

# Jet Noise Reports, January 2015 – January 2017

Data gathered from reports filed on the  
San Juan County Jet Aircraft Noise Reporting website

<http://sjcgis.org/aircraft-noise-reporting/>

- ⇒ Reports for January 2017 and summaries of 2015 and 2016
- ⇒ Loudness Reports
- ⇒ Reports of Noise by Hour of the Day
- ⇒ Reports by Month
- ⇒ Comments submitted with each report, revealing human impact

**The number of Jet Noise  
Reports for 2016 were 10.5%  
higher than 2015.**

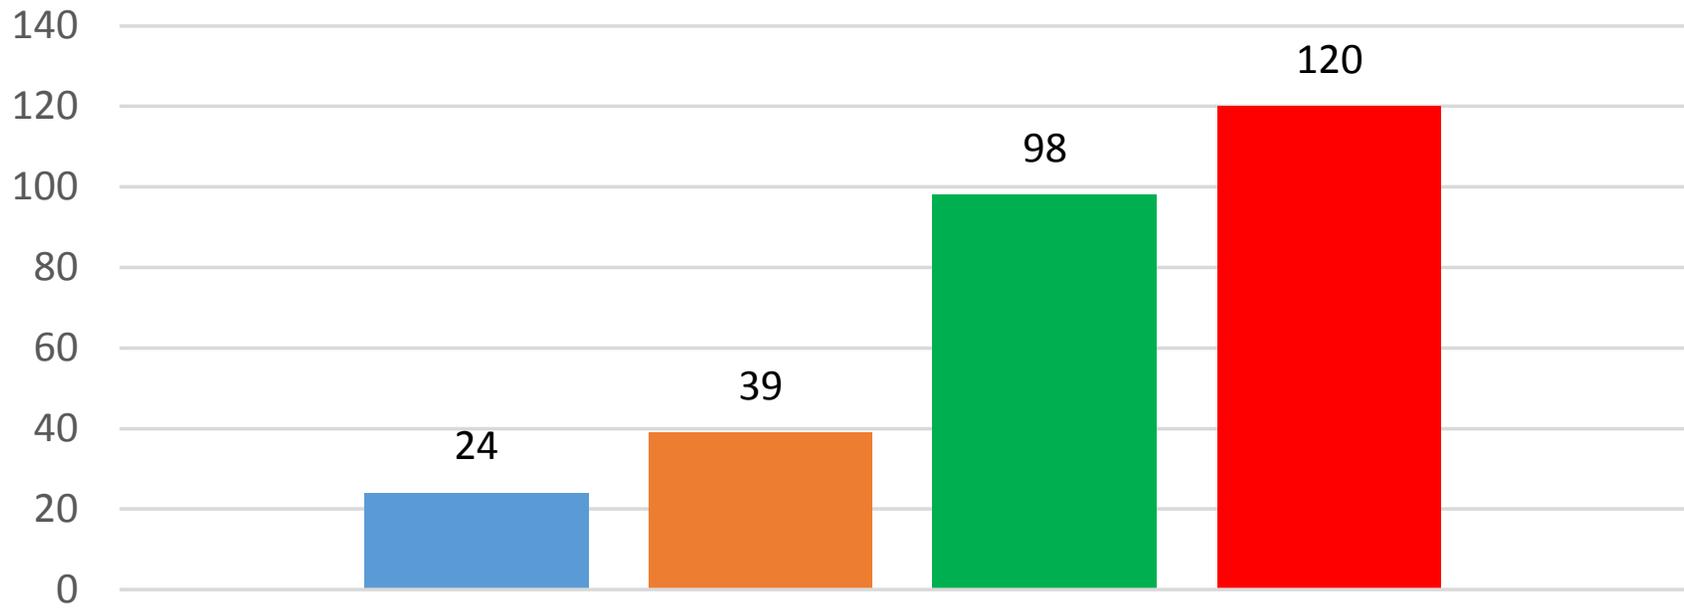

Reporting began on May 15, 2014; data has been analyzed since January 2015. Users of the website enter type of loudness, date, time, comments, aircraft type, etc. Due to the variety of devices used to submit data (e.g. desktop, laptop, I-pad, smartphone), data such as time of day can be recorded differently. Efforts have been made to standardize data. This report is compiled monthly; some monthly data may change in subsequent months due to late reporting which is not captured until the following month. Errors in totals are estimated to be less than half a percent.

*Special Note:* A number of comments reveal multiple incidents of jet noise, but the report is only counted once. Thus, the noise incidents are larger than the number of reports.

The San Juan County Jet Aircraft Noise Reporting website was developed and approved by the County to enable San Juan County residents to have a reliable source for recording and tracking their comments and complaints about jet noise from Naval Air Station Whidbey Island

