

...Disruption Everywhere...

Flights on Camano and flights in Stanwood. There is no where to go to get away. Trying to homeschool is challenging with all the flights no matter where you go.

Growlers flying over Port Townsend all day long.

Growler roaring coming from Whidbey. Doors and windows closed and the noise and vibration still rolls into our home. South Lopez. 3:27pm, Dec 9.

This noise is unbearable. I have to eat dinner with with headphones on my head, and still the sound of the Jets feels like that they're flying right through my kitchen in Coupeville.

Not one, but TWO growlers, flying LOW over Orcas. TERRIBLE

Lopez village. A growler is ripping the sky apart right now. So LOUD. Screaming and roaring. Why are you flying over Lopez Village? December 8 11:10am.

Extremely loud does not begin to describe the noise over admiral's cove this evening. Absolutely appalling that this practice continues to be allowed

Even indoors with earplugs, these are the times this morning the jets were loud enough over Mt. Vernon to be disruptive: 8:05am, 8:45, 8:54, 9:05, 9:11, 9:24, 9:34, 9:53, 9:57, 10:02, 10:13, 10:22, 10:48, 10:59, 11:04, 11:21, 11:31

Cape St Mary SE end of Lopez Is, WA

Disrupted a walk in state park @ Fort Worden. Going home b/c this sucks! Losing tourist \$\$\$. Too bad for this community.

Just another cloudy, windy typical fall day in Anacortes, towards Washington Park and it sounds like the world is ending to the south- echoing roaring scraping, thundering sounds. It is unnatural and otherworldly. Threatening and awful.

Dec 9, 3:34pm. South Lopez. I don't have time to report every stupid annoying deep vibrating rumble from Whidbey as they rev their Growler engines. We are getting blasts, blasts, blasts, blasts.

Jet Noise Report: 2025

Since 2015 an increasing number of jet noise reports are reported by residents of the Salish Sea region, using the San Juan County Aircraft Noise Reporting Website. With the addition of 36 more Growlers in 2019 at Naval Air Station Whidbey Island, the region has been bombarded. This document provides data broken out by reports generated inside San Juan County and outside.

Beginning on page 14 read the comments made by those who submit noise reports and feel the frustration, concern, and anger.

INSIDE THIS REPORT:

- ✚ Annual Comparisons
- ✚ Monthly Comparisons. Total and by Location
- ✚ Reports by Type of Noise
- ✚ Reports by Time of Day
- ✚ Reports by Day
- ✚ Map of Report Locations
- ✚ Comments submitted with each report, revealing human impacts

Understanding This Report

Listen to the jet noise that we hear in our region:

<https://www.quietskies.info/all-videos>

The Navy dismisses noise data:

https://f4be68e4-2f42-4ce8-b4c0-6fb1e95c8ac6.filesusr.com/ugd/f9226a_2de6debbab2a4dfd822451c6f6a3a75b.pdf

Jet noise raises emotions.

If you are in crisis, you can call the National Suicide Prevention Lifeline 24 hours a day, seven days a week, at 988. Press 1 for the Veterans Helpline.

You can also text a crisis counselor by messaging HOME to 741741.

Crisis lines are available for all Washingtonians regardless of insurance status or income level.

Hints on reporting jet noise:

<https://www.quietskies.info/access-the-county-report-site>

The San Juan County Aircraft Noise Reporting website was approved in 2014 by the County Council for people to have a reliable place for recording their reports and comments. Data reports began in 2015.

gis.sanjuanco.com/aircraft-noise-reporting

Who submits reports? In October, 2019, permission was given for people outside of San Juan County to use this noise reporting website.

Correcting Location Data

Beginning in January 2023, data reporting addresses a problem with the website's capture of location data. Many reports default to a location in the center of San Juan County (SJC) when the person does not provide their location. This artificially raises the number of reports attributed to San Juan County that actually come from outside SJC.

Here is what we are doing. Some reports with invalid location data can be corrected by their comments or zip code. Next we look only at reports with valid locations to determine the normal portion of "inside" and "outside" of San Juan County. Finally we assigned the reports with invalid locations to "inside" and "outside."

Reports likely will show more reports from outside of San Juan County than previously. Considering the smaller population base of San Juan County compared to nearby counties also affected by Navy jet noise this is not surprising. This has been the trend since 2019 when we opened reporting to outside SJC.

Jet Noise Reports by Location, 2015-2025

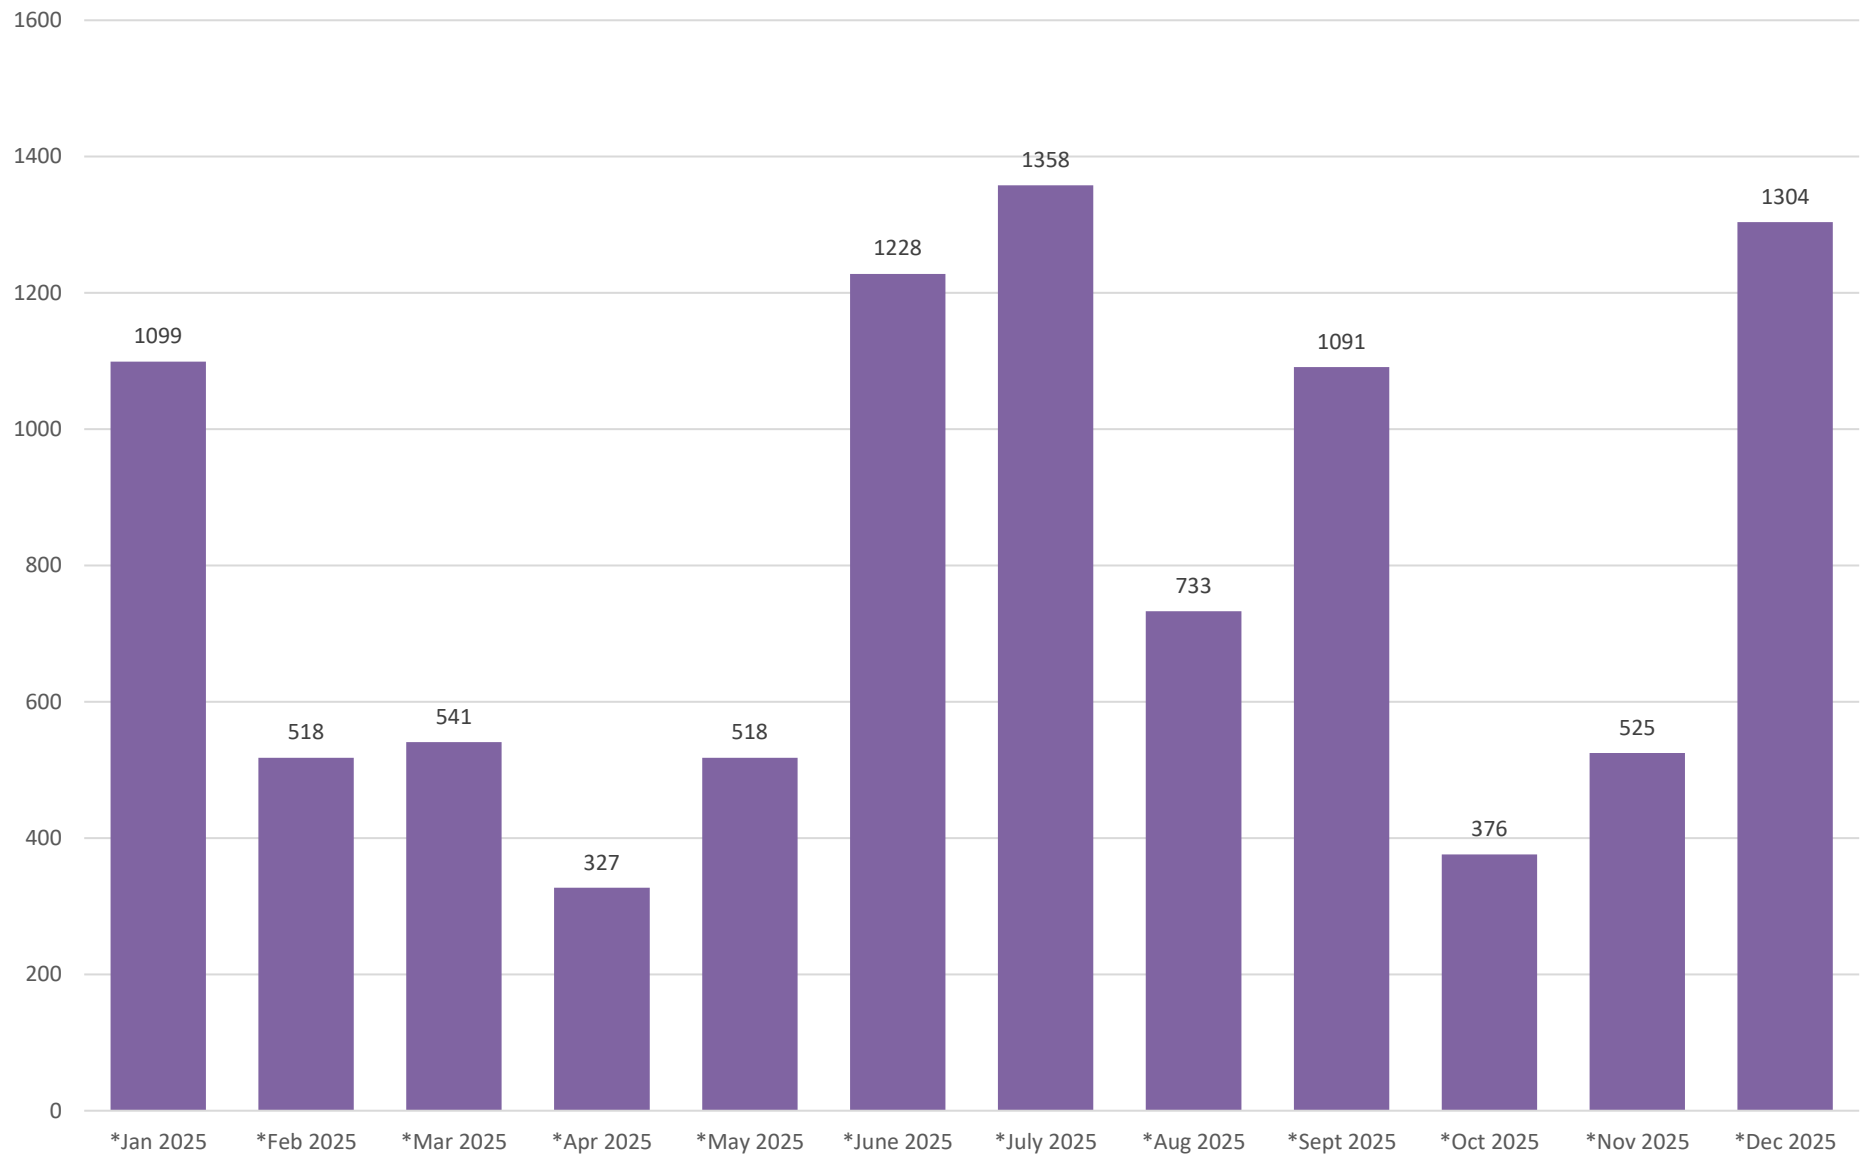

This chart provides some background to the history of noise reporting.

Jet noise reporting began in 2014 when San Juan County implemented a website for reporting jet noise. Data collection began in 2015. In the Fall, 2019, access was expanded to people outside of San Juan County enabling them to enter jet noise reports with the result that the number of noise reports increased, as has the number of aircraft at NASWI. This chart provides the totals of all noise reports, by location, in the database since 2015 through 2025.

