranger Station, WA

11:24am Oct 26. **ANOTHER** Growler roaring over our home. Why are the jets swinging over Lopez? **STOP IT. LOUD LOUD LOUD LOUD LOUD**. Not safe in our own home.

Why is a growler roaring over Lopez? Is this a new flight path???? 2:35pm.

The jet noise has been consistent all morning. I think that this region should advertise itself as: 'If you want to know what a war zone is like, come here.' Sept 13. Lopez.

Another loud Navy jet over us. The roar is prolonged as it approaches, goes over us, turns and swoops. Too loud! South end Lopez.

11:14am, Sept 13. Mud Bay, Lopez. Navy jet flying low and screaming over Mud Bay. I just came in the house, luckily, because the screaming roar chased me in and penetrated the house as I closed the door.

S. Lopez. Doors and windows closed due to smoke, but the jet roaring is penetrating my home. It is a deep disturbing roar, and distracts me because

I think it is a truck coming up to my front door when I know that it really is excessive jet noise.

11:30am. Roaring jet noise. Doors and windows closed due to smoke, but the house is filled with the roar. This is not acceptable. The Navy invades my home. Southend Lopez.

10:54am, Sept 8. S. Lopez. Screaming and roaring growler overhead. Distracted me. PTSD reaction to the intrusive jet noise we get.

11:07am. Oct 18. S Lopez. AGAIN. More jet noise from NASWI. RUMBLING, ROARING VIBRATING JET NOISE.

Sept 7. This has been a noisy jets evening. Lots of rumbling and roaring. South Lopez.

10:20pm. Jet noise invades our home. Normally we sleep with the window open, but NOT TONIGHT. The jet noise fills the air. AWFUL. Why do we bother saying that the Pacific Northwest is a wonderful place? It is a WAR ZONE.

VExtremely loud low flying growler aircraft with gear down

Low flying growler aircraft

Low flying growler aircraft South Lopez. Morning. 9/14. Too much jet noise in the air. Like a war zone. . Or I guess the truth is: IT IS A WAR ZONE.

11:30am 9/14. Loud jet noise in the skies to the south of us. The roar is echoing. The noise rolls around the skies. TOO LOUD!!!!

Startled by a sudden huge jet roar. South Lopez. 2:03pm Sept 14.

"Mommy can I try to go to sleep now. Has this stopped?"

Oct 11 3 times Jet Turning sw Lopez agate beach/iceberg Pt Lopez Island, Washington

Get your damn Growlers OUT OF LOPEZIAN SKIES!! I have been given a splitting migraine all day with your damn Growlers overhead! We NEVER

agreed to be part of your God Damn War Practice!! You are making my ears ring and my head ache!! LEAVE US ALONE!

Single growler flying roughly se to nw. Extremely loud isn't strong enough. Deafening actually.

F***ing Navy making ungodly amounts of noise tonight. It has been nonstop noise here in Port Townsend for a week now. The noise and air pollution combined from these jets is horrible. F*** the navy

I hate you!

"Hard to realize when jet blasts stop as sound keeps reverberating in your head for quite a while after the Navy Whidbey blasts

Extremely loud military aircraft transiting to the East

Constant roar of the sound of death from above

EXTREMELY disruptive 3 military aircraft

So long and very loud flying so low my kids couldn't even sleep for school next day

It sounds as if it is flying directly over my home. Enough today already!

These extremely loud flyovers have been near nonstop all day. Please STOP!

"Dinner disrupted!

Disrupting sleep

Deafening

Cape Saint Mary area Southeast Lopez Island Washington

Oct 11 3 times Jet Turning sw Lopez agate beach/iceberg Pt Lopez Island, Washington

The Salish Sea is filled with growlers thundering across the sky

Cape Saint Mary area Southeast Lopez Island Washington

It sure hard to give peace a chance when the skies are just filled with the sound of war

The quiet of Mount Constitution (Moran State Park) broken by the Navy jets broadcast across the water. The only sounds destroying the experience of solitude in our State Park!

Oct 11 2:30 pm Jet Turning I've sw Lopez agate beach/iceberg Pt Lopez Island, Washington

7:53pm, Oct 26. Roaring jet over us.. Lopez. Is this how the evening will go? Loud, prolonged roar as the jet comes over us, then turns.

9:47am 9/13. Growler blasting its way over South Lopez. Loud, deep, penetrating roar. Might as well have trains rolling through my front yard.

Watmough head lopez

"Direct flyovers

"Growlers started up about 1/2 hr ago....flyover just now

"Continual engine noise from Ault

"Watmough head lopez

Direct slow flyover"

Without your noise for the last two months our lives felt normal. This is hell.

SE LOPEZ, 31 Aug 22, Wed: 12:37pm Growler overhead - 84.2 dec, 12:40pm another one -78.2 dec, 12:50pm - yet another screaming Growler 86 dec. My wish: May Larsen and Murray experience living with this hideous noise they have foisted on us.

How is it possible to sleep with this endless barrage of plane noise?

Trying to drown out Jan 6 hearing? Hoping your fav authoritarian gets an out of jail verdict? Yep. I am sure you love him!

So loud it interrupted the meeting I am having outdoors. We can't hear ourselves think much less conduct the meeting properly. Five minutes and it is still too loud to talk without disruption.

Extremely loud Growler engine noise radiating from Oak Harbor navy station

"U.S. Navy growlers destroying our atmosphere , hearing translating discovery Bay.

Day after day

Disturbing, but tolerable

Growler noise all day...patterns must have changed. It's a beautiful fall afternoon, but the GR (Growler Rumble) makes it hard to enjoy.

It's amazing on how much time we spent on inventing devices to kill our self and how little time is spent on achieving peace and living together

This has been going on for days. I am trying to recuperate from a life threatening illness. This doesn't help

Was inside, yet Growler noise still loud enough to disturb lunch with a friend.