# Jet Noise Reports by Loudness

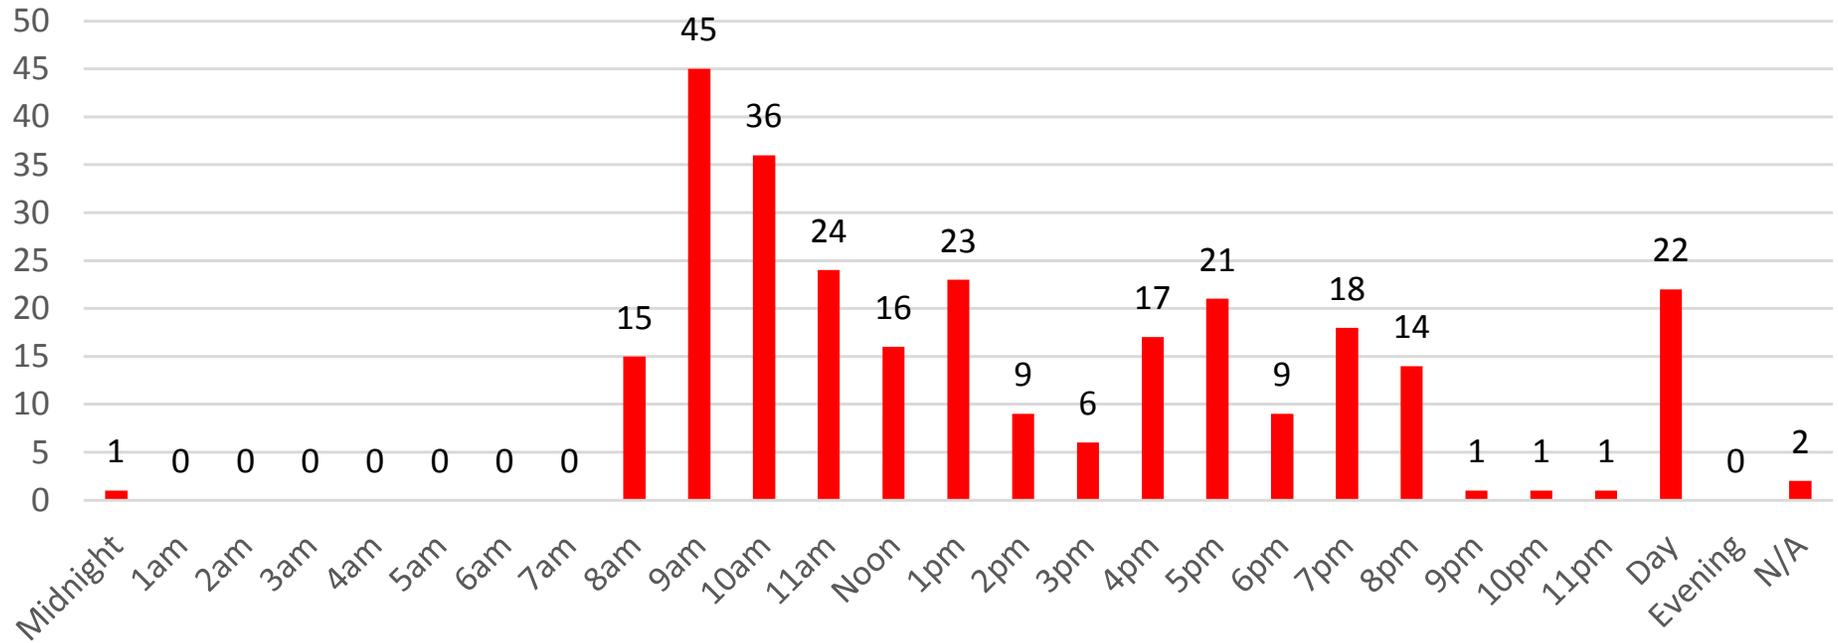

## January 2017 N=281

\*Jan 17

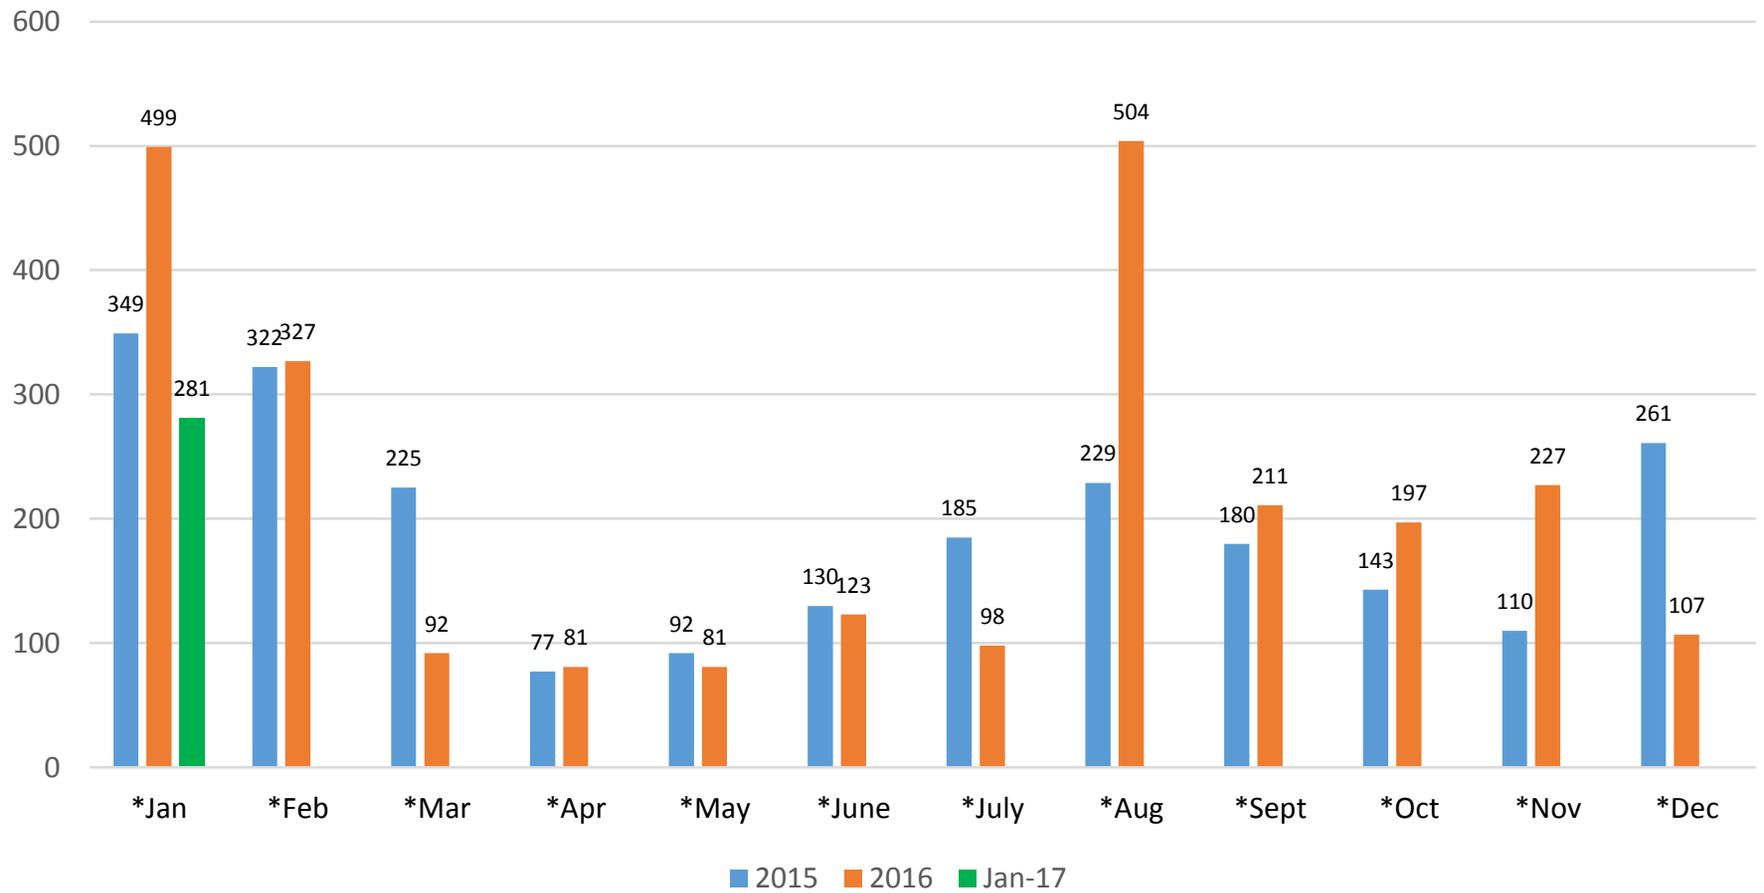

■ Low Rumble   ■ Disrupted Activities   ■ Rumble and Vibration   ■ Extremely Loud

## Jet Noise Reports by Hour of the Day January 2017 N=281

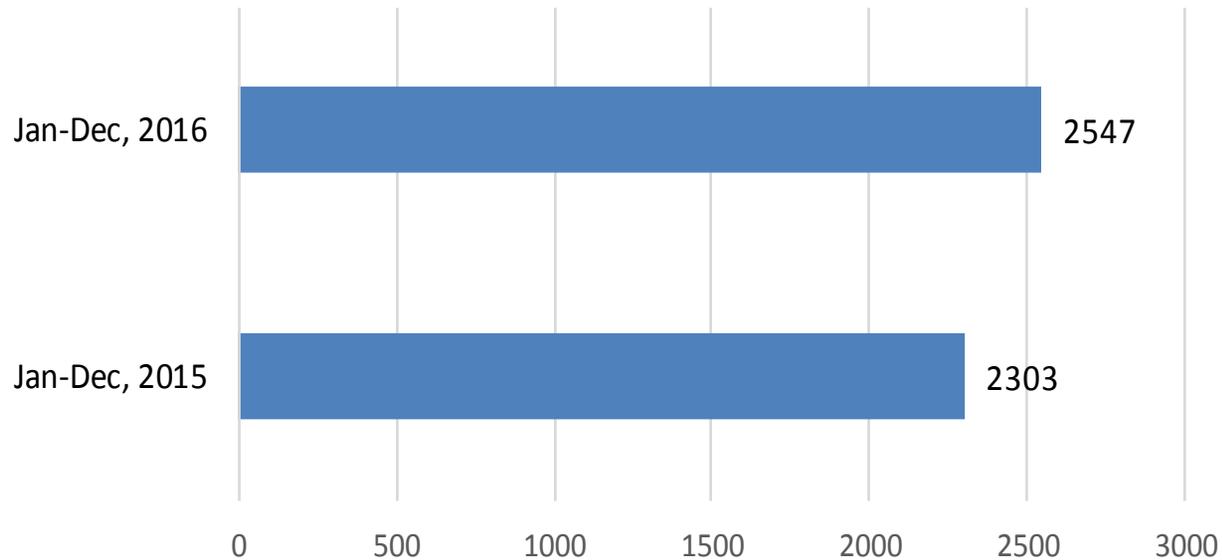

For example, reports submitted from 11:00 am through 11:59am are clustered in the 11 o'clock hour. Some reports do not include a specific time. For those, related data may indicate Day or Evening. In some cases, time of the noise event cannot be discerned and is recorded as N/A.