Jet Noise Reports by Month, by Location, 2025

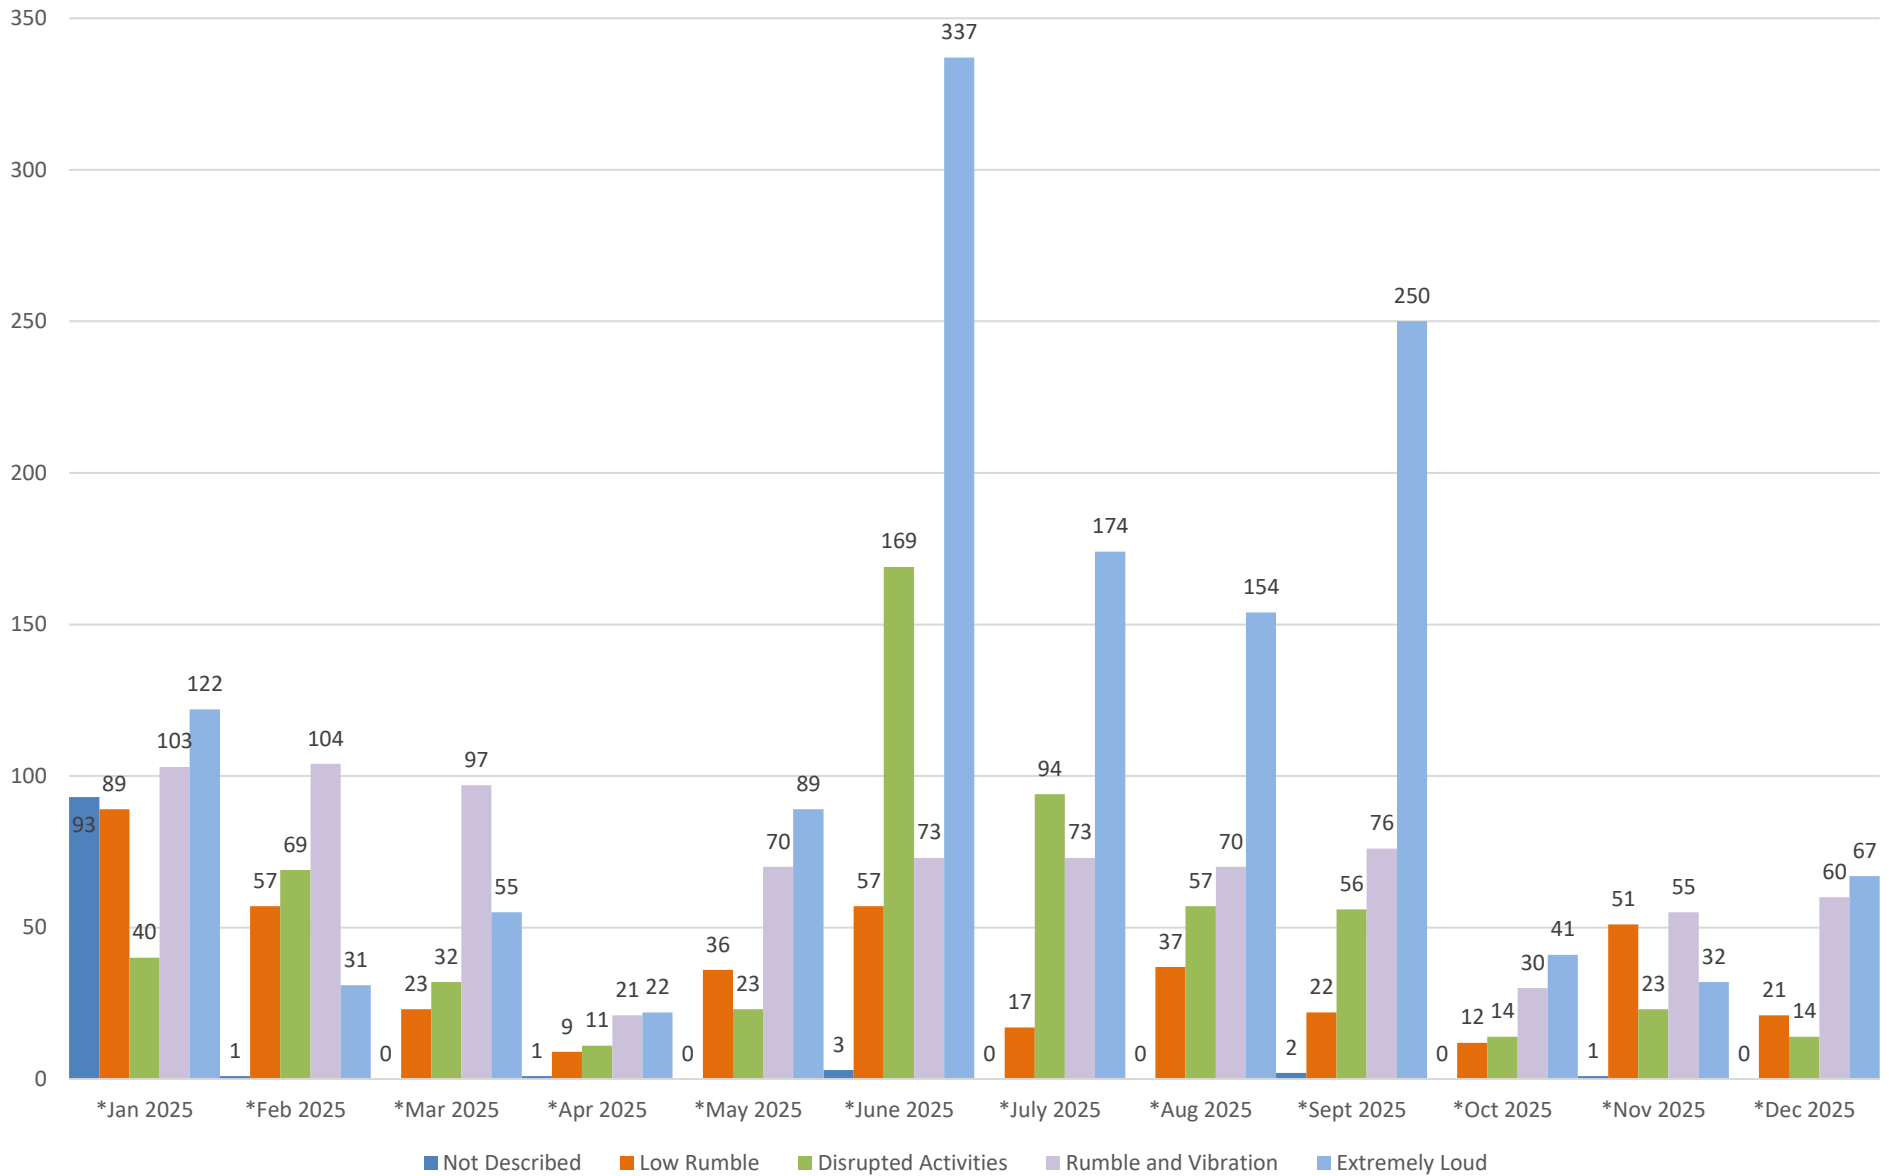

Jet Noise Reports, All Locations Combined, by Month, 2025

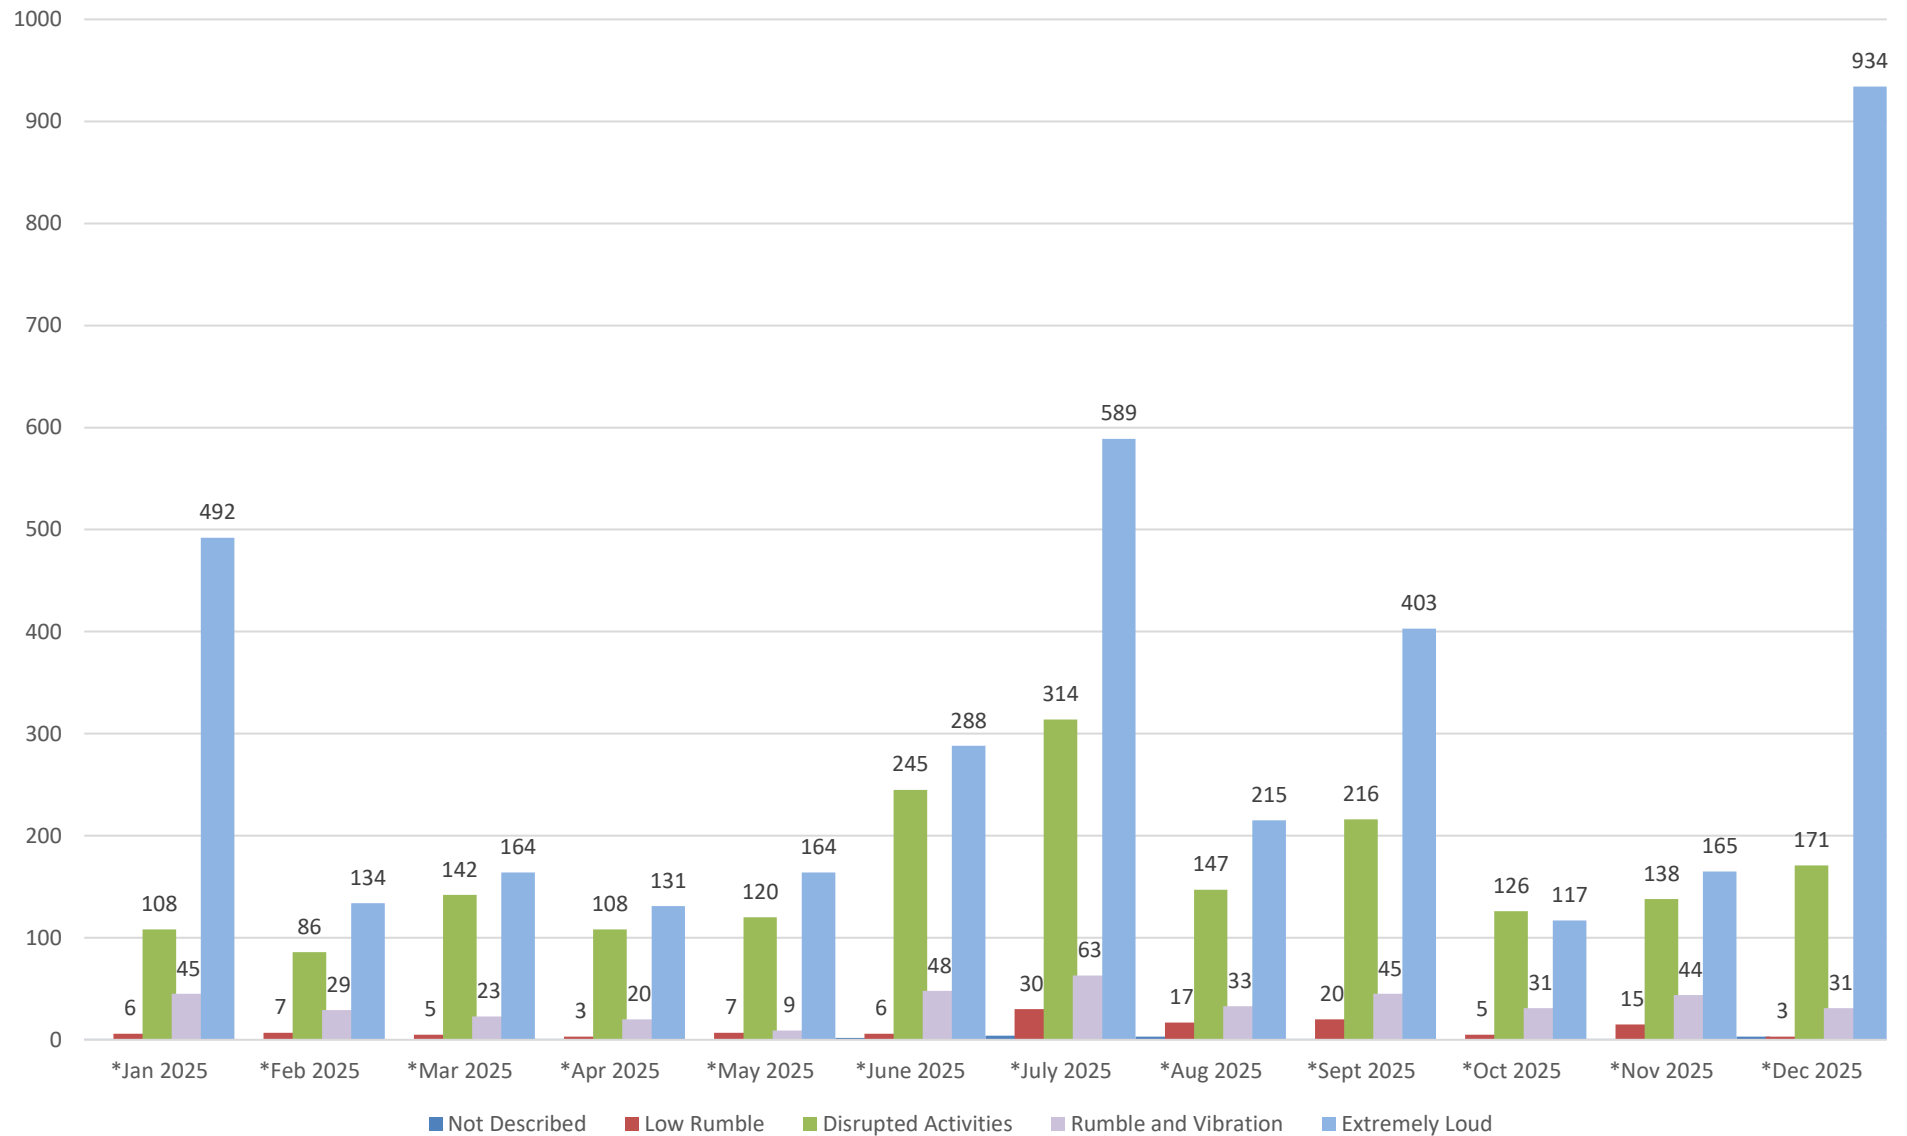

Note the variation in noise experienced by months and by location. The Navy persists in using “annual noise averaging,” significantly underestimating the impact of jet noise. There is no “average” noise felt by residents in this region. The noise is variable and unpredictable.