Two loud Growlers over my house flying east (direction toward Mt. Baker).

Second day in a row. Stop. Enough. This is awful.

Please go to California where you won't despoil the pristine quiet and natural surroundings.

Go to bed.

PLEASE go to bed. This is so disturbing. So much for a quiet evening at home. RUINED!

Again? Haven't you disturbed enough people's sleep yet?

You already did this to us once tonight. Why again? What did we do to deserve this?

I can't hear myself think this last hour.

very loud growler noise from before and after 9pm

Well. dinner is disrupted. Hopefully this won't go on the remainder of the evening and night. Considering we're 15 miles away this is beyond ridiculous to subject US citizens to.

Don't know what aircraft was causing such a loud noise and vibration of our house. Even scared the dogs. This is in Port Townsend!

Drowned out our conversation inside the home. Went on for several minutes. Was it circling around? At 15 miles away you can't say there is no adverse effect on people and animals.

Going to keep this up all day? Please give us a break already. Feels and sounds like we live near Cape Canaveral and the space shuttle blasting off continuously.

every night? NO!!!!

What aircraft is making the tremendous noise and vibration? Reminds me of watching the space shuttle in Florida. This is way too much for any developed area.

Loud

The planes woke me this morning and now they are keeping me from going to sleep. Too much noise.

F* the navy**

Mount Vernon / Big Lake. Loud jets have been flying around for the last hour or so. It's often louder than being under a freeway overpass.

In the Big Lake area there's been continuous noise for the last half hour. Been happening a lot lately and it's making this an unlivable area.

It's amazing how we spend so much time trying to kill each other .

EA18 flew right over Port Townsend. F*ing navy sucks**

God damn growlers flying around at 1130 pm over Port Townsend and NOP. All day long and all night long! If I made this kind of noise I would be in jail right now! F* the Navy and all the military madness.**

Constant, ongoing noise at night interferes with reading, concentration, work, sleep.

U able to sleep due to jet noise- presumably Growler noise. It's been Non-stop this evening.

Really we thought the house was falling down.

It's too late at night to have this disruptive noise

Beautiful day ruined by the unbelievably loud engine noise from the growlers. This affects a large area not only Whidbey Island. I'd wager this wasn't taken into account in the original FEIS.

"So loud and rumbley in Port Townsend tonight.

Can't sleep."

"Tonight the skies are field filled with navy war jet abuse.

This morning for hours 50 caliber machine gun fire from operations over at Indian Island"

This amount of noise is absurd. I cannot sleep in my home with the windows shut.

Too loud to sleep.

Another night of extreme noise coming from NASWI . 9:23 pm and sleeping is not an option in Port Townsend. I feel betrayed by my country because my own hard earned tax money goes to supporting world destruction. F*** THE NAVY

It's 11:30 at night... and the jets are flying right over my house. My home is not even supposed to be in the the closest noise ring. WTF NAS Whidbey??? that is not respectful of the neighbors. If this is 'balance' than take your balance to el centro.

Cape Saint Mary area Southeast Lopez Island Washington

Penn cove Whidbey island. Very loud noise each night this week. How is this legal? This is outside the flight path and continues to happen. Why do you do this in a populated area? Go to the desert where nobody lives and practice

Growlers flying everywhere,doing laps around the nop. Disrupting peoples sleep time and causing stress .F*** the Navy

Growler flying directly overhead in Port Ludlow , headed west to the Olympic mts. What a travesty to have that type of noise inflicted on the Olympic mountains.

Disturbing the peace at this time of night during the week is UNSATISFACTORY!!! Citizens can't disturb the peace. What makes the Navy think it is acceptable?

There's nowhere in the region you can get away from growler noise. Awful noise event in Port Ludlow today. The noise isn't over quickly. It's takes about 2-3 minutes for growler noise to dissipate, sometimes longer if there's more than one jet.

Loud enough to disrupt indoor activities

all evening long and into the night. Disrupting family conversation inside the house.

Lasted from 9:47-9:49

The noise is incredibly loud inside the house. Our dog cowers and reacts in pain each time a plane goes over. Our ears hurt. We don't know how to escape the infernal noise. Last night jets started flying at 11:30pm and destroyed our night sleep.

Ear piercing. Altitude 612'.

Client arrived while jets were flying directly overhead, far too low, making it unsafe to walk from the car to the house. With jets flying all day scheduling is difficult and clients must be warned of the hazard; it is not good for small businesses.

This has been going on all afternoon. I can't even think straight.

So loud we can't hear ourselves or the TV and can't sleep.

So noisy we cant talk in the house or hear TV

Disturbing our sleep is bad for our health and makes high anxiety high blood pressure and a restless mind

Growlers are so noisy I can't here people talk in the house.

Again! This is so f***ing ridiculous. Today was the first day of school and my kids are still f***ing awake because of these jets. How is this allowed? Why is this not scheduled better? Really? At 11pm? Are you f***ing kidding me?

Five days/week of toxic air & noise pollution ruining a beautiful day. Keep them in Oak Harbor or move to El Centro.

Coupeville, Tuesday 9pm. Can't be outside, jets terrorizing Whidbey Island

My god. This noise just keeps roaring on wave after wave all day and now into the night we have not a moments quiet all day

This is obscene to do to a community, waking us up each night at 11:30 PM with your hideous noise, no concern for even the school kids trying to sleep. STOP ruining our lives.

"Dark Mordor continues to create rumbling and vibrations every 10/15'.

Horrible noise, how can the poor folks living next to where this occurs survive?"

Have kept whole family awake all night

Really school days my kids are now awake

"Very loud, non stop from 6pm to well past 8pm.

Mordor is taking liberties now and not even respecting folks' evening rest."

Woke family

Woke my kids

15 minutes or more! Awful!