# Jet Noise Reports by Month

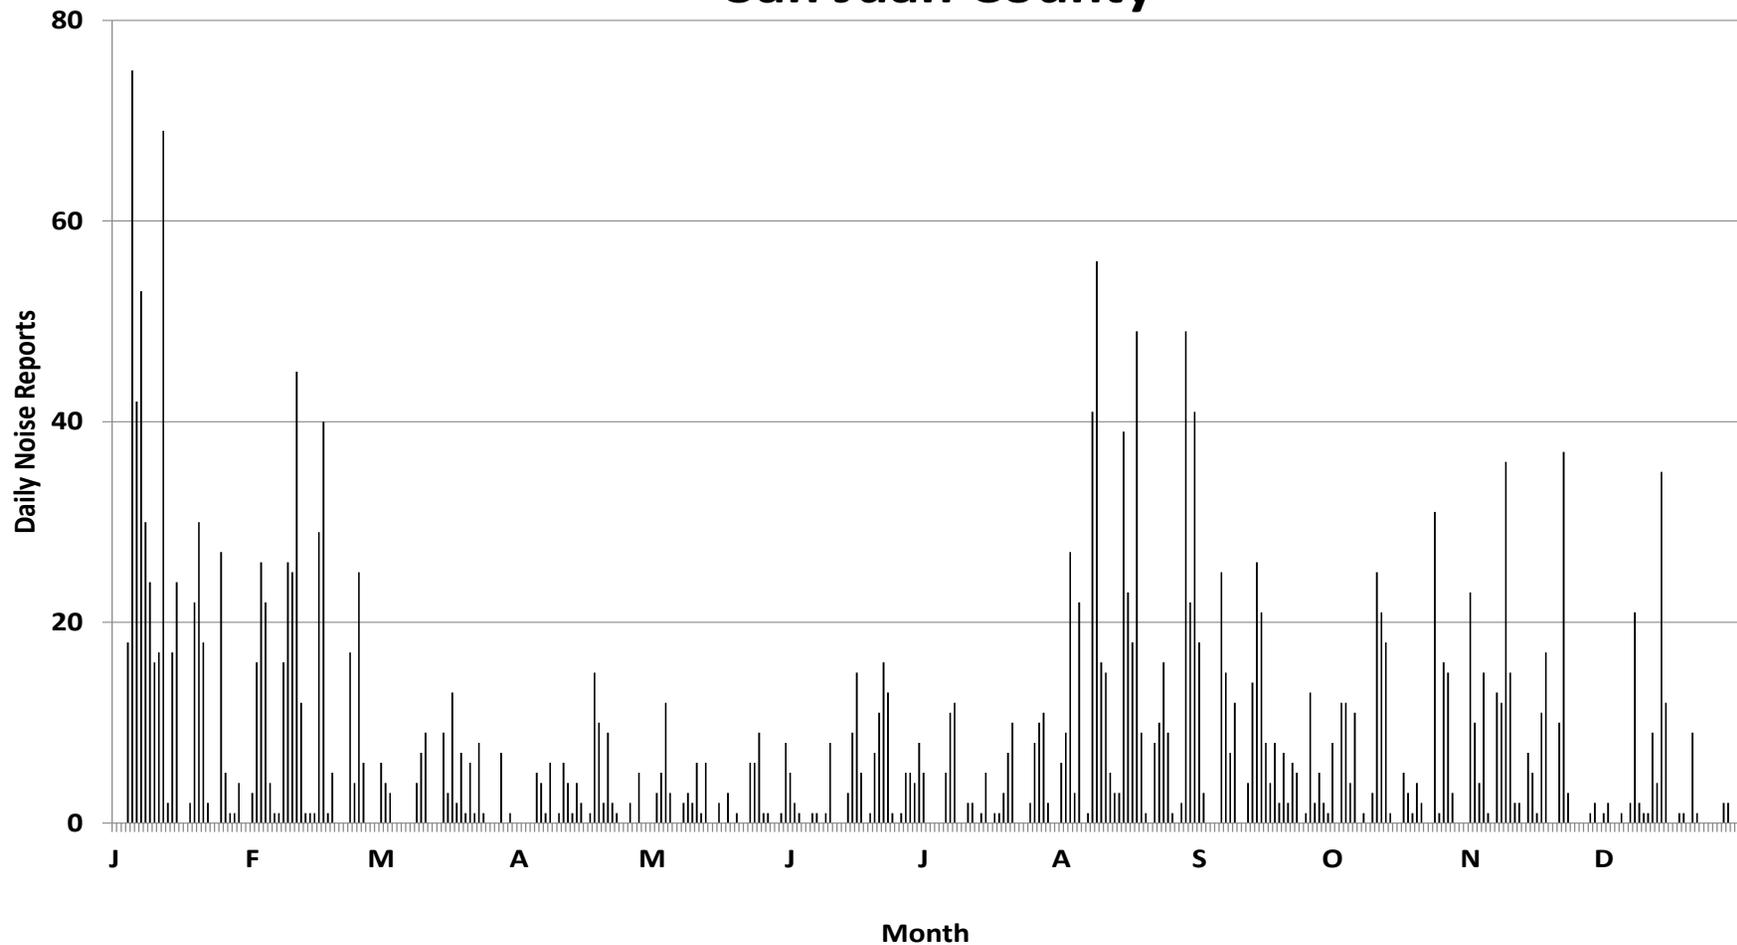

## Jet Noise Reports Comparison of 2015 with 2016

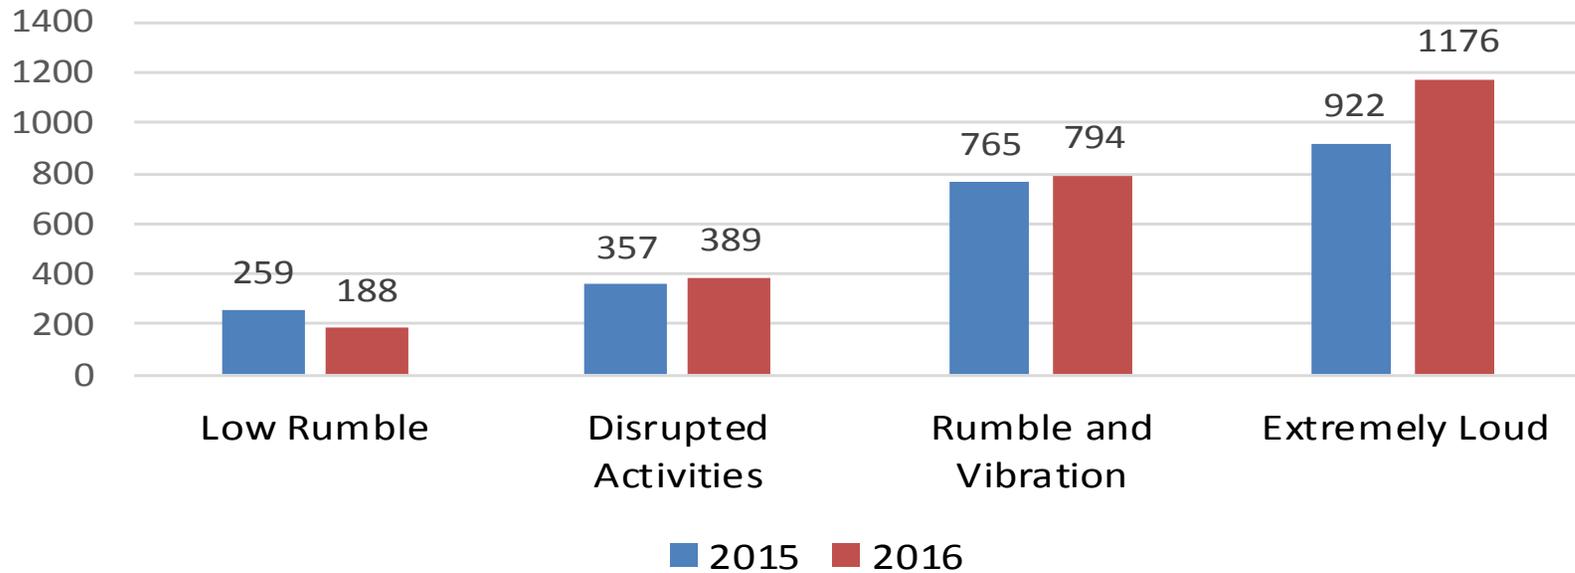

**The number of Jet Noise Reports for 2016  
is 10.5% higher than 2015.**

## 2016 Growler Noise Reports San Juan County

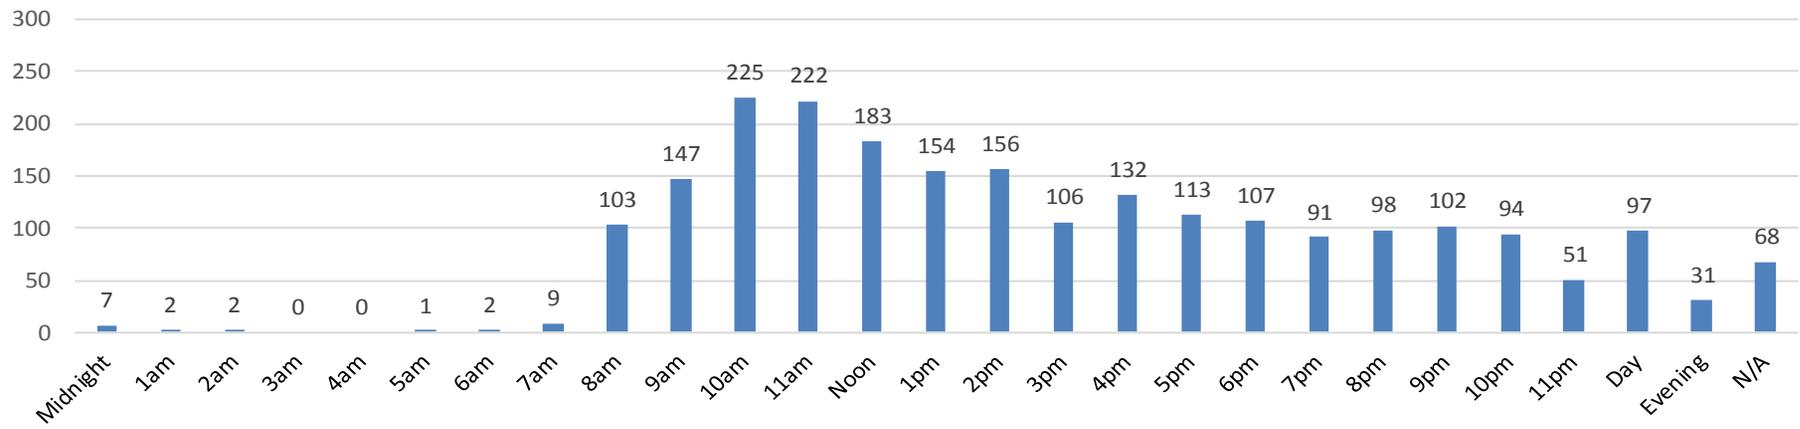

This chart demonstrates the number of noise reports by day, from January through December, 2016. The Navy data persists in using “noise averaging”, resulting in a low estimation of the sound/impact of the noise. As seen by this chart, there is no average level of noise. There are many days when the noise is so excessive that reports are quite high. This is also seen in the comments, at the end of this document, when people report “blasts”, “roars”, and high decibel counts. See also the data in this report on the type of noise reported, where “extremely loud” exceeds “low rumble”.