Jet Noise Reports by Type of Noise, **INSIDE** San Juan County, 2025

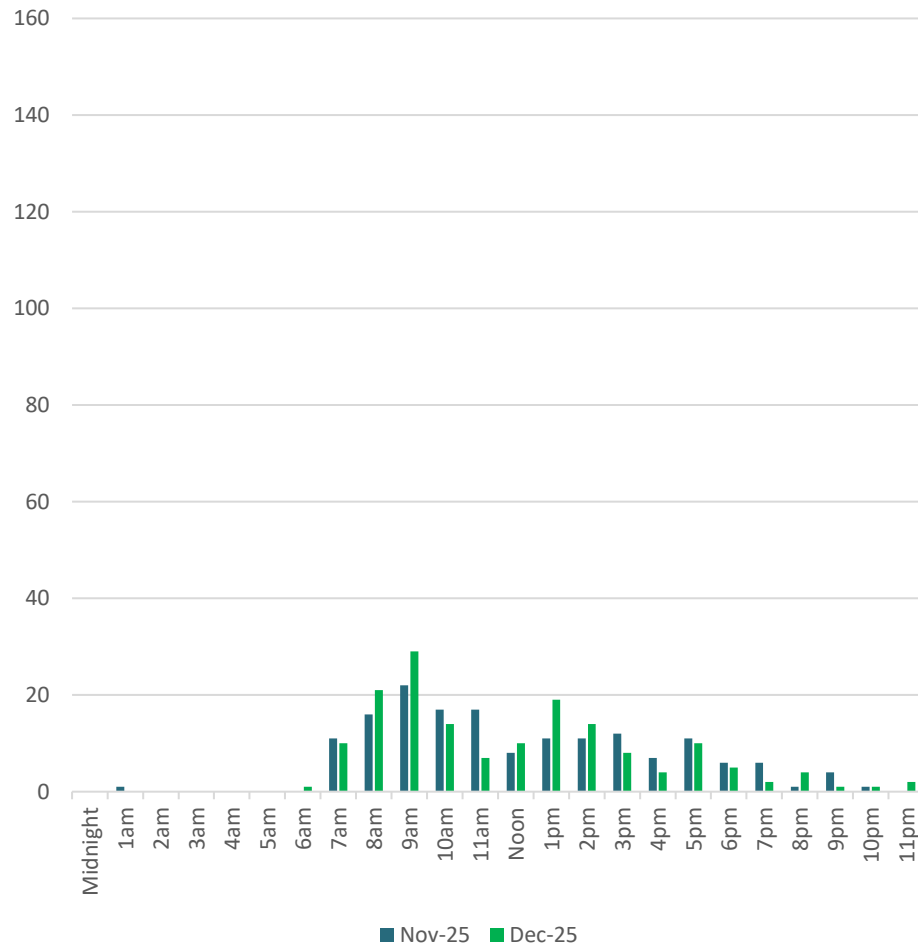

Note the variation in noise experienced by month and by location. The Navy persists in using “annual noise averaging,” significantly underestimating the impact of jet noise. There is no "average" noise felt by residents in this region. The noise is variable and unpredictable.

Jet Noise Reports by Type of Noise, **OUTSIDE** San Juan County, 2025

Note the variation in noise experienced by month and by location. The Navy persists in using “annual noise averaging,” significantly underestimating the impact of jet noise. There is no "average" noise felt by residents in this region. The noise is variable and unpredictable.