Again the damn growlers are out damaging ears and nerves of Americans trying to live here

"Another special from the naval base a Whidbey Island.

Rumbles terrifies our puppy, sounds like Mordor in Lord of the Rings.

DAYS OF JET NOISE IS DRIVING ME NUTS

Extremely loud, rattled windows and doors

Very loud jet noise disrupted our evening activities where I had to get on my noise cancelling headphones to work in my own kitchen. Went into the late evening--noise past 10:30 pm. Unacceptable at any time.

Awful thunderous racket all afternoon- Anacortes, near the ferry. No peace here.

Home recovering from surgery, Anacortes, serenaded by episodically shockingly loud growler screaming over background of deeply disturbing growler thunder. This is a place of no peace. Tuesday mid-day

Hours after it began- navy warplanes are still wrecking the peace in Anacortes. Terrible terrible Tuesday. Shaking homes and thundering about- echoing all over the heavens here.

Deep shaking rumbling thunder of warplanes once again wrecking the evening peace in Anacortes- far South but still echoing deeply here. 9pm, time for rest. Unconscionable assault on civilians health and well-being.

Peace wrecking shaking thunder after 9:30 at night. Anacortes- after all afternoon warplane racket.

Awful deep shaking thunder from far away- felt more than heard in Anacortes. It is bad and it is wrong and it disturbs the body and brain and disturbs sleep. Unhealthy. Anacortes - nearly 10pm

Perkins st coupeville so loud vibrated windows! Need sleep for work!

Make it stop!!!

EXTREMELY loud!!!

Extremely LOUD!!!

Growlers flying at 9 pm . I live in Port Townsend and can't sleep because of the noise! It's extremely loud and I know they will continue late tonight. If I made this much noise I would have cops here taking me to jail, but the Navy can do whatever .

"104-115 decibels starting at 11:30pm. 84 decibels inside the house.

Flights earlier around 830-9pm made the tv inaudible while watching. "

Training flights very loud and disruptive to sleep and conversation

None-crushing!

So sudden, so loud. I want them gone

The door and windows are closed and it is still too loud. Stop!

The jet just came out of no where. It's 9:30 at night for crying out loud

I can't even hear my TV. Please stop

Please stop flying

Trying to go to bed now. Can't with all this noise

I am trying to go to sleep and they are flying too low

If COER and the SDF actually opposed the human, animal, and environmental harms perpetrated by the navy they would not be requesting said harms continue elsewhere. If you are pro torture it should be you that gets tortured. You are also warmongers.

F*** centrist war apologists like the SDF and COER. They peddle false hopes to victims while supporting eternal military activity. Close the base. Destroy the planes. Supporting the troops is a morally indefensible act; they are the enemy.

"Metallic shrieking- hurting the ears and disrupting patient care at medical clinic in Oak Harbor- right next door to a school.

10am Tuesday

Unconscionable intrusion into civilian lives"

Exposure to intense acoustic emissions is unsafe condition, sheltering indoors.

Hazardous acoustic energy emissions over Central Whidbey on a school night no less.

Too low and very loud!

Unsafe conditions!

Outdoor activity suspended for safety reasons.

Just after 10am. Holding a Zoom and the sound is not the best, so guess what, we are hit by big and long growler roar over us. South Lopez. Thanks a lot, Navy.

10:45am, Oct 18. ANOTHER ROARING VIBRATING NOISE FROM NASWI. Launching jets for what? Pilot training is well and good, but why do this in a largely populated area? We have a deceitful Navy and Blind legislators. Some country.

Low and slow and overhead, the Navy (obviously) does not care about its own published noise abatement procedures.

Hazardous acoustic energy emissions from USN aircraft forced us to seek shelter indoors.

Intensity of energy emissions are making outdoor activity unsafe.

My dog is trembling next to me in the best-insulated room in our home.

Dugualla heights oak harbor. Too late at night to be flying this low over residences

Intensity of acoustic energy emissions is creating unsafe conditions.

An otherwise beautiful autumn day but for EA-18G acoustic energy emissions which are blowing out many many square miles of airspace in the heart of the Puget Sound.

Crushing acoustic energy emissions from the direction of OLF (runway 32).

Overhead, low-altitude flights and intense acoustic energy emissions are making outdoor activities unsafe for unprotected people and animals.

Acoustic energy emissions from the direction of Oak Harbor are shaking Coupeville to the core.

Blowout acoustic energy emissions from the direction of Oak Harbor.

Middle of the day on Monday and there are extremely loud growlers rattling the entire house as I'm on a work call. Fantastic.

Even if you barely see the dsmn thing, it's earsplitting.

F***!

Very loud really.low

Watmough head lopez

10:49am. Oct 18. S Lopez. AGAIN AGAIN AGAIN. CONSTANT JET NOISE THIS MORNING. CONSTANT VIBRATING RUMBLING ROARS.

10:54am, Oct 18. IT CONTINUES. ANOTHER JET ROAR HITS OUR HOME. LARSEN: What happened to the noise mitigation you promised? We are 14 miles away yet our home environment is pelted with roaring thunder from Whidbey.

Watmough head loez

"Just began flying around our home thus I am unable to work outside. Last week flew nearby til 10:30-11 pm which made it impossible to sleep in our bedrooms on 2nd floor.

Loved the period when they did not fly in our area-please we want more of that "

On and off since noon, it's 11:30 pm and there are Growlers flying directly over Coupeville disrupting the peace and quiet. Someone please make it stop.

My 19 month old child wakes up constantly from her nap because it's so loud. She runs scared in the backyard because they fly right over our house. Her night time sleep is suffering. Her sleep is suffering and I am beyond frustrated.

This is insane, flying DIRECTLY over our house, wasn't on the scheduled time to be flying and they are waking my 20 month old child from her nap. Why are they flying over residential neighborhoods! Go fly somewhere else!!!!!!