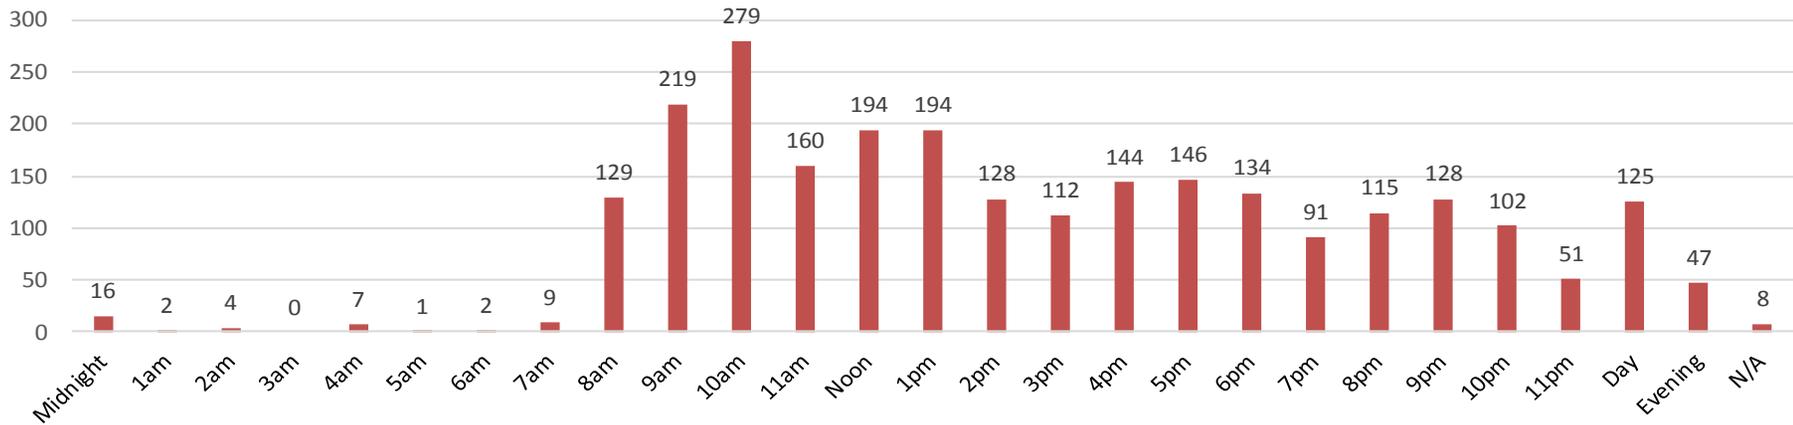

## Jet Noise Report: Loudness Comparison by Year

Jet Noise Reports by Hour of the Day: 2015  
N=2303

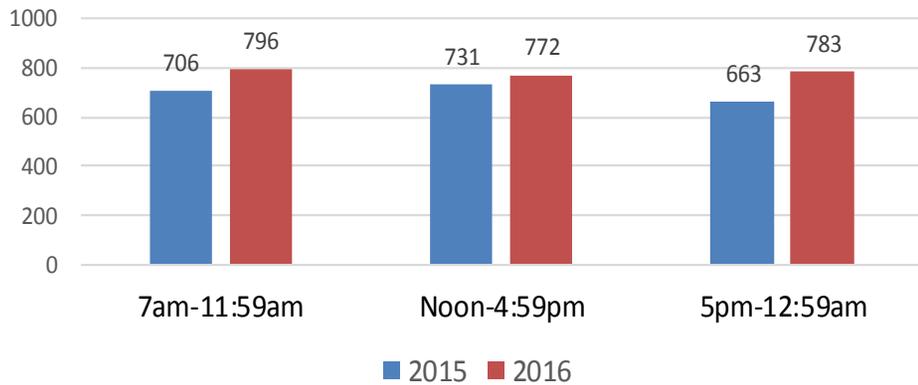

Jet Noise Reports by Hour of the Day: 2016  
N=2547

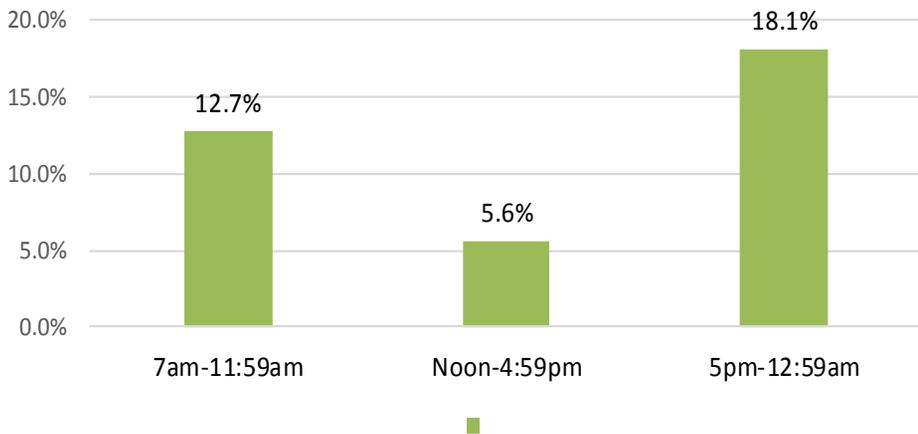

For example, reports submitted from 11:00 am through 11:59am are clustered in the 11 o'clock hour. Some reports do not include a specific time. For those, related data may indicate Day or Evening. In some cases, time of the noise event cannot be discerned and is recorded as N/A.

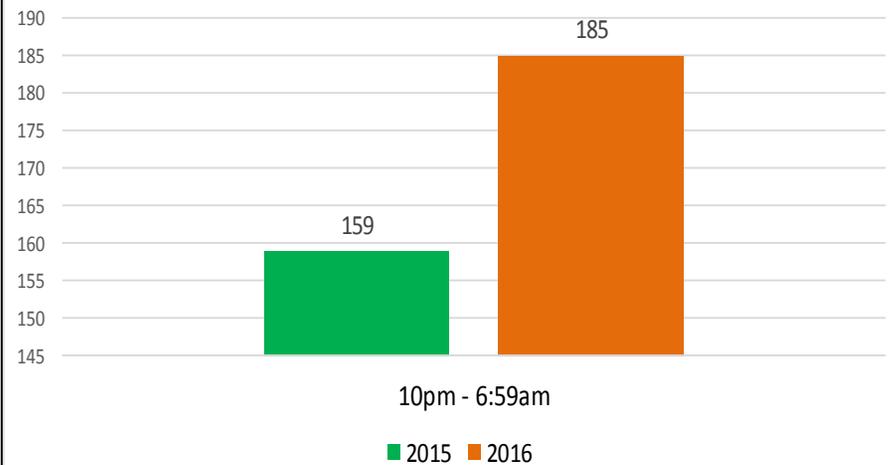

### Comparison of Jet Noise Report Frequency Morning, Afternoon, Evening 2015 and 2016

### Percent Increase of Noise Reports by Time of Day, from 2015 to 2016

### Jet Noise reports during the time period in the DNL metric that adds a 10 dB penalty for night activity: 10pm to 7am

## Comments Submitted with January 2017 Reports.

66.8 - 75 decibels : Unbelievable that our government and legislators are so insensitive that they impose this on citizens who pay the bills.

Extremely loud, disruptive blasts of noise from EA-18G Growlers- perhaps FCLPs at Ault Field? Impossible to converse at our dinner table. This went on for almost an hour.

I am blaming Murray, Cantwell and Larsen for their arrogance in assuming that this loud and thundering jet noise is OK. Certainly they would not put up with this in their own home.

Despite all kinds of household noise, jet roaring noise from Whidbey blasts into our home, disrupting our home life.

65dBA inside - steady roar since noon. Hard to work.

The roaring in the sky is continually disturbing. Living here is like living right next to Interstate 5, with the roar of traffic and trucks constantly in your face. Roaring Roaring Roaring. These jets are TOO LOUD. Go away, Navy.

8:15am, Saturday morning. Another long and shaking roar and vibration shudders through our home. This is disruptive, causing inattention to the work I am trying to accomplish during early morning hours.

6.,6 - 70 dBA inside - steady roar

Very loud rumble causing vibration of windows and lamps

The roaring and blasting of our home with jet noise continues. The Navy is assaulting us. The Growler is the wrong jet to be here, yet the Navy lies about its impact. The lying Navy.

We are now experiencing CONSECUTIVE blasts that rock our home. Another one is occurring right now. This is disorienting...having your home actually VIBRATE from jets 14 miles away. Must be war on us.

Driving from Village,sudden roar and scream filled my car, obliterated tape I was listening to. Panicked, thought something wrong with my car and I swerved. Noise continued.Looked up.Low flying Growler heading northwest.A hideous noise, long lasting.

Walking. It's Sunday. They stopped flying at 12:10pm - but apparently they are not finished. More noise. Thank you Murray, Cantwell, Larsen. What a legacy . . .

Windows rattling, items on shelves rattling. Extremely loud low frequency noise.

I have commented before that it feels like an earthquake with all the jet rumbling from Whidbey. Just now, as the house vibrated, I thought it also feels and sounds like there is an active roller coaster going next to the house. Bad Neighbor.

The noise seems to be worse than usual this evening, as well as pretty much continuous. The thought of even more of these horrible planes is terrifying

A jet just flew over our house and the sound was so loud, we could not talk and had to put our hands over our ears. We live next door to the Lopez school - why are the jets flying over our school. OMG - here comes another one!

Loud jet noise

Jet noise is louder than the music I am listening to through 29-dB rated noise isolating studio headphones.

Off and on rumbling throughout the day

They are not done. More noise. and then more and then more.

ENTERED 27 DISTINCT BLASTs (58.4 - 98dBA inside the house!) in addition to the steady roar in between. How can this be healthy!!!

Irritating rumble most of today and yesterday. We've even had a few that rattled the china. Go away,Navy.

All morning at pretty regular and frequent intervals. Walls shaking, windows & objects in house rattling. Very loud low frequency noise.

constant rumbling

**Growler**

Extremely loud, constant blasts of noise, shaking the house with low frequency sound waves. Thus the new year begins, with more to come. Say NO to the NAVY's projected addition of 36 more Grtowers- now destroying our quality of life and health!

Actually sleeping. And then there was a giant BLAST.

Entered 6 huge blasts. Trying to cover the noise with a DVD. Doesn't work.

Excessively loud jet noise roaring overhead.

Jet noise above is unbearable. Was outside. Had to come inside, and even in my home there is no protection from the ROARING. The Navy is terrorizing us.

Loud and deep rumble and vibration felt.

In Lopez Village, big and thundering roar of typical jet activity from Whidbey. Walked out of the store and HIT by that wave of roaring thunder.

Another HUGE roar of jet activity vibrated through the Village. Disturbing.

At regular intervals since 0900. Very strong low frequency vibrations

At the ferry Dock this morning, a wave of jet roaring was heard and felt. A really big blast.

Second Growler overflight this afternoon

We are being BLASTED by jet roaring right now. Jets taking off? Whatever, but it is CONSTANT. Hit by walls of sound. It overwhelms our home's conversations.

Very disruptive loud jet noise. Disrupting work!!

Huge roaring again hits our home, vibrating the floor. Makes me ill to have this thunder hitting our home with no let-up.