**Jet Noise Reports,
INSIDE San Juan County,
by Time of Day, Nov-Dec 2025**

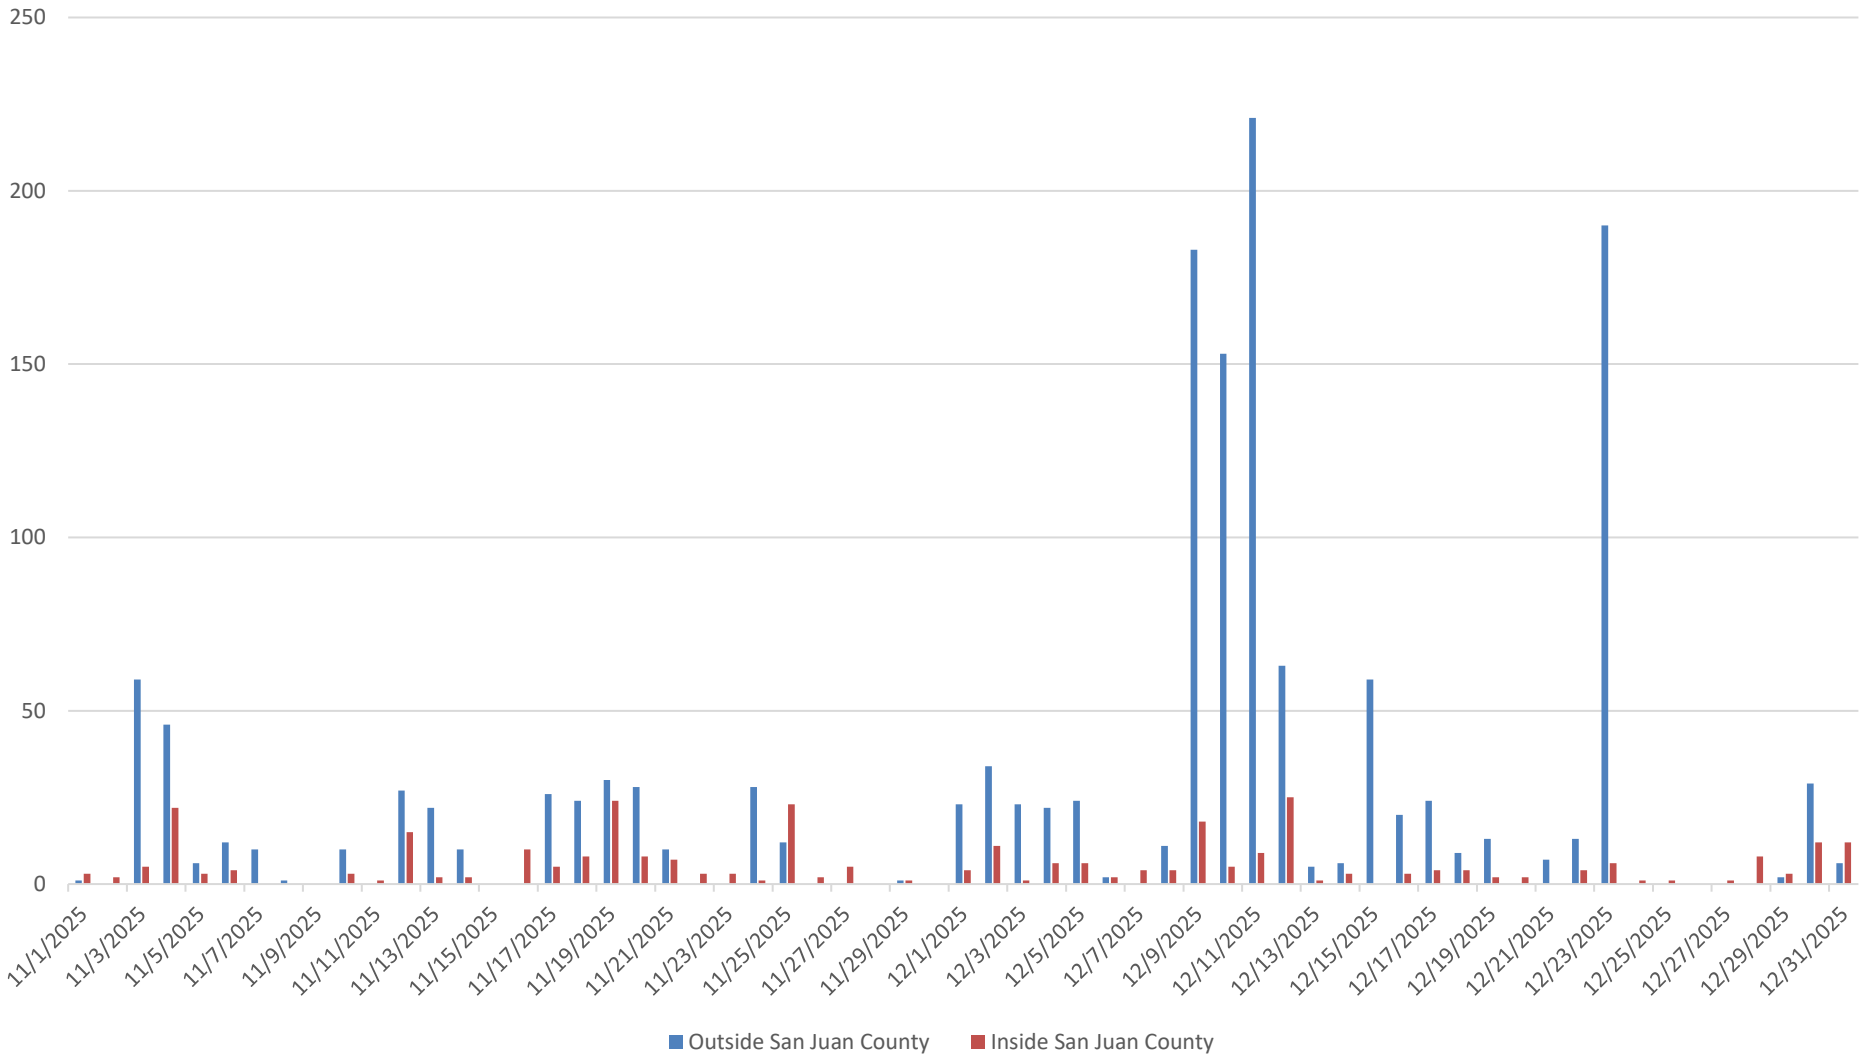

**Jet Noise Reports,
OUTSIDE San Juan County,
by Time of Day, Nov-Dec 2025**

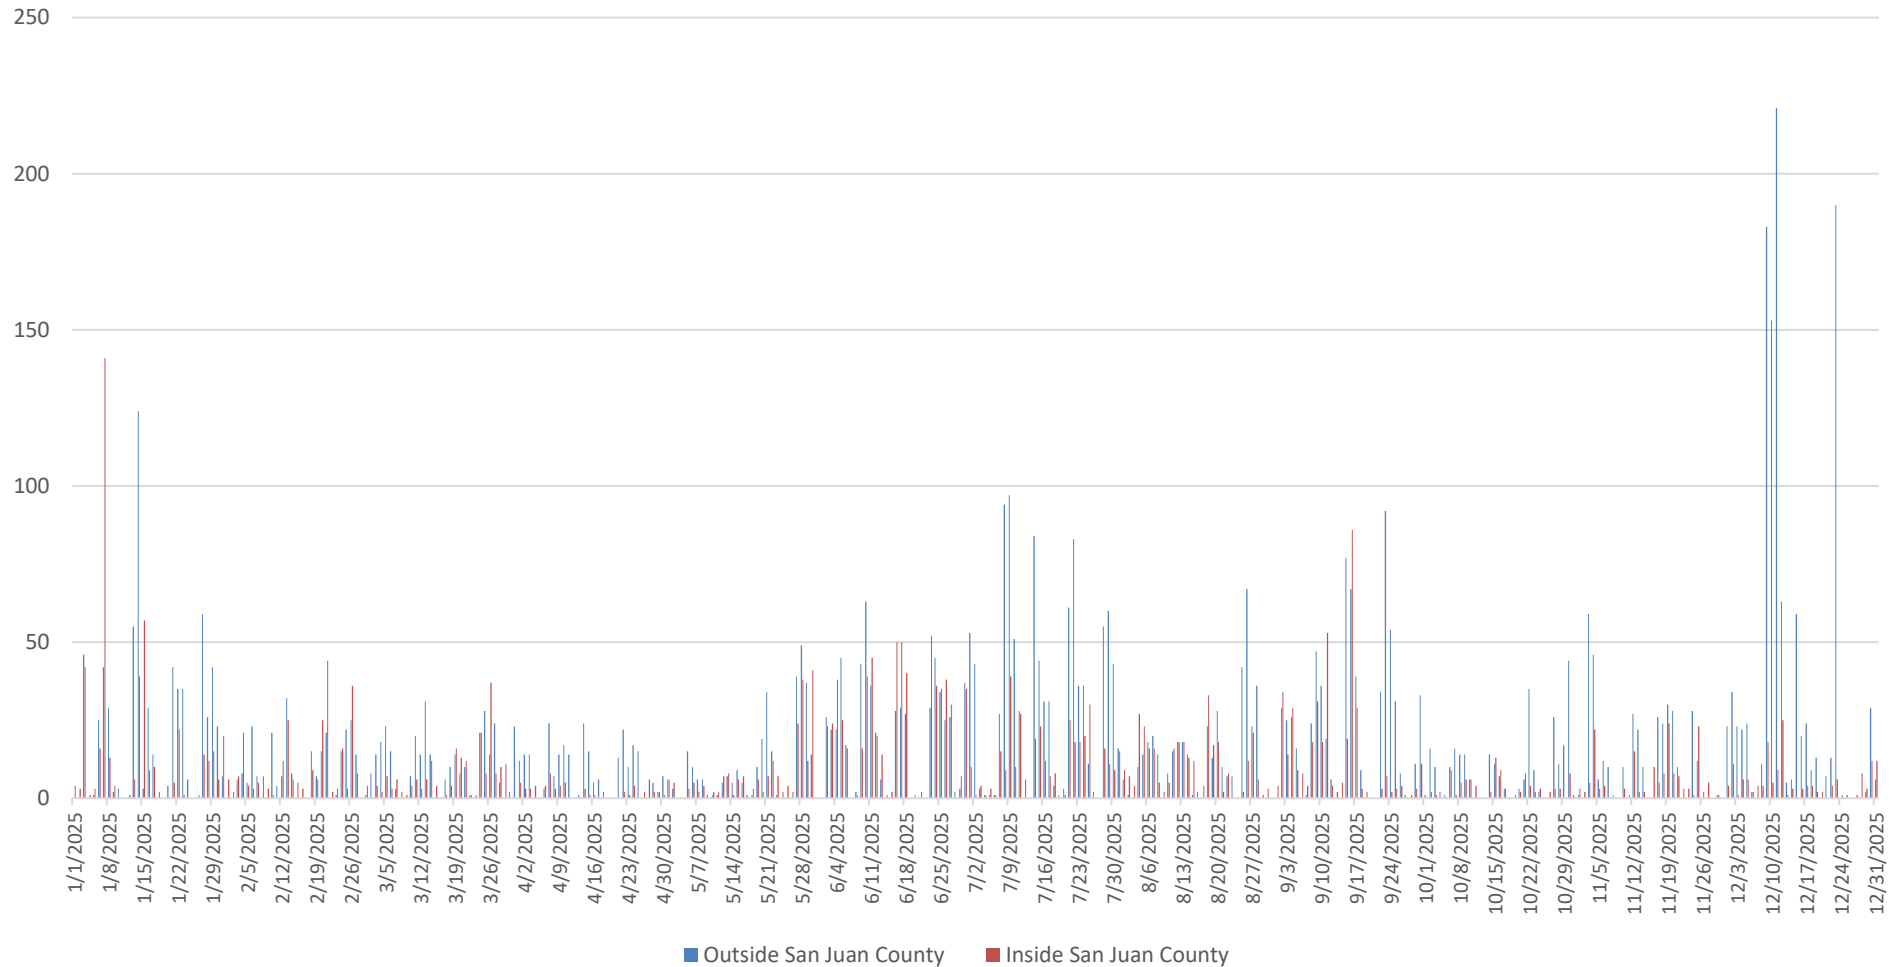

For example, submissions that report noise 11:00 am through 11:59am are clustered in the 11 o'clock hour. These charts use data from November and December 2025. (Previous reports illustrate previous months.) Note the variation in noise experienced by time and by location. The Navy persists in using "annual noise averaging," significantly underestimating the impact of jet noise. There is no "average". noise felt by residents in this region. The noise is variable and unpredictable.

Jet Noise Report, by Day of the Month, November - December 2025

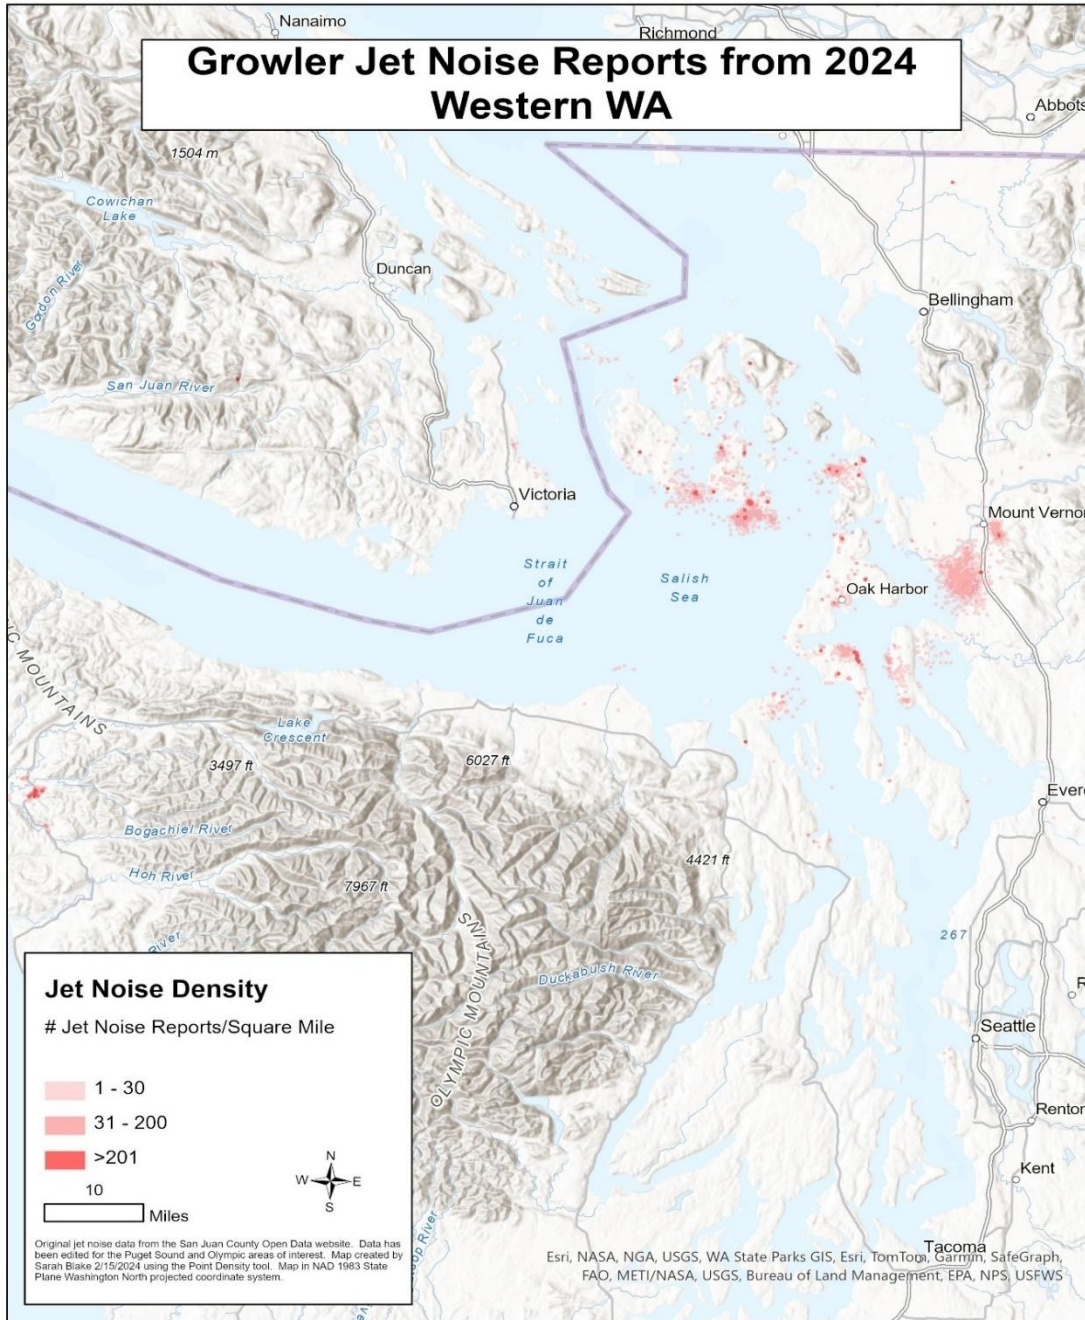

These charts use data from November and December 2025. (Previous reports illustrate previous months.) Note the variation in noise experienced by day and by location. The Navy persists in using “annual noise averaging,” significantly underestimating the impact of jet noise. There is no “average” noise felt by residents in this region. The noise is variable and unpredictable.

Jet Noise Reports, by Day, January-December, 2025

What on earth happened on December 10? Does this look like average noise? Among the many comments: “Constant growler engine rumbling from Whidbey. S. Lopez. Dec11.” “It’s 5:10pm and after an ENTIRE DAY of rumbling, the jets are now doing extremely loud flights over Mt. Vernon.” “Extremely loud even inside the building, planes flying very low.” “It’s not even 9am yet and I’ve already had multiple extremely loud flights over my Mt. Vernon home.” “Thursday evening, intermittent screaming warplanes sounds once again tearing up the night in western Anacortes.” “Growler landing drills with multiple aircraft .. constant peak noise level.”

This chart uses data from all of 2025’s reports. Note the variation in noise experienced by day and by location. The Navy persists in using “annual noise averaging,” significantly underestimating the impact of jet noise. There is no “average” noise felt by residents in this region. The noise is variable and unpredictable on a daily basis.