Trying to paint the exterior of my home while working a full time day job
😞 I can't be outside.

Bad!!!!

Terrible

Have had many flights impossible to do chores outside without hearing protection. Nearly always fly at noon during our lunch and 6 PM for dinner and local news on TV, again 11PM bed time and local news interrupted.

Victims of the Sounds of Freedom. Terrible

Kids are awake. They have school in the morning. This is f***ing ridiculous. I should not feel, much less hear, jets this late. This is obnoxious and wildly inconsiderate of oak harbor residents.

It is impossible to have a sustained train of thought in militarized conditions. The navy is not only hostile to the environment; they are opposed to all intellectual life. They are mindless, hateful aggressors, as are all of their enablers.

Harrington Rd., Coupeville

Can't sleep

Disrupted my work call, I couldn't hear my coworkers. Tons of vibrations in my house.

The u.s. military is the boot stamping upon the face of global humanity. Ever soldier, veteran, and elected bootlicker is complicit in the worst of atrocities. There is no cohort of humanity on this planet more vile and destructive than the military.

Growlers started flying over just as we were putting the kids to bed at 9 o'clock they can't sleep with this noise it's affecting the health of our children That have to get up early to go to school

Why is this allowed after 9 pm? What is up with the f***ing entitlement? Do this during the day. I see no reason for it to keep my kids awake past their bedtimes when they have school in the morning. This is rumbling and vibrating the ale tire house.

Oh my goddd this is insane. I can't sleep because this is so noisy and annoying. And I can feel this s*** so it's not like earplugs help. Seriously cut this off earlier in the night. I know they need to practice but for f*** sake people need sleep

Another week and flying again until midnight . Do they believe that children don't need good sleep for their overall health? and learning ? Then tomorrow they go to school and are expected to learn while the jets flyover the schools all day !

Almost midnight and I had finally fallen asleep. Of course they have started again or coming in from somewhere. I

Have you ever had your eardrums vibrate . Today has been horrific !! Oak Harbor

Making up hours list due to last week's inversion 😞

Is the Navy giving us schedules that are outright wrong ? The past two weeks have been horrendous and today is not any different . When they say there are not any carrier practice for a week . Does that only include the one training squadron ?

Such a deep and loud rumble ! It feels like a earthquake !!!!!

First day of school. The jets are flying over Crescent Harbor elementary!

So low that their lights brightened my skylights.

It has gone in for over three minutes. Growling , vibration, have not hear this before !!!!! A huge Earthquake???

"6:00 pm may be dinner time for a lot of folks and a Friday night ?

It is not just the noise and disruption it brings to your life.Even when they are not flying ,I am always anxious about when and how long will they be flying next !

My inner ear is done ! It hurts!

It's bedtime for most kids in this community. Some how it is okay to keep them up . Learning does not work well in tired children 😞

How ? How ? is this okay !

It felt like a earthquake! Everything in my home vibrated.

Oh crap I thought there was going to be peaceful! I hope they are not starting night training at 10:30 pm 😞

"Flying for over 14 hours today and still going !

How can this be okay ?"

The big planes are flying today . I now get to be anxious waiting to hear the Growlers start !

The last two would have registered on the Richter scale ! So Scary !

I posted earlier about the large aircraft and the anxiety waiting for Growlers! and now they are here ! It's Sunday. 😞

Almost midnight again they are still flyin !

Saturday night! Are we at war? If not why are they flying ? Did they get behind on hours so let's fly now ! Only planned training should be happening! Takes a bunch of people to just put a flight together ,unless we have gone to war this is planned !

A few hours without any . Oh decide it is safe to go outside to take of yard before rain comes. Joke was in me here they go again!

Jets flying right over my house. Whole house shaking, pets are terrified. This is unbearable and can't be legal to subject people to in their own homes.

More extremely loud jet noise coming from Whidbey growlers.

"I measured the sound levels of jet's flying over my neighborhood consistently over 100dB, and regularly over 120dB. This is damaging even over short periods and completely unacceptable.

Announcing their return over Forks, two low loud circles over town....shattering a peaceful fall day.

Rumbles caught on video as I filmed elk walking down the river...so wrong to hear grating rumble when watching in nature.

Low flying over my neighbor late at night with noise measurements of at least 100dB and routinely over 120dB

First week of school, 3rd night in a row of unbearable nonstop jet noise. Kids unable to sleep, everything shaking!!

Curious why they weren't going to do any flying this Monday through Friday . Worried about this Saturday night because there has being flying throughout the day 😞

Wow! That was formation of three ! Coming in westward !

11:40pm and I am trying to sleep with earplugs in while living in the middle of a forest. Not due to owls but to growlers. Windows shut. No difference! absolutely disrespectful to Civilians to run trainings at midnight. Be better neighbors, Navy!!

Please let me know if there is anywhere else I should report this

Growlers starting up for another round of abuse

Come on people need a break from the noisy growlers

Long loud jet noise. I thought they lost the court case and something was going to change- it only seems to be worse.

How can one sleep with Growlers circling until 11:00 PM?!

Loud, pounding noise over head in the house!

Extremely loud low overflights

Overflights literally all day long. Some are quite low, while others have more altitude as they overfly. Last night Growlers were taking off after 10:00 PM. That noise was very unexpected, given the hour of night, and very disturbing!

Multiple Growlers circling (extreme uninterrupted blasting noise) conducting landing practice! Flying unusually farther east, over Saratoga Passage, than is typical.

We are under attack! A Growler just passed extremely LOW over head, and employed the "enemy startling" technology they purport is used to intimidate those on the ground ... a second Growler is just now performing the same maneuver. Shockingly LOUD!

Growler overflight noise for hours this afternoon.

Loud rumble!

A beautiful, peaceful, fall evening suddenly shattered by unrelenting Growlers ... infuriating and like to continue late into the night.