Rumbling vibrations coming from Whidbey to our home. Very annoying and disturbing.

The rumbling and vibration from engine run-ups, I think, continue to disturb this evening. Whatever happened to a hush house or other mitigation? Why is such NOISE reaching us, 14 miles away???? According to the Navy, it is not noise.

The evening continues the same as earlier today- more extremely loud, disruptive blasts of low frequency noise from Whidbey NAS. Our home is a sacrificial zone.

Off and on throughout the day

Loud blasts coming over the south end of Lopez while walking to Watmough

A hideous noise day. 69.7 - 76.2 inside the house - all day - Blasts and Roars - tiny breaks of relief.

Continuous loud blasts from Whidbey NAS, inside decibel measurements average 78 db, using C scale. A disruptive experience interrupting all activities. The tortuous "soundtrack" of our day.

Strong smell of jet fuel

Overhead at 1:30 noise 1 minute long

I am recording yet another roar. What happened to Larsen's promise of noise mitigation? Empty promises.

Rumbling all day long at our job site. Even wearing hearing protection, the rumbling was non stop and we could hear and feel it

It is Saturday morning, 8:06am. And we are JOLTED by a tremendous roar that vibrates through our home. Instinctive fear. Another Navy terrorist attack.

ANOTHER roar and vibration hits our home this Sat. morning. Can't do my research with this going on, it is too distracting. Is this a Saturday of terrorism?

It is a calm Saturday morning, a little after 9am, shattered by a huge jet roar from Whidbey. The house vibrates.

Thought I would take a walk outside this Saturday morning. WRONG. Air filled with jet noise, a constant wall of roaring noise. As I came in a fresh wave of jets somewhere overhead roared around. Back inside.

LOUD jet overhead, southend Lopez. It has been an incredibly noisy Saturday morning. No peace. LONG roaring, still going on as I type.

The jet roaring has been continuous here since a little after 8am. The noise fills the air inside our home. Noise is louder than anything else going on in our home, TV, dishwasher, etc. The Navy claims there is no impact. Disgusting liars.

LOUD jet flying overhead.

We've had half a dozen house rattlings already this morning, and we live 15 miles away. No one should be subjected to this, including Navy families.

More loud jet noise from Whidbey. Long rumbling roar that is disruptive to concentration.

Incredibly penetrating roar and vibration consumes our home. The floor vibrates. Frightens me.

Jets have been roaring and thundering all morning. Frequent vibrations from jet engine take-offs (?) and continuous roaring in the skies above. For godsake we are not a war zone. (Or are we?) Go somewhere else!

There has been constant jet roaring all morning. Not sure what it is, take-offs or engine run-ups or jets racing through the skies. The roaring is simply everywhere. It is very disturbing.

Very loud jet roaring blast felt while listening to a concert in the Village. Why can we hear this all the way up here? I knew what it was since it was the same as the blasts felt on Southend in the morning.

Another big jet engine blast felt in the Village. Rumble and a strong vibration. A WAVE of sound.

Loud low frequency noise rattling windows and shaking walls and items on shelves. Periodically all day since about 1000

Big jet noise rumble felt during the Early Music Concert in the Church in the Village. Disturbed the concert.

Another day of noise. Started in the morning and will probably continue all day

Extreme loud vibration coming over the straits and up our hill, jarring all ability to concentrate on daily activities

It's Saturday. They're flying. Unscheduled. And of course we are trying to use our property for recreation - a chance to be outside without the relentless BLASTS. We put on noise canceling headphones and tried to blot out the noise.

Morning began with a sudden blast- a wall of noise from Whidbey NAS Ault Field FCLPs, continuing through the morning. Disrupted all activities requiring concentration or being able to enjoy the day on the south of Lopez- "thanks" to the NAVY.

test

ALL DAY there has been very loud, vibrating, intermittent rumbling noise. It feels as if one is living next to a blast furnace without the heat! This is a travesty to experience on an ongoing basis from our beautiful, pastoral island.

Loud low frequency rumble (sounds like takeoffs at NAS Whidbey). Periodic, started at 0846.

On a Sunday morning at 8:46am, we are jolted by an incredibly loud and shaking roar and vibration from Whidbey.

Loud rumble that disrupted a phone call

We were enjoying the birdsong on a quiet morning walk. Suddenly the deep thrum of the growlers quieted the birds and ruined the peacefulness of our morning.

A long extended wall of vibrating jet roar is shuddering through our home right now. It's a little after 9 on Sunday morning. It keeps on going. Whidbey noise again.

Two days of morning rumbles

A Sunday morning dragon's roar jolted our home this morning. LOOOONNNG Deep wave shock of noise. What happened to promises of noise mitigation?

The rumbling is so loud that it is causing stress and anxiety. This rumbling and vibration has been going on for hours throughout the day and for about 3 days now.

What is going on? A terrific prolonged roar is currently shaking my home this Sunday morning. Several jet roars have been blasted at us this morning.

Very loud low frequency jet engine noise. Walls are shaking. Loudest at frequencies below 100Hz. Going on since before 0850.

Argh! The noise at our horse barn was awful! It shook the whole barn. I feel sorry for the islanders living even closer. 😞😞😞

Loud jets roaring overhead. Signature Growler roaring, long and deep. Cloudy, not seen, but definitely heard, overbearing the TV and washing machine. TOO LOUD. NOISE still going on as I write.

This has been a disturbingly noisy weekend. Right now the skies are absolutely ROARING with jet noise. It is invading our home, crushing out all other household sounds. As if a coal train is running circles around our home. Like a constant earthquake.

The jet noise that is occurring this Sunday is excruciating. The noise either hits our home with a BLAST or rolls around and around and around in the skies. There is no way to get away from it. Very loud right now.

Just hit by another huge blast of vibrating waves of jet engine roar. Like a tidal wave of sounds that shakes through the whole house. Can't keep my mind on what I am doing, the noise is so disturbing. Now there is nothing but jet noise filling the air.

Terrifying loud explosive blast ruining my state of mind

A huge explosive roar, shaking the room, rattling windows and items on shelves. An earthquake experience courtesy of NAS Whidbey. The NAVY's practices are effectively destroying U.S. citizens quality of life the NAVY purports to protect.

Currently experiencing a deep roar and long vibrating rumble here in the southend. It has been a terrible Sunday. Filled with vibrations and roaring jet engines.

Jet noise has been relentless all morning. So much for my plans to work this morning on a project due tomorrow! I want to know when we will be compensated for loss of income because of noise interruptions to doing our JOBS.

Thought I would take a walk outside for fresh air. NOT. The jet noise of jets roaring around is unbearable. Outside for one minute and came right back in. Felt that I was under attack.

Several passes at higher altitude that resulted in loud noise that stopped conversations.

ANOTHER huge roar and rumble that vibrates our home. Very disruptive.

Is this load rumbling really going to bother us all day?

Low flying growler was so terrifying it made my heart race for several minutes. If this is the future, I need to move. This isn't the sound of freedom; it's the sound of the government terrorizing its citizens.

The rolling vibrations are like thunder, one after another. Long rolling waves of vibration invade our home.

The roaring continues, one wave after another. This has been continuous. Big shock waves.

ANOTHER roar and rolling vibration shudders through our home. It has been a terrible morning, jerking attention from my work to constant shuddering through my home.