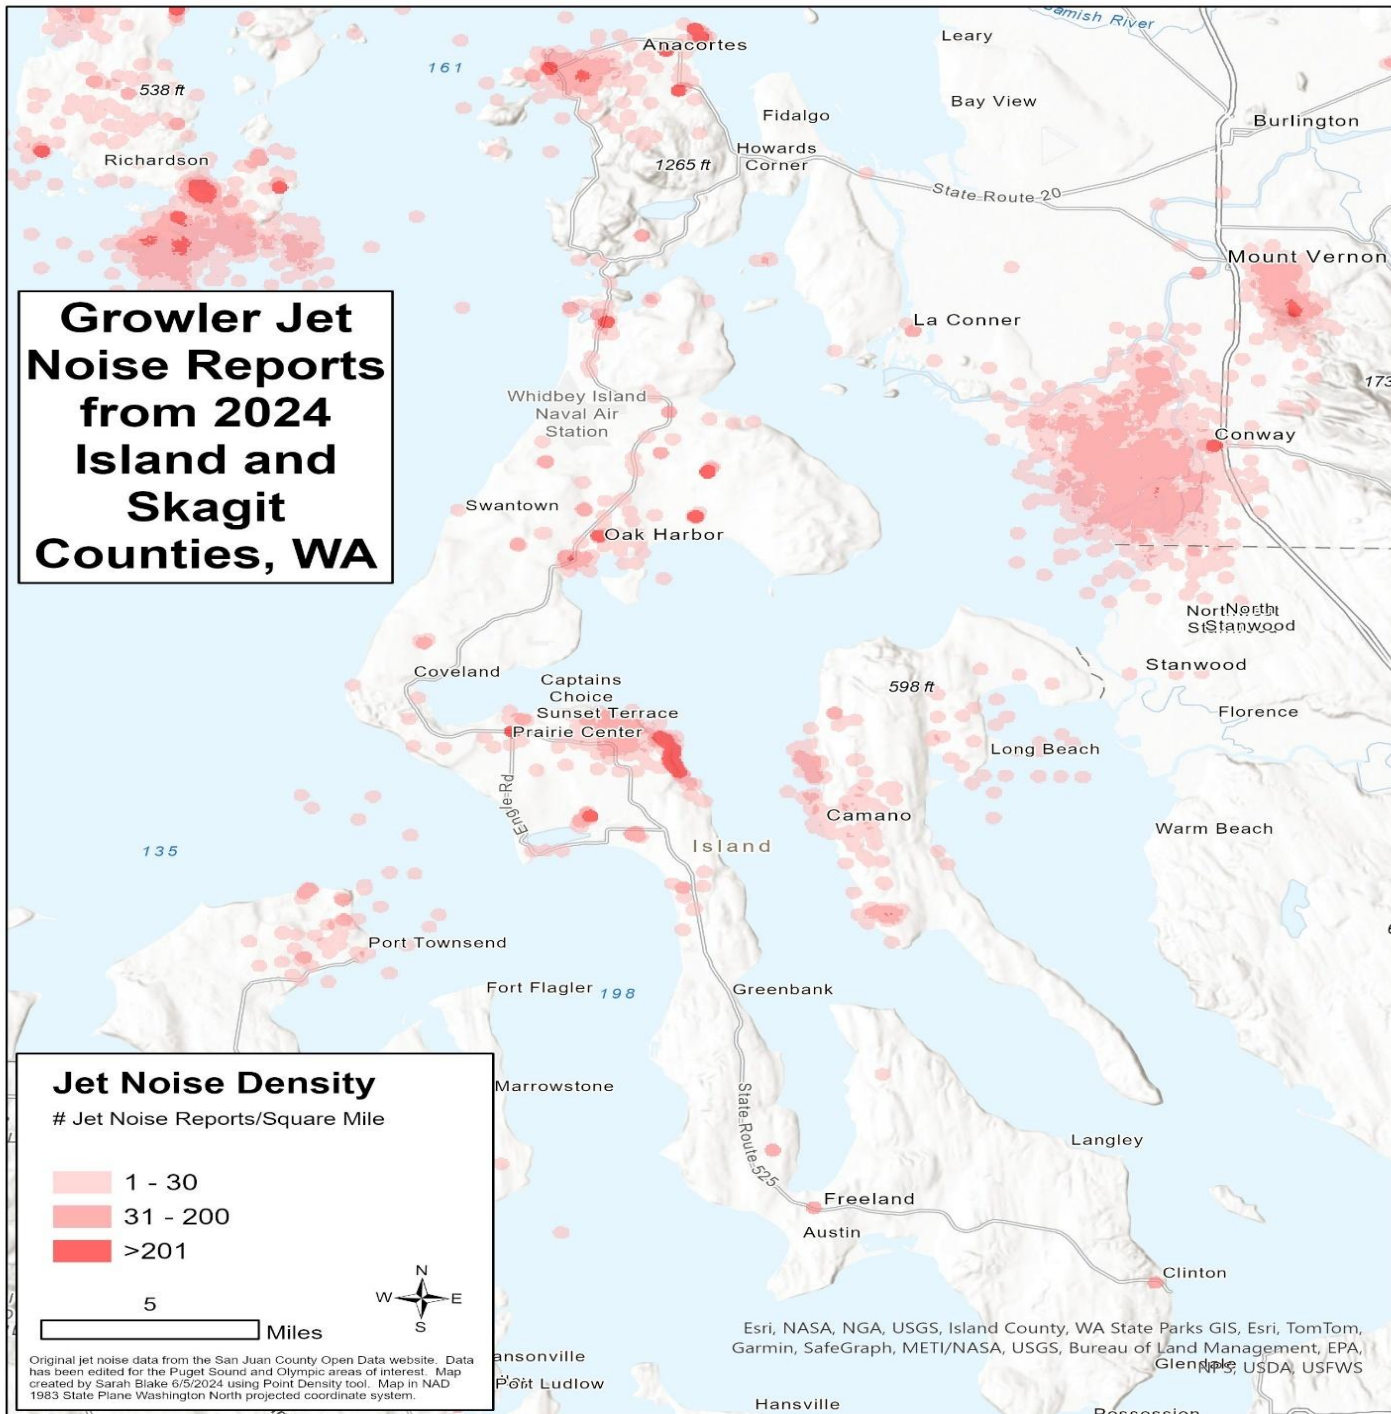

Referred to as a “density map”, this picture, using 9787 noise reports submitted by users in 2024, offers a view of noise reports in the region. Impact hits **San Juan, Island, Skagit, Clallam and Jefferson counties.**

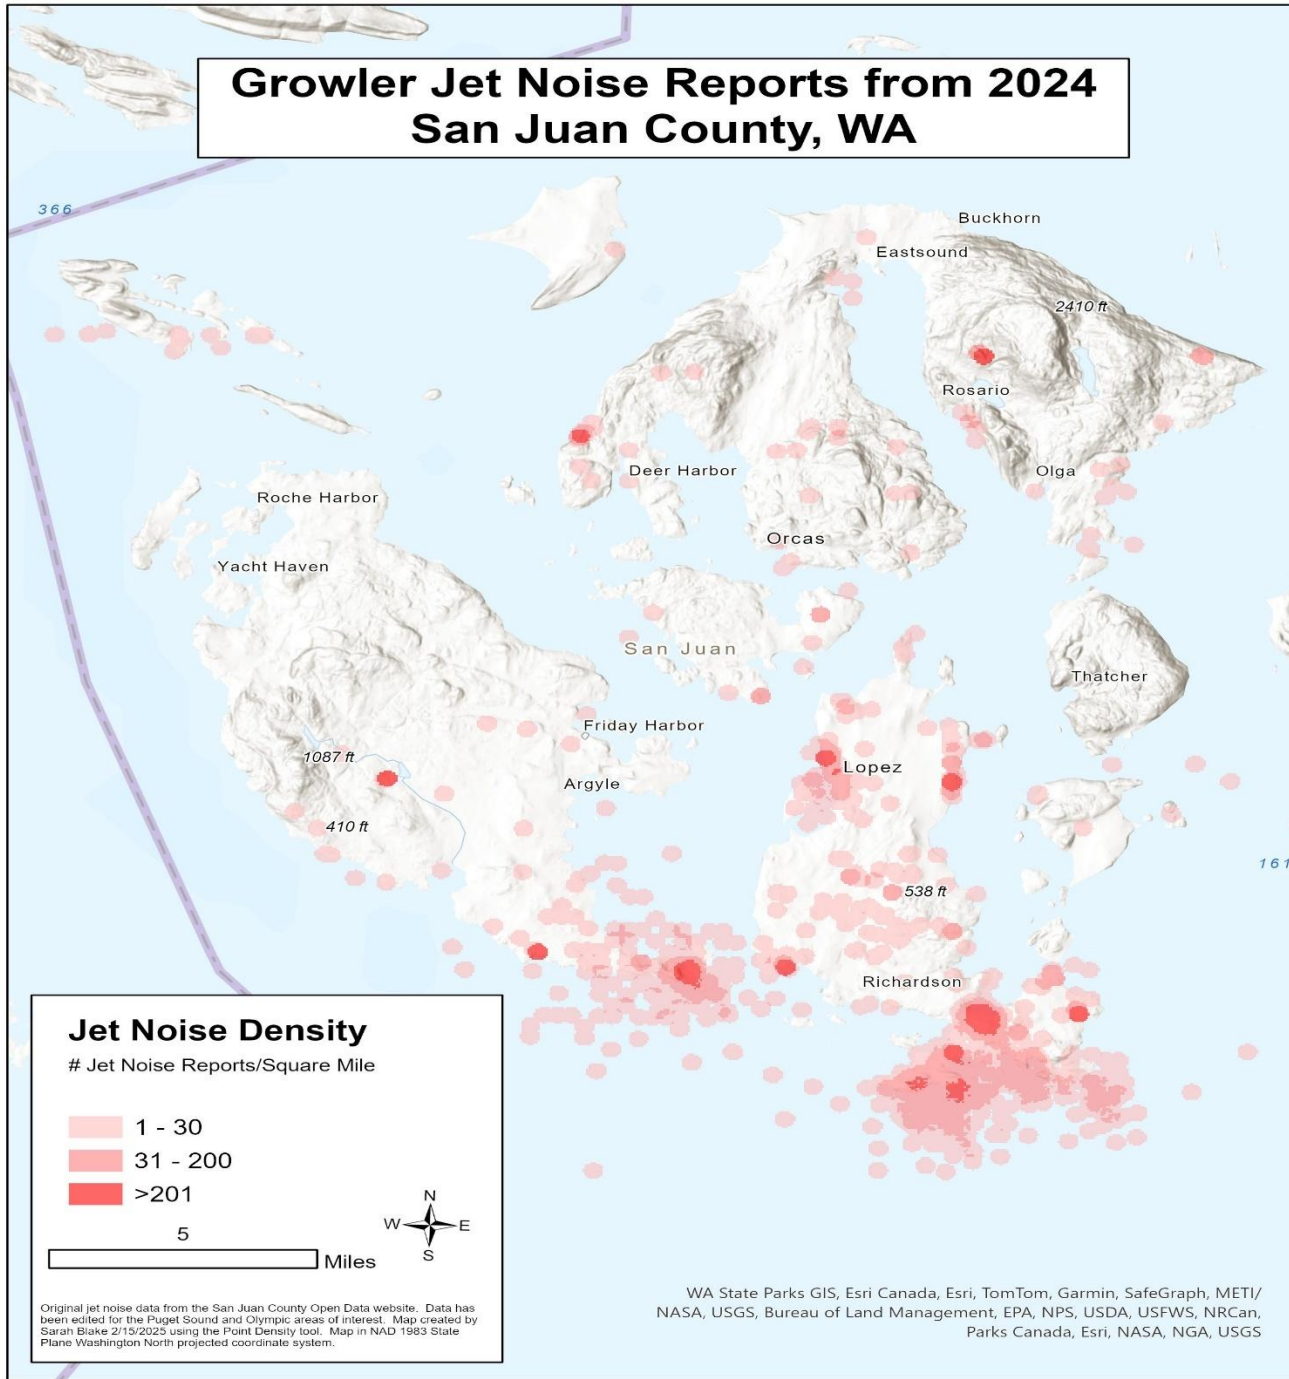

Of particular note is the reach of Growler Jet noise to the Olympic Peninsula, particularly the Olympic National Park/Forks area.

On the next page, parts of the map are enlarged for a view of San Juan County and Island County. These maps are reduced to fit the page.

A density map for 2025 will be produced within the near future.

Growler Jet Noise Reports from 2024 San Juan County, WA

Comments Submitted with November and December, 2025, Reports

NOTES:

Some reports indicate decibel level. Lawnmowers, for example, generally produce 90 dB. How would you like to have that running inside your home? Noise over 70 dB for a prolonged period of time is harmful to your ears and can cause permanent hearing damage. Noise over 120 dB can cause immediate harm to your ears.

Some of the people who submit a noise report also list their home address or phone number or e-mail. In this report, those personal identifiers are deleted/modified, as are expletives.

17 flights between 11:05 this morning and 6:05 this evening. I was able to measure 11 of them with my db meter. Most were in the 60 to 75db range but one was 79db at 2:10PM and one at 1:35 hit 96db.

Impossibly loud flights over Mt. Vernon at 10:10am. I don't know how they're allowed to do this. This is like shoving your head against the loudspeakers at a stadium concert. At the very least, they should publish an accurate flight schedule.

Cape St Mary SE end of Lopez Is, WA

94db

Awful threatening thunder this evening, like explosions in the distance, shuddering the floor, with occasional screaming warplanes nearer by. Anacortes near ferry terminal. Navy abuse of the region continues. This belong elsewhere.

Nothing like a nice start-of-the-workweek, 9 am Monday morning flyover by the loudest machines on the planet to remind you that the nightmare continues and no one seems to care.

Sinister thunder rising and falling, echoing off the clouds and water , wrecking any peace , now 9pm. These are unearthly and deeply disturbing sounds. Anacortes near the ferry terminal.

102db. !!!

The Navy has been flying their war machines South of Mt. Vernon for the last two hours. It's 8:30pm and they're still out there tormenting citizens who don't even know we're at war with ourselves.

Thanksgiving holiday was so wonderful partially because of the blissful sounds of nature without us navy warplanes day in and out. War practice over civilians- harming those who are they are paid to protect. Anacortes, Monday. All day

All. Day. Long. The Navy tormented Mt. Vernon the entire day. Started in the morning with breakfast and still going at 8pm while trying to clean up after dinner. It's only Monday and I feel like my head has been glued to a leaf blower for a week.

This is the first week of Advent. What are the Growlers doing with their outrageous noise? Pissing on this time of the year.

Very loud and over a preschool. Very hard to concentrate and kids are affected by it. Repeated flights and jets seen flying.

"Very loud.