Growlers began circling practicing touch&go landing at 11:30 PM !!! This continued until after MIDNIGHT. Outrageous. And, by the way, they began again at 8:00 AM today, 9/24, and continue at present.

"Exceedingly LOW overflights by Growlers, one after another for more than the past hour.

Just ""hundreds of feet"" in altitude and immediately over the west half of Camano Island."

Low overflight directly overhead. Very loud!

Growlers flying all day making life hell for everyone below

All f*#%ing day long without a break! The NASW must monitor this reporting system, because shortly after my earlier report, the Growlers began making overflight passes low, loud, and slow, down the west side of Camano Island. Outside their MAO

Camano Island...east side. Very loud and noisy all day.

I fear the NASW is monitoring your website in real time, because after I file a noise complaint, Growlers shortly there after seem to focus activity near my location. Anyone else experience the same ... right now Growlers overflying.

Sadly, the Growlers are at it again with the "uninterrupted" roaring noise of landing practice. No break in the noise!

The Growlers very suddenly arrived about 30 minutes ago with a horrific roar and are now circling conducting landing practice. Quiet all afternoon, then as darkness arrives, so does the extreme noise!

Multiple Growlers began extremely loud landing practice at 8:00 PM and continued UNINTERRUPTED until after 11:00 PM, making evening rest and sleep impossible.

Growlers up making a lot of noise.

Flew very LOW over a residential area

Growlers flying loudly

Growler landing practice almost all afternoon. The noise-level is extreme, without interruption. Constant roar.

Lots of LOUD fly over today so far. So high it take a while to find the little dots in the sky- soooooo loud you know it's growler. Commercial jets fly over with a whisper of noise.

Growlers starting up making life hell below

Well that's great - now the jets are flying on the weekend as well. The only days there was peaceful skies!! What is going on. They fly more and more. I thought the navy was supposed to pare back after they lost the court case!

2nd loud , low rumble this morning from growler taking off 12 miles away. In comparison to commercial jet flying by in front of house and I couldn't hear a thing. Oh and now another one taking off. Why are they soooo loud!!!

That last growler flew north way out of the flight path blasting everyone below

Oh my God that was loud flyover of growler

Loud rumbling- followed shortly by loud fly by! On going this morning again- lots of planes flying- lots of noise and emissions spewed above us.

Another loud fly over!

Way too loud growler flyby. Wtf people are trying to live here

Pretty much constant jet noise since a little before 9 this morning. From Lou long rumbling to loud long fly by I've counted about 5 or 6. What a way to start your morning. Not relaxing.

Another loud group of jets taking off heard from inside my house over the sound of the vacuum.

Starting at about 7- so far 5 low, rumbling take offs heard from inside my house- located 12 miles away from oak harbor. Oh an another 2.

"Loud rumble and vibration inside my home from jets taking off 12 miles away!

Everyone within a 12 mile radius Subject to this noise."

Why are the Growlers flying over my house at 11:45 p.m. Something must be going on, or is it just USN Command continuing its assault on U.S. citizens?

Yet another ear shattering growler flyby. What did we do to deserve this level of punishment?

88.4 dB recorded on dB Pro App. A few hundred feet directly over house, flying E to W.

Prior comment erased by "unknown" electronic interference. Any bets how late the USN assault on U.S. CITIZENS lasts tonight. 11:45 p.m. last entry. And yet, USN Command walks out of settlement negotiations ordered by U.S. Court after adverse order

"Wonder how late they keep us up tonight.....10:30, 11:00, 11:30?"

Hope all the Naval Command little ones are safely tucked in to sleep without the sound assault."

Extremely low flying growler aircraft

Low flying growler aircraft

Wow- another group taking off- that makes 6 or 7 groups this morning. I thought our state was so environmentally focused. The jets put out huge emissions.

Very loud growler flyby disrupting my life

This abuse has to stop. They need to find a remote place to do this ear shattering flying. El Centro is a very remote desert location they have flown in the past

Long, loud noise overhead! Goes on forever!

Another group of jets taking off!

Another loud fly by- they have really ramped up the amount of flying they do!

Another 45minutes of extremely loud practice. So loud I could watch TV- it drowned out the TV. So exhausting to listen to.

Wtf growlers making life hell

Growlers flying again. It has been a brutal week of noise at our home.

"This, one of numerous, loud rumblings, followed shortly by loud, long fly overs.

There are groups of take offs, starting 10ish this morning. UgH!!!!"

Sky filled with long, loud noise!

Growlers starting up for tonight's abuse

Way too loud growler flyby

Another fly by. There are numerous planes in the air. All those emissions polluting the air!!!!

Forks - With roars and whines, the Growler revs engines, blasting the fall afternoon and our ears, animals and babies included. Humbug!

Forks - So loud at 12:36 and again at 12:40 with afterburners blasting in war games. Stopped conversation. Heard and felt over battery leaf blower on high.

The growlers are up and making noise.

Way too loud for residential area

Another take off- lots of planes flying today!!!

Another group of jets taking off- loud rumble and vibration!

Oh joy- first growler of the day blasting over. Why are they are sooo much louder than commercial airlines. Very unsettling.

Loud rumble and vibration from 12 miles away! Again!

10:52am, Oct 18. S Lopez. AND AGAIN. Now the roaring and rumbling is almost continuous. We are hit with another vibrating roar from jets at

NASWI. This is abuse. The Navy thinks its mission is worth lying for, and thus local citizens suffer.

On going jet noise this morning again!

Why are the growlers flying over such a heavy populated area

Flying loudly for 35-40 minutes straight. Flew right over house when done-thunderously loud!!!

Get the damn growlers out of here

Really loud flyover

This is just killing me. One after the other growlers flying loudly overhead.

Loud, long rumbling. Must be numerous jets taking off.

Super loud growler flyby. You are making life hell for the Americans below

Another loud rumble- vibrated the house.