**Sunday evening, after a full day of jet noise, VERY LOUD jet flying over my home right now, LOW. LONG roar. Almost sounds like there is more than one.**

**We've been getting the earthquake rumble for several hours and now it's the loud overflights. I really hate these planes**

**Another huge blast. People from off Island are here. they can't even believe we live with this and our legislators do NOTHING!**

**Sunday - Noise all day - Is this the end? Is sounds like a giant gunning of the Growler engine - roaring across the water. I can feel the real meaning of sound pressure - we live with it.**

**Ongoing disruptive thunderous blasts from across the water and up our hill disturbing all hope of concentration**

**A huge blast of intense, house rattling noise began at 8:45 AM and repeated at various times, ongoing now at 11:45 AM, measuring 83 db inside the house (C scale- low frequency). This ongoing torture hurts our health and devalues our property.**

**Recorded 12 giant BLASTS AND ROARS. It's Sunday - they shouldn't be flying. Are we going to war? My home feels like it's IN a war zone.**

**Saw two fighter jets. Jets flew directly overhead. Heard loud rumbling, vibration off and on all day.**

**Awful roaring. Sound overwhelms all else in the environment, inside and out. Sound and vibrations are penetrating, rattling bones as well as structures. AWFUL NOISE and VIBRATION.**

**This has been going on daily. Today the jets are closer and much louder. I moved here for peace and quiet!**

**Growler over North Lopez Island**

**Walking out of the post office and hit with a super loud roaring of jet noise. Sounds like it is rolling around, with the roar coming in waves. Very disturbing and TOO LOUD**

**Low jet over N. Lopez - very LOUD!!!**

**There are mostly continuous low rumblings in the sky that can be heard in our home. Jet engine activity from Whidbey that is too loud and annoying.**

**We are being subjected to continuous rumblings and vibrations this evening. Disturbing. The house shudders.**

**So much jet noise this evening!!!! It feels like living in hell.**

**I need to go to bed early tonight but the jet noise is so loud there is no way that will work. Disrupting my sleep!!!!!!!**

**It's Monday. The noise has been going on all day.**

**It begins again. We didn't have any days free of the noise to recover. they flew all weekend - and now this.**

**Noise and overflights. Our last quiet day was January 1st. No breaks. this is crazy making.**

**All day disruption of normal activities from extremely loud overflights of Growlers. Logging in for the record, one coming over right now- ongoing as i write this post.**

**Two growlers in close formation just flew from west to east directly over our house at extremely low level- deafening us! Thanks ,NAVY flyboys for having a bit of fun at our expense. Shame on you!**

**LOUD jet overhead. Very long and rolling roar that disturbs us.**

**Very loud and deep jet noise rumbling.**

**Extremely loud rumble pulsing**

**I am home from work and it is difficult to relax as the jets are flying low over my house and it is super loud and disturbing. Also, worrying to think the jets are flying in this high wind. Non stop pain in my ears from this noise.**

**More proof of our military's lack of concern for the citizenry.**

**Unbelievable loud flyover. Registerec 83.6 inside the house!**

**Beginning with a huge blast (80 db, C scale measurement inside) another day of relentless noise pollution and disruption from**

**Whidbey NAS. Our home as a place of safety and tranquillity is being destroyed by these constant assaults on our senses.**

**It sounds as though the jets are in my house. The house is shaking. This is a sturdily built house yet the house is shaking. The noise is deeply disturbing and unsettling, feels like it's inside my bones. Inescapable noise and vibration.**

**Awful vibration and noise. Deeply disturbing. Vibrations make me feel sick to my stomach. Hard to describe - rattled from the inside, like bones shaking. Awful.**

**"Super loud at work all day long.**

**Very tiring to listen to the noise non stop. Even during our lunch break."**

**Disturbed by rumble and vibration. 9:20am**

**Another roar and rumble shakes through our home**

**The roaring vibrations are now seeming to be CONTINUOUS. Constant roaring that rumbles through the house.**

**The waves of roaring noise are continuous. I am supposed to be working on my research this morning and I cannot concentrate with this ROARING. Larsen promises mitigation. BAH!**

**Loud jet rumbling is going on this morning. It is constant and LOUD. Where is the Hush House Larsen promises?**

**The jet rumbling from Whidbey pervades our home. It is CONSTANT and vibrates through our home. I have to work, but I cannot think with all this THUNDER.**

**The last two and half days have been awful. Constant disruptions to my work. When will the Navy admit they are disrupting people's lives? I want compensation for lost work opportunities and lost income.**

**Walk around property this morning was ruined by constant loud thunder of Growlers**

**Just experienced an earthquake. No kidding, that is what these jet roars from Whidbey feel like. Everything shakes.**

**Heard a very low disturbing rumble that shook me inside.**

**I would like to know why the Navy has the right to invade our own skies with constant roaring jet noise. The noise outside and inside my home is CONSTANT.**

**Big loud and deep roar and rumble shook right into my body. Just now. It has been an incredibly noisy day, filled with shock waves and constant roaring in the skies.**

**This jet noise is disturbing to me.**

**noise has been going off and on for over 2 hours**

**MORE NOISE**

**House rattling, sound penetrating our bodies. Low frequency wall of noise (70 - 73 db, C scale meas.), the signature sound of Whidbey NAS Growlers. The grinding soundtrack of our day on the south end of Lopez Island. It will go on into evening...**

**The noise is relentless. We've had 10 days straight so far. I'm measuring a low of 66.2 dBA inside the house and a high of 83dBA!**

**Awful, almost continuous roaring and vibration. Sound overwhelms all indoor sounds. Vibration inescapable, dreadful.**

**No visual; several rumbles in succession.**

**Nice quiet on Orcas, except For the low rumble of the Growlers. Difficult to enjoy the quiet..What quiet?**

**Enjoying a moment of quiet outside. Then the growlers start up again. They've been going all day. Look, it's fine that you want to practice, but this isn't the place to do it.**

**loud roaring for the past hour**

**BLAST!**

**It started just at the end of my walk and frightened my dog. It's now 12:25 and still going. So sad that this is the new normal.**

**Another day of constant rumble?**

**Loud shattering sound coming from south to north right over our house**

**Still roaring at 2:55 when I left home just to get away from the noise.**

**A single Growler flew low and with ear-splitting roar over our house, flying from south to north. This is intolerable! The pilot ought to be reprimanded, or trained better to respect people who are at the mercy of their \$8 million dollar machines.**

**Vibration as if inside the house, everything is vibrating. Deeply unsettling. HORRIBLE sensation and noise.**

**Worse noise today than several loud days this week**

**A huge Blast. So hoping this is not the beginning of hours of noise.**

**Unbelievable noise. As if the jet is next door. Whole house shaking. Whole body shaking. Animals frightened and hiding under the bed. This noise DESTROYS the quality of life in our area.**

**Roaring, shaking the house. DREADFUL noise. Destroys all sense of well being. Unsettling and disturbing.**

**Roaring, shaking. Wednesday morning a huge boom that shook the house. DREADFUL NOISE AND VIBRATION**

**Low flying aircraft over my house**

**And another one, more shaking. Ugh.**

**Growler northbound at low altitude. Sound level was actually painful.**

**Suddenly a VERY LOUD jet roars overhead, 5:15pm. The whole house is consumed in the roar. I open the door to see what is going on. Now I hear jet noise roaring in the sky.**

**Low jet rumbling is consistent now. An unquiet evening disturbing the peace.**

**My whole house is shaking!! Scary.**

**LOUD LOW JET OVER NORTH LOPEZ**

**Extremely loud jet roar heard during a concert at Grace Church. Drowned out the music.**

**Disruptive jet roar during a musical concert at Grace Church in the Village. 7:20pm.**

**Feel like WE ARE UNDER ATTACK on North Lopez**

**This is the 4th time today that jet has gone over with extreme noise sounding like it's coming through the house.**

**Once again a tremendous jet roar obliterates the music of the concert this evening.**

**Loud jet heard over the car radio as I was driving in the Village. Stopped and looked up and saw low-flying jet. Huge roar. Ear splitting.**

**More jet noise... UGH! So sick of it.**

**Low flying Growler aircraft with gear down. Extremely loud!!**

**Another low Growler over N. Lopez!**

**Once again, while listening to music through noise-isolating headphones rated at 29dB, I hear jet engine noise and feel the floor shake.**

**Here they go again! Relentless . . .**

**More NOISE!**

**It is dark, a quarter after seven, and the plane sounds so low as to think about taking cover or wondering if it is going to crash.**

**I was attending an Early Music concert at Grace Church , 70 Sunset Lane in Lopez Village. At first I heard a loud rumbling I thought was thunder, but it kept going and I realized it was Growlers. The jet noise totally blocked the sound of the music**

Steady roar inside my home - sounds like a giant Fire - pretty much 6 hours of steady roar with a few tiny breaks. This is like a prison of noise.