100+ dB THIS SHOULD BE REPORTED TO SOMEONE IN USN COMMAND THAT HAS THE COURAGE TO END THIS ASSAULT ON THE CITIZENS OF PUGET SOUND

6 flyovers in the last 30 minutes. The last two registered 94db and 97db.

After 9am on a Tuesday is already marred by intermittent metallic shrieking from navy Warcraft overhead. Navy called EA -18 G noise profile similar to the previous generation Prowler. A lie with intent. This is dangerous noise. Anacortes

Big sub hunter overhead. F***thenavy

Big sub hunter overhead. F***thenavy

Cape St Mary area, SE Lopez Is, WA

For an hour now.

F***thenavy

Growlers flying over Port Townsend all day long.

Growlers overflying with maximum exhaust noise.

No noise is lasting for over a minute

Right over our town. NO!

Six more flyovers since my last report about 30 minutes ago. These were all in the 70-75db range.

Started with a abrupt very loud noise that scared every. It was loud enough, we couldn't have a conversation. it lasted a couple minutes and then gradually faded.

This is week 3 of circling over our home. Extremely loud. The Navy boys should reconsider their annoying flights. We think they are unnecessary. The Navy is getting a black eye over Venezuela murders. Remember how the Nam vets were hated by public

Two Growlers in formation just overflew w. CAMANO wheels and flaps down passing very low ... now another Growler overflying with MAX exhaust noise ... and yet another Growler approaching from the SE.

85db

86db

95db

After all day navy war practice overhead and nearby, rumbling, roaring and screaming at times- it's dark and there is sinister roaring from the south, Ault field first 3 days of the week torturing the neighborhood. Still at it. Anacortes evening.

Another full day of roaring after several in a row- at least nothing directly overhead now, but the deep roaring is very disturbing and just nothing one should have to live with. Long term stress is extremely unhealthy. Navy harming the public.

Brutal this month

Growlers circling. Especially loud.

If I filed a noise complaint every time I hear a growler I would never have time for anything else

Intermittent but repetitive flyovers much of the day, loud enough to vibrate the house and hurt our eardrums with the concussion. Frequent distant screaming, then periodic crashing sounds as they fly nearby and interrupt any kind of concentration.

Loud growler s flying overhead. The constant noise of jets is overwhelming after years of disturbance. The Navy doesn't care about the safety or health of those who live under and around their warplanes. F***thenavy

Mother f***ers!!

Multiple Growlers circling conducting landing drills.

no money to feed hungry kids, but plenty of jet fuel for fascism

Roaring roaring roaring jets overhead and in the wider area

Rumbling and vibrating all afternoon on Monday

Sinister thunder- so unlike sounds from commercial aircraft. Shaking, rumbling, disquieting- for stretches of time and off and on all day. Harmful to health of civilians. West side of Fidalgo Island. Near Washington Park.

Sounded like they were landing on our house

Third day in a row of Sinister Roaring in the heavens emanating from NAS Whidbey. it's not like commercial jet noise and it is NOT like the Prowler noise from before the Growlers. It is deep and threatening and awful. Anacortes near the ferry.

Third day in a row of very loud , insane Warcraft noise. Navy war practice over civilians neighborhoods. This is abuse and unhealthy for affected populations. Anacortes. Wednesday- off and on for hours today so far.

This is not scheduled??

Trying to listen to the TV that is over ridden bt Growler jet noise.

We are using decibel meters and find the jet overflights to routinely peg above 100 decibels multiple times a day, the maximum weekly limit to avoid permanent hearing damage is 20 minutes per week of 100+ decibels.

Windows closed and the noise is still disruptive

"WTF!!

This is not on flight schedule!"

4th day in a row of navy war practice with low flying EA 18 G aircraft overhead, dangerous flying with harmful levels of noise, from metallic thundering screaming, to home rumbling shaking deep vibrations, off and on all day. Anacortes Thursday

92db

At this time of night "Disturbed" becomes "Extremely Loud"

Between 11:15-11:45 PM there were at least 8 flyovers that all registered in the 70-85 db range.

Business phone call interrupted twice by Growler noise. Seemingly multiple Growlers creating constant noise.

Eagle Cove

Eagle Cove

Eagle Cove

Eagle cove

Eagle Cove. Low, long rumbling.

First I had trouble hearing the bank teller inside over navy war jets and then walking outside of the post office needed to cover my ears to protect my hearing- downtown Anacortes mid day Thursday. Unsafe place thanks to us navy practice overhead.

Growlers are flying earlier than usual. The noise now begins before 7:30AM. It has continued unabated to the present and will almost certainly continue all day and into the evening. Very disruptive.

I was out on a peaceful walk in the forest with my 18-month-old toddler. The noise frightened him and made him cry.

It is such insanely deep rumbling grumbling shaking- felt and heard. This is such an unnatural and creepy sound and sensation. Anacortes near the ferry weeknight evening. It is normal for here - unnatural and unhealthy for civilian population.

Just leaving Anacortes via ferry to Lopez. 2 Navy jets passed overhead, one right after the other.

Long loud rumble. Eagle cove

Long, low rumble. Eagle Cove

2 growlers right over town f***thenavy

Loud and long

Loud in Fernwood bc again. It's late why are they doing this

Low rumble

Low Rumble

Rattling windows

Shaking windows

Tuesday Evening Anacortes near the ferry- from the south creepy rumbling groaning explosive sounds. Threatening sounds that stimulate the nervous system like natural disaster such as earthquake would. Sound- hard wired to create anxiety in humans.

very loud today. off and on since noon, also last night

102db,

102db 🤯

"Center Rd., Lopez Island

The Jets have been excessively loud for the past week and I'm just so tired of it

It's hurting my ears and vibrating my chest

Can't be good for me"

5th day in a row of hard flying dangerous navy warplanes all day out of NAS WI. This has varied from extremely loud to rolling sinister thunder as heard from Anacortes. This has no business over the heads of civilians unless goal is to harm us.

Cape St Mary area, SE Lopez Is, WA

Cape St Mary area, SE Lopez Is, WA

Loud in the Fernwood area of Victoria bc

5th day in a row of terrible deep thunderous cacophony from us navy war practice overhead & nearby. These aircraft create sounds unheard of from commercial aviation OR the previous navy electronic warfare planes. Unsafe over civilians. Anacortes

89' over house. 94 dB. Must be Usnc reaction to election results. Next request under Federal information request..

99db

Four flyovers in 20 minutes between 4:10 to 4:30 PM today. All registered in the 60-75db level.

get f***ed

Multiple flights, lost track counting, but about 10-12 in the last half hour all extremely loud. Didn't have my db meter for the first few but recorded 90-97 db max for the ones that I did have it on and the others were just as loud.

2 growlers right over town f***thenavy

Six flyovers in the last hour all very loud but I am not able to go outside to record them on my db meter because it is raining. This last one just a couple of minutes ago would have been in the 90db area because the house vibrated.

Such a beautiful view out over the water after a big rain shower- complete with rainbow, and then sky shredding metallic shriek and following awful thunder of navy warplanes desecrating the air. Anacortes ner the ferry. Tuesday.

Surely you have some fishing boats to rocket.

Two growlers - very noisy

Wind is blowing at 22 and jet noise still loud and jarring.

Woke my son up

After a day of creepy shuddering thunder from the south, now it's intermittent metallic shrieking of crash prone navy Warcraft in western Anacortes near the ferry terminal. Thursday evening.

All. Afternoon. Such deep thundering racket despoiling the heavens and the earth. Making the south side of my home and my body shudder. Navy growlers at Ault Field. Afternoon Thursday, Anacortes above the ferry terminal. Abuse.

LOUD!!

LOUD!!

Another pass just now at 87db. They always seem to be the loudest and most frequent at this time of the day lately.

Another unacceptable Growler jet noise intrusion into our lives. It is a big lie that they are protecting us when we are subjected to this level of noise.

Awful peace wrecking deep shaking roaring from the south all afternoon- Anacortes near the ferry terminal. Such disquieting noises, makes one uncomfortable and not at peace. This is unhealthy way to exist- raising cortisol levels. Civilian abuse

Eagle Cove

Eagle Cove

Eagle Cove

Growlers are making an already miserable, stormy day all the worse with their constant roar. The Growlers sound like a category 4 hurricane.

Just another cloudy, windy typical fall day in Anacortes, towards Washington Park and it sounds like the world is ending to the south-echoing roaring scraping, thundering sounds. It is unnatural and otherworldly. Threatening and awful.

Just had a flyover that reached 97db.

The PoS Navy has been tormenting the Mt. Vernon area all day, but the impossibly loud one that just went over at 3:05pm should get someone court-martialed.

Third pass in last 20 minutes this one at 72db.

F***thenavy

Less than 150' over house. 89.3dB.

Nothing like Growlers roaring overhead early on a Sunday morning.

The Growler jets continue to repeatedly demonstrate their contempt for the environment and everything that's living. They are the sound of destruction!

The Navy's being a f***ers today. Every 45 minutes or so, another two jets are blasting the Mt. Vernon area. Hurt my ankle running into the house.

98db

Lopez village. A growler is ripping the sky apart right now. So LOUD. Screaming and roaring. Why are you flying over Lopez Village? December 8 11:10am.

Cape St Mary area, SE Lopez Is, WA

Cape St Mary SE end of Lopez Is, WA

Mt. Vernon at 2pm. Walked to the mailbox and heard one jet after another for ten minutes straight. Not a single moment without extremely loud noise. Anyone using models and noise averaging is LYING to you. This noise is constant.

South Lopez. Disturbed by fairly continuous low rumbling from Whidbey this morning. Just a deep noise that gets under my skin. There it is again. 9:35am Dec 8.

waiting in ferry line when the sight & sound blasted us

16 flyovers today between 9:45 AM and 8:30 PM. I didn't get to use my db meter on most of them but did record three between 2:45 and 5:25 that were all at 85db. One at 2:40 was 74 db.

5pm. Dec 9. South Lopez. Prolonged rumbling roar. I feel the vibrations through the floor.

75 dB peak. 2 minutes over house.

A family member was caught outside when jet training started - they immediately flew so low & loud that she experienced headaches, nausea, and ringing ears for more than an hour afterward. The pilots flew so low the house shook - it's hurting us!

A number of aircraft have passed in the last 10 minutes making noise loud enough to upset our one year old on a walk and make him cry.

Another terrorist attack from the Navy at 10:35am over Mt. Vernon

Dec 9, 3:34pm. South Lopez. I don't have time to report every stupid annoying deep vibrating rumble from Whidbey as they rev their Growler engines. We are getting blasts, blasts, blasts, blasts.

Flights on Camano and flights in Stanwood. There is no where to go to get away. Trying to homeschool is challenging with all the flights no matter where you go.

Growler roaring coming from Whidbey. Doors and windows closed and the noise and vibration still rolls into our home. South Lopez. 3:27pm, Dec 9.

I can hear the jets even in a wood shop full of running equipment.

It was quiet at 8 pm then comes the sound, the feeling, the deep shaking rumbling groan like an avalanche, an earthquake or distant explosion, on repeat. A horrible sensation and sound though penetrating instead of loud. Navy felt in Anacortes

It's been extremely loud all day , even now as I type this there's more flying over. Since around 1pm it's been almost constant

More jet roaring from Whidbey. Miserable afternoon of jet noise while I am trying to concentrate on my work. S. Lopez. 12/9.

Multiple Growlers looping through simulated landing drills creating UNINTERRUPTED noise!

"NASWI is disturbing the peace and is able to access one's property under the delusion they have the right to destroy the OLF environment and at adjoining areas with reckless abandon.

Navy terrorists have been attacking Mt. Vernon most of the day (Tuesday, Dec 9). I get to take my earplugs out for 2 or 3 minutes to have a conversation and then back in.

Ouch

SCREAMING ROARING Growler over Mud Bay, Lopez. Heard it coming, then it was over us, now it is still roaring away. Maybe two of them? Obliterated all household sounds. Came from mid-island. 10:03am, Dec 9. What is the Navy doing flying over Lopez?

Terrorists flying over Mt. Vernon at 9:40am, bombing civilians with sonic weapons.

The jet engine roaring from Whidbey is almost continuous. It is disturbing because it is a threatening noise, a noise unlike other normal indoor and outdoor noises. It sounds like a war is happening nearby. South Lopez. Dec 9.

The terrorists are back over Mt. Vernon at 10:20am

Time may be off by a minute or two.

VERY LOUD jet at 8:15 am. Trying to get ready for school. Very stress and changes the mornings dynamics.