Loud fly over after listening to a half an hour of constant noise from over Whidbey.

Skies filled with noise for 45 minutes!

Planes still flying!!! Trying to go to sleep!!

Picking up kids from kindergarten. Kid in play ground during flights. Noticed kids covering their ears.

Loud, long dly over vibrating through the house!

Left the house at noon with jets flying over the house. Returned at 11:40 pm to go to bed. Jets doing their touch and go training - 1140PM. It seems they fly constantly now. Difficult to fall asleep with the roaring of their engines!

Growlers making unbelievable amount of noise

Loud fly over! They fly in groups of 2 or 3- so lots of emissions as well!

Growlers flying loudly for carrier landing practice. There are so many remote locations that would not impact a densely populated area

Now trying to go to sleep. They've started flying again!!! Third round tonight. So much for peacefully falling asleep.

Numerous loud fly over/ fly by today. Outside working could not carry on conversation due to deafening noise from the planes!!

Another noisy growler flyby shattering ears of everyone below

Loud rumbling fly over- there were more earlier-

The abuse continues this morning

Within minutes- more growlers loudly taking off!

2-year old was scared going to bed at 8 pm, jet noise continues and every once in a while a louder helicopter flies over.

Wish I could enjoy living in my house, but constant growler noise makes that impossible

Been flying most of the day again. Another loud rumble- followed shortly by a long loud fly by. It has certainly ramped up. What happened to the court case where they were found deceptive on their impact analysis. They fly more than ever now!!!

Numerous loud rumbles, followed shortly by loud, long fly over. So exhausting!

Way too loud

Just home from vacation- unfortunately get to hear jet noise again! Saw and heard them in laconner and over San Juan Island. They are everywhere! Sooo loud. Oh and now a fly over. They should train elsewhere- not over quiet communities.

Growlers flying over camano island ear shattering loud

Growlers flying loudly. What a treat for our ears. This has really got to stop

Oh joy- another loud fly over to ruin the peace of the day.

Trying to work outside at my home but hate wearing growler sound canceling headphones so back inside instead. This is so unjust.

Growlers tearing up the sky and or eardrums.

Numerous groups of planes have been taking off. All those emissions right above a community- in addition to the noise.

Forks - sounding like thunder and increasing as they circle, noise intrudes on indoor dinner, temporarily stopping dialogue. Humbug!

Watmough head lopez"

"Flyover,

Watmough Head lopez"

Large transport plane right over the house

Growlers flying again starting today's abuse of the Americans trying to live here

Too loud for a place people live below

Another take off followed shortly by loud fly by. They continue every 10 to 15 minutes this morning. Lots of flying going on. There must be numerous planes in the air. They usually pass over in groups of 2 or 3.

Another group taking off. 5th group in the last hour or so. House is vibrating again!

Loud fly over- heard over shop vac running in the house.

Loud, rumbling fly by. 4 or 5 already this morning. Lots of flying going on again this week. Soooo loud. Like living next to an airport- but I don't. This noise coming from 12 miles away!!

The daily ear shattering noise from the growlers needs to stop. People can't take this abuse

Really after last night's abuse you are starting up again first thing in the morning???

Numerous flights today. A handful directly over the house- so loud there was vibration. Now they are flying at coupeville. Will be happy when we can get some quiet.

Extremely loud fly over.

It would be nice to be able to go outside my home without the ear plugs. Growlers need a new remote location for this noisy training.

Late morning, Sept 6. VERY loud roaring in the skies from jet activity. South end, Lopez. The skies are FULL of noise. It is headache producing!!!!

6:08. Just got a BLAST of Growler noise. Thought I could be outside this evening, now it looks uncertain. The Navy abuses this region. South Lopez.

Another damned growler flyby over Camano

Come on that is too loud. Get the growlers a remote place to fly

Growlers starting today's assault on the nerves of everyone who lives here

Growlers flying loudly by

Get the damned growlers away from my house

Roaring jet noise AGAIN fills our skies. South Lopez. Might as well live next to SeaTac. Disgusted with a poorly managed Navy. Waste of tax dollars.

10:35am, Oct 18. S Lopez. ANOTHER rumbling jet roar that is long and loud. It is a LOUD THUNDER in the air and in our home. NAVY: GO AWAY.

10:40am, Oct 18. S Lopez. THE ABUSE CONTINUES. RUMBLING VIBRATING PERCUSSIVE JET NOISE HITS OUR HOME. The Growlers are too loud, too

noisy for this region. The Navy, due to its lies, is allowed to continue this abuse. Blind legislators allow this.

More growlers flying making so much noise

Just a break from the constant growler noise is all I ask

Another loud fly by!!!!

Growlers flying loudly

Just sitting down dinner- loud rumble and vibration coming from up north!

Loud fly over following low loud rumble!

Growlers starting up for today's ear shattering abuse to every American trying to live here

Growlers making life hell for the Americans below. I need to sleep in my own home without the ear shattering growler noise

Growlers ruining another evening. This has got to stop

Another thunderous fly by!

Too damn loud. Growlers need to move to el centro

Flights taking off every 10 minutes ut seems!

Growlers starting up for today's ear shattering

Noisy growler flyby

They need to move the noisy growlers to a remote location. Flying them constantly over residential area is just too much.

Another ear shattering growler flyby

Growlers making their presence known.

Growlers making life hell on the ground. This is residential neighborhood

Growlers tearing up the sky and ruining yet another day

It just keeps going. Growlers making so much noise

Get the damn growlers out of camano airspace

Starts with loud rumble vibration- followed shortly by loud fly over- many times today starting at 7:40 this morning. In anacortes about 2:45. Five really loud fly overs in 20 minutes. They have really ramped up!

Started with rumble and vibration 3 minutes ago now followed by long continous noise. What is it 9- third one so far. They seem to fly non stop lately.