Sent my blood pressure way up, terrified my very stoic cat into hysterics, shook my house, and felt like a war zone.

Jet roaring has started. What a way to start the day.

Excessively loud jet overhead. Long and rolling roar. Disturbed my conversation. South end of Lopez

Very noisy outside with what I think are jet take-offs. Disturbing, as if we live next to SeaTac Airport.

Very loud jet roaring overhead. The long roar and deep echoing roar indicate it is likely a Growler. Low clouds so I cannot see it. But the noise pounded out the sound of the TV.

The rumbling of jets from Whidbey is very annoying. Sounds like constant thunder.

Lots of jet noise this afternoon; disrupting my work. Interrupting my online class session. People who are online with me listening simply can't hear what I'm saying when the jets are going over. I'm not sure how I can continue to do my work

A jet just flew over and the sound was so loud, we could not hear the movie we were watching. I had to put my hands over my ears. We live next door to the Lopez school - why are the jets flying over our school?

Very loud roar and rumble hit our home at 8:55pm. Quite loud, and stopped conversation. Thunder? A truck in the driveway? An earthquake? No, jet roar from Whidbey.

Loud blast from Whidbey NAS. Growlers on runway, taking off. So loud, interrupted concentration working on the computer. Waiting for the next blast.

82.7 dBA inside the house.

Steady Growling all morning. Recorded 7 decibel readings all in the 65 - 68 dBA in the house. This noise is so exhausting to live with

Walking on the National Monument lands - not supposed to be flying today. 88.3dBA Painful noise.

Loud roar and vibration this morning, 8:50am

Low low freq noise

Jet engine roaring AGAIN this morning. Sending vibrating noise waves direct to us.

Shook house vibrated light fixtures

Roaring jet engine vibration that lasts and lasts and vibrates through our home.

There is a lot of jet noise in the skies, heard clearly in our home. Invaded by jets! 9:30am

The jet roaring continues. It sounds like jets are racing around in the skies. Roaring and roaring.

Continuous jet roar vibrations. This one at 9:33am really hit our home like an earthquake. The roaring is intense.

Another deep roar and rumble and vibration. A deep deep roar that shakes our home. Is it going to be like this all day? Very , having our home shaken.

Big roaring noise from Whidbey reverberates in the air. The noise is everywhere.

Here's another rumble emanating from Whidbey. The jet noise sends sound waves right into our home.

This is a report on a very loud and prolonged roar of jet noise that does not seem to end. What is going on at Whidbey? Why is the Navy immune from Noise limitations?

I do not know what is going on at Whidbey Naval Base. but this has been a morning of egregious jet noise. One pounding sound wave after another.

It is 9:44am and the rumbling and vibration we are enduring has been going on for about an hour. It is a CONTINUOUS assault of noise that invades our home. The Navy has no right to be invading us this way.

All morning as Trump takes office the Navy rumbles approval making our lives full of NOISE not peace!

Have decided that I cannot walk outside this morning. The jet noise is too disruptive, as if there is a war on. There goes another blast.....

The jet roaring this morning has been loud and constant. Jet take-offs? Engine run-ups? Whatever it is, it is offensive to us. The noise penetrates our home.

Windows, walls, and articles on shelves and tables are rattling. This, BTW, is a well-built, well-insulated modern house.

Background rumbling all morning

The jet roaring continues. It started around 8:45am and has been slamming our home ever since. A very disruptive morning.

A resounding and deep and prolonged roar just hit our home.

Low frequency noise causing a headache

Loud jet rumbling and vibration right now.

Vibration of the house resembles a minor earthquake. This is beyond any pretense of reasonable. Must we destroy what we purport to defend?

Extremely loud. Roaring, repeatedly shaking the house and everything in the house including me. Almost non-stop roaring and shaking. Extremely disruptive and disturbing.

Sunday morning, and there is a long thunderous roar going on from Whidbey RIGHT NOW. Shuddering through our home.

Loud aircraft noise that roars through the air.

Sunday - please let it be a quiet day. . .

I was outside a little while ago and was blasted by a huge jet roaring somewhere above. There are trees around, so I could not see it. But the jet roar was deep and long and echoed through the whole sky.

Sitting inside, working on a project, and my concentration was disrupted by a very loud and prolonged roaring of a jet overhead. The roaring filled the room. I was startled and lost my train of thought.

Very loud aircraft overhead, a longish roar.

Loud jet flying over southend of Lopez. VERY LOUD.

2 planes over the NW side of Lopez Island, noise continuing until 11:12. Cloud cover always seems to increase the length and possibly the intensity of noise.

2 jets @ 1000'

Growler jet flew over Shoal bay where I work. It was so loud my ears were ringing. Sea birds were scattering.

Loud jet overhead.

Very loud jet overhead. Southend Lopez. Long roar so it must be a growler, but it is cloudy so I cannot see it. Why does it have to be so loud?

We could see one growler jet clearly as it flew towards Friday Harbor

There is a very loud jet...one or more....roaring around us. South end of Lopez

Shook my house, terrified cat, sent my blood pressure rocketing! Unbearable disturbance. TOO MUCH!

Extremely loud disruptive wall of noise from growlers using Ault Field. Not possible to concentrate using the computer.

I'm teaching this morning and the jet noise is incredibly disruptive to my class!!! The Navy owes working people compensation for lost work, lost time

Continued loud rumble and house shaking vibration from growlers. A day of massive interruptions, ongoing.

Sounds like another day of sabre rattling.

All morning since approx 0830 at regular intervals, very loud low freq noise rattling windows and walls, drowning out the radio.

Not visible, sounded like 2 jets

Even in the woods at Pt Colville the noise is extreme. What will change this insanity? I wonder if the Navy lied to the legislators just like they did to us when they sold us the story about Growlers being quieter than Prowlers?

Watmough Bight: Growlers were supposedly not flying until afternoon - so decided to visit the Natl. Monument in a quiet time. Only 75 decibels. Wish I had my noise canceling headphones

Pt. Colville, Natl. Monument, More noise 78 decibels. Feels like more. This is so crazy - to put this airplane in midst of all this beauty and what WAS peace and quiet. Shame on all our legislators!

**MORE NOISE!!!!!!** At Pt. Colville, Natl. Monument

Pt. Colville. This **BLAST** is painful. Registering 85 decibels A.

Extremely loud jet interrupted business conversation. the jet followed a very loud helicopter that flew in the same direction a few minutes prior to the jet.

**ROARING!** Decible readings between 63.2 and 82.6 - in my house. **UNREAL!**

Growler noise is pretty constant If they don't stop soon I'll try to go north for the night.

Roaring makes house shake. It's a very solid house and does not shake in huge gales, but the jets make it shake and vibrate. Roaring is extremely loud, painful to ears and head.

Rumble, rumble, growl, growl!

Flight over the house. Had to stop conversation

Extreme blast of growler. Caused war pain. Roaring all day today from whidbey NAS.

More proof of the concern the Navy has for the local citizens

**ROARS AND FLYOVERS.** Feel like we are being assaulted by noise. It's exhausting to live this way.

An hour and a half of **ROARING.** **PRAYING FOR A QUIET WEEKEND.**

Huge booms, often in quick succession. Not quite sonic booms, but very similar. Bone rattling.

Major loud rumbling all day on Monday and Tuesday. The house was shaking at the job site in Alec Bay Park. Very disturbing.