Work trips are tiring, but returning home on a Tuesday to the echoing sounds of navy war practice is beyond disappointing- as soon as I step out of the car it sounds like earthquakes and avalanche from the sky. Disturbing. Anacortes

Anacortes. Growler making horrible screaming noises. Dec 10

Another day of Mt. Vernon being tortured by the Navy starts at 11:05am. I knew it was coming because of the loud rumbling earlier this morning. Scum.

Growler jets are beginning to fly and are disturbing the peace at dinner time. They do not belong in this place near OLF Coupeville, for they are forever destroying this environment and do not give a damn that they are. Nut case NASWI fly elsewhere!

Jet noise was almost constant yesterday but mostly off in the distance. I didn't get to record 11 close flyovers between 10:40 AM and 7:42 PM with the loudest one at 3:05 PM which registered 97 db.

Jets have been flying about 1hr and 45min. This recent pass was loud enough to disrupt my phone conversation. Definitely too low and loud

Loud and lots of them!

Loud enough inside I cannot hear the television. Sounds like a war outside. Because it is war practice over the heads of civilians, echoing off the water and clouds. Awful racket that belongs far from civilians. Anacortes near WA Park.

LOUD!!!

No longer screaming close, but sinister crashing, shaking thunder is wafting up from Ault field. Such inhuman creepy sounds penetrating my home and body. Navy intrusion- hours today so far. 7pm Anacortes above the ferry terminal.

Oh my lord, what are they doing right now??? Right over our house, sounds like haphazard low flying all over the place. No normal activities can take place in our home right now. So scary. We should not have to be afraid of our own military.

Peace free December continues in Anacortes- west side. This level of noise bears NO resemblance to life before the growlers replaced the prowlers. NONE. That was a navy Lie to get approval. This s harming the public. 5pm.

Several jets passed by throughout the day and noise was so loud it hurt my ears and the ears of those around me. There was extreme rumbling and we had to just wait it out before being able to resume activities or hear again.

sitting outside once again blasted with sound

South Lopez. Booming vibrating roars from Whidbey this morning and now we have a Growler roaring over us. Disturbed and annoyed. Dec 10.

There is no scheduled flights????? WTF!

USN you continue to suck

Very loud Growler roaring. Anacortes. Dec 10 1:55pm

Almost continue growler engine run ups from NASWI. Very disturbing. 5:35pm. Dec 11 . Southend of Lopez.

Between 9am and 9:15am, I've gone outside a few times and there's always the ghastly sound of distant jet engines preparing to torment everyone in three counties. It's going to be an awful day. I'd make a deal with the Devil at this point.

Constant growler engine rumbling from Whidbey. S. Lopez. Dec11

Disruptive jet engine roar. Long and loud from Whidbey. S. Lopez Dec 11

Extremely loud even inside the building, planes flying very low

F*thenavy**

Growler landing drills with multiple aircraft .. constant peak noise level.

Growler roaring . South Lopez. Sound like it is looping around.

I hear some of these scum are down in Puerto Rico, preparing to commit war crimes for the traitor-in-chief. We know they'll do it because they've been committing war crimes against their own citizens for years.

It is devastating to live near the ocean and so many state parks . You can only enjoy them when it's the weekend or holiday . Came out to Deception Pass state to do some grief walking and forgot my noise canceling EarPods

It's 5:10pm and after an ENTIRE DAY of rumbling, the jets are now doing extremely loud flights over Mt. Vernon.

It's not even 9am yet and I've already had multiple extremely loud flights over my Mt. Vernon home. Going to be a painful day of Navy terrorist attacks.

Loud jets as we are waking up and getting ready for school. The stress you can feel in your body. It affects relationships and even quality of work.

LOUD!!

More vibrating roars from Whidbey. 5:34pm. Dec 11. S Lopez

Mount Vernon. Growler jet roaring over us. Too loud.

Thousands are being evacuated from this county and in a state of emergency and yet these Growlers keep practicing and causing unneeded distress on the community? Wild.

Thousands are being evacuated from this county and in a state of emergency and yet these Growlers keep practicing and causing unneeded distress on the community? Wild.

Thousands are being evacuated from this county and in a state of emergency and yet these Growlers keep practicing and causing unneeded distress on the community? Wild.

Thousands are being evacuated from this county and in a state of emergency and yet these Growlers keep practicing and causing unneeded distress on the community? Wild.

Thousands are being evacuated from this county and in a state of emergency and yet these Growlers keep practicing and causing unneeded distress on the community? Wild.

Thursday evening, intermittent screaming warplanes sounds once again tearing up the night in western Anacortes. It has been every day- disturbing and destructive. This is nothing like "practice" with the prowlers. Equivalence was a LIE.

Time may be off by a minute or two.

!!!!!!

9:19am. Dec 12. Southend Lopez. MORE jet roaring. Just flying around? Looking for people to disturb?

again the incredible blasting inside my body & waiting to end

Between 11:45 and 12:40 I recorded 8 flyovers but there was probably more because they just started blending together they were so close. 1/2 were 70-80db 2 were 90db and one at 12:25 set the new record of 103 db. This is looking like loudest day eve

Constant roar

Eagle Cove. Long. Loud.

Growler roaring over Lopez Village. Dec12. Why?

Growler screaming over Lopez Village. Deafening. Unfortunately I am outside. Flying over populated areas is abusive. Dec12, 11:34am

Growlers are screaming and racing over S. Lopez. Tearing up the sky. I was outside a minute ago and came in because it was so loud I was worried about my hearing being affected. What is the purpose of using Lopez as the NASWI training ground?

Growlers going intermittently all day, right now one is so low everything is rattling and my eardrums are going crazy with the vibrations . Terrible

Growlers have begun circling again.

Hurt my ears. Causing hearing loss. Pavey and Mud Bay Roads, SE end of Lopez Is, WA.

I can remember the first time I heard a Growler.... It was such an insane earsplitting cacophony- I had no idea what it was, also with the deep explosion sounds. The navy said "no louder than a prowler." No comparison. A lie. - Anacortes

I wish we were having a tsunami destroying the Navy bases instead of floods destroying homes and businesses. And, of course, the Navy is still out there terrorizing the citizens of Mt. Vernon right now.

Eagle Cove. Long. Loud.

Eagle Cove. Loud!

Impossibly, unbelievably, painfully loud Navy flight over Mt. Vernon at 4pm. The noise was so powerful, it felt like something was pushing me.

It is unsettling to hear this loud rumbling into the evening. Many times it continues as late as 10-11pm when we are trying to sleep

It was amazingly pleasant the last two days with the Navy taking a break tormenting people. Sadly, they're back to being inconsiderate, incompetent asshats. Excessively loud flyovers of Mt. Vernon again.

It's Friday morning and now I can say it's the 5th day in a row of at least intermittent screaming overflights by navy Warcraft, practicing for war over

civilians. west Anacortes near Washington Park. Much of this can and should be far from people.

Jet noise has been extremely loud the past few days. Workers outdoors reporting ear pain from jet noise.

Keep in mind that the Growlers are still doing these practice flights with the current catastrophic flooding taking place in Mt Vernon less than 30 minutes away

Loud rumbling since noon today, continuing at 7pm.

Multiple Growlers circling causing very loud, uninterrupted roaring jet exhaust.

Navy scum terrorizing Mt. Vernon again at 5pm

One after another, earsplitting with minute of sinister thunder after. For hours off and on. Flying all week. West end Anacortes ner Washington Park.

Over an hour and a half of loud noise

Pavey and Mud Bay Roads, SE end of Lopez Is, WA.

Rediculous noise durng dinner for as we all know NASWI dosen't care how all of us are suffering from their Growler jet noise, carcenogenic microparticulates, PFAS toxiins under their grandiose assumption they are protecting us.

Repeated screaming loud navy growler overflights, each echoing for minutes, cannot hear anything inside during this, and the deep part shudders house and body. An assault. Anacortes near the ferry Friday afternoon.

Just recorded the loudest flyover I have ever recorded at 99.6 db. Two other flyovers within the next 5 minutes were only at 60 and 68db. So why does one plane have to be so much louder than two others at virtually the same time? Not atmospheric cond

Roaring

Rumbling, vibrating noise coming from Whidbey. Run-ups? Growlers taking off? VERY LOUD and disruptive. Southend Lopez. Dec 12, 1:19pm

Running some errands in a busy downtown Anacortes and there were multiple earsplitting overflights by navy growler Warcraft, flying very low in the clouds- putting everyone below at risk. These plans crash multiple times a year. Friday.

S Lopez. ANOTHER growler roaring over us. Dec 12. 1:53pm. So loud it outdoes our stereo in our home.

SCREAMING AND ROARING GROWLER over Mud Bay, Lopez. Obliterated all household conversations. What is the purpose of flying over this area? Terrorizing us in our homes. Invading our homes. Dec 12. 9:16am.

Series of low rumbles during the day and evening

So loud I cannot hear the TV audio.

South Lopez. 9:03am. BIG rumbling roar from Whidbey. Dec 12

South Lopez. dec 12. 12:35pm. LOUD Growler swiping through the sky. Very Loud.

Still roaring

Successive loud rumbling jet engine roars from Whidbey. Must be firing up all the growlers. South Lopez. Dec 11. 9:08am.

The entire Saratoga area of west Camano has been shaking as multiple Growlers have been overflying, low and loud!

very loud rumbles today

Window rattling, eardrums hurting from Ault growler(s)

LITERALLY painfully LOUD!! It's traumatic. Multiple Growlers have been overflying West Camano for the past 30 to 40 minutes, at EXTREMELY low

altitudes and with maximum jet exhaust noise! Why are they overfly Camano Island's westside? It's BS!

Ridiculously loud such that a conversation was impossible inside my house. You are destroying these communities, health and all.

"We have constant flights over the Methow Valley, all day long.

Sometimes three an hour, minutes at a time. They last until 11:00 p.m. "

2 very loud flyovers within 10 minutes at noon.

61 dB. Low over south Lopez

89.2dB recorded .

The Growlers are at it AGAIN!!! West Camano is being repeatedly overflowed by multiple Growlers this morning! Exactly as occurred MOST of yesterday afternoon. Terrible noise.

The non-heroes in the US Navy have been torturing the citizens of Skagit all morning. I've had to have my earplugs in (indoors) for the last two hours.

Third flyover in last 20 minutes this one reached 71db.

Two loud passes within 5 minutes of each other at 10 AM. First one at 81db and 2nd one was 71db.

Extremely loud does not begin to describe the noise over admiral's cove this evening. Absolutely appalling that this practice continues to be allowed

F YOU!

F-ING STOP!!

I hope it's incredibly dangerous to fly during a wind storm, because any organization that will do this to people while they're trying to get through record flooding deserves to crash and burn. F*** the Navy!

I'm attempting to get over cancer and GROWLER JET NOISE IS EXACTLY WHAT I DO NOT NEED!

Jeezus!!! STOP!!! So Loud!

Jeezus!!! This is extremely awful!!!!!!

OMG! STOP! I feel sick!

PLEASE F***ING STOP!!!

Record flooding, risk of landslides, heavy winds, trees falling over... AND we still get to deal with the Navy attacking people. At least three extremely loud flights so far between noon and 1pm over Mt. Vernon.

"Shame on you!!!

You war pigs!!"

STOP!!!!!!!!!!

This noise is unbearable. I have to eat dinner with with headphones on my head, and still the sound of the Jets feels like that they're flying right through my kitchen in Coupeville.

You are destroying my property value!

Another unnecessarily and stupidly loud flight over Mt. Vernon at 12:45pm (just five minutes after the last terrorist attack)

Enormously, unnecessarily, stupidly loud flight over Mt. Vernon at 3:56pm

Extremely loud. Disrupted construction work for multiple minutes. Shouting could not be heard over the jet noise and ear protection was required after a minute.

Monstrous roar of a Navy jet over Mt. Vernon at 12:40pm

One terrorist attack is never enough for the Navy. Another insanely loud flight over Mt. Vernon 2 minutes later at 3:58pm.

Scumbag Navy bas*****! Three EXTREMELY loud flights over Mt. Vernon between 7:50 and 8:10pm

terrible

Been a really "fun" day with the Navy. Constant explosively loud flights over Mt. Vernon. It's 2:55pm and they're still going.

Looked at the clock at 5:58pm and figured the Navy would surely be done terrorizing Mt. Vernon by now. Took my earplugs out and was immediately hit by a sonic weapon.

Multiple Growlers are creating extremely loud and very disturbing jet exhaust noise! Circling and producing uninterrupted peak levels of NOISE!