Growlers making life hell below. So damned loud

Come on can you give our ears and our nerves a break from the noisy growlers

Loud fly by.

S Lopez. 4:40pm LOUD LOUD LOUD Growler Jet noise rolling around, filling the skies.

S Lopez. About 10 minutes ago I was in the middle of a Zoom conversation and a loud jet came roaring overhead, disrupting my ability to hear the conversation. The Growlers invade our homes.

Another group taking off- house rumbling- heard over shop vac.

Too loud. Time to move this to the remote desert area of El centro

The growlers are up early shattering the peace

More growlers than I can stand flying and making it hell to live here

Growlers flying all morning

Get the damn growlers out of here. Take them to el centro. Nothing but desert there

Way too loud for residential area

They have not sounded like this since they opened OLF. Nothing works to get away from the noise. I am sick to my stomach and I feel my blood pressure rising. Anxiety of wondering how long this is going to last, when will it start again.

Fans on in house and background noise. Windows are shut and the jet noise still goes through the entire house.

Come on this is too loud for residential area

Growlers flying and making ears ring for those below

10pm at night and terrible rumbling. Who in their right mind would order the loudest jets possible and put them in the middle of a populated area? They are named growlers for a reason.

Even with activities going on in the house, could hear jet rumble in the house

Flying very loud flights directly over my house, like they have changed patterns again. Yesterday it hurt our ears being outside. I am not even on the same island they are. No escape

Give us a break growlers. Can't even think with all that noise

Flying again. Multiple days in a row. It is so wearing on a person. Torture is a good way to describe it.

It would be nice to have some peace in my own home. Growlers need to move

It is the weekend and I am hearing the growlers.

Another night of difficulty getting to sleep due to continuous jet noise from miles away.

How much more of this do they expect us to take of this growler noise

This is outrageous amount of noise coming from the growlers

Very loud long flight over house.

We need a break from the growlers

Get the damn growlers out of camano airspace

Growlers making so much noise I can't hear the TV in my home. This is unbelievable

After trying to go to sleep with the Roaring jet noise- it begins again with the rumbling vibrations as they take off this morning again, 12 miles away!

Get the damn growlers out of camano airspace. This is too loud

Just getting to sit down from working since 5:30 am. Jets are roaring outside. I have earplugs and I am in the house. So tired and can not relax due to the flights.

Growlers flying loudly and making life hell below

Another perfectly fine day ruined by loud growlers flying overhead

Find a remote location for the growlers. This is abuse

Getting ready to work from home but the recent flights are so loud, I can't focus.

Growlers starting and running up their engines. Sounds like loud thunder. You can feel it in your chest miles away. They need to find a remote location for this

Come on we live here. You should be doing this noisy flying in the remote desert out of El Centro like you did in the past.

Hey growlers people are trying to live here

Flight was so loud and low you would wonder if it was purposeful.

Growler jet low and loud inside my house. This is abuse!!!!

Very loud and sounds like a lower flight. Sound penetrating entire house.

Another loud thunderous roar of planes taking off!

Growlers flying loudly and driving everyone inside and to our earplugs

Growlers making life impossible here.

Growlers flying loudly ruining another day

"I need to sleep. Growler training keeping me awake. I can not take much more of this

It would be so nice to be able to have a peaceful evening without the growlers making ear shattering noise

WTF this is an assault on the Americans living here. The growlers need to move to a remote location like el centro where the have trained in the past.

Growlers flying landing practice ruining another day for those that live here

Too low and too loud above residential homes

Trying to enjoy the outdoors but constant growler noise is ruining it

Flights off and on all day. Hard to enjoy beautiful fall day. Now inside, doors window closed and jet noise through house.

The growlers are flying late night keeping everyone living here awake. It is so wrong to do this day after day to the people living here. Need to move this to remote location

Come on just one evening not having to wear earplugs would be nice

Growlers starting up their engines for another round of ear shattering noise

Growlers running up their engines for today's abuse of Americans trying to live here

Repeated flight making it uncomfortable to be outside

Wtf growlers flying all morning shattering noise

Growlers are out again terrorizing the Americans that live here

Come on the wild fire smoke air pollution is so thick you can't breath but the growlers need to fly today and add their exhaust to it????

Growlers making life hell for everyone below

Another ear shattering growler flyby

Noisy growler flyby disrupting our lives

Constant harassment from the growlers. They need to move to remote location

Can't take much more of this growler noise

Growlers ruining another day. You would think this level of noise would be illegal

Growlers starting up for today's ear shattering

This is outrageous amount of growler noise for everyone trying to live here

Growlers starting up for tonight's ear thrashing

Smoke everywhere from the forest fires and the navy thinks this is good time to add noise and jet pollution?

Get those damn noisy growlers out of here

Noisy growlers ruining another day

Come on this is too much growler noise for humans too endure

How much of this growler crap do they expect us to take

Growlers flying low right over camano island. This is way too loud

This is too much. The growlers insanity needs to stop

Growlers making life hell for the Americans living here

Really, wasn't the beating the growlers delivered flying all day enough. Now you're running up your engines for more abuse tonight? When is this going to stop

Geez way too loud for residential area

I was looking forward to a quiet day but the growlers are out making oh so much noise

Damn noisy growlers making life hell below

Mount Vernon. Extremely loud. Had to run indoors because my insides felt like they were vibrating. Didn't actually see the jets, but it felt like they were right on top of me.

Mount Vernon. More extremely loud noise. That's all. I know the Navy doesn't really care.

Trying to sleep in my own home but growlers making that impossible

Wasn't last night's flying past midnight enough? Now all morning with ear shattering flights. People need to be able to live here. My God I am tired of this abuse

Another day of growler noise

Watmough head lopez"

Low flying growler aircraft

Not a moments peace from the noisy growlers

Growlers flying and making noise. Wish they could find a remote place for them

This level of noise is abuse.