Navy cowards are out attacking the unarmed citizenry of Mt. Vernon again at 11:10am on Monday. Incredibly loud flyover that easily got through my defenses (walls and earplugs). It's too bad the Navy leadership is so incompetent.

Navy jets have been flying overhead all afternoon. I have given up trying to count them. Dozens of flights with the latest one happening one minute ago and registering 87db!

Navy terrorists attacking Mt. Vernon again at 1:40pm. At this point I may as well just leave the earplugs in all day.

Roaring low over south Lopez. Trying to go to sleep

Since my last report about one hour ago there has been at least a dozen more flights pass over here. This has been one of the worst days I can remember with constant flights all afternoon. Never more than 10 minutes between flights.

Six flyovers in the last 30 minutes all in the 70-75db range. I live next door to Anacortes High School. Hard to imagine this doesn't disrupt learning when the flights are so close together.

So loud!

The worthless Growlers have been torturing Mt. Vernon all morning. Just scrap those pieces of junk and move on to drones. You're already outdated (like most of the Navy)

They just keep coming. At least 12 more since my last report 30 minutes ago. This last flight hit 100db! First time I have recorded one that high. I guess I am going to have to sell the house I just bought 1 year ago and move somewhere else.

Yet another unbearably loud flight 5 minutes later. There's barely been a 20 minute window without painful levels of noise between 11am and 3pm. Anything outdoors in the Mt. Vernon area is almost certainly hurting.

3rd roaring run over south Lopez

4th roaring Growler run over south Lopez.

71 dB roaring low over Lopez Island. Days after day

F*** the US Navy and it's policies were destroying our neighborhoods

F***thenavy f***thenavy f***thenavy f***thenavy

Roaring over south Lopez. Talking stopped and dog was barking.

Second and third roaring runs over south Lopez. Why not over water and away from people?

Stupid! Second loud run in a few minutes over south Lopez

There have been at least 10 overflights in the last 1.5 hours, and there were many more this morning. Disruptive indoors, and punishingly loud outside.

Time may be off by a couple of minutes.

Was in a field and everyone had to plug their ears

Why dose NASWI destroy the environment near OLF Couville when they can fly elsewhere? What is the deleterious consciousness that enables this

to happen, and who permits to occur, and who builds the Growler jet's electronics, and who invests in it?

Within 5 minutes or less 5 navy jets just flew over all extremely loud. Had to run to get inside of the house because my ears were ringing and still are.

Eagle cove. American Camp. Long and very loud!

Eagle Cove. Long Loud

Eagle Cove. Long, loud.

Eagle Cove. Very loud and long rumble with vibrations!

Hard to put the kiddies down for a nap with these damn jets.

Hearing a low rumble ranging up to rumble and vibration fairly frequently throughout the morning. This is pretty common to hear in Victoria; lately its been about once/week at least, depending on air conditions. It's irritating and unnerving.

LOUD!!

NASWI CONTINUES TO DEMONSTRATE THEIR TOTAL LACK OF ENVIRONMENTAL STEWARDSHIP AND CONCERN FOR ANTHINNG LIVING IN THE SEA AND ON THE GROUND. THEY PROTECT NOTHING HERE AND NEED TO BE DECOMISDIONED!

South end Camano. Loud flight stopping homeschooling during Math. No ok o interior school, work or sleep

Very loud, same thing yesterday!!

69 dB roaring over south Lopez

Anytime there is activity - we always hear a low rumble coming from the south.

F***thenavy f***thenavy f***thenavy f***thenavy

F***thenavy f***thenavy f***thenavy f***thenavy

Long and LOUD!!

Multiple Growlers circling

Near the OLF, NASWI Growler jets make it impossible to eat dinner or watch TV. They have no care for how we are being treated by the jet noise and other toxins. The real toxin is the consciousness that allows this to happen, and its supporters.

Not one, but TWO growlers, flying LOW over Orcas. TERRIBLE

"Not what I want to be hearing in the evening. Give it a rest! I can hear the rumbling through closed windows and a loud heater.

Eagle Cove. Long loud

Eagle Cove. Long and Loud!

So loud in our house. It is disruptive.

very loud, multiple times on and off this afternoon/evening

63 dB. Roaring low over south Lopez

Did a 40 minute hike in the Anacortes Forest Land today and for the entire 40 minutes there was no time that I couldn't hear any Navy jets. 3 flew right overhead and they ranged from 91-60db. The rest of the time was a distant low rumbling noise.

Growlers overflying west Camano Is. making huge racket!

Horrible ongoing roaring

In the Coupeville library, what is otherwise a quiet place to read and think is abruptly disrupted by Growler jet noise that has no place to exist in this otherwise quiet place.

Navy jet noise overhead woke me up from a nap.

Navy terrorists out doing a painfully loud joy ride over Mt. Vernon at 11:25am

This low and rumbling sound has been going on since early morning

Yet another sonic attack on Mt. Vernon at 2:30pm

Unscheduled

Unscheduled

Unscheduled

Why is a loud jet flying over the East end of Orcas. Loud and disruptive.

"77.2 dB. 200' over house

Merry Xmas a h"

Extremely loud.

It's absolutely disrespectful 1) they're flying unscheduled ("no flights scheduled" and 2) they're flying Growler training flights over the holidays

Wishing for a Christmas Miracle. Maybe the Navy Commanders could grow their hearts three sizes and realize the pain they're causing is preventable. For now, we've got extremely loud jets flying over Mt. Vernon at 1:02pm

113 db!!!;

9:30pm and these scum are STILL out there terrorizing Mt. Vernon. They've been going at it all day, almost non-stop.

At 12:38pm, there was another senseless attack on Mt. Vernon by the Navy. High density earplugs are the only defense, but they hurt to wear for too long.

Extremely loud and disruptive flights overhead, why do you hate the people and country you are sworn to protect?

Growler jets have returned under the pretext of protecting the environment. If this truly were about training and protecting the environment it is clear they could fly elsewhere.

Unscheduled

Unscheduled

Unscheduled

I see the news that the Navy finished repairs on their runways and resumed using them today so perhaps this constant torture is the new normal. This is an untenable amount of pain.

Jet noise all day long today but just recorded 100.2 db at this time today.

Last week, four nights straight of extremely loud low flying jets over Harrington Lagoon - Coupeville, Wa. Starting up again tonite=too much!!!

Mt. Vernon has been under continuous attack for the last hour. One after another after another. Even being indoors with custom earplugs, it's still disturbingly loud.

Multiple Growlers circling landing practice all evening. EXTREME JET EXHAUST NOISE

Eagle Cove

Eagle Cove

Eagle Cove

Navy terrorists have been attacking Mt. Vernon for the last half hour with what-should-be-illegal sonic weaponry. I've been hunkering down since noon.

F***thenavy f***thenavy f***thenavy f***thenavy f***thenavy f***thenavy

Sounds like it's going to be another "fun" day of at least one ear splitting, headache triggering flight every hour, which means keeping my earplugs ready to go and my anxiety at max. I hate the Navy so so so much. They've destroyed my home.

2 days before thanksgiving is a day of sinister roaring from the skies south of Anacortes. Disturbing and not peaceful. Navy constant war practice harms civilians. Find an appropriate place for this.

91db

Eagle Cove

Eagle Cove

Eagle cove

Deafeningly loud flight overhead, please find a better solution than these acoustic assaults on your own populace and sensitive environmental areas. There has to be a quieter engine and approach or different location for these flights.

Directly overhead. No longer can Lopez be considered "sleepy"

Even indoors with earplugs, these are the times this morning the jets were loud enough over Mt. Vernon to be disruptive: 8:05am, 8:45, 8:54, 9:05, 9:11, 9:24, 9:34, 9:53, 9:57, 10:02, 10:13, 10:22, 10:48, 10:59, 11:04, 11:21, 11:31

Flying low beneath low cloud and LOUD

Home from an exhausting 10 day work trip and immediately reminded how the peace of my home is compromised daily by navy war practice. Horrible echoing rumble, shaking groans in the skies to the south. Anacortes, morning. Near ferry terminal.

Horribly loud!

How can we enjoy the rural life of the damn jets can bombard us any where with their sound

It's 8am in Mt. Vernon and the Navy has already resumed the torture that went until past 9pm yesterday. Thanks for the brief respite, scumbags.

LOUD. Jets flew overhead for a full Minute. Lost again? NO reason to have a flight path over Lopez

Non stop

Our places of worship, quiet and solitude are no longer a refuge

over 80db measured on the ground for extended period

So far there's been an extremely loud flight over Mt. Vernon at 8:05am, 8:45am, 8:54am, 9:05am, and just now at 9:11am. This is incompatible with life. What caused the runways to need to be repaired and how do we cause it to happen again?

Steady roaring that goes on and on and on! We can't talk but have to yell to be heard, in our own house!

WAR ZONE. NON STOP FLIGHTS OVERHEAD. What danger does Lopez Island pose to the Navy. Crazy loud

Nothing like the "sound of freedom" harassing us early on a Sunday morning.

They're out in force on this early Sunday morning.

Lots of Ault growler noise

LOUD!!!

Multiple extremely loud flights over Mt. Vernon between noon and 1:45pm. Maybe as a New Year Resolution, the Navy could hire a competent person to report the flight schedule so the beleaguered citizenry can plan around the attacks.

Scum bag Navy spoiling the holiday break with their deafening flying ego capsules. How about you bastards do some real war games and try bombing your own runway.

All day and now onto the evening as

Another Top Gun Dumb and Dummer event during the Holly Nights of Christmas.

Extremely loud and disruptive and of course, right at dinner time.

f*** you.

Growler engine

Growler engine noise....extremely loud

Growlers shaking the house. God awful

I come here to voice my concerns, and a few months later the boys at the Navy base sit back, read our complaints, and giggle their collective asses off. It's very discouraging.

I now have noise canceling LOSS OF HEARING. Thank you.

It began at sunset. Growlers looping in sequence to conduct practice landing ... resulting in uninterrupted maximum jet exhaust noise!

It's 19:33 and they finally surrendered. Just in time too, I was about to go outside with my air compressor to fight back.

"Jeezus!!!

This country is going broke!!

And we have this loudness and waste!"

Multiple extremely loud lunch time flights over Mt. Vernon. If the Navy hadn't lied about their environmental impact, they'd owe us compensation

for the homes they've destroyed so we could afford to move out of here.
The Navy is dishonorable.

Multiple waves of 10 plus rumblings

"One jet overhead, just south of my address. So loud, I had to come inside with my hands over my ears. My husband and I could not carry on a normal conversation inside the house until the jet left the area. Flying pretty low.

New Year's Eve, eve. Some last explosive ground shuddering thunderous racket let down on the civilians of western Washington. Does not belong here on top of us. Navy has no regard for the health of American civilians. Daytime, west Fidalgo.

ROARED!!

Roaring on and off through the day. HORRIBLE noise

Rumbling, shaking shuddering thunder from the south. Sounds like distant explosions. So very unsettling, can feel in the bones. Navy war practice. Anacortes, near the ferry terminal. Evening, Tuesday.

SE end of Lopez Is, WA.

Terribly loud engine noise from growlers

The jets keep making left hand turns over my home. Three right hands turns would be safer.

"The roaring is rattling our eardrums. This is painful and horrible

This is ridiculous!!! The noise level is OFF THE CHAIN!!

Travel for work can be exhausting, but again and again my joy at returning home is tempered by the sounds of war practice- immediately impacts what should be relief and peace. War practice does not belong over so many civilians. West Fidalgo.

Trying some early evening meditation for health- impossible or at least very suboptimal with navy warplanes practicing all around, mostly low shaking shuddering thunder here with intermittent screaming . Belongs on a military reservation. Anacortes

Very loud and intense vibrations tonight

Way too many times today

What if we all turned on our vacuumed cleaners at the same time.

"WTF!!!!!!

OMG! This is awful!!!!!!!!!!!!!!"

All morning long.

Disrupted a walk in state park @ Fort Worden. Going home b/c this sucks!
Losing tourist \$\$\$. Too bad for this community.

For a Holiday Top Gun is Dumb and Dummer!

Growler noise on and off all morning, too many to log

Loud enough to disrupt conversation at state park

Multiple Growlers have been conducting landing drills since approximately 9AM, continuing to the present without interruption. As usual, because of multiple Growlers looping over Whidbey, there is NO break in the noise level .. JUST a constant ROAR!

SE end of Lopez Is, WA. Much test cell noise.

The navy is using our salish sea community as its personal war playground. We have no choice but to live with the oppressive conditions they impose on us! Any one of us if we created the noise and disturbance they do , would be locked up in prison!

Multiple Growlers generating extreme and constant noise!!!