Noisy growler flyover.

Very loud flyover stopped everyone in their tracks. Need to move these noisy growlers to remote location

Loud flight while trying to sleep

Get the damned growlers out of here. People are trying to sleep

This is torture. Get the damn ear shattering growlers out of here

Growlers making life impossible below

More growler noise for the Americans below. How nice to have this abuse every day

Sounds like an avalanche roaring downhill. But no it is growlers torchering the Americans just trying to live here

Get the damn noisy growlers out of here

A little peace and quiet in my own home is all I ask. Growlers flying all day making that just a fantasy

Really tired and trying to sleep but the growlers are not going to allow that.

Hey people live here. Way too loud growler noise

Get the damn growlers out of here. Way too much noise for the Americans below

Wat too loud

Growlers flying loudly by

Mount Vernon. Oh, good, the Navy is being inconsiderate in the late evening this time. Glad I'm not trying to sleep.

Growlers flying and making extremely loud defening noise. How is this legal?

Growlers flying loudly tearing up the sky and our eardrums

This is too much. These noisy jets need to be moved to el centro

Too loud for residential area

Another growler flyby shattering everyone's eardrums below

Get the hell out of camano airspace

What kind of life is this being constantly harassed from the air by the the noisy growlers

The growlers make so much noise from so far away. They are impacting so many lives.

So loud. The growlers need to move

Can't even relax in my own home with the extreme noise for the growlers. How can this be legal

Just trying to live my life here but the noisy growlers flying overhead are not allowing me to do that

Sounded like a very low flying military helicopter. Flew directly over the house at 1:45am and startled us out of sleep.

Watmough head lopez

Growlers flying by very loud inside my house

Noisy growlers flying loudly by

Come on people are trying to live here. Get the damn growlers out of here

Nice peaceful sunny day on camano until the growlers came out to make noise

No peace for anyone within 10 miles of the noisy growlers

I wish we could attach a file so you could hear how loud this is. Flights over commercial area. So piping meetings and phone calls.

Come on this is too much noise

Off and on flights all day. Interrupting business conversations with interviews, customers and training.

Come on these growlers are too noisy for flying over residential area

Just would like to be able to live here and not be assaulted evy day by the noisy growlers

Growlers flying overhead every 15 minutes. This is abuse

In a spa and jets flying over. Not relaxing at all. Can hear over, music and all the dryers etc.

Had to cover my ears just walking to the car and we are on Camano

Wtf growlers are too damn loud for residential area

Looping way out over Saratoga passage blasting both whidbey and camano island with ear shattering noise. They need a new home for the growlers

This is way too loud for residential area

Growlers making so much noise I can't even think

Growlers making their presence known with loud engine noise

This growler noise is just killing me. How much do they expect us to take of this

"Are they trying to drive used

1130 at night and flying loudly????"

5 growlers in delta formation flying low over Camano Island coming over Piet Susan headed west towards Whidbey NAS. INCREDIBLY LOUD

Too damn loud

Outside at a public setting. Jets so loud people covered their ears and all conversations stopped

Oh for Pete's sake. Stop already.

Military occupation helicopter.

4:40pm, Sept 7. Growler SCREAMING LOW OVER MUD BAY, Lopez. DEAFENING. Sounds like all burners are on. Moving toward Anacortes. Still roaring. Still roaring. No reason for a growler to be flying over our home. Out of pattern. Still roaring

4:55pm, 9/9. S Lopez. Roaring jet noise. The skies are echoing with it.

Oh knock it off!!!! NOW.

Driving and jet so loud it could be heard in the vehicle over the radio.

Crazy loud

"No need to be here.

Too low. Too Loud. Too Slow. Holding my tongue. Can't possibly communicate what I'm feeling. Don't wish to stoop to the Navy's level.

They are everywhere. Non stop. They do not care where they fly.

They are so loud, I can hear them shopping in COSTCO

Very loud growler overhead. It is windy. But that growler noise is even louder. Burlington.

I am at Skagit hospital! The Growlers have really enlarged the area they fly low and loud !

Big Lake area. Three low altitude jets in a close formation just flew right over my home. One of my cats looked like he hurt himself crashing into the door trying to get in.

Right over the house!!! The growlers need to find a remote location for this noisy flying

Mount Vernon. Extremely loud and tons of rumble. Getting a flight every couple minutes. It would probably be quieter in a war zone.

Watmough head, Lopez"

Mount Vernon. The jets were loud enough that even though I was indoors, I was having a hard time hearing people in a Zoom meeting.

Mount Vernon / Big Lake. I hope they manage to shoot down whatever it sounds like they're chasing up there.

Yet another extremely loud Navy jet flying over in Mt. Vernon.

Mount Vernon. Couldn't spot the jet(s), but it sure was loud.

The day is starting off with a bang in Mount Vernon. I could have an international airport in my backyard and it wouldn't be any louder than it is now.

Are we at war? Sounds like it.

Mount Vernon area. Measuring 92dBC, but the sky is too smokey to see them. The whole sky sounds like it's exploding. Been going on for about 15 minutes so far.

If noise of this persistent volume were created by civilians, someone would be sued or jailed, and for good reason. The good reasons aren't voided just because it's the military doing it.

Mount Vernon / Big Lake. Was enjoying Fall and the ability to open windows, cool off and air the house out. Then the Navy turned it into a war zone and the windows are closed and the earplugs back in.

Wow!!! Just can't get away from these jets!! Came to Woodinville to get away for the weekend and here they are, circling overhead, over and over

again!!! On a Saturday! They've destroyed the tranquillity of central Whidbey and now Woodinville.

Loud rumbling roar from jet overhead. The heavy throbbing roar of the growler. South Lopez.

"Loud loud loud. Jets roaring around. Difficult to be outside and relaxed after a day of work. Lopez
